## STAFF ANALYSIS

### Comprehensive Plan:

The *forwardDallas! Comprehensive Plan* was adopted by the City Council in June 2006. The *forwardDallas! Comprehensive Plan* outlines several goals and policies which can serve as a framework for assisting in evaluating the applicant's request.

The request complies with the following land use goals and policies of the Comprehensive Plan:

**URBAN DESIGN**

**GOAL 5.3 ESTABLISH WALK-TO CONVENIENCE**

**Policy 5.3.1** Encourage a balance of land uses within walking distance of each other.

**Land Use**

	<b>Zoning</b>	<b>Land Use</b>
<b>Site</b>	RR Regional Retail with D-1 Liquor Control Overlay	Vacant
<b>North</b>	MF-2(A)	Multifamily
<b>East</b>	RR Regional Retail with D Liquor Control Overlay	Vehicle Display, Sales and Service
<b>South</b>	RR Regional Retail with D-1 Liquor Control Overlay and SUP No. 2666	Retail, general merchandise or food store with alcohol sales, auto-related, furniture store
<b>West</b>	RR Regional Retail with D-1 Liquor Control Overlay	Auto parts store

**Land Use Compatibility**

The request site is currently developed with a one-story, 9,038-square-foot building. The building is currently vacant and was previously occupied by a general merchandise or food store.

Uses surrounding the area of request include a mix of residential, retail, auto-related, and furniture store uses.

The general provisions for a Specific Use Permit in Section 51A-4.219 of the Dallas Development Code specifically state: (1) The SUP provides a means for developing certain uses in a manner in which the specific use will be consistent with the character of the neighborhood; (2) Each SUP application must be evaluated as to its probable effect on the adjacent property and the community welfare and may be approved or denied as the findings indicate appropriate; (3) The city council shall not grant an SUP for a use except upon a finding that the use will: (A) complement or be compatible with the surrounding uses and community facilities; (B) contribute to, enhance, or promote the welfare of the area of request and adjacent properties; (C) not be detrimental to the

public health, safety, or general welfare; and (D) conform in all other respects to all applicable zoning regulations and standards. The regulations in this chapter have been established in accordance with a comprehensive plan for the purpose of promoting the health, safety, morals, and general welfare of the city.

The general merchandise use is also regulated by Chapter 12B of the Dallas City Code, Convenience Stores. This chapter applies to all convenience stores, which is defined as any business that is primarily engaged in the retail sale of convenience goods, or both convenience goods and gasoline, and has less than 10,000 square feet of retail floor space; the term does not include any business that has no retail floor space accessible to the public. The purpose of Chapter 12B is to protect the health, safety, and welfare of the citizens of the city of Dallas by reducing the occurrence of crime, preventing the escalation of crime, and increasing the successful prosecution of crime that occurs in convenience stores in the city. This chapter establishes a registration program for convenience stores and provides requirements relating to:

- surveillance camera systems,
- video recording and storage systems,
- alarm systems,
- drop safes,
- security signs,
- height markers,
- store visibility,
- safety training programs, and trespass affidavits

A separate certificate of registration to comply with Chapter 12B is required for each physically separate convenience store. A certificate of registration for a convenience store expires one year after the date of issuance and must be renewed annually. Upon starting the operation, the store will be required to register and comply with requirements of Chapter 12B.

In general, the applicant's request is consistent with the combination of uses and the character of the area. Staff recommends approval for a two-year period with eligibility for automatic renewals for additional five-year periods, subject to a site plan and conditions.

### **Parking**

Off-street parking and loading requirements must comply with the Dallas Development Code as amended for the approximately 9,038 square-foot existing building. The building is vacant. A calculation for required parking cannot be estimated without knowing the uses proposed for the entire building.

The 2,100 square-foot portion that is subject to the SUP, will require one parking space per 200 square feet. Hence 11 spaces will be required for the SUP portion. The property currently provides 58 parking spaces.

### **Landscaping**

No new construction is proposed; therefore, no additional landscaping is required.

### **Market Value Analysis**

Market Value Analysis (MVA) is a tool to aid residents and policy-makers in understanding the elements of their local residential real estate markets. It is an objective, data-driven tool built on local administrative data and validated with local experts. The analysis was prepared for the City of Dallas by The Reinvestment Fund. Public officials and private actors can use the MVA to more precisely target intervention strategies in weak markets and support sustainable growth in stronger markets. The MVA identifies nine market types (A through I) on a spectrum of residential market strength or weakness. As illustrated in the attached MVA map, the colors range from purple representing the strongest markets to orange, representing the weakest markets. The area of request is not within an identifiable MVA category; however, the area adjacent to the north is within category H, and the area further south is within category G.
