

FILE NUMBER: Z234-228(MB) **DATE FILED:** May 6, 2024
LOCATION: East corner of Ash Lane and South Henderson Avenue,
southeast of Terry Street
COUNCIL DISTRICT: 2
SIZE OF REQUEST: 7,500 sqft **CENSUS TRACT:** 48113002400

OWNER: Sukri Capital, LLC

APPLICANT: Suman Atteti

REPRESENTATIVE: Luis Chico

REQUEST: An application to amend the land use map to allow a duplex use on property that currently allows a single-family use within Subarea A within Planned Development District No. 134.

SUMMARY: The purpose of the request is to allow development of a duplex.

STAFF RECOMMENDATION: Approval.

PRIOR CPC ACTION: On October 10, 2024, CPC moved to hold this case under advisement until November 21, 2024.

BACKGROUND INFORMATION:

- The area of request is currently zoned for single family use. The site is undeveloped.
- The lot has frontage on Ash Lane and South Henderson Avenue.
- The applicant proposes to redevelop the property with a duplex.
- To accomplish this, they request that the property be rezoned to the duplex use within Planned Development District No. 134 Subarea A.
- PD No. 134 accomplishes zoning of sites through a land use map that designates specific parcels as being for single family or for duplex use, as well as other uses. The only uses permitted within Subarea A are single family and duplex uses, and uses permitted in the R-7.5 Single Family District.
- Since the last hearing, no changes have been made to the case report.

Zoning History:

There have been no zoning cases in the area in the last five years.

Thoroughfares/Streets:

Thoroughfare/Street	Type	Existing/Proposed ROW
Ash Lane	Local Street	-
South Henderson Avenue	Local Street	-

Traffic:

The Transportation Development Services Division of the Transportation Department has reviewed the request and determined that it will not have a significant impact on traffic.

STAFF ANALYSIS:

Comprehensive Plan:

The *forwardDallas! Comprehensive Plan* was adopted by the City Council in June 2006 outlining several goals and policies which can serve as a framework for assisting in evaluating the applicant's request.

The request complies with the following land use goals and policies of the Comprehensive Plan:

ECONOMIC ELEMENT

GOAL 2.1 PROMOTE BALANCED GROWTH

Policy 2.1.1 Ensure that zoning is flexible enough to respond to changing economic conditions.

URBAN DESIGN ELEMENT

GOAL 5.1 PROMOTE A SENSE OF PLACE, SAFETY AND WALKABILITY

Policy 5.1.3 Encourage complementary building height, scale, design, and character.

GOAL 5.2 STRENGTHEN COMMUNITY AND NEIGHBORHOOD IDENTITY

Policy 5.2.1 Maintain neighborhood scale and character.

Neighborhood Plus Plan:

GOAL 5 EXPAND HOMEOWNERSHIP

Policy 5.1 Encourage a wider range of well designed and affordable housing types as a response to emerging homeownership preferences.

Action 5.1.1 Conduct rezonings in target areas to remove barriers to more diverse and affordable single family homeownership options including small-lot single family, duplexes, townhomes, cottage homes, and courtyard homes.

Land Use:

	Zoning	Land Use
Site	PD 134 Subarea A, Single Family	Undeveloped
North	PD 134 Subarea A, Single Family and others	Church, single family, duplex
South	PD 134 Subarea A, Single Family and others	Single family, duplex
East	PD 134 Subarea A, Single Family and others	Single family
West	PD 134 Subarea A, Single Family and others	Single family

Land Use Compatibility:

The area of request is currently undeveloped. The site is generally surrounded by single family and duplex uses within Subarea A of PD No. 134. The area is generally developed with single family houses and duplexes, as well as standard 7,500 square foot single family lots split to sizes around 3,500. The area is close to retail along Grand Avenue and Columbia Avenue, as well as schools within the Mount Auburn neighborhood.

The site lies within Planned Development District No. 134 Subarea A. This PD accomplishes zoning of sites through a land use map that designates specific parcels as being for single family or for duplex use, as well as other uses. The only uses permitted within Subarea A are single family and duplex uses and uses permitted in the R-7.5 Single Family District.

The character of the area is predominantly single family detached with a substantial number of duplexes as well. The standards for development follow that of the R-7.5 Single Family District, with a minimum front yard setback of 10' and other setback deviations, detailed in the table below. These standards apply to both duplexes and single family houses.

Staff supports the proposed rezoning to a duplex use because it is in line with the character and existing development of the neighborhood, and will follow the existing development standards required by PD 134, rather than the standards of a D(A) Duplex District. Furthermore, the site is located on a corner lot, which tend to be compatible with larger uses. There are four other lots designated as duplex on the block of the site, and additional duplex uses on the land use map within one block of the site.

Development Standards

Following is a comparison of the development standards of the R-7.5 Single Family District, the PD 134 single family and duplex standards, and for comparison, the D(A) Duplex District.

District	Setback		Density	Height	Lot Cvrg.	Special Standards	Primary Uses
	Front	Side/Rear					
R-7.5 Single Family	25'	5'	Min. lot size is 7,500 sqft	30'	45% residential	Min. lot width 55'	Single family
Existing: PD 134 Single Family and Duplex	10' ¹	5'	Min. lot size is 7,250 sqft	30'	45% residential	Min. lot width 50'	Single family, duplex
D(A) Duplex	25' ²	Single family: 5' Duplex: 5' side, 10' rear	Min. lot size is 6,000 sqft	36'	60% residential		Single family, duplex

¹ Setbacks on interior lots are the same as, or between, setbacks of closest adjacent structures. Structure on vacant corner lot must conform to setback that is within 5% of setback of closest adjacent structure within same block.

² Would impose greater setback on properties in the future due to blockface continuity standards.

The proposed change does not alter any of the development standards of the existing zoning, and duplexes developed under this district would be subject to the same standards established in PD 134 Subarea A. Only the use would be changed.

Land Use Comparison

Following is a comparison table showing differences in permitted uses between the existing and proposed zoning districts.

Landscaping:

Landscaping must be provided in accordance with the landscaping requirements in Article X, as amended.

Parking:

Pursuant to Chapter 51 of the Dallas Development Code, the off-street parking requirement for a duplex use is two parking spaces per dwelling unit. The applicant would be required to comply with standard parking minimums at permitting.

Market Value Analysis:

Market Value Analysis (MVA), is a tool to aid residents and policy-makers in understanding the elements of their local residential real estate markets. It is an objective, data-driven tool built on local administrative data and validated with local experts. The analysis was prepared for the City of Dallas by The Reinvestment Fund. Public officials and private actors can use the MVA to more precisely target intervention strategies in weak markets and support sustainable growth in stronger markets. The MVA identifies nine market types (A through I) on a spectrum of residential market strength or weakness. As illustrated in the attached MVA map, the colors range from purple representing the strongest markets (A through C) to orange, representing the weakest markets (G through I). The area of request is within an “H” MVA area.
