EMS Quality Management Report

**Public Safety Committee
August 8th, 2022**

Delridge Williams, Executive Deputy
Chief, Rob Borse, Lieutenant
Dallas Fire-Rescue Department
City of Dallas

Presentation Overview

- DFR QMP Overview
- QMP Goals
- QMP Data
- 2022 QMP Highlights
- Medical Control Service Contract Status

DFR QMT Overview

- The DFR Quality Management Program (QMP) evaluates DFR firefighter paramedics to ensure delivery of high-quality emergency medical care.
- This program, managed by the DFR Office of the Medical Director (OMD), is in coordination with UTSW
- The OMD, in collaboration with EMS leadership, advocates for, mentors, and educates our members with the goal of consistently providing “Excellence In Care”.

QMP Program Goals

- Ensure compliance with all State Federal statutes and Guidelines
- Ensure the highest level of patient care and minimize risk to patients, providers, DFR, and the City
- Provide evaluation of all DFR EMS processes
- Improve medical knowledge and skills of DFR personnel

QMP Data

- In 2021 DFR responded to over 221,000 requests for emergency medical services
- Over 100,000 patients were transported to the hospital
- The quality management program reviewed nearly 25,000 patient contacts

Incidents Receiving Physician Review

Incident Patient Transport Data

CPR Patients that Regained a Pulse

QMP Data

In 2021 DFR played a role in 56 patients who survived neurologically intact after suffering pre-hospital sudden cardiac arrest.

2022 QMP Program Highlights

- Developed Clinical Improvement Plans for paramedics identified through the Quality Management Program as needing additional support.
- Obtained outcome information on 99.9% of all cardiac arrest patients transported by DFR paramedics to Dallas-area receiving hospitals.

2022 QMP Program Highlights

- Developed and implemented a 40-hour “Medical Director Bootcamp” for physician-directed education for newly graduated DFR paramedic students using multi-modal teaching methods
- Increased the referral of educational case reviews to EMS Supervisors allowing their experience and field perspective to be shared.

Medical Control Service Contract Status

- As required by the Texas Department of State Health Services (DSHS), the City contracts the following Medical Direction services:
 - Offline medical supervision
 - Treatment guidelines, education, training, and research.
 - Quality Management was added effective April 2020.
 - Current contract with UTSW
 - Online medical control
 - During the critical care and EMS transport of patients to appropriate medical facilities.
 - Current contract with Parkland (BioTel System)

Medical Control Service Contract Status

- RFP solicitation for a comprehensive Medical Control Service contract is underway at the direction of Office of Procurement Services.
 - Deliverable Services include:
 - Designated licensed physician services for both online and offline medical direction.
 - Continued quality management services
 - New clinical practice services to improve patient care through increased oversight and training of paramedics.
- The new contract is expected to go to Council in September with an effective date of 10/1/22.
