### **STAFF ANALYSIS:**

#### **Comprehensive Plan:**

ForwardDallas 2.0 is the citywide Comprehensive Plan for future land use in the City of Dallas. Adopted by City Council in September 2024, the plan includes a future land use map and guidance for a future vision of the City of Dallas. It also establishes goals and guidelines for land use and other decisions by the City. According to the City of Dallas's Development Code, the comprehensive plan serves merely as a guide for rezoning requests but does not establish zoning boundaries, nor does it restrict the City's authority to regulate land use.

The proposed amendment to Specific Use Permit 2569 is generally **consistent** with Forward Dallas 2.0. A bar, lounge, or tavern, and an indoor commercial amusement limited to a live music venue, are identified as primary uses within the Community Mixed-Use placetype. The site is adjacent to similar uses within PD 269. The site is within a mile of Baylor Station & Deep Ellum Station and several bus routes. The proposed bar, lounge, or tavern, and an indoor commercial amusement limited to a live music venue, provides the community with entertainment and social gathering opportunities for enjoyment. Therefore, the proposed Specific Use Permit aligns with the vision and recommendations of Forward Dallas 2.0.

### Placetype Summary

Placetypes describe the long-term vision and desired building and preservation characteristics for different places within the city, including neighborhoods, mixed-use areas, employment and industry centers, and open spaces. They provide a high-level guide for the desired mix of land uses, design, and the recommended intensity and scale of the different uses. Due to the macro scale of the plan, not all uses or design considerations described within the placetypes may be suitable for every individual property.

Community Mixed-Use areas combine housing, retail, and office spaces to serve multiple neighborhoods. Located along transit corridors, these areas prioritize walkability, community interaction, and access to essential services, creating vibrant and inclusive spaces.

### Land Use:

	<b>Zoning</b>	<b>Land Use</b>
<b>Site</b>	Tract A, Planned Development District No 269	Alcoholic Beverage Establishment with Inside Amusement/ SUP 2569
<b>North</b>	Tract A, Planned Development District No 269	Retail, lounge, and Parking

<b>West</b>	Tract A, Planned Development District No 269	Retail, bar, and restaurants
<b>East</b>	Tract A, Planned Development District No 269	Retail, bar, and restaurants

### Land Use Compatibility:

The request site is zoned No 269, the Deep Ellum/Near East Side District, and is currently developed with Specific Use Permit 2569 for a bar, lounge, or tavern and inside commercial amusement limited to a live music venue. Other uses surrounding the area of request include a parking lot, lounge, and retail uses to the north, retail, bar, restaurants, and parking uses to the east, west, and south. The use of a bar, lounge, or tavern with a live-music venue component is compatible with the surrounding uses and with Deep Ellum.

The general provisions for a Specific Use Permit in Section 51A-4.219 of the Dallas Development Code specifically state: (1) The SUP provides a means for developing certain uses in a manner in which the specific use will be consistent with the character of the neighborhood; (2) Each SUP application must be evaluated as to its probable effect on the adjacent property and the community welfare and may be approved or denied as the findings indicate appropriate; (3) The city council shall not grant an SUP for a use

except upon a finding that the use will: (A) complement or be compatible with the surrounding uses and community facilities; (B) contribute to, enhance, or promote the welfare of the area of request and adjacent properties; (C) not be detrimental to the public health, safety, or general welfare; and (D) conform in all other respects to all applicable zoning regulations and standards. The regulations in this chapter have been established in accordance with a comprehensive plan for the purpose of promoting the health, safety, morals, and general welfare of the city.

Staff support the request because the use is not foreseen to be detrimental to surrounding properties. Staff recommends approval, subject to a site plan and conditions.

**Landscaping:**

Landscaping must be provided in accordance with the landscaping requirements in Article X, as amended.

**Parking:**

PD No. 269 does not require off-street parking for the first 2,500 square feet of floor area for a bar, lounge, or tavern located within an original building. Otherwise, one space is required for every 100 square feet of floor area.

**Market Value Analysis:**

Market Value Analysis (MVA) is a tool to aid residents and policy-makers in understanding the elements of their local residential real estate markets. It is an objective, data-driven tool built on local administrative data and validated with local experts. The analysis was prepared for the City of Dallas by The Reinvestment Fund. Public officials and private actors can use the MVA to more precisely target intervention strategies in weak markets and support sustainable growth in stronger markets. The MVA identifies nine market types (A through I) on a spectrum of residential market strength or weakness. As illustrated in the attached MVA map, the colors range from purple representing the strongest markets (A through C) to orange, representing the weakest markets (G through I). The area of the request and the immediate surrounding areas are located in an "F" MVA area.
