BDA History:

- The applicant requested a fee waiver for applicable fees associated with these requests; and BOA Panel B denied the request February 18, 2026.
- **This case was previously presented before the Board of Adjustment Panel B on March 18, 2026; however, due to a notification error, the application was held under advisement and has been rescheduled for consideration at the May 20, 2026 meeting.**

GENERAL FACTS/STAFF ANALYSIS:

- The application of Larry Colgrove for the property located at 12324 Halima Street focuses on three requests relating to the fence height regulations and visual obstruction regulations.
- The applicant is proposing to demolish and remove the existing brick walls that are 6 feet in height; and construct and maintain a board-on-board privacy fence totaling 8 feet in height along Chimney Hill Lane and Ferris Creek Lane. The proposed fence will be constructed of cedar wood pickets and pressure-treated pine wood rails attached to metal posts, to be completed with finish trim and stained on all sides. This request will require (1) a 4-foot special exception to the fence height regulations along Chimney Hill Lane; and (2) a 4-foot special exception to the fence height regulations along Ferris Creek Lane.
- The surrounding properties have submitted a similar request regarding fence height regulations. This application differs in its request as it is on a corner lot and this requires an exception for both streets as well as the visibility triangle.

- Third, the applicant proposes to construct and/or maintain a single-family residential fence structure in a required 45-foot visibility obstruction triangle at the street intersection of Ferris Creek Lane and Chimney Hill Lane and provide a 35-foot visibility triangle. The proposal includes a 10-foot encroachment into the visibility triangle along both streets. This request will require a special exception to the 45-foot visibility obstruction regulation at street intersections.
- Per staff's review of the subject site, sections of the existing brick fence are damaged and in need of repair.
- The applicant has the burden of proof in establishing the special exception to the fence height regulations will not adversely affect neighboring properties and that the special exception to the visual obstruction regulation will not constitute a traffic hazard.
- Granting the special exceptions to the fence height regulations and the visual obstruction regulations, with the condition that the applicant complies with the with the submitted site plan and elevations, would require the proposal to be constructed as shown on the submitted documents.
