STAFF RECOMMENDATION: Section 51A-8.503 states that “lots must conform in width, depth and area to the pattern already established in the adjacent areas, having due regard to the character of the area, its particular suitability for development, and taking into consideration the natural topography of the ground, drainage, wastewater facilities, and the proposed layout of the streets.”

The request lies in MF-2(A) Multi Family District which has a minimum lot area requirement of 1,000 square feet for single family structures and 6,000 square feet for duplex structures.
