| CH VII, SEC. 2. ASSISTANTS AND EMPLOYEES. Edit language: "The city council shall provide the city secretary with such assistants <u>and employees</u> as it may deem necessary, and they shall receive such compensation as may be fixed by the council. Any such assistant <u>and employee</u> may be discharged at any time by the city secretary. All powers and duties imposed on the city secretary may be exercised and performed by any assistant under the city secretary's direction." | | |
| Rationale: This edit in language is being recommended to allow the city secretary the ability to hire all staff on the basis of executive and administrative experience, and efficiency of work that they are to administer that is directly related to the duties of the city secretary office and council support. | | |
