**REPRESENTATIVE:** Tommy Mann, Winstead PC

**OWNER/APPLICANT:** Carlisle on the Creek, LLC

**REQUEST:** An application for a Planned Development Subdistrict on property zoned an MF-2 Multiple-Family Subdistrict within Planned Development District No. 193, the Oak Lawn Special Purpose District.

**SUMMARY:** The purpose of the request is to allow for modified development standards primarily related to uses, setbacks, density, lot coverage, floor area ratio, height, design standards, parking, landscaping, signs, and mixed income housing to develop the site with residential and restaurant uses.

**CPC RECOMMENDATION:** Approval, subject to a development plan, a landscape plan, and conditions.

**STAFF RECOMMENDATION:** Approval, subject to a development plan, a landscape plan, and staff's recommended conditions.

**PD No. 193:**  
<https://dallascityhall.com/departments/city-attorney/pages/articles-data.aspx?pd=193>

**PD No. 193 Yard, Lot, and Space:**  
[dallascityhall.com/departments/city-attorney/articles/Exhibits/YardLotSpace.pdf](https://dallascityhall.com/departments/city-attorney/articles/Exhibits/YardLotSpace.pdf)

**BACKGROUND INFORMATION:**

- The area of request is currently zoned an MF-2 Multiple Family Subdistrict within Planned Development District No. 193, the Oak Lawn Special Purpose District, and currently exists as a multiple-family complex and associated surface parking.
- The existing zoning district allows the multiple-family use, but does not allow the proposed restaurant without drive-in or drive-through service use. The applicant proposes to include the restaurant use to permit a restaurant oriented toward the trail. Additionally, the maximum height is limited to 36 feet, a height lower than is typical throughout the broader area.
- To build to the desired development plan, the applicant requests to adjust the development standards of the site. To accomplish this, the applicant requests a new Planned Development Subdistrict (PDS) with a mixed income housing development bonus tied to an increase over a base for floor area ratio and height.
- The applicant also proposes modified development standards primarily related to setbacks, height, lot coverage, unit density, landscaping, and design standards.
- The public realm will be enhanced by design standards that increase transparency, ensure a safe and activated public realm, reduce driveway sizes, and require hidden parking.
- The applicant proposes a development plan and a landscape plan. The development plan depicts a building that concentrates height in the northern portion of the site and designates the trail-side restaurant space. The landscape plan and conditions describe the minor variations from the base Part 1 landscaping.

**Zoning History:**

There have been three zoning cases in the area in the last five years.

1. **Z190-359:** On April 28, 2021, the City Council approved an application for Planned Development Subdistrict No. 161 for MF-2 Multiple-Family Subdistrict uses on property zoned an MF-2 Multiple-Family Subdistrict within Planned Development District No. 193, the Oak Lawn Special Purpose District located at the southwest corner of Carlisle Street and North Hall Street.
2. **Z201-178:** On May 26, 2021, the City Council approved an amendment to Planned Development District No. 372, located south of McKinney Avenue, between Lemmon Avenue East and Lemmon Avenue.

3. **Z212-155:** On June 22, 2022, the City Council approved an application for an amendment to Planned Development Subdistrict No. 135 within Planned Development District No. 193, the Oak Lawn Special Purpose District, on the northwest line of Turtle Creek Boulevard, between Cedar Springs Road and Dickason Avenue.

**Thoroughfares/Streets:**

<b>Thoroughfare/Street</b>	<b>Type</b>	<b>Existing / Proposed ROW</b>
Carlisle Street	Minor Arterial	60 feet/--
North Hall Street	Local Street	47 feet/--
Carlisle Place	Local Street	35 feet/--

**Traffic:**

The Transportation Development Services Division of the Planning and Development Department, in coordination with the Transportation Department, has reviewed the request and determined that it will not significantly impact the surrounding roadway system.

Engineering staff reviewed the traffic study dated April 17, 2023, for the proposed development. The study indicates that the proposed development can be successfully incorporated into the surrounding local roadway network. Engineering staff will continue a review of civil plans to include requests for traffic signs and upgrades to the traffic signal at the adjacent intersection, unobstructed sidewalks. Staff will also coordinate the project through the proposed two-way design.

**STAFF ANALYSIS:**

**Comprehensive Plan:**

The *forwardDallas!* Comprehensive Plan was adopted by the City Council in June 2006, outlining several goals and policies which serve as a framework for assisting in evaluating the applicant’s request. The request complies with the following land use goals and policies of the Comprehensive Plan:

The staff recommended conditions which include reduced minimum parking requirements, ROW design standards, and bicycle storage facilities support the low carbon and mode split goals of CECAP.

**Area Plan:**

**The 360 Plan**

The 360 Plan is a strategic document that sets a clear, cohesive vision for Downtown Dallas and its surrounding neighborhoods, guiding the City Center to continued, long-term success. The plan was adopted by City Council in April 2011 and updated in 2015, 2016, and 2017. The area of request is located within the Uptown area of the plan.

The project’s transit and trail orientation meet the 360 plan’s strategy to Advance Urban Mobility through the following goals:

**5 ADVANCE PRIORITY BICYCLE AND PEDESTRIAN IMPROVEMENT PROJECTS**

The applicant’s inclusion of urban design standards meets the 360’s strategy to Promote Great Placemaking through the following goals:

**1 ENSURE EXCELLENT URBAN DESIGN TO ENHANCE QUALITY OF LIFE AND ECONOMIC VALUE**  
**2 ACTIVATE THE PUBLIC REALM**

The project’s standards for transparency, enhanced sidewalks, and pedestrian amenities all contribute to the 360 plan’s placemaking and urban design goals.

**Land Use:**

	<b>Zoning</b>	<b>Land Use</b>
<b>Site</b>	MF-2 Multiple Family Subdistrict within PD No. 193	Multiple-family
<b>Northwest</b>	MF-2 Multiple Family Subdistrict within PD No. 193	Trail, public park
<b>Northeast</b>	Planned Development No. 174	Multiple-family, restaurant without drive through
<b>Southeast</b>	MF-2 Multiple Family Subdistrict within PD No. 193	Multiple-family
<b>Southwest</b>	Planned Development Subdistrict No. 161 within PD No. 193	Under development (multiple family)

**Land Use Compatibility:**

The area of request is a single lot with 2.447 acres. The property currently includes a multiple family complex fronting Hall Street and associated surface parking to the northeast.

Properties northeast, southeast, and south of the site are currently built out as multiple-family. The block to the northeast within PD No. 174 also includes a ground-floor retail component. Across Carlisle to the east there is an office building. Southwest across Hall Street, there is a multiple family development being built out under PDS No. 161. Northwest of the site, the property abuts the Katy Trail.

The proposed residential and retail uses would be complimentary with the surrounding area. The addition of restaurant uses helps diversify nearby land uses and activate this portion of trail.

Overall, staff supports the applicant’s request because it will add an appropriately designed development while offering additional diversity of housing. The locational and infrastructure characteristics of the site are suited to additional density. The project will include design and landscaping standards that contribute to a more active pedestrian experience in proximity to walkable retail streets, as well as design features that meet the environmental goals of the comprehensive plan and CECAP. Additionally, the request complies with the design and placemaking objectives of the 360 Plan.

\*Maximum height is effectively limited by the setbacks listed in the first and second columns on a significant portion of the site.

### Setbacks

The proposed conditions observe fairly typical setbacks for PD 193 at the ground floor, except on Hall, where this setback has been increased to 25 feet. However, significant additional setbacks prescribe step-backs in height, especially with regard to distance from the side property line which borders the trail, and from the southern property line on Hall Street.

### Height

Although there is not a single established pattern for heights within the surrounding area, there is a trend in this section of Uptown for increased heights along the Katy Trail. This particular site would be separated from the lower multiple-family building heights to the south not only by multiple streets, but by the significant setbacks that push the height toward the north part of the site, as described in the table. The increased height would only be permitted if mixed income housing is provided.

## Floor Area Ratio

The existing MF-2 subdistrict is not governed by FAR, but is primarily limited by its maximum height of 36 feet.

The proposed base FAR of 2.5 is based on the existing FAR values permitted in the vicinity of the site, including the PDS 174 across Carlisle Street, which has a 2.53 FAR base. If mixed income housing is provided, the FAR could increase to 5.8, which is not out of scale with the 4.5 FAR permitted along McKinney, Lemmon, and across Turtle Creek from the site. Moreover, additional density is supported by the ample transit, pedestrian, and bicycle access at the site.

For this lot, the buildable square footage for the whole site with a 2.5 FAR base would be approximately 266,000 square feet. Under a 5.8 FAR, the buildable square footage would be approximately 618,000 square feet.

## Lot Coverage

The increase in lot coverage from 60% to 65% is appropriate in keeping with surrounding developments, such as PD 174 to the north, which has 80% maximum lot coverage. Additionally, lot coverage is indirectly limited significantly by the setbacks that apply at higher heights. Generally, in a dense environment such as Uptown, high lot coverages encourage effective use of land, especially at the ground level.

## Design Standards

The proposed PDS must include the design standards of 4.1107 except where specified.

- **Parking:** All garages must be below grade or partially at grade. One partial floor may be above grade due to the grade change on site, but such a floor must have all the following screening requirements. Parking structures must be screened by either an active use with a minimum of 30 feet of floor area or have a similar architecture and appearance to the main structure. Exterior openings, if they occur

must include a minimum of 42 inch headlight screening. Exterior surface parking is prohibited, except for pick up and drop off.

- Staff recommended conditions also include parking minimums in accordance with 4.1107, which helps activate private space and generate pedestrian trips.
- Sidewalks: All frontages must have a minimum of six foot unobstructed sidewalk with a five foot parkway.
  - Language has been added to clearly delineate and vertically protect the sidewalk in proximity to any on-site drive aisles. Per 4.1107, all sidewalks must have distinct crossings and must be continuous and level across driveway and curb cuts.
- Lighting: Per 4.1107, pedestrian scale lighting is required along the street frontages. Beyond providing even and comfortable lighting, the lighting structures provide human scale definition at the street level.
- Transparency: Per 4.1107, transparency is required to be evenly spaced along the façade. A transparent surface is required for every 25 linear feet of continuous street-fronting facade. This is increased to every 50 linear feet only along Carlisle Place to accommodate architectural projections. This helps activate the street with a visual connection to the interior of the structure.
- Individual entries and access: Per 4.1107, should the applicant put residential units on the ground floor, 60% adjacent to a street would be required to have individual access to the sidewalk. This shortens walking distance for residents and activates the sidewalk throughout the block. Beyond this, uses on the Katy Trail must have ground level access to the trail. This would apply primarily to the proposed restaurant.
- Fencing: Per 4.1107, fences are required to be a maximum of four feet in the front yard. This further aids in visual interaction between the street and structure.
- Street furniture: A minimum of two of the following street furniture are required on each frontage: bench and trash receptacles.
- Open space: 20,000 square feet of open space is required. (Roughly 19% of lot area)
- Driveways: Driveway widths and numbers are limited, ensuring safer pedestrian passage around the site through the public realm. One driveway is permitted per frontage, with a maximum width of 30 feet.
- Sustainable performance features: The applicant also proposes sustainable performance features including drip irrigation and micro-mobility charging stations.

**Mixed Income Housing:**

The applicant is proposing to tie the increase in heights and floor area ratio to the provision of mixed income housing. The applicant’s request is to increase the FAR from the proposed base of 2.5:1 to 5:8, provided the applicant provides five percent of units available to households at 61 percent to 100 percent of Area Median Family Income (AMFI).

In a Type 2 bonus, the bonus provided, and the base are specifically set by the PD ordinance. Despite this, it is advisable for these bonuses and bases to mirror the base code as best as possible. Although the existing MIHDB program does not have an exact analog for PD 193’s MF-2 Subdistricts, staff considers an MU-3 Mixed Use District as an approximate equivalent for comparison of bonuses. Below is the schedule of bonuses for FAR in an MU-3 District and an “F” MVA area.

<b>MVA "F"</b>	<b>Additional FAR</b>
5% at 61%-80% AMI	1.0
10% at 61%-80% AMI	2.0
<b>10% at 61%-80% AMI; and 5% at 81%-100% AMI</b>	<b>3.0</b>

The third bonus in the table is most comparable to achieve the requested 3.3 additional FAR. As such, staff’s recommendation is 10% at 61%-80% AMI; and 5% at 81%-100% AMI. This income grouping is appropriate as the tract is in a below average tract for displacement risk ratio.

**Landscaping:**

The proposed PDS requires that landscaping be provided in accordance with both Part 1 of PD No. 193 and the proposed landscape plan.

Arborist’s staff has reviewed the proposed landscape plan and determined it complies generally with the spirit of Part 1.

The conditions decrease the total landscape site area from 10% to 20%, but prescribe that a higher proportion of this must be focused along the front yards (50% in the base vs 60% in the proposed conditions). It also increases the general planting area from 5% to 12% of the front yards. Further, it increases the special planting areas in these front yards from 5% to 6%.

In simple terms, these changes to Part I allow a decrease in total landscape site area, but focus the most enhanced plantings near the public realms, rather than allowing them to

be out of public sight. In concert with the increased front yard setbacks on Hall Street, the conditions prescribe that the Hall frontage must be highly landscaped.

In accordance with Part I, street trees are required at a maximum of one per 40 feet within the tree planting zone.

**Parking:**

In general, the parking requirements in the proposed PDS default to Part I of PD No. 193.

In keeping with the standards of 4.1107, staff recommends conditions requiring a minimum of one-half space per all units. As with any minimum required parking, these ratios only reflect the minimum amount required. The developer may provide additional parking beyond these. Reducing overparking, especially in transit rich areas, is a goal supported by CECAP, as mentioned above, and implemented as policy citywide under the mixed income development housing bonus.

The applicant's requested condition calls for parking in accordance with Part I of PD 193, which requires one space per 500 square feet of dwelling unit, with a minimum requirement of one space and a maximum of one and one half spaces, depending on the floor area of the final build-out of units. One quarter unassigned spaces available for use by visitors and residents are required for each dwelling unit.

A minimum of 20 bicycle parking spaces would be required along street frontages.

**Signs:**

Signs must comply with the non-business provisions of Article VII. However, the applicant proposes to prohibit lighted signs above the third story of the structure.

**Market Value Analysis:**

Market Value Analysis (MVA), is a tool to aid residents and policy-makers in understanding the elements of their local residential real estate markets. It is an objective, data-driven tool built on local administrative data and validated with local experts. The analysis was prepared for the City of Dallas by The Reinvestment Fund. Public officials and private actors can use the MVA to more precisely target intervention strategies in weak markets and support sustainable growth in stronger markets. The MVA identifies nine market types (A through I) on a spectrum of residential market strength or weakness. As illustrated in the attached MVA map, the colors range from purple representing the strongest markets (A through C) to orange, representing the weakest markets (G through I). The area of request is located with an "F" MVA area.
