# HONORABLE MAYOR & CITY COUNCIL WEDNESDAY, OCTOBER 22, 2025

**ACM: Robin Bentley** 

**FILE NUMBER:** Z-25-000085 **DATE FILED:** July 14, 2025

**LOCATION:** Southeast corner of Hillcrest Road and LBJ Freeway

**COUNCIL DISTRICT**: 11

SIZE OF REQUEST: Approx. 9.966 acres CENSUS TRACT: 48113013202

**REPRESENTATIVE:** Will Guerin, Jackson Walker, LLP

OWNER: Benjamin Scott, C&H Acquisition

APPLICANT: Benjamin Scott, H-E-B, LP

REQUEST: An application for RR Regional Retail District on property

zoned NO(A) Neighborhoo Office District.

SUMMARY: The purpose of the request is to develop the site with a

general mer handise or lood store 100,000 square feet or

more.

STAFF RECOMMENDATION: Approved

CPC RECOMMENDATION

Approval, subject to deed restrictions volunteered by

e applicant.

#### **BACKGROUND INFORMATION:**

- The area of request is currently developed with three two-story office buildings erected in 1972 per Dallas County Appraisal District records.
- The applicant proposes to demolish the existing buildings and develop the site with a general merchandise or food store 100,000 square feet or more.
- RR Regional Retail is the least intense district that permits the proposed use by right.

#### **Zoning History:**

There have been two zoning cases in the area in the last five years.

- 1. **Z234-271:** On April 23, 2025, the City Council a proved in application for an amendment to Planned Development District No. 143 on the northwest corner of IH-635 and Valley View Lane subject to amended development plan, landscape, traffic management plans, and amended conditions.
- 2. **Z201-291:** On December 2, 2021, the City Pian Commission recommended denial without prejudice for an application for a Planned Development District for MF-2(A) Multifamily District uses on proper zone. NO Neighborhood Office District on the south line of Lyndon B Johnson Free Lay, west of Hillcrest Road.

# **Thoroughfares/Streets:**

Thoroughfare treet	Туре	Existing/Proposed ROW
LBJ Freeway	Highway	
Hillcrest Road	Principal Arterial	100 ft.

#### Traffic:

The Transportation Development Services Division of the Planning and Development Department, in coordination with the Transportation and Public Works Department, has reviewed the request and determined that a traffic study is necessary to appropriately evaluate the proposed design and development assumed site plan. Although a traffic study is not required with a zoning amendment application, engineering staff recommended an analysis of the development's potential impacts. This review will be required at permitting among other engineering studies, should the appointed and elected bodies approve the zoning amendment request.

#### Z-25-000085

At staff's request, the applicant submitted a traffic study on September 2, 2025. Staff is currently reviewing the study's findings to assess anticipated impacts, including the addition of dedicated auxiliary lanes on Hillcrest Plaza at Hillcrest, the northbound approach on Hillcrest at LBJ Freeway Service Road relative to nearby entry ramps and flood gates, and other related considerations. Review comments, if any, are forthcoming as of the time of this report.

# **Transit Access:**

The following transit services are located within  $\frac{1}{2}$  mile of the site: DART Routes 22

#### **STAFF ANALYSIS:**

### **Comprehensive Plan:**

The Forward Dallas Comprehensive Plan (2.0) was adopted by the City Council in September 2024 and, outlines several goals and tolic which can serve as a framework for assisting in evaluating the applicant's request

# **Placetypes:**

The area of request is located in the Compunity Mixed-Use Placetype.

This placetype allows for primary land uses like: Multiplex, Apartments, Mixed-Use, Lodging, Commercial, Office; in conjunction with supporting land uses like: Agricultural, Public Open Space, Private Open Space, Single Family Detached, Single Family Attached, Civic/Public Institutional, Utility, Light Industrial.

Community Mixed-Use areas are located at major intersections and along key corridors, serving multiple surrounding neighborhoods and attracting retailers and services that require a larger market area. A mix of commercial, office, residential, retail, and services are concentrated adjacent to larger nodes of activity. Commercial centers, commercial corridors, and office parks are representative of this placetype. These districts accommodate broader market needs while reinforcing neighborhood access to goods, jobs, and services in a compact, mixed-use environment.

The applicant's request is consistent with the characteristic of the Community Mixed-Use placetype and will serve as a retail amenity for the community.

#### **Land Use:**

	Zoning	Land Use
Site	NO(A) District	control of the second s
North	R-1/2ac(A) District	Park and public or private school
East	NO(A) District	Park
South	NO(A) District and GO(W) istrict with DR Z74-267	Medical clinic or ambulatory surgical center, office building, personal service use restaurant without drive-in services
West	PD 137 with SUP 2309	Office building, utility of Government installation limited to govt offices and courtrooms

# **Land Use Compatibility**:

The area of request is currently developed with three two-story office buildings erected in 1972 per Dallas County Appraisal District records. To the south of the property there is a commercial plaza consisting of an office building use, a medical clinic or ambulatory surgical center use, a restaurant without drive-in service use, and personal use. The property is adjacent to a park toward the east and on the west across Hillcrest Road there

are office buildings. The property is adjacent to LBJ Freeway on the north side. Staff finds the applicant's requested land use to be compatible with the surrounding area.

The applicant proposes to demolish the existing buildings and develop the site with a general merchandise or food store 100,000 square feet or more. Staff considers the proposed use compatible with surrounding properties. According to forwardDallas 2.0 Community Mixed-Use areas are located at major intersections and along key corridors, serving multiple surrounding neighborhoods and attracting retailers and services that require a larger market area. Within more suburban areas of Dallas, these areas are consist of larger complexes, often with fewer stories while offering a large amount of retail, restaurant, and personal services. The applicant's request will create additional retail services options within the area and therefore, staff supports the proposed RR Regional Retail District request.

#### **Development Standards**:

Following is a comparison of the development standard of the current NO(A) District and the proposed RR District.

Setback in. Lot		in bot		Lot	Primary	
District	Front	Side/ Rear	Ar a/Jensity	Height	Cov.	Uses
Existing: NO(A)	15 ft.	20 ft. adj. to es. Other, To Mic.	.5 FAR*	35 ft. structure w/gable, hip, or gambrel roof Other: 30 ft. 2 stories *	50%	Office
Proposed: RR	15 ft. 20 ft. UF	20 ft. adjuto res.	0.5 FAR Office 1.5 FAR Overall*	70 ft. 5 stories	80%	Retail & personal service, office

\*If SB 840 is determined as applicable to the site through the qualification process of Permitting, modified development standards would apply: Height no less than 45 feet, no limits on FAR would be applicable in either district, only when developing a project with a significant multifamily portion. When developing primarily commercial projects, base standards apply.

#### **Design Standards:**

Under <u>Section 51A-4.605(a)</u>, large retail uses over 100,000 square feet are subject to additional base code design standards intended to improve compatibility with surrounding areas and mitigate potential impacts on aesthetics, pedestrian circulation, and community character. These standards require enhanced architectural treatments on facades, varied materials and rooflines, screening of mechanical equipment and service areas, and

higher-quality parking lot and landscape design. They also include requirements for pedestrian pathways, landscape buffers, tree plantings, and screening for outdoor storage and cart corrals.

Facade walls must incorporate varied design elements and changes in plane, color, or material to create visual interest. Roof equipment must be screened, and rooflines require parapets or sloping elements. Surface parking lots are limited in size and front location, require landscaped dividers, buffers, and pedestrian pathways, and must connect to major streets. Service and storage areas, mechanical equipment, and shopping cart storage must be screened. Additional restrictions apply near residential districts, such as prohibiting external speakers, limiting truck idling hours, and additional lighting review.

# **Landscaping**:

Landscaping and tree preservation must be provided in accordance with the landscaping requirements of Article X, as amended.

# Parking:

Off-street parking must be provided pursuant to the Dallas Development Code, as amended. Based on the May 14, 2025, Code Amendment, the off-street parking requirement for a general merchandise or food store 100,000 square feet or more use is

0 spaces. As with any minimum required parking, these ratios only reflect the minimum amount required. The developer may provide additional parking beyond this.

#### **Market Value Analysis:**

Market Value Analysis (MVA), is a tool to aid residents and policy-makers in understanding the elements of their local residential real estate markets. It is an objective, data-driven tool built on local administrative data and validated with local experts. The analysis was prepared for the City of Dallas by The Reinvestment Fund. Public officials and private actors can use the MVA to more precisely target intervention strategies in weak markets and support sustainable growth in stronger markets. The MVA identifies nine market types (A through I) on a spectrum of residential market strength or weakness. As illustrated in the attached MVA map, the colors range from parele representing the strongest markets (A through C) to orange, representing the weakes markets (G through I). The area of request is currently within an "D" MVA area.
