LOCATION: West line of South Saint Augustine Drive, south of Labett Street
COUNCIL DISTRICT: 8
SIZE OF REQUEST: Approx. 4.37 acres **CENSUS TRACT:** 48113017102

OWNER/APPLICANT: Margarito Hernandez and Maria del Rocio

REPRESENTATIVE: Audra Buckley

REQUEST: An application for a new Planned Development District for agricultural and retail uses on property zoned an R-10(A) Single Family District.

SUMMARY: The purpose of the request is to allow for modifications primarily related to allowable uses, parking, and landscaping requirements.

STAFF RECOMMENDATION: Approval, subject to a development plan and conditions.

BACKGROUND INFORMATION:

- The area of request is currently zoned an R-10(A) Single Family District.
- The applicant wishes to develop the property with a mix of retail and agricultural uses, including equine veterinary care, the sale of equestrian goods, and crop production limited to an urban garden.
- In order to accomplish this, they request a new Planned Development District.

Zoning History:

There has been one zoning case in the area in the last five years.

1. **Z223-177:** On May 2, 2023, the City Plan Commission recommended **denial** of an application for a CS Commercial Service District on property zoned an R-10(A) Single Family District on the north line of Timberloam Road, west of South Saint Augustine Drive.

Thoroughfares/Streets:

Thoroughfare/Street	Type	Existing/Proposed ROW
South Saint Augustine Drive	Minor Arterial	60'

Traffic:

The Transportation Development Services Division of the Transportation Department has reviewed the request and determined that it will not significantly impact the surrounding roadway system. Staff will continue review of engineering plans at permitting to comply with city standards.

STAFF ANALYSIS:

Comprehensive Plan:

The *forwardDallas! Comprehensive Plan* was adopted by the City Council in June 2006 and outlines several goals and policies which can serve as a framework for assisting in evaluating the applicant's request. The request complies with the following land use goals and policies of the Comprehensive Plan:

ECONOMIC ELEMENT

GOAL 2.1 PROMOTE BALANCED GROWTH

Policy 2.1.1 Ensure that zoning is flexible enough to respond to changing economic conditions.

Policy 2.1.3 Support efforts to grow retail and residential opportunities in the Southern Sector.

Land Use:

	Zoning	Land Use
Site	R-10(A) Single Family	Single family
North	R-10(A) Single Family, CR Community Retail	GMFS < 3500 sqft, vehicle / engine repair
East	R-10(A) Single Family	Single family
South	R-10(A) Single Family, NS(A) Neighborhood Service	Single family, GMFS < 3500 sqft
West	R-10(A) Single Family	Undeveloped, Commercial stable

Necessity for a Planned Development District:

According to Sec. 4.702, the purpose of a planned development district is to provide flexibility in the planning and construction of development projects by allowing a combination of land uses developed under a uniform plan that protects contiguous land uses and preserves significant natural features.

Planned development districts are appropriate where the existing code may not accommodate a use or a development within the bounds of a conventional zoning district, or where unique site characteristics may necessitate relief or modification of certain base code provisions.

Applicant’s proposed planned development district is intended to combine various uses that would typically not be able to be provisioned within any single conventional zoning district. While a CR Community Retail District would allow for a general merchandise and food store > 3,500 square feet as well as an animal shelter or clinic, it would not allow for commercial stables, which are only permitted in A(A) Agricultural Districts. While the applicant does not intend to provide overnight boarding except for horses under veterinary supervision, the renting of horses for rider training would fall under the commercial stable use. Additionally, private stables are only permitted in residential districts.

The proposed PD would allow for these uses and also limit the more intensive retail uses that would be permitted under a CR District. As such, staff supports the request for a planned development district.

Land Use Compatibility:

The area of request is currently developed with a single family home. The surrounding area is primarily residential and rural in character, with a mix of neighborhood-serving uses including general merchandise or food stores to the north and south. To the west is a commercial stable.

The intended use of the site is to provide equestrian veterinary services as well as horse feed, tack, and other goods for horses and horse owners. The site would also be used for crop production limited to an urban garden, and for rider training. Overnight boarding of horses will only be for horses requiring overnight care and supervision, with the exception of horses owned by the property owner.

Given the small-town character of the surrounding area, staff finds that the requested use is compatible with the surrounding area.

Landscaping:

Landscaping must be provided in accordance with Article X, with the additional provision of a 10-foot wide landscape buffer adjacent to single-family zoning districts.

Parking:

The proposed parking ratios are as follows:

- Eight parking spaces for the equine stable use; a minimum of four spaces must measure at least 12 feet by 60 feet to accommodate vehicles with trailers.
- Feed store: one space per 300 square feet of floor area.
- Office: one space per 400 square feet of floor area.

Market Value Analysis:

Market Value Analysis (MVA), is a tool to aid residents and policy-makers in understanding the elements of their local residential real estate markets. It is an objective, data-driven tool built on local administrative data and validated with local experts. The analysis was prepared for the City of Dallas by The Reinvestment Fund. Public officials and private actors can use the MVA to more precisely target intervention strategies in

Z234-255(MB)

weak markets and support sustainable growth in stronger markets. The MVA identifies nine market types (A through I) on a spectrum of residential market strength or weakness. As illustrated in the attached MVA map, the colors range from purple representing the strongest markets (A through C) to orange, representing the weakest markets (G through I). The area of request is located within an “H” MVA area.
