**STAFF ANALYSIS:**

**Comprehensive Plan:**

The forwardDallas 2.0! Comprehensive Plan was adopted by the City Council in September 2024. ForwardDallas 2.0 is a refreshed guide that takes into account how our City has evolved over the last two decades and how we should plan for what is on the horizon - from our continued economic growth to our long-term social vibrancy. ForwardDallas is a guidance plan, it is not a zoning document. This Comprehensive Plan outlines several goals and policies which can serve as a framework for assisting in evaluating the applicant's request.

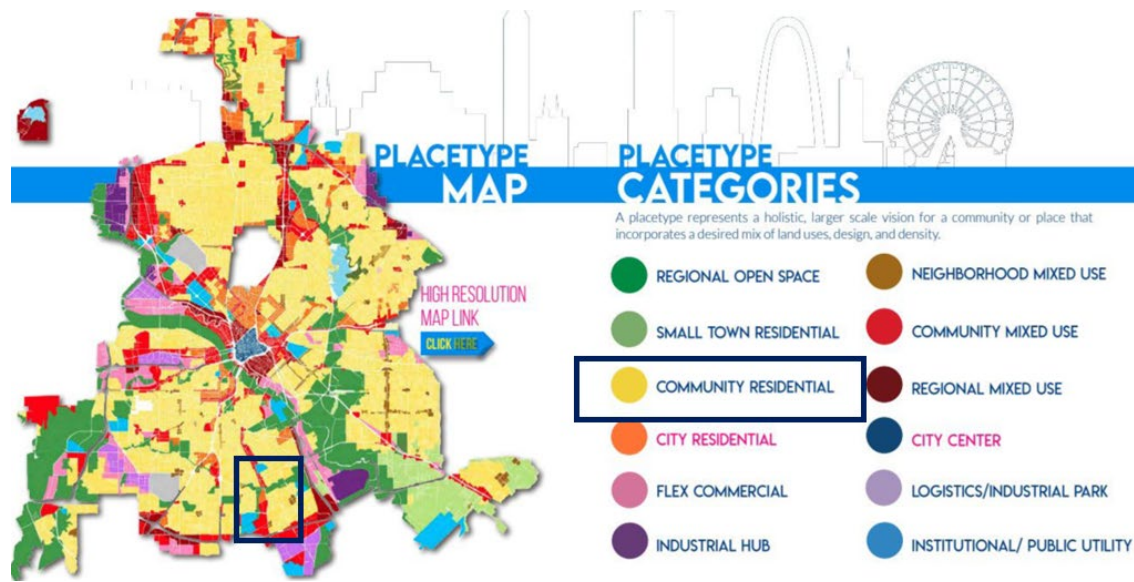

The request would comply with the following placetypes and primary/supporting land uses of the ForwardDallas 2.0 Comprehensive Plan:

The area of request is located in the Community Residential Placetype. This placetype allows for primary land uses like: Single Family Detached, Single Family Attached, in conjunction with supporting land uses which includes: Agricultural, Public Open Space, Private Open Space, Multiplex, Apartments, Mixed-Use, Commercial, Office, Civic/Public Institutional, Utility.

The Community Residential Placetype primary focus on creating vibrant, family-friendly environments. Community Residential neighborhoods are the foundation of Dallas' housing landscape, offering predominantly single-family homes with integrated parks, schools, and community services. The plan for this placetype is designed to protect and support the vital foundation of our existing neighborhoods, promote new, walkable neighborhoods, and encourage support for neighborhoods in need of revitalization.

The current child-care facility has been at this location for the last 22 years and fits into the charter of the neighborhood. This land use has served the community and other surrounding community with childcare support.

The area highlighted below shows the location of the area of request within the ForwardDallas 2.0 Placetype.

### Land Use

	Zoning	Land Use
<b>Site</b>	R-7.5(A) Single Family District	SUP 2032 child-care facility
<b>North</b>	R-7.5(A) Single Family District	Undeveloped Land
<b>East</b>	R-7.5(A) Single Family District	Single Family
<b>South</b>	R-7.5(A) Single Family District	Single Family
<b>West</b>	PD 625	Undeveloped Land

### Land Use Compatibility:

The surrounding land uses are predominately single family residential, Planned Development District 625 (currently undeveloped).

The general provisions for a Specific Use Permit in Section 51A-4.219 of the Dallas Development Code specifically state: (1) The SUP provides a means for developing certain uses in a manner in which the specific use will be consistent with the character of the neighborhood; (2) Each SUP application must be evaluated as to its probable effect on the adjacent property and the community welfare and may be approved or denied as

the findings indicate appropriate; (3) The city council shall not grant an SUP for a use except upon a finding that the use will: (A) complement or be compatible with the surrounding uses and community facilities; (B) contribute to, enhance, or promote the welfare of the area of request and adjacent properties; (C) not be detrimental to the public health, safety, or general welfare; and (D) conform in all other respects to all applicable zoning regulations and standards. The regulations in this chapter have been established in accordance with a comprehensive plan for the purpose of promoting the health, safety, morals, and general welfare of the city.

The request site is located mid-block on a Principal Arterial. While typically staff is concerned about non-residential uses placed in the middle of a block of single family uses, the child-care facility is largely surrounded by undeveloped land to the north and single family to the east and south.

Staff feels that a child-care facility is complimentary to the existing uses in the area. Staff supports the applicant's request to renew the SUP subject to conditions and a site plan.

**Parking:**

The site plan shows the minimum off-street parking requirement of three spaces will be provided. Pursuant to §51A-4.200 of the Dallas Development Code, as update May 14, 2025 there is no off-street parking requirement for a child-care facility. The applicant has provided nine off-street parking spots.

**Landscaping:**

The property does not trigger Article X landscaping requirements, because no changes are proposed.

**Market Value Analysis:**

Market Value Analysis (MVA), is a tool to aid residents and policy-makers in understanding the elements of their local residential real estate markets. It is an objective, data-driven tool built on local administrative data and validated with local experts. The analysis was prepared for the City of Dallas by The Reinvestment Fund. Public officials and private actors can use the MVA to target intervention strategies more precisely in weak markets and support sustainable growth in stronger markets. The MVA identifies nine market types (A through I) on a spectrum of residential market strength or weakness. As illustrated in the attached MVA map, the colors range from purple representing the strongest markets (A through C) to orange, representing the weakest markets (G through I). The area of request is in an "H" MVA area.
