

FILE NUMBER: Z234-238(LC) **DATE FILED:** May 14, 2024
LOCATION: Northeast line of Wayne Street between Santa Fe Avenue and Ash Lane
COUNCIL DISTRICT: 2
SIZE OF REQUEST: 7,405 square feet **CENSUS TRACT:** 48113001204

OWNER/APPLICANT: Hector Valdez

REQUEST: An application to amend the land use map to allow a duplex use on property that currently allows a single-family use within Subarea A of Planned Development District No. 134.

SUMMARY: The purpose of the request is to allow development of a duplex.

STAFF RECOMMENDATION: Approval.

PRIOR CPC ACTION: At the October 10, 2024 hearing, the City Plan Commission moved to hold the case under advisement to November 21, 2024.

BACKGROUND INFORMATION:

- The area of request is currently zoned for single family use within PD. No. 134. The site is developed with an existing structure and driveway.
- The lot has frontage only on Garland Avenue.
- The applicant proposes to redevelop the property with a 3,500 square foot two story duplex at a height of 36 feet.
- To accomplish this, they request that the property be rezoned to the duplex use within Planned Development District No. 134 Subarea A.
- PD No. 134 accomplishes zoning of sites through a land use map that designates specific parcels as being for single family or for duplex use, as well as other uses. The permitted uses within Subarea A include single family, duplex and uses permitted in the R-7.5 Single Family District.
- There have not been any changes to the case since the last meeting.

Zoning History:

There have been 0 zoning cases in the area in the last five years.

Thoroughfares/Streets:

Thoroughfare/Street	Type	Existing/Proposed ROW
Wanye Street	Local Street	-
Santa Fe Avenue	Local Street	-
Ash Lane	Local Street	-

Traffic:

The Transportation Development Services Division of the Transportation Department has reviewed the request and determined that it will not have a significant impact on traffic or the surrounding roadway system. Staff will continue review of engineering plans at permitting to comply with city standards. Although staff has no objection to the request, the following comments and feedback have been provided;

- Full engineering plans will be required at platting.
- A required dedication due at platting to match 28 ft of ROW measured from the centerline.

- Portion of the subject site is in located in a FEMA designated zone. Applicant must coordinate in advance of any site plan design with Floodplain Management.

STAFF ANALYSIS:

Comprehensive Plan:

The *forwardDallas! Comprehensive Plan* was adopted by the City Council in June 2006 outlining several goals and policies which can serve as a framework for assisting in evaluating the applicant's request.

The request complies with the following land use goals and policies of the Comprehensive Plan:

LAND USE ELEMENT

GOAL 1.1 ALIGN LAND USE STRATEGIES WITH ECONOMIC DEVELOPMENT PRIORITIES

Policy 1.1.2 Focus on Southern Sector development opportunities.

Policy 1.1.5 Strengthen existing neighborhoods and promote neighborhoods' unique characteristics.

GOAL 1.2 PROMOTE DESIRED DEVELOPMENT

Policy 1.2.1 Use Vision Building Blocks as a general guide for desired development patterns

GOAL 1.3 PROVIDE EQUITABLE OPPORTUNITIES FOR DALLAS RESIDENTS

Policy 1.3.1 Create housing opportunities throughout Dallas.

ECONOMIC ELEMENT

GOAL 2.1 PROMOTE BALANCED GROWTH

Policy 2.1.1 Ensure that zoning is flexible enough to respond to changing economic conditions.

Policy 2.1.2 Ensure that Area Plans include an economic development component to address the economic factors of the areas in the context of the city as a whole.

Policy 2.1.3 Support efforts to grow retail and residential opportunities in

the Southern Sector.

GOAL 2.2 ENGAGE IN STRATEGIC ECONOMIC DEVELOPMENT

Policy 2.2.2 Maximize development opportunities around DART stations.

GOAL 2.5 FOSTER A CITY OF GREAT NEIGHBORHOODS

Policy 2.5.1 Promote strong and distinctive neighborhoods to enhance Dallas' quality of life.

Policy 2.5.2 Ensure that existing and future residential areas are appropriately linked in order to enhance economic development and urban design benefits.

URBAN DESIGN ELEMENT

GOAL 5.1 PROMOTE A SENSE OF PLACE, SAFETY AND WALKABILITY

Policy 5.1.3 Encourage complementary building height, scale, design, and character.

GOAL 5.2 STRENGTHEN COMMUNITY AND NEIGHBORHOOD IDENTITY

Policy 5.2.1 Maintain neighborhood scale and character.

NEIGHBORHOOD PLUS

POLICY 4.3 Enhance neighborhood desirability by improving infrastructure, housing stock, recreation, and safety.

POLICY 5.2 Encourage infill development and existing home improvements in target neighborhoods to attract and retain homeowners.

GOAL 5 EXPAND HOMEOWNERSHIP

Policy 5.1 Encourage a wider range of well designed and affordable housing types as a response to emerging homeownership preferences.

Action 5.1.1 Conduct rezonings in target areas to remove barriers to more diverse and affordable single family homeownership options including small-lot single family, duplexes, townhomes, cottage homes, and courtyard homes.

GOAL 6.1 Raise the quality of rental property through better design standards, proactive and systematic code enforcement, and zero tolerance toward chronic offenders.

GOAL 6.2 Expand affordable housing options and encourage its distribution throughout the city and region.

Active Area Plans

The 360 Plan:

The *360 Plan* was adopted by the City Council in December 2017 as a guide to future actions concerning land use and development regulations, transportation, economic development and capital improvement expenditures in the area generally bounded by a two-and-a-half-mile radius centered on the intersection of Main Street and Akard Street. This plan outlines three transformative strategies suggested by City Council with an overall goal that focuses on a complete and connected city center for future growth and development throughout the city.

Although the area of request is just outside of the boundaries of the 360 Area Plan, staff finds it useful to provide information on the area plan as it is found to be pertinent to the immediate area. The request complies with, but not limited to, the following transformative strategies and their respective goals of the 360 Plan:

I. BUILD COMPLETE NEIGHBORHOODS

- Family-Friendly Housing
- Diversity in Price Point
- Diversity in Product Type

II. ADVANCE URBAN MOBILITY

- The 360 Plan Urban Mobility Principles
- Pedestrian District Connector

III. PROMOTE GREAT PLACEMAKING

- Activate The Public Realm

Land Use:

	Zoning	Land Use
Site	PD 134 Subarea A, Single Family	Single family
North	PD 134 Subarea A, Single Family and others	single family, duplex
South	PD 134 Subarea A, Single Family and others	Single family, duplex
East	PD 134 Subarea A, Single Family and others	Single family
West	PD 134 Subarea A, Single Family and others	Single family

Land Use Compatibility:

The area of request is currently developed with an existing single family home and driveway (approx. 7,405 square feet in total size), zoned Planned Development District No. 134. The site is generally surrounded by single family and duplex uses within Subarea A of PD No. 134. The area has mostly single family homes to the north, east and west of the site with duplexes to the south, as well as standard 7,500 square foot single family lots split to sizes around 3,500. The area is within walking distance to retail, churches, as well as schools within the Mount Auburn neighborhood. Staff finds the applicant's proposed multifamily development to be compatible with surrounding land uses.

The site lies within Planned Development District No. 134 Subarea A. This PD accomplishes zoning of sites through a land use map that designates specific parcels as being for single family or for duplex use, as well as other uses. The only uses permitted within Subarea A are single family and duplex uses and uses permitted in the R-7.5 Single Family District.

The character of the area is predominantly single family detached with a substantial number of duplexes as well. The standards for development follow that of the R-7.5 Single Family District, with a minimum front yard setback of 10' and other setback deviations, detailed in the table below. These standards apply to both duplexes and single family houses.

Staff supports the applicant's request of proposed rezoning to a duplex use and finds this to be appropriate for this area that would benefit from a well-designed project that includes good design standards and increases housing stock. Additionally, staff supports the request because it is in line with the long range planning goals and proposed fabric of land uses for this area, the character and existing development of the neighborhood, and will follow the existing development standards required by PD 134,

rather than the standards of a D(A) Duplex District. The site is also in close proximity to the Santa Fe Trail, which can act as supporting infrastructure.

Development Standards

The following is a comparison of the development standards of the R-7.5 Single Family District, the PD. No. 134 single family and duplex standards, and for comparison, the D(A) Duplex District.

District	Setback		Density	Height	Lot Cvrg.	Special Standards	Primary Uses
	Front	Side/Rear					
R-7.5 Single Family	25'	5'	Min. lot size is 7,500 sqft	30'	45% residential	Min. lot width 55'	Single family
Existing: PD 134 Single Family and Duplex	10' ¹	5'	Min. lot size is 7,250 sqft	30'	45% residential	Min. lot width 50'	Single family, duplex
D(A) Duplex	25' ²	Single family: 5' Duplex: 5' side, 10' rear	Min. lot size is 6,000 sqft	36'	60% residential		Single family, duplex

¹ Setbacks on interior lots are the same as, or between, setbacks of closest adjacent structures. Structure on vacant corner lot must conform to setback that is within 5% of setback of closest adjacent structure within same block.

² Would impose greater setback on properties in the future due to blockface continuity standards.

The proposed change does not alter any of the development standards of the existing zoning, and duplexes developed under this district would be subject to the same standards established in PD 134 Subarea A. Only the use would be change.

Land Use Comparison

Following is a comparison table showing differences in permitted uses between the existing and proposed zoning districts.

Warehouse		

Landscaping:

Landscaping must be provided in accordance with the landscaping requirements in Article X, as amended.

Parking:

Pursuant to Chapter 51 of the Dallas Development Code, the off-street parking requirement for a duplex use is two parking spaces per dwelling unit. The applicant would be required to comply with standard parking minimums at permitting.

Market Value Analysis:

Market Value Analysis (MVA), is a tool to aid residents and policy-makers in understanding the elements of their local residential real estate markets. It is an objective, data-driven tool built on local administrative data and validated with local experts. The analysis was prepared for the City of Dallas by The Reinvestment Fund. Public officials and private actors can use the MVA to more precisely target intervention strategies in weak markets and support sustainable growth in stronger markets. The MVA identifies nine market types (A through I) on a spectrum of residential market strength or weakness. As illustrated in the attached MVA map, the colors range from purple representing the strongest markets (A through C) to orange, representing the weakest markets (G through I). The area of request is within an “F” MVA area. To the north of the property are both “C” and “F” MVA areas, to the east is “F” MVA area, to the south are both “F” and “H” MVA areas and to the west are “C”, “E” and “F” MVA areas.
