COUNCIL DISTRICT: 1
SIZE OF REQUEST: 11.78 acres **CENSUS TRACT:** 48113010701

REPRESENTATIVE: Jesse Copeland, Winstead PC

OWNER: Gholamreza Eskandarlou [Sole Owner]

APPLICANT: JPI Real Estate Acquisition, LLC

REQUEST: An application for 1) MF-2(A) Multifamily District; and 2) the termination of deed restrictions [Z956-328] on property zoned a Residential R-7.5(A) Subdistrict within Planned Development District No. 631, the West Davis Special Purpose District.

SUMMARY: The purpose of the request is to allow a multifamily development on the site.

STAFF RECOMMENDATION: 1) **Approval** of an MF-2(A) District; and 2) **approval** of the termination of deed restrictions [Z956-328] as volunteered by the applicant.

BACKGROUND INFORMATION:

- The area of request is currently an undeveloped vacant lot, zoned a Residential R-7.5(A) Subdistrict within Planned Development District No. 631.
- Geographically located in southwest Dallas the greater Oak Cliff area, approx. 8 miles from downtown.
- This lot has frontage only on West Davis Street.
- Applicant proposes a multifamily development.
- Applicant will be providing mixed income housing to receive bonuses to FAR, height, and parking requirement reductions.
- Applicant is requesting a general zoning change.

Zoning History:

There have been no zoning cases in the area in the last five years.

Thoroughfares/Streets:

Thoroughfare/Street	Type	Existing/Proposed ROW
West Davis Street	Principal Arterial	100 feet
North Dwight Avenue	Local Street	-
Chalk Hill Road	Principal Arterial	100 feet

Traffic:

The Transportation Development Services Division of the Transportation Department has reviewed the request and determined that it will not significantly impact the surrounding roadway system. Staff will continue review of engineering plans at permitting to comply with city standards.

STAFF ANALYSIS:

Comprehensive Plan:

The *forwardDallas! Comprehensive Plan* was adopted by the City Council in June 2006 and outlines several goals and policies which can serve as a framework for assisting in evaluating the applicant's request.

The request does not comply with the following land use goals and policies of the Comprehensive Plan:

LAND USE ELEMENT

GOAL 1.1 ALIGN LAND USE STRATEGIES WITH ECONOMIC DEVELOPMENT PRIORITIES

Policy 1.1.5 Strengthen existing neighborhoods and promote neighborhoods' unique characteristics.

GOAL 1.2 PROMOTE DESIRED DEVELOPMENT

Policy 1.2.2 Establish clear and objective standards for land use planning.

ECONOMIC ELEMENT

GOAL 2.5 FOSTER A CITY OF GREAT NEIGHBORHOODS

Policy 2.5.1 Promote strong and distinctive neighborhoods to enhance Dallas' quality of life.

URBAN DESIGN ELEMENT

GOAL 5.1 PROMOTE A SENSE OF PLACE, SAFETY AND WALKABILITY

Policy 5.1.1 Promote pedestrian-friendly streetscapes

Policy 5.1.3 Encourage complementary building height, scale, design and character

Policy 5.1.4 Enhance visual enjoyment of public space.

GOAL 5.2 STRENGTHEN COMMUNITY AND NEIGHBORHOOD IDENTITY

Policy 5.2.1 Maintain neighborhood scale and character.

NEIGHBORHOOD PLUS

GOAL 4.1 ATTRACT AND RETAIN THE MIDDLE CLASS

POLICY 4.3 Enhance neighborhood desirability by improving infrastructure, housing stock, recreation, and safety.

GOAL 5.0 EXPAND HOMEOWNERSHIP

POLICY 5.2 Encourage infill development and existing home improvements in target neighborhoods to attract and retain homeowners.

GOAL 6.1 Raise the quality of rental property through better design standards, proactive and systematic code enforcement, and zero tolerance toward chronic offenders.

GOAL 6.2 Expand affordable housing options and encourage its distribution throughout the city and region.

Land Use:

	Zoning	Land Use
Site	PD. No. 631, R-7.5(A), Tract 2	Undeveloped vacant land
North	PD. No. 631, MMU, Tract 1	Amazon Warehouse & surface parking
South	R-7.5(A)	Single Family
East	PD. No. 631, R-7.5(A), Tract 2	Undeveloped land, Mount Carmel Center
West	PD. No. 631, R-7.5(A), Tract 2	Undeveloped land & single family

Land Use Compatibility:

The area of request is currently undeveloped vacant land, zoned PD. No 631, Tract 2 (approx. 11.781 acres in total size).

To the north of the property are commercial retail uses developed as an Amazon warehouse with surface parking. To the south of the site exist single family uses, and to both the east and west of the site exist a combination of single family residential, undeveloped land, and institutional uses. Specifically, Mount Carmel Center church is to the east. A tract of medium mixed-use development housed within PD 631, is located to the northeast of the subject site, which entitles this land to denser development than the existing single family to the east, south and west of the site. There are existing residential uses directly adjacent to the subject site towards the south, east, and west; therefore, staff is in support of the proposed request to rezone the property to MF-2(A) for the development of multifamily housing. Staff believes it to be appropriate next to the existing residential uses. However, it would be beneficial to the health and welfare of the

community to reduce the impact of such a proposal, implement the proposed development at a level that meets or exceeds design standards and provide mixed income housing. Staff would be in full support of the applicant’s request with the understanding that the applicant will provide tremendous public benefit.

Staff supports the request due to the potential positive impacts to surrounding uses, potential public benefit, the request fitting within the fabric of the neighborhood, the request meeting and complying with overall comprehensive plan goals mentioned in this report, and residential proximity. Staff supports the request because the use is not foreseen to be detrimental to the surrounding uses and properties. Additionally, staff supports the termination of the existing deed restrictions [Z956-328], as volunteered by the applicant, because they are not applicable to the proposed multifamily development.

Development Standards:

Following is a comparison of the development standards of the current R-7.5(A) Single Family District and the proposed MF-2(A) Multifamily District.

District	Setback		Density	Height	Lot Cvrg.	Special Standards	Primary Uses
	Front	Side/Rear					
Existing: R-7.5(A) in PD 631	25'	SF: 5' Other: 10' / 15'	1 du/7,500 sf	30'	Res: 45% Non-res: 25%		Single family
Proposed: MF-2(A)	15'	SF: None Duplex: 5' / 10' Other: 10' / 15'	Min lot 1,000 sf 800 sf – E 1,000 sf – 1BR 1,200 sf – 2BR +150 sf each add BR	36'	Res: 60% Non-res: 50%	Proximity Slope	Multifamily , duplex, single family
Proposed: MF-2(A) w/MIHDB				85'*	85%*	Proximity Slope	Multifamily , duplex, single family

* Development bonuses are available when the applicant proposes to provide mixed income housing within their development. The applicant’s project can receive bonuses to height and lot coverage pending the selected base zoning district, MVA area the project sits in, and the income band chosen. Development bonuses that would be available to an MF-2(A) District in an “H” MVA area are as follows: max allowable height increases from 45 feet to 85 feet, lot coverage increases from 80 percent to 85 percent, and parking reductions from the required 1 parking space per bedroom to one-half parking space per unit (see parking section of this report).

Landscaping:

Landscaping will be provided in accordance with the landscaping requirements in Article X, as amended.

Parking:

The request is to move from a PD No. 631 to a base MF-2(A) Multifamily District, therefore the parking regulations default to standard code in Chapter 51A. According to Chapter 51A, the use follows the standard parking requirement for multifamily development. Pursuant to the Dallas Development Code, the off-street parking requirement for multifamily development in a MF-2(A) district is One space per bedroom with a minimum of one space per dwelling unit. An additional one-quarter space per dwelling unit must be provided for guest parking if the required parking is restricted to resident parking only. No additional parking is required for accessory uses that are limited principally to residents.

The applicant is proposing mixed income units within the multifamily development, this will trigger mixed income housing development bonuses max height, max lot coverage, and reduction in parking requirements. The parking requirements associated with the MIHDB are as follows; One-half parking space per unit. Of the required parking, at least 15 percent must be available for guest parking. No additional parking is required for accessory uses that are limited principally to residents.

This would simply be the *minimum* number of required spaces – the applicant could still provide additional spaces in excess of the required minimum.

Market Value Analysis:

Market Value Analysis (MVA), is a tool to aid residents and policy-makers in understanding the elements of their local residential real estate markets. It is an objective, data-driven tool built on local administrative data and validated with local experts. The analysis was prepared for the City of Dallas by The Reinvestment Fund. Public officials and private actors can use the MVA to target intervention strategies more precisely in weak markets and support sustainable growth in stronger markets. The MVA identifies nine market types (A through I) on a spectrum of residential market strength or weakness. As illustrated in the attached MVA map, the colors range from purple representing the strongest markets (A through C) to orange, representing the weakest markets (G through I). The area of request is currently in a “H” MVA area. There is “H” MVA area to the north, south, west, and east of the subject site.
