continue to receive the annual lease payments. Upon completion of the 75-year lease, DPFC will own the Project free and clear.

The DPFC's Project revenues will be used to fund DPFC operations and the provision of additional affordable workforce housing throughout the City. This proposed development results in foregone tax revenues for the City while the DPFC owns the asset. The current City tax bill for this property is \$64,539.00 and the 75-year estimate of foregone taxes is \$16,837,803.60. However, the workforce housing rental savings of \$42,541,352.00 over

75 years and the estimated \$1, 223,217.00 in Project revenues provide the City with \$44,108,216.00 in benefits that outweigh the foregone revenue.

The DPFC's estimated revenues were calculated by DPFC's partnership counsel and financial advisors. Market rent comps and current construction costs were analyzed to ensure the project costs are reasonable for the market. DPFC financial advisors have also confirmed that but for the ad valorem tax exemption, the Project would not be economically feasible and would not attract responsible debt and equity investment in the Project. Also, the DPFC's revenue consideration and affordability levels have been analyzed to confirm that the ad valorem tax exemption does not over-subsidize the Project.

The DPFC Board, its outside legal counsel, and its financial advisors have confirmed that this Project would not be feasible but for the DPFC's participation and that the Project furthers the goals of the DHP33. The DPFC Board recommends approval of this item to allow this mixed-income housing development to move forward.
