

FILE NUMBER: Z223-247(GB) **DATE FILED:** May 28, 2024
LOCATION: Southwest line of Mohawk Drive, southeast of Empire Central Drive
COUNCIL DISTRICT: 2
SIZE OF REQUEST: +/- 7,405 sq ft **CENSUS TRACT:** 48113000409

REPRESENTATIVE: Audra Buckley, Permitted Development
OWNER/APPLICANT: Jose Valentino Valles
REQUEST: An application for an MU-1 Mixed Use District on property zoned an IR Industrial Research District.
SUMMARY: The purpose of the request is to allow a single-family use the property.
STAFF RECOMMENDATION: Approval.

BACKGROUND INFORMATION:

- The area of request is currently zoned IR Industrial Research and developed with a single-family structure.
- The lot is accessible from Mohawk Drive.
- The applicant proposes to maintain the existing single-family structure.
- To accomplish this, the applicant requests an MU-1 Mixed Use district.

Zoning History:

There has been one zoning case in the area in the past five years.

1. **Z201-200:** On August 11, 2021, the Dallas City Council approved an application for an MF-2(A) Multifamily District on property zoned an IR Industrial Research District on the northwest line of Empire Central, southwest of Mohawk Drive.

Thoroughfares/Streets:

Thoroughfare/Street	Type	Existing ROW
Mohawk Drive	-	----

Traffic:

The Transportation Development Services Division of the Transportation Department has reviewed the request and determined that it will not significantly impact the surrounding roadway system. Staff will continue review of engineering plans at permitting to comply with city standards.

Comprehensive Plan:

The *forwardDallas! Comprehensive Plan* was adopted by the City Council in June 2006 and outlines several goals and policies which can serve as a framework for assisting in evaluating the applicant’s request.

The request complies with the following land use goals and policies of the Comprehensive Plan:

ECONOMIC ELEMENT

GOAL 2.1 PROMOTE BALANCED GROWTH

Policy 2.1.1 Ensure that zoning is flexible enough to respond to changing economic conditions.

URBAN DESIGN ELEMENT

GOAL 5.2.1 STRENGTHEN COMMUNITY AND NEIGHBORHOOD IDENTITY

Policy 5.2.1 Maintain neighborhood scale and character.

GOAL 5.3.1 ESTABLISHING WALK-TO CONVENIENCE

Policy 5.3.1 Encourage a balance of land uses within walking distance of each other.

Land Use:

	Zoning	Land Use
Site	IR Industrial Research	Single-Family
North	IR Industrial Research	Single-Family
South	MU-1 Mixed Use with deed restrictions... [Z845-28]	Vacant
East	IR Industrial Research	Vacant
West	Subarea II B within Planned Development District No. 759	Multifamily

Land Use Compatibility:

The property is zoned Industrial Research and developed with a single-family structure. Properties to the north and east are zoned Industrial Research and developed with single-family uses and some vacant areas. Properties to south is zoned MU-1 and undeveloped. Properties to the west are zoned Planned Development District No.759 and developed with multi-family uses.

The purpose of the industrial research district is to provide for research and development, light industrial, office, and supporting commercial uses in an industrial research park setting. This district is not intended to be located in areas of low and medium density residential development. The applicant is requesting to rezone the area of request to MU-1 to allow for the continued use of the existing single-family use. MU-1 zoning district would also eliminate any difficulties in developing adjacent properties and would not disrupt neighboring residential uses.

Land Use Comparison

Following is a comparison table showing differences in permitted uses between the existing and proposed zoning districts.

LEGEND

	Use prohibited
•	Use permitted by right
S	Use permitted by Specific Use Permit
D	Use permitted subject to Development Impact Review
R	Use permitted subject to Residential Adjacency Review
★	Consult the use regulations in Section 51A-4.203 or 51A-4.205

Development Standards

Following is a comparison of the development standards of the current IR Industrial Research District and the proposed MU-1 Mixed Use district

District	Setback		Density	Height	Lot Cvrg.	Stories	FAR
	Front	Side/Rear					
Existing: IR Industrial Research	15'	30' adj to res' ²	-----	200'	80%	15	0.5- Retail and personal service 0.75- lodging, office, retail and personal service 2.0 all other uses
Proposed: MU-1	15' 20' ¹	20' ²	No MUP: 15 MUP w/ 2 categories: 20 MUP w/3 categories: 25	MUP:80 MUP w/ mix no retail: 90 MUP w/retail: 120	80%	7 when height is 90 feet 9 when height is 120 feet	Ranging from 0.4 to 1.1 depending on uses

¹ Urban Form Setback: An additional 20-foot front yard setback is required for that portion of a structure above 45 feet in height.

² 20-feet adjacent to or directly across an alley from an R, R(A), D, D(A), TH, TH(A), CH, MF, or MF(A) district and no minimum in all other cases.

Landscaping:

Landscaping must be provided in accordance with the landscaping requirements in Article X, as amended.

Parking:

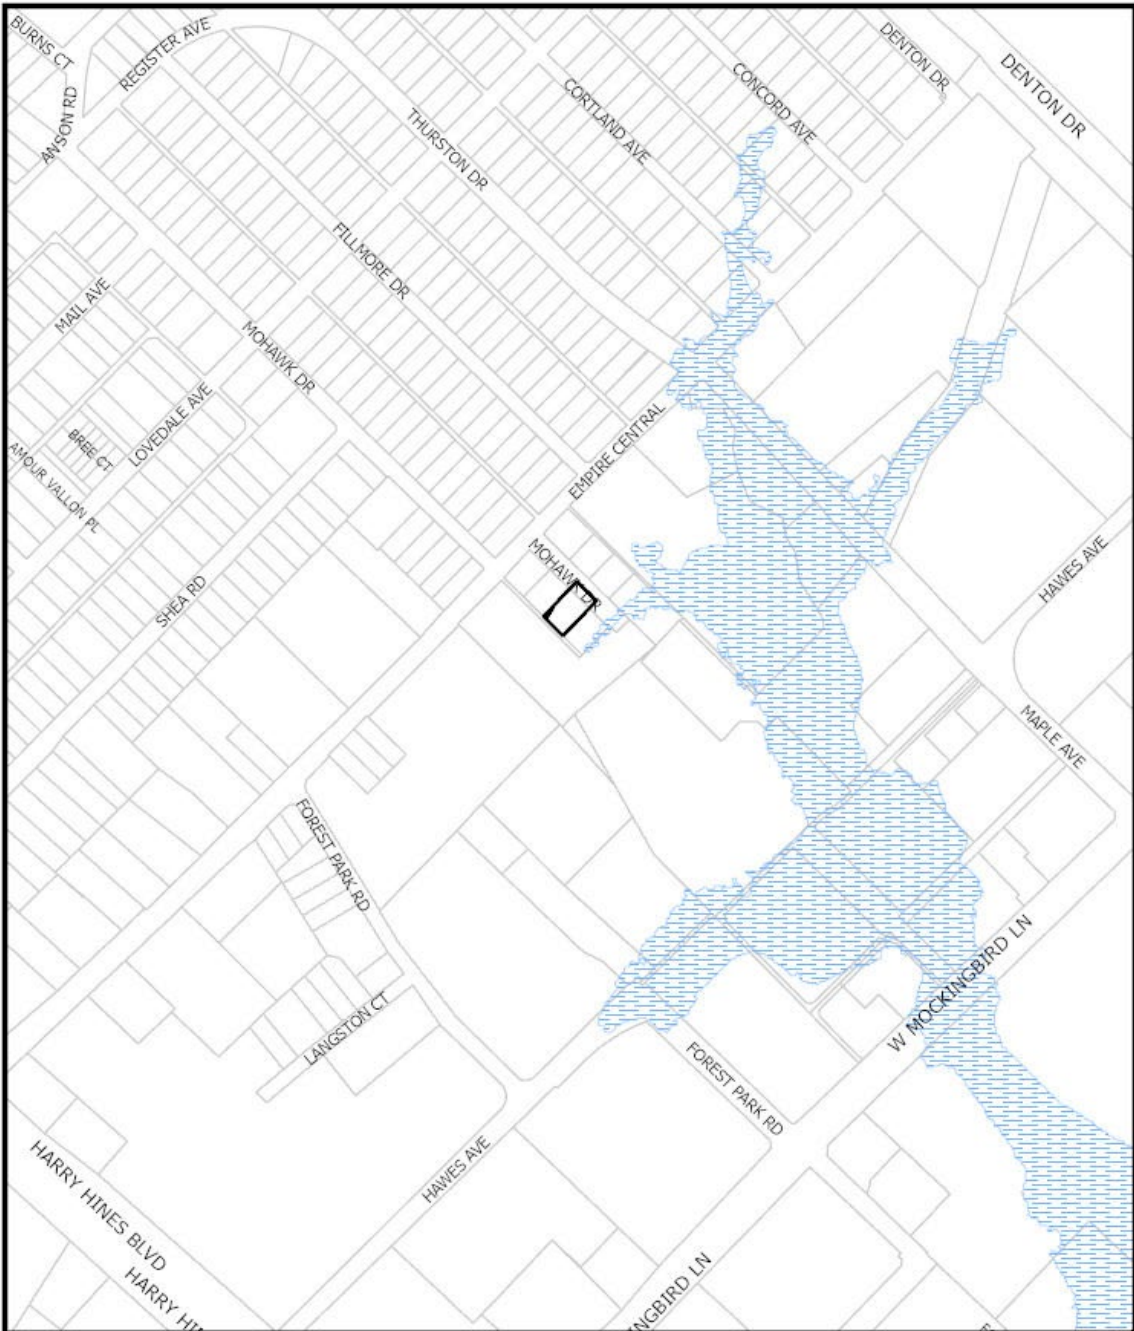

Pursuant to the Dallas Development Code, the off-street parking requirement for single family two spaces per dwelling unit. The applicant will be required to comply with standard parking ratios at permitting.

Market Value Analysis:

Market Value Analysis (MVA), is a tool to aid residents and policymakers in understanding the elements of their local residential real estate markets. It is an objective, data-driven tool built on local administrative data and validated with local experts. The analysis was prepared for the City of Dallas by The Reinvestment Fund. Public officials and private actors can use the MVA to more precisely target intervention strategies in weak markets and support sustainable growth in stronger markets. The MVA identifies nine market types (A through I) on a spectrum of residential market strength or weakness. As illustrated in the attached MVA map, the colors range from purple representing the strongest markets (A through C) to orange, representing the weakest markets (G through I). The area of request is located in “C” MVA cluster.
