STAFF ANALYSIS:

Comprehensive Plan:

The forwardDallas! Comprehensive Plan (2.0) was adopted by the City Council in September 2024 and, outlines several goals and policies which can serve as a framework for assisting in evaluating the applicant’s request.

The SUP amendment is consistent with ForwardDallas 2.0. The new development is well withing reason of the adjacent TXDOT frontage. Improved sidewalks and landscaping help provide a more walkable environment. This site is an improvement to the corridor while also being compatible with the conditions surrounding the site.

Market Value Analysis:

Market Value Analysis (MVA), is a tool to aid residents and policy-makers in understanding the elements of their local residential real estate markets. It is an objective, data-driven tool built on local administrative data and validated with local experts. The analysis was prepared for the City of Dallas by The Reinvestment Fund. Public officials and private actors can use the MVA to more precisely target intervention strategies in weak markets and support sustainable growth in stronger markets. The MVA identifies nine market types (A through I) on a spectrum of residential market strength or weakness. As illustrated in the attached MVA map, the colors range from purple representing the strongest markets (A through C) to orange, representing the weakest markets (G through I). The area of request is currently within an "I" MVA area.
