

**CITY PLAN COMMISSION**

**THURSDAY, AUGUST 7, 2025**

**Planner: Michael V. Pepe**

**FILE NUMBER:** Z-25-000098

**DATE FILED:** July 9, 2025

**LOCATION:** East line of Stone Mesa Drive and the west line of Pinnacle Park Boulevard, between Rock Quarry Road and Pinnacle Point Drive.

**COUNCIL DISTRICT:** 1

**SIZE OF REQUEST:** 37.812 acres

**CENSUS TRACT:** 48113010701

---

**APPLICANT:** Alexandra Lamb, Westwood Professional Services

**OWNER:** Park and Recreation Department, City of Dallas

**REQUEST:** An application for MU-1 Mixed Use District on property zoned IR Industrial Research District and Planned Development District 525 with Specific Use Permit 98.

**SUMMARY:** The purpose of the request is allow public park and private recreation center, club, or area uses.

**STAFF RECOMMENDATION:** Approval.

**BACKGROUND INFORMATION:**

- The area of request is currently zoned IR Industrial Research District and PD 525 and is undeveloped.
- The applicant proposes a public park with an indoor recreation center on site. To accomplish this, they propose an MU-1 Mixed Use District to permit the uses by right.
- The site is accessed from Stone Mesa Drive and Pinnacle Park Boulevard.
- MU-1 Mixed Use District is an appropriate district for the site and surrounding area. It is supported by the adjacent Forward Dallas Placetypes of Flex Commercial, and the proposed public park use is consistent with the site's placetype of Regional Open Space.
- The rezoning also removes existing industrial zoning located near existing residential uses.

**Zoning History:**

There have not been any zoning cases in the area of notification in the last five years.

**Thoroughfares/Streets:**

Thoroughfare/Street	Type	Proposed ROW
Pinnacle Park Boulevard	Community Collector	44' pavement, 60' ROW
Stone Mesa Drive	Local	50'

**Traffic:**

The Transportation Development Services Division of the Transportation Department has reviewed the request and determined that it will not significantly impact the surrounding roadway system.

**Transit Access:**

The following transit services are located within ½ mile of the site:

DART Route 57

**STAFF ANALYSIS:**

**Comprehensive Plan:**

### **Comprehensive Plan Consistency Review**

- ForwardDallas 2.0 is the citywide Comprehensive Plan for future land use in the City of Dallas. Adopted by City Council in September 2024, the plan includes a future land use map and guidance for a future vision of the City of Dallas. It also establishes goals and guidelines for land use and other decisions by the City. According to the City of Dallas's Development Code, the comprehensive plan serves merely as a guide for rezoning requests, but does not establish zoning boundaries nor does it restrict the City's authority to regulate land use.

### **Consistency Review Recommendation**

The proposed uses of public park and private recreation center, club, or area are consistent with the Regional Open Space placetype. The mixed use zoning is compatible both with the surrounding Flex Commercial Placetype and the Community Mixed Use to the east. The proposed zoning is **consistent** with Forward Dallas.

### **Placetype Summary**

Placetypes describe the long term vision and desired building and preservation characteristics for different places within the city including neighborhoods, mixed-use areas, employment and industry centers, and open spaces. They provide a high-level guide for the desired mix of land uses, design and the recommended intensity and scale of the different uses. Due to the macro scale of the plan, not all uses or design considerations described within the placetypes may be suitable for every individual property.

### **Subject Property Placetype(s) Regional Open Space**

Lakes, rivers, streams, forests and parks form a vital system of regional open spaces throughout Dallas. Nature preserves such as Cedar Ridge Preserve and green corridors such as the Trinity Greenbelt are examples of this placetype. Regional open spaces are typically open to everyone and can be programmed with a mix of recreational and leisure activities. Regional open spaces preserve important environment and ecological functions in addition to leisure and recreation. These natural environs give city residents a way to escape from their urban surroundings and opportunities to enjoy Dallas' natural resources. Preserving Regional Open Space areas is vital to the long-term environmental health and quality of life of residents and visitors of Dallas. Parks and open spaces of different sizes and utilities should be integrated throughout Dallas to serve neighborhoods and developments; however, the Regional Open Space place-type is reserved for large, dedicated areas that function as distinct places in their own right. Smaller scale communities, neighborhood parks, and greenways complement and add to these Regional Open Spaces.

## PLACETYPE CATEGORIES

A placetype represents a holistic, larger scale vision for a community or place that incorporates a desired mix of land uses, design, and density.

	REGIONAL OPEN SPACE		NEIGHBORHOOD MIXED-USE
	SMALL TOWN RESIDENTIAL		COMMUNITY MIXED-USE
	COMMUNITY RESIDENTIAL		REGIONAL MIXED-USE
	CITY RESIDENTIAL		CITY CENTER
	FLEX COMMERCIAL		LOGISTICS/INDUSTRIAL PARK
	INDUSTRIAL HUB		INSTITUTIONAL CAMPUS
	AIRPORT		UTILITY

**Land Use:**

	<b>Zoning</b>	<b>Land Use</b>
<b>Site</b>	IR Industrial Research District , PD 525	Undeveloped
<b>North</b>	PD 593	Warehouse
<b>East</b>	PD 811, MF-3(A)	Multifamily, Undeveloped
<b>South</b>	PD 525	Warehouse
<b>West</b>	PD 525	Undeveloped

**Land Use Compatibility:**

North of the site, there is a warehouse under PD 593. East across Pinnacle Park Boulevard, there are residential uses and an undeveloped parcel. South of the site are multiple warehouses. There is an undeveloped site west across Stone Mesa.

The proposed zoning is appropriate on the site, which would act as a transition between industrial to the west and the residential uses to the east. It would also permit the proposed use, which would be consistent with the Regional Open Space placetype.

The proposed change would also remove industrial zoning in proximity to established residential uses.

**Land Use Comparison:****LEGEND**

Use prohibited

- Use permitted by right
- S Use permitted by Specific Use Permit
- D Use permitted subject to Development Impact Review
- R Use permitted subject to Residential Adjacency Review
- ★ Consult the use regulations in Section 51A-4.200

**Landscaping:**

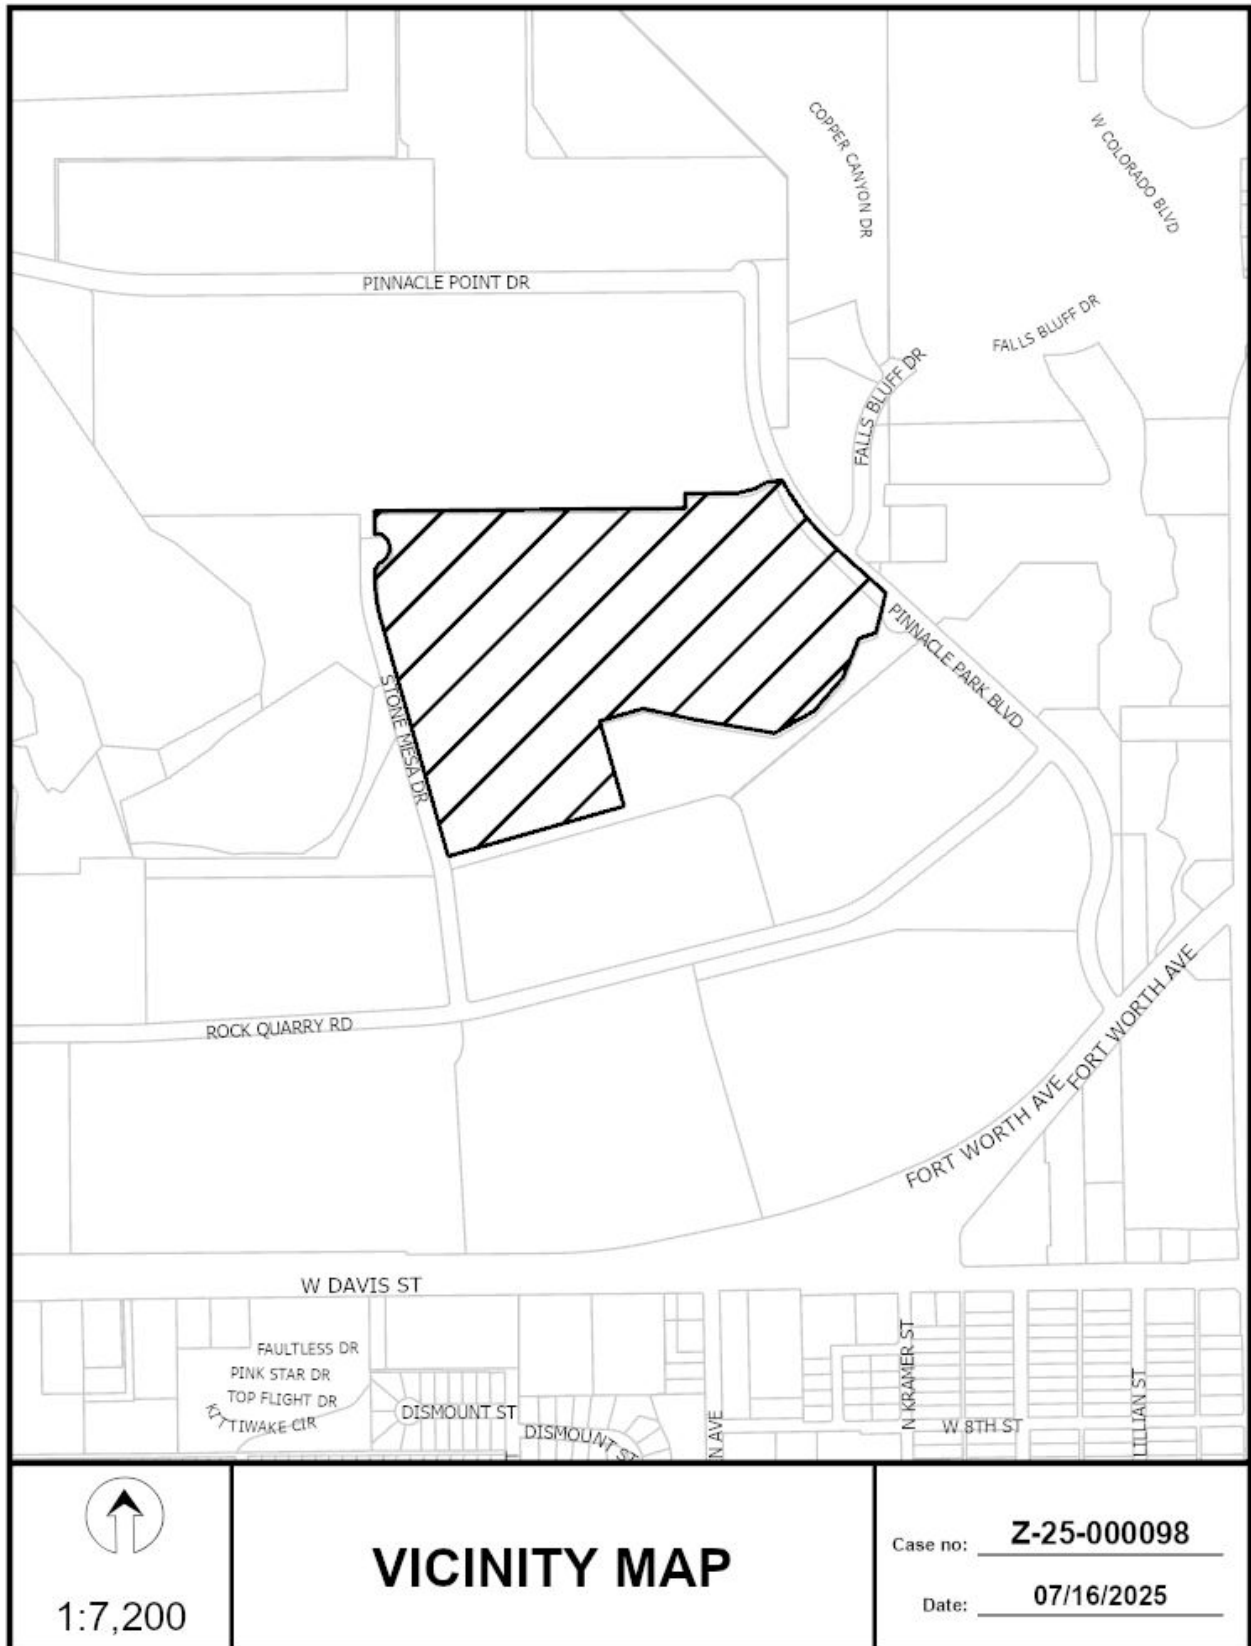

Landscaping and tree preservation must be provided in accordance with Article X, as amended.

**Parking:**

Parking is required to be provided in accordance with Chapter 51A, as updated May 14, 2025. There is no required parking for a public park use or a private recreation center, club, or area use.

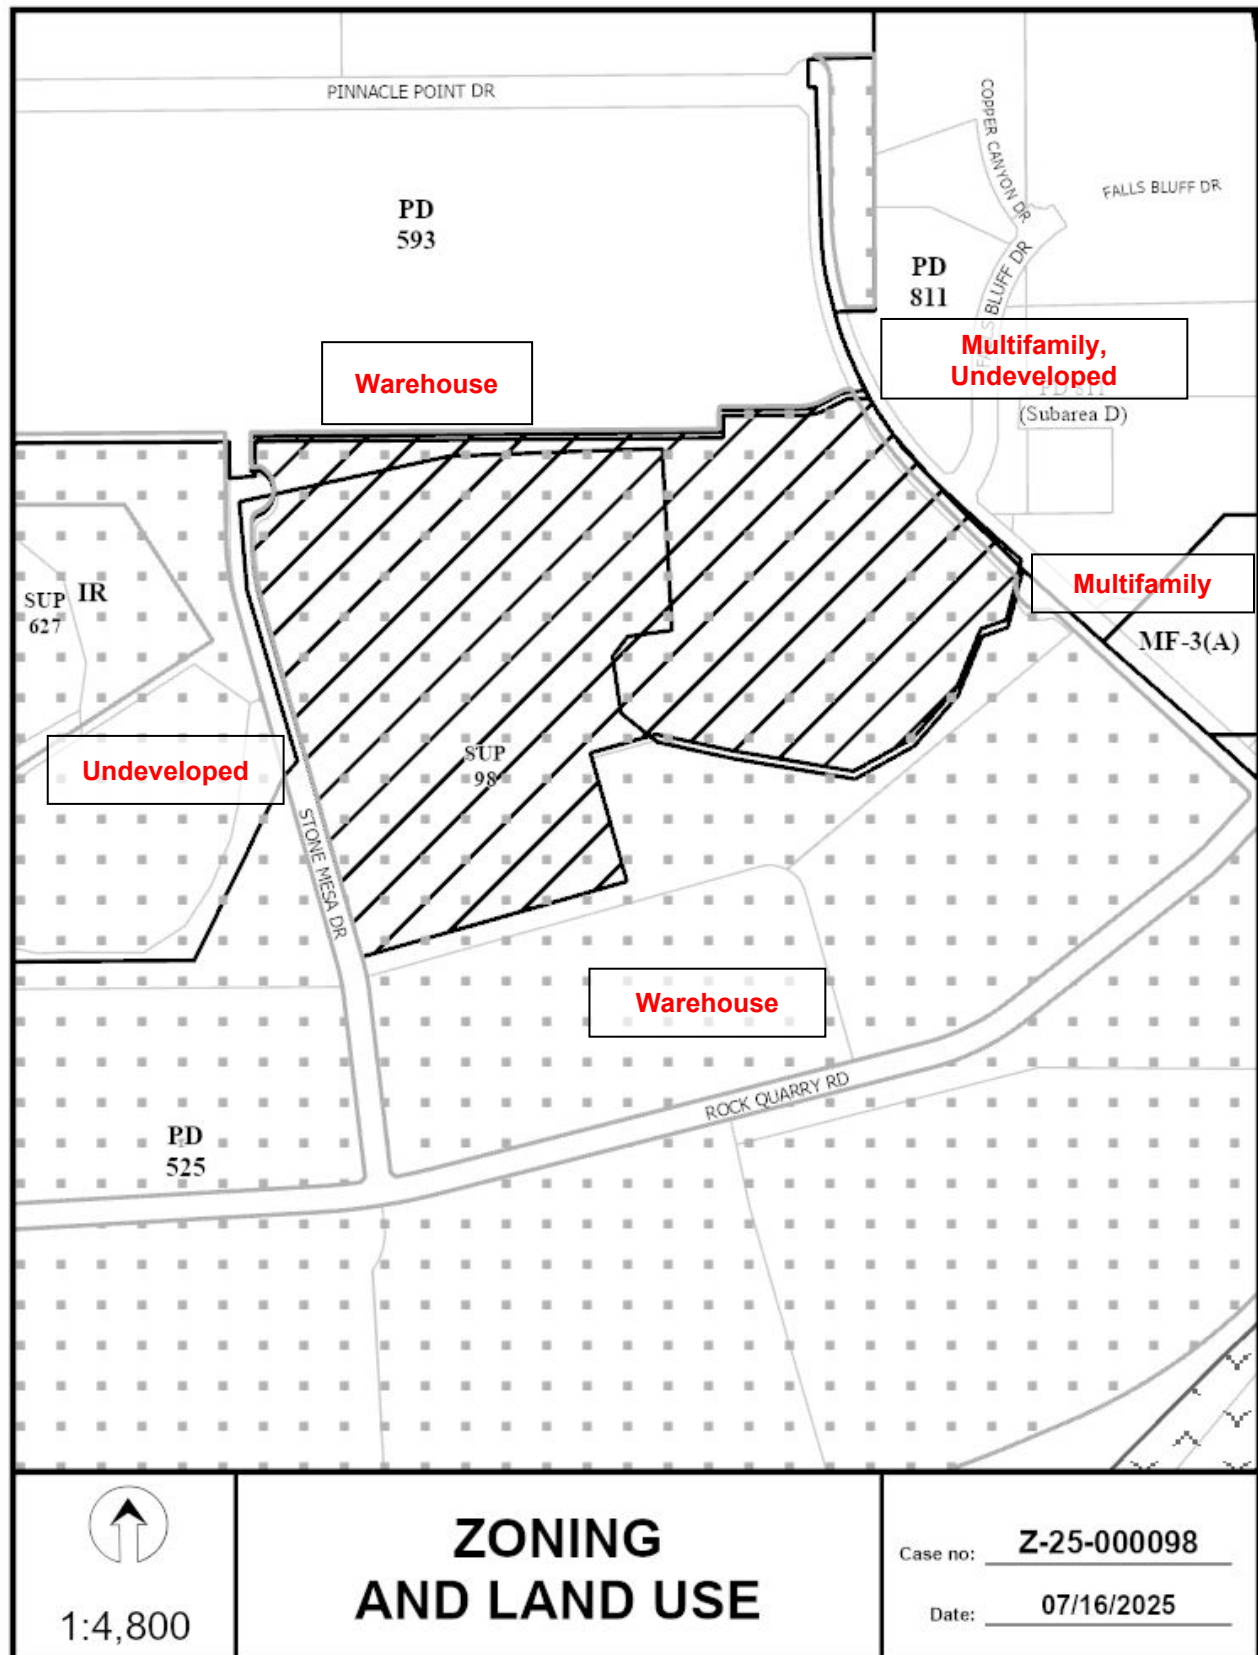

**Market Value Analysis:**

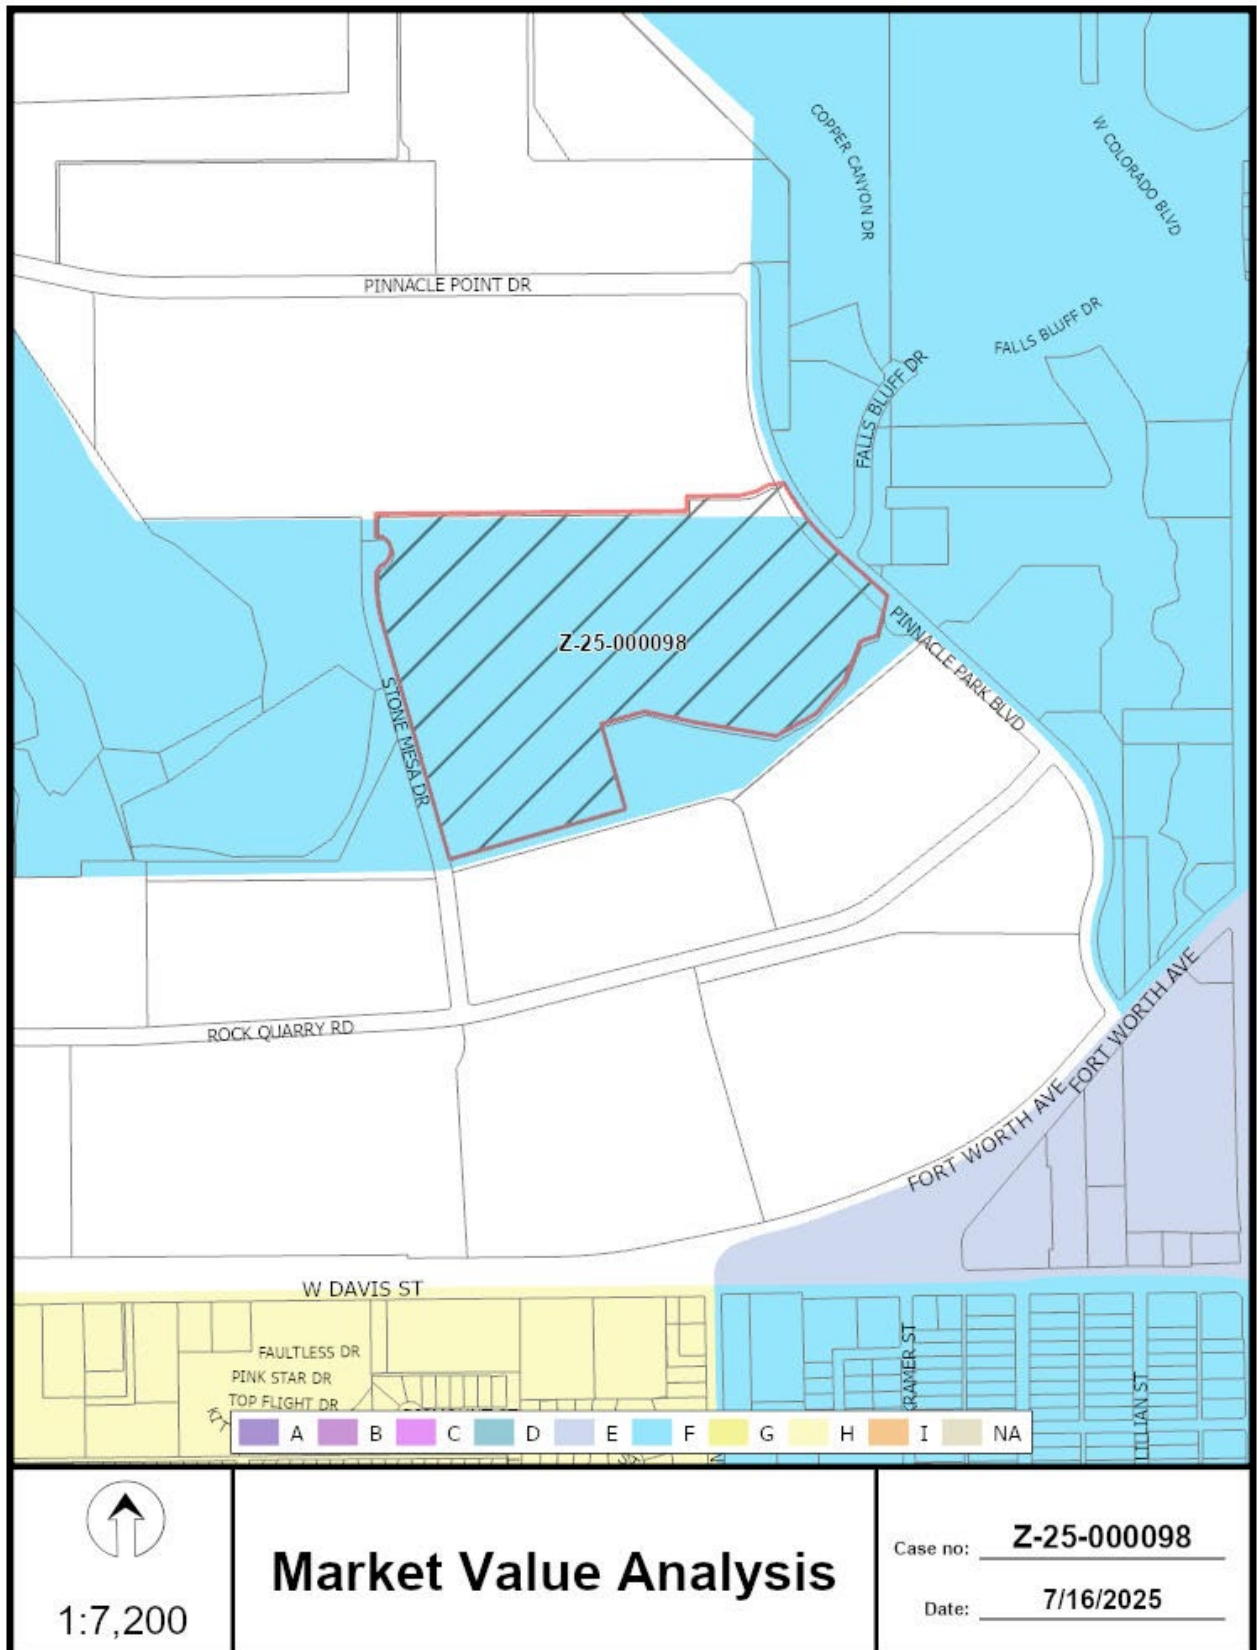

Market Value Analysis (MVA), is a tool to aid residents and policy-makers in understanding the elements of their local residential real estate markets. It is an objective, data-driven tool built on local administrative data and validated with local experts. The analysis was prepared for the City of Dallas by The Reinvestment Fund. Public officials and private actors can use the MVA to more precisely target intervention strategies in weak markets and support sustainable growth in stronger markets. The MVA identifies nine market types (A through I) on a spectrum of residential market strength or weakness. As illustrated in the attached MVA map, the colors range from purple representing the strongest markets (A through C) to orange, representing the weakest markets (G through I). The subject property is located within an MVA "F".
