BACKGROUND INFORMATION:

- The area of request is currently located within Subarea 4 of Planned Development District No. 366, with a D-1 Liquor Control Overlay District. Subarea 4 defaults to all uses permitted within the IM Industrial Manufacturing District. In a “D-1” liquor control overlay district, a person shall not sell or serve alcoholic beverages, or setups for alcoholic beverages, for consumption on or off the premises, unless the sale or service is part of the operation of a use for which a specific use permit has been granted by the city council.
- The area of request also holds Specific Use Permit No. 1850. SUP No. 1850 was approved by City Council on May 25, 2011 for a two-year period with eligibility for automatic renewals for additional five-year periods.
- On May 22, 2013, SUP No. 1850 was renewed and amended for a two-year period with eligibility for automatic renewals for additional five-year periods.
- On May 24, 2015, SUP No. 1850 was automatically renewed for additional five years.
- On February 24, 2021, SUP No. 1850 was renewed and amended for a two-year period, expiration date being February 24, 2023. The application for renewal was submitted in September 2022, thus the SUP is eligible for renewal.
- The property is currently developed with a 5,600 square-foot-building with five suites, one being used as convenience store with a gas station. The general merchandise suite is 3,000 square feet in area. The most recent certificate of occupancy for the convenience store was issued on June 8, 2020.

STAFF ANALYSIS

Land Use Compatibility

The site is surrounded by a mix of nonresidential uses of various intensity. The sale of alcoholic beverages on the property requires a specific use permit in the D-1 Dry Liquor Control Overlay and staff does not foresee any negative impact for selling alcoholic beverages in conjunction with an already established convenience store.

The general provisions for a Specific Use Permit in Section 51A-4.219 of the Dallas Development Code specifically state: (1) The SUP provides a means for developing certain uses in a manner in which the specific use will be consistent with the character of the neighborhood; (2) Each SUP application must be evaluated as to its probable effect on the adjacent property and the community welfare and may be approved or denied as the findings indicate appropriate; (3) The city council shall not grant an SUP for a use except upon a finding that the use will: (A) complement or be compatible with the

surrounding uses and community facilities; (B) contribute to, enhance, or promote the welfare of the area of request and adjacent properties; (C) not be detrimental to the public health, safety, or general welfare; and (D) conform in all other respects to all applicable zoning regulations and standards. The regulations in this chapter have been established in accordance with a comprehensive plan for the purpose of promoting the health, safety, morals, and general welfare of the city.

The general merchandise use is also regulated by Chapter 12B of the Dallas City Code, Convenience Stores. This chapter applies to all convenience stores, which is defined as any business that is primarily engaged in the retail sale of convenience goods, or both convenience goods and gasoline, and has less than 10,000 square feet of retail floor space; the term does not include any business that has no retail floor space accessible to the public. The purpose of Chapter 12B is to protect the health, safety, and welfare of the citizens of the city of Dallas by reducing the occurrence of crime, preventing the escalation of crime, and increasing the successful prosecution of crime that occurs in convenience stores in the city. This chapter establishes a registration program for convenience stores and provides requirements relating to:

- surveillance camera systems,
- video recording and storage systems,
- alarm systems,
- drop safes,
- security signs,
- height markers,
- store visibility,
- safety training programs, and
- trespass affidavits.

A separate certificate of registration to comply with Chapter 12B is required for each physically separate convenience store. A certificate of registration for a convenience store expires one year after the date of issuance and must be renewed annually. The Dallas Police Department has determined that the request site meets the standards in Chapter 12B.

The applicant's request subject to the attached conditions is consistent with the intent of the Dallas Development Code.

Landscaping

There are no changes to the site. So, no additional landscaping is required.

Parking

The Dallas Development Code requires off-street parking to be provided for a general merchandise or food store use at one space for each 200 square feet of floor area. There are no changes to the site and the parking is being provided the same as when the SUP was initially approved. 28 parking spaces are indicated on the SUP Site Plan.

Market Value Analysis

Market Value Analysis (MVA), is a tool to aid residents and policymakers in understanding the elements of their local residential real estate markets. It is an objective, data-driven

tool built on local administrative data and validated with local experts. The analysis was prepared for the City of Dallas by The Reinvestment Fund. Public officials and private actors can use the MVA to more precisely target intervention strategies in weak markets and support sustainable growth in stronger markets. The MVA identifies nine market types (A through I) on a spectrum of residential market strength or weakness. As illustrated in the attached MVA map, the colors range from purple representing the strongest markets (A through C) to orange, representing the weakest markets (G through I). The area of request is not within an identifiable MVA cluster. Surrounding properties to the northeast and northwest are within “H” category and surrounding properties to the southeast are within “I” category.

Crime Statistics

Based on Dallas Police Department's crime statistics between February 2021 and March 2023, 27 offenses, 7 arrest, and 167 calls were generated from the subject property.
