

FILE NUMBER: Z245-216(LC) / Z-25-000099 **DATE FILED:** April 21, 2025

LOCATION: Northwest corner of North Masters Drive and Bruton Road

COUNCIL DISTRICT: 7

SIZE OF REQUEST: 1.1829 acres

CENSUS TRACT: 48113012000

REPRESENTATIVE: Nazir Moosa

OWNER: Masters Dr Retail LLC

APPLICANT: Anand Gupta

REQUEST: An application for the termination of deed restrictions DR Z834-293, with consideration of an NS(A) Neighborhood Service District on property zoned CR Community Retail District with deed restrictions DR Z834-293.

SUMMARY: The purpose of the request is permit the use of a motor vehicle fueling station.

STAFF RECOMMENDATION: Approval of (1) NS(A) Neighborhood Service District and (2) approval of termination of deed restrictions.

CPC RECOMMENDATION: Approval of (1) NS(A) Neighborhood Service District and (2) denial of termination of deed restrictions.

BACKGROUND INFORMATION:

- The area of request is currently zoned CR Community Retail District with deed restrictions Z834-293
- This lot has frontage on Masters Drive and Bruton Road.
- The purpose of the request is to remove the deed restrictions to permit a motor vehicle fueling station and small retail uses, both of which are limited by the existing deed restrictions.
- A typical CR District would **not** be appropriate adjacent to residential uses. Light retail uses would however be appropriate within walking distance of the existing residential uses.
- The property has existing deed restrictions Z834-293 established in 1985 as the site was rezoned from R-7.5 to GR General Retail District. Because of this, the document contains terms from the 1965 zoning code, which now carry over to terms from the 1987 code when GR Districts became CR Districts. The deed restrictions include the following provisions:
 - Prohibiting the uses of drive-in restaurant (now called restaurant with drive-in or drive-through service), service station (now called motor vehicle fueling station), and multiple family (now called multifamily, previously permitted in commercial districts such as GR).
 - Specifying the yard lot and space of the site would conform with the 1965 NS Neighborhood Service District and listing them within the DR document, which override the standards of the 1987 district NS(A).
 - Specifying a 6-foot concrete or masonry wall must be maintained along the north and west property line.

Zoning History:

There has been 1 zoning case in the area of notification in the last five years.

1. Z212-167 On June 8 2022, the City Council moved for deny without prejudice for an application for a Specific Use Permit for the sale of alcoholic beverages in conjunction with a general merchandise or food store 3,500 square feet or less on property zoned CR-D-1 Community Retail District with D-1 Liquor Control Overlay, on the south line of Bruton Road, east of Lewiston Avenue

Thoroughfares/Streets:

Thoroughfare/Street	Type	Existing/Proposed ROW
Bruton Rd	Principal Arterial	100' ROW Bike Plan
Masters Dr	Minor Arterial	100' ROW Bike Plan

Traffic:

The Engineering Division of the Planning & Development Department has reviewed the request, had no objection and determined that it will not significantly impact the surrounding roadway system. Currently, the applicant does not propose any new construction. Staff will review engineering plans at permitting to comply with city standards.

Transit Access:

The following transit services are located within ½ mile of the site:

218, 220

STAFF ANALYSIS:**Comprehensive Plan:****Comprehensive Plan Consistency Review**

- ForwardDallas 2.0 is the citywide Comprehensive Plan for future land use in the City of Dallas. Adopted by City Council in September 2024, the plan includes a future land use map and guidance for a future vision of the City of Dallas. It also establishes goals and guidelines for land use and other decisions by the City. According to the City of Dallas's Development Code, the comprehensive plan serves merely as a guide for rezoning requests, but does not establish zoning boundaries nor does it restrict the City's authority to regulate land use.

Consistency Review Recommendation

- As the area is planned for Community Residential, retail uses are not a primary use in this placetype. As a secondary use in the placetype, context-appropriate retail uses may be suitable. The locally oriented NS(A) District would permit a scale and intensity of uses more appropriate than the existing CR District. A downzoning

alongside the termination of deed restrictions would reinforce Community Residential's call for "local commercial and office uses generally along main streets and at intersections, offering convenient access to goods and services, promoting a greater mix of uses, and supporting active, walkable environments." Walkable environments are not feasible without a mix of uses within walking distance.

Placetype Summary

- Placetypes describe the long term vision and desired building and preservation characteristics for different places within the city including neighborhoods, mixed-use areas, employment and industry centers, and open spaces. They provide a high-level guide for the desired mix of land uses, design and the recommended intensity and scale of the different uses. Due to the macro scale of the plan, not all uses or design considerations described within the placetypes may be suitable for every individual property.

Subject Property Placetype(s) Community Residential

- The Community Residential placetype encompasses the largest percentage of land within Dallas and is primarily made up of single-family homes. Parks, schools, and places of worship are interspersed throughout, providing focal points for community activity. Sensitively integrated housing types, such as duplexes and smaller-scaled multiplexes, can be found in many of these areas. Local commercial and office uses, as well as neighborhood-scaled apartments, may also be found, generally along main streets and at intersections, offering convenient access to goods and services, promoting a greater mix of uses, and supporting active, walkable environments.

PLACETYPE CATEGORIES

A placetype represents a holistic, larger scale vision for a community or place that incorporates a desired mix of land uses, design, and density.

- | | |
|--|---|
|  REGIONAL OPEN SPACE |  NEIGHBORHOOD MIXED-USE |
|  SMALL TOWN RESIDENTIAL |  COMMUNITY MIXED-USE |
|  COMMUNITY RESIDENTIAL |  REGIONAL MIXED-USE |
|  CITY RESIDENTIAL |  CITY CENTER |
|  FLEX COMMERCIAL |  LOGISTICS/INDUSTRIAL PARK |
|  INDUSTRIAL HUB |  INSTITUTIONAL CAMPUS |
|  AIRPORT |  UTILITY |

Land Use:

	Zoning	Land Use
Site	CR Community Retail District with DR Z834-293	Undeveloped
North	R-7.5(A) Single Family District	Single family
South	CR Community Retail District with a D-1 Liquor Control Overlay	Retail
East	TH-2(A) Townhouse District	Single family
West	R-7.5(A) Single Family District	Single family

Land Use Compatibility:

The area of request is currently undeveloped. Properties to the north and west include residential uses. To the east across Masters, there are additional residential uses under TH-2(A) zoning. South across Bruton Road, there is a larger retail complex.

The applicants proposed termination of deed restrictions is not appropriate without an accompanying change in zoning to a less intense district. Staff does not find a full CR Community Retail District appropriate adjacent to established residential uses. Staff's recommended NS(A) would be more appropriate as neighborhood scale retail, both with regard to uses permitted and development standards. The potential for uses such as auto service center, motor vehicle fueling station, and restaurant with drive through would not be appropriate on site adjacent to residential uses. NS(A) would not permit these uses. NS(A) would not permit the applicants specific proposed uses by right, but would be developable as a number of more appropriate uses without the burden of deed restrictions.

NS(A) is more in line with the Forward Dallas placetype of Community Residential, which calls for walkable neighborhoods, which is only possible with a degree of mixed uses.

The maximum height and footprint of an NS(A) district would be more appropriate than a CR district.

The deed restrictions included a restriction against multifamily uses, which were permitted in the district at the time. After September 1, 2025, the City of Dallas cannot enforce such a prohibition as long as the site remains commercially zoned.

Development Standards:

The following is a comparison chart of the development standards for the current CR District, the deed restricted standards, and the recommended NS(A) District.

District	Setback		Density	Height	Lot Cvrg	Special Standards
	Front	Side/Rear				
Existing: CR Base DR Modified	15'* 25'	20' adj res Else: No min. 20' adj res Else: No min	0.5 office 0.75 all uses 0.5 office 0.75 all uses	54' 26' effective 24'	60% 40%	Proximity Slope Visual Intrusion
Staff Rec.: NS(A)	15'*	20' adj res Else: No min.	0.5 all uses	35' w/ slope 30' 26' effective	40%	Proximity Slope Visual Intrusion

*25' front setback would be effective on site due to blockface continuity with R-7.5(A)
Either commercial district would be limited to 26' by RPS on site

Land Use Comparison

Following is a comparison table showing differences in permitted uses between the existing and proposed zoning districts.

<p><u>LEGEND</u></p> <p>Use prohibited</p> <ul style="list-style-type: none"> • Use permitted by right S Use permitted by Specific Use Permit D Use permitted subject to Development Impact Review R Use permitted subject to Residential Adjacency Review ★ Consult the use regulations in Section 51A-4.200

Trade center		
Vehicle storage lot		
Warehouse		

Landscaping:

Landscaping must be provided in accordance with the landscaping requirements in Article X, as amended.

Parking:

Pursuant to the Dallas Development Code, as updated May 14, 2025, there is no off-street parking requirement for the proposed motor vehicle fueling station and general merchandise or food store uses.

Market Value Analysis:

Market Value Analysis (MVA), is a tool to aid residents and policy-makers in understanding the elements of their local residential real estate markets. It is an objective, data-driven tool built on local administrative data and validated with local experts. The analysis was prepared for the City of Dallas by The Reinvestment Fund. Public officials and private actors can use the MVA to target intervention strategies more precisely in weak markets and support sustainable growth in stronger markets. The MVA identifies

nine market types (A through I) on a spectrum of residential market strength or weakness. As illustrated in the attached MVA map, the colors range from purple representing the strongest markets (A through C) to orange, representing the weakest markets (G through I). The area of request is in an "I" MVA area.

Existing Deed Restrictions (Proposed by the applicant to be terminated)

1. Multiple family uses, service stations, and drive-in restaurants as those terms are defined in the Dallas Development Code are not permitted on the Property. Convenience stores are also not permitted on the Property. "Convenience stores" means stores selling less than a full line of grocery items; provided, however, this definition does not include food stores selling primarily health foods and/or natural foods or a store selling primarily meat, fish and poultry products.
2. Development on the Property is subject to the yard, lot, and space regulations applicable to Neighborhood Service (NS) districts as set forth in the Schedule of Yard, Lot, and Space Regulations attached hereto and made a part hereof and marked Exhibit "E".
3. Owners, their successors and assigns, shall erect and maintain a concrete or masonry screening wall at least six (6) feet in height at or near and parallel to the north and west property lines of the Property. The screening wall must not be set back from Bruton Road a distance greater than the southernmost portion of any building constructed on the Property and must not be set back from Masters Drive further than the easternmost portion of any building constructed on the Property.
