

FILE NUMBER: Z223-212(MP) **DATE FILED:** February 22, 2023

LOCATION: Southeast corner of Prichard Lane and Scyene Road.

COUNCIL DISTRICT: 5

SIZE OF REQUEST: ±6.49 acres **CENSUS TRACT:** 48113009101

REPRESENTATIVE: Mariela Estrada

APPLICANT: Raul Estrada

OWNER: Marcer Construction

REQUEST: An application for an MU-1-D Mixed Use District with a D Liquor Control Overlay on property zoned a CR-D Community Retail District with a D Liquor Control Overlay.

SUMMARY: The purpose of the request is to permit residential uses on the site.

STAFF RECOMMENDATION: Approval.

BACKGROUND INFORMATION:

- The area of request is zoned a CR Community Retail District and is currently undeveloped.
- The applicant is proposing to develop the site with residential uses.
- The requested MU-1 Mixed Use District would be the most appropriate district to permit residential uses in adjacency to CR Community Retail District. MU-1 is also an appropriate transition from the residential uses to the southwest and the commercial uses along Buckner Boulevard.

Zoning History:

There have been two zoning cases in the area in the last five years.

1. **Z223-256:** An application for a Specific Use Permit for the sale of alcoholic beverages in conjunction with a restaurant without drive-in or drive-through service on property zoned with a D-1 Liquor Control Overlay, on the west side of South Buckner Boulevard, between North Scyene Road and Blossom Lane. [In progress]
2. **Z190-303:** On November 11, 2020, City Council approved an application for the renewal of Specific Use Permit No. 2160 for the sale of alcoholic beverages in conjunction with a general merchandise or food store 3,500 square feet or less on property zoned Subarea 7 within Planned Development District No. 366, the Buckner Boulevard Special Purpose District with a D-1 Liquor Control Overlay, on the northwest corner of South Buckner Boulevard and Scyene Road.

Thoroughfares/Streets:

Thoroughfare/Street	Type	Existing/Proposed ROW
Scyene Road	Community Collector	115 feet / 44 foot pavement, 60 foot ROW
Prichard Lane	Local	55 feet

Traffic:

The Transportation Development Services Division of the Transportation Department has reviewed the request and determined that it will not significantly impact the surrounding roadway system.

STAFF ANALYSIS:

Comprehensive Plan:

The *forwardDallas! Comprehensive Plan* was adopted by the City Council in June 2006 and outlines several goals and policies which can serve as a framework for assisting in evaluating the applicant's request.

An MU-1 Mixed Use District complies with the following land use goals and policies of the Comprehensive Plan:

LAND USE ELEMENT

GOAL 1.1 ALIGN LAND USE STRATEGIES WITH ECONOMIC DEVELOPMENT PRIORITIES

Policy 1.1.5 Strengthen existing neighborhoods and promote neighborhoods' unique characteristics.

GOAL 1.3 PROVIDE EQUITABLE OPPORTUNITIES FOR DALLAS RESIDENTS

Policy 1.3.1 Create housing opportunities throughout Dallas.

ECONOMIC ELEMENT

GOAL 2.1 PROMOTE BALANCED GROWTH

Policy 2.1.1 Ensure that zoning is flexible enough to respond to changing economic conditions.

GOAL 2.5 FOSTER A CITY OF GREAT NEIGHBORHOODS

Policy 2.5.1 Promote strong and distinctive neighborhoods to enhance Dallas' quality of life.

URBAN DESIGN ELEMENT

GOAL 5.1 PROMOTE A SENSE OF PLACE, SAFETY, AND WALKABILITY

Policy 5.1.1 Promote pedestrian friendly streetscapes.

Policy 5.1.3 Encourage complementary building height, scale, design, and character.

GOAL 5.2 STRENGTHEN COMMUNITY AND NEIGHBORHOOD IDENTITY

Policy 5.2.1 Maintain neighborhood scale and character.

Policy 5.2.4 Enhance retail, industrial and business operations.

GOAL 5.3 ESTABLISHING WALK-TO CONVENIENCE

Policy 5.3.1 Encourage a balance of land uses within walking distance of each other.

NEIGHBORHOOD PLUS

Goal 4 Attract and Retain the Middle Class

Policy 4.3 Enhance neighborhood desirability by improving infrastructure, housing stock, recreation, and safety.

Goal 5 Expand Homeownership

Policy 5.1 Encourage a wider range of well-designed and affordable housing types as a response to emerging homeownership preferences.

Policy 5.2 Encourage infill development and existing home improvements in target neighborhoods to attract and retain homeowners.

Overall, the proposed change advances the Comprehensive Plan’s goals to encourage a healthy mix of land uses and strengthening neighborhood character and identity through complimentary development.

Land Use:

	Zoning	Land Use
Site	CR Community Retail District with D Liquor Control Overlay	Undeveloped
North	R-7.5(A) Single Family District with SUP No. 92	Cemetery
East	CR Community Retail District with D-1 Liquor Control Overlay, R-7.5(A) Single Family District with SUP No. 92	Retail center, Cemetery
South	CR Community Retail District with D Liquor Control Overlay and D-1 Liquor Control Overlay	Multifamily, Undeveloped
West	R-7.5(A) Single Family District with SUP 1805	Open Enrollment Charter School

Land Use Compatibility:

The area of request is currently undeveloped. Property to the north and northeast are used as a cemetery under SUP No. 92. Properties to the south include a multifamily development and an undeveloped property. There is a strip retail center directly to the east. Across Prichard Lane to the west, there is an open enrollment charter school under SUP No. 1805. Staff finds that the proposed district is complementary with surrounding uses and zoning districts.

The proposed MU-1 District would serve as a more appropriate buffer between the residential uses to the southwest and the more intense uses of CR to the east along the South Buckner corridor. MU-1 aids in diversifying land use in the area without adding commercial intensity. MU-1 generally has slightly less commercial intensity than CR Community Retail District. Residential uses are well suited in this location, well served by transit, and within walking distance to employment and services.

Land Use Comparison:

*Blockface continuity applies

The proposed MU-1 allows appropriately sited density and height. MU-1 allows increases in height and density above its base only when including a mix of uses, as described above. This lot would have a front setback on Prichard Lane and on Scyene Road. Front setback continuity would imply a 25 foot front on these setbacks, as they share a block with R-7.5(A) zoning. Additional height and residential density are appropriate in an area well served by transit and with concentrated surface parking.

MU-1 would be a more appropriate zoning to developed residential uses on this site than would a Townhouse or Multifamily district, as these two districts would apply potentially problematic adjacency restrictions on surrounding commercial properties, including side setbacks, residential buffer zones, and residential proximity slope.

The applicant has not stated any intent to include mixed income housing units, but the density bonuses available to multifamily uses allowed broadly in MU-1 are also listed above. Those bonuses would also entail the requirement of the design standards of 4.1107.

Landscaping:

Landscaping and tree preservation are required in accordance with Article X, as amended.

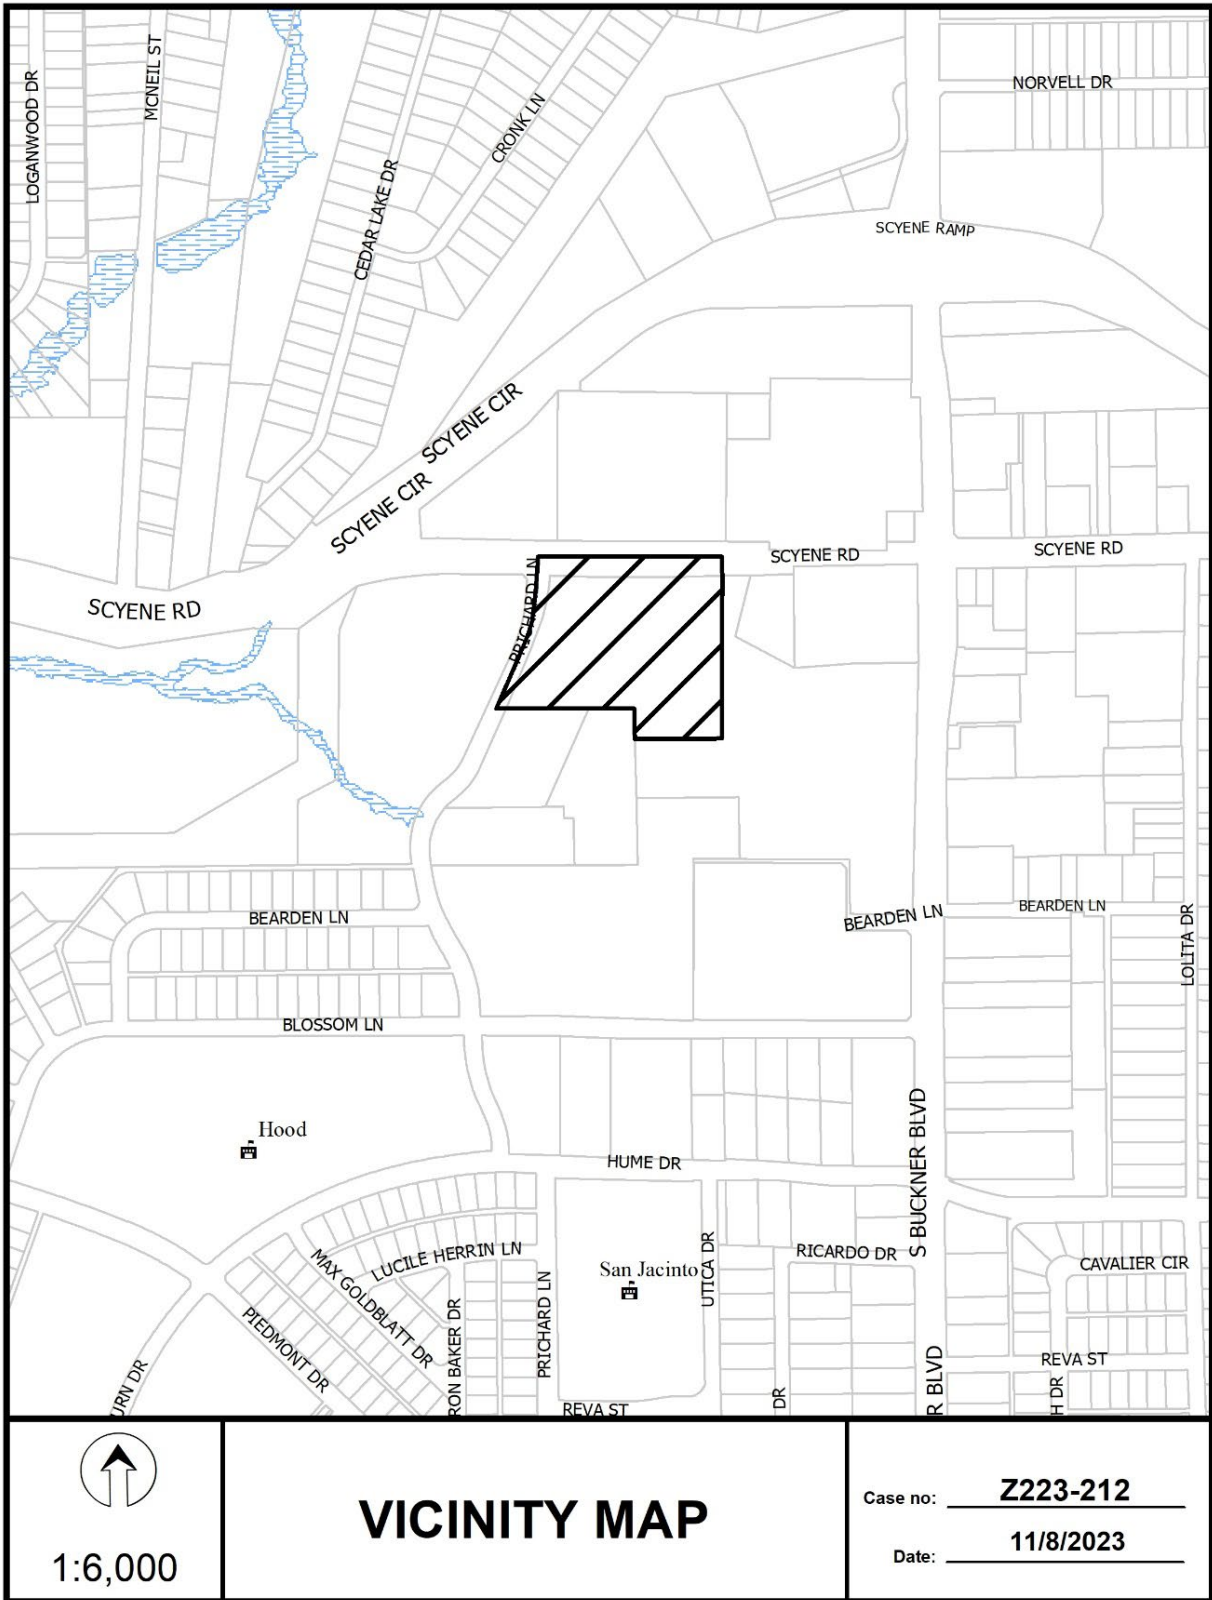

Parking:

Off-street parking must be provided pursuant to the Dallas Development Code, as amended. The off-street parking requirement for a single family use in MU-1 is two spaces per unit. The off-street parking requirement for a multifamily use is one space per bedroom with a minimum of one space per dwelling unit. An additional one-quarter space per dwelling unit must be provided for guest parking if the required parking is restricted to resident parking only. Should the applicant include a mixed income housing component, this requirement would be reduced to one-half space per unit. The off-street parking requirements for retail and personal services uses are variable but range from one space per 100 square feet of floor area to 300 square feet of floor area.

As with any minimum required parking, these ratios only reflect the minimum amount required. The developer may provide additional parking beyond these.

Market Value Analysis:

Market Value Analysis (MVA), is a tool to aid residents and policy-makers in understanding the elements of their local residential real estate markets. It is an objective, data-driven tool built on local administrative data and validated with local experts. The analysis was prepared for the City of Dallas by The Reinvestment Fund. Public officials and private actors can use the MVA to more precisely target intervention strategies in weak markets and support sustainable growth in stronger markets. The MVA identifies nine market types (A through I) on a spectrum of residential market strength or weakness. As illustrated in the attached MVA map, the colors range from purple representing the strongest markets (A through C) to orange, representing the weakest markets (G through I). The area of request is currently in an “F” MVA cluster.
