STAFF ANALYSIS:

Comprehensive Plan:

The *forwardDallas! Comprehensive Plan* was adopted by the City Council in June 2006, outlining several goals and policies which serve as a framework for assisting in evaluating the applicant's request.

The request complies with the following land use goals and policies of the Comprehensive Plan:

ECONOMIC ELEMENT

GOAL 2.1.3 Support efforts to grow retail and residential opportunities in the Southern Sector.

Policy 2.1.3.6 Pursue opportunities to successfully redevelop or revitalize key shopping centers such as Southwest Center Mall and Wynnewood Village to include shopping, employment, dining and cultural activities.

Policy 2.1.4 Support efforts to expand targeted business and industry development within the Southern Sector.

Policy 2.1.4.1 Continue efforts on developing and honing a target industry strategy to inform business attraction and retention programs with a focus on industries that can be steered toward the Southern Sector.

Policy 2.2.2 Maximize development opportunities around DART stations

2.2.2.1 Work with DART to develop mixed-use coning districts to maximize transit oriented development at the most appropriate locations within one-quarter to one-half mile of DART stations.

2.2.2.4 Market DART station areas for mixed-use opportunities to fill gaps in communities poorly served by retail to keep those retail dollars in the neighborhood.

Land Use:

	Zoning	Land Use
Site	CR	Retail, Mixed-Uses
North	TH-2(A)	Single family
Northeast	R-10(A)	Single family
South	RR with deed restrictions [Z045-102] and MU-2	Retail, Restaurant
West	PD No. 94	Auto Service Center and Vehicle display, sales, or service

Land Use Compatibility:

The area of request is surrounded by retail, mixed-uses, restaurants, single family, auto-service and vehicle display, sales, or service. To the north of the site is zoned TH-2(A), to the northeast of the site is zoned R-10(A), to the south of the site is zoned Regional Retail and MU-2 and to the west is zoned Planned Development 94. The proposed use is compatible with the current character of the neighborhood.

The general provisions for a Specific Use Permit in Section 51A-4.219 of the Dallas Development Code specifically state: (1) The SUP provides a means for developing certain uses in a manner in which the specific use will be consistent with the character of the neighborhood; (2) Each SUP application must be evaluated as to its probable effect on the adjacent property and the community welfare and may be approved or denied as the findings indicate appropriate; (3) The city council shall not grant an SUP for a use except upon a finding that the use will: (A) complement or be compatible with the surrounding uses and community facilities; (B) contribute to, enhance, or promote the welfare of the area of request and adjacent properties; (C) not be detrimental to the public health, safety, or general welfare; and (D) conform in all other respects to all applicable zoning regulations and standards. The regulations in this chapter have been established in accordance with a comprehensive plan for the purpose of promoting the health, safety, morals, and general welfare of the city.

Staff supports the request because the use is not foreseen to be detrimental to surrounding properties. Staff also finds the proposed time limit of five years is appropriate for this site with no option for automatic renewal. Staff believes this time limit will allow an initial period for the applicant to demonstrate their operation of the commercial amusement (inside) use, which can then be reevaluated following this initial period.

Landscaping:

Landscaping will be provided in accordance with the landscaping requirements in Article X, as amended.

Parking:

According to the site plan the area of request, suite 235, is approximately 2,510 square feet. Pursuant to the Dallas Development Code, the off-street parking requirement for commercial use is one space per 100 square feet of floor area. For 2,510 square feet of floor area, this equates to 25 required parking spaces. As demonstrated on the site plan, there are a total of 300 parking spaces to be used by all tenants within Redbird Highland Plaza.

weak markets and support sustainable growth in stronger markets. The MVA identifies nine market types (A through I) on a spectrum of residential market strength or weakness. As illustrated in the attached MVA map, the colors range from purple representing the strongest markets (A through C) to orange, representing the weakest markets (G through I). The area of request is located in the "F" MVA area.
