

Memorandum

CITY OF DALLAS

DATE March 3, 2026

TO Honorable Members of the Public Safety Committee
Cara Mendelsohn (Chair), Jesse Moreno (Vice Chair), Laura Cadena, Maxie Johnson, Jaime Resendez, William Roth, Kathy Stewart

SUBJECT **Dallas Police Department 2025 Racial Profiling Report**

Texas Code of Criminal Procedure (Texas CCP) Chapter 2B requires Texas law enforcement agencies to collect and provide a detailed analysis of motor vehicle data, including the reason for the stop, whether the race or ethnicity of the driver was known to the officer prior to the stop, whether a search was conducted, and whether physical force that resulted in bodily injury was used by the officer.

In accordance with these laws, the Dallas Police Department (DPD) collected and reported in calendar year 2025 data from 146,666 motor vehicle stops for the purpose of identifying and addressing (if necessary) areas of concern regarding racial profiling practices. National policing expert and DPD Criminologist in Residence Dr. Alex del Carmen reviewed the motor vehicle stop data and produced a Racial Profiling Report summarizing his findings (see attached). The findings affirm that DPD remains in compliance with Texas CCP Chapter 2B. Also noteworthy is that in calendar year 2025, DPD conducted approximately 20,000 more motor vehicle stops than in calendar year 2024. Despite this increase, DPD received 10 fewer racial profiling complaints (16 in 2025 compared to 26 in 2024).

Pursuant to Texas CCP Chapter 2B, DPD submitted its annual racial profiling report to the Texas Commission on Law Enforcement on February 2 and to the governing body of this municipality on February 27, ahead of the March 1 deadline.

LAW ENFORCEMENT EXPERTS

"Dr. Alex del Carmen's work on racial profiling exemplifies the very best of the Sandra Bland Act, named after my daughter. My daughter's pledge to fight for injustice is best represented in the high quality of Dr. del Carmen's reports which include, as required by law, the data analysis, audits, findings and recommendations. I commend the agencies that work with him as it is clear that they have embraced transparency and adherence to the law."

-Quote by Geneva Reed (Mother of Sandra Bland)

January 21, 2026

Dallas City Council
1500 Marilla St.
Dallas, TX 75201

Dear Distinguished Members of the City Council,

The Texas Racial Profiling Law, originally enacted by the Texas Legislature in 2001, was designed to address concerns regarding racial profiling practices in law enforcement. Throughout the preceding calendar year, the Dallas Police Department, in full compliance with statutory requirements, systematically collected and reported traffic and motor vehicle-related contact data for the express purpose of identifying, evaluating, and addressing any potential concerns regarding racial profiling practices within the department.

Since its initial enactment, the Texas Racial Profiling Law has undergone significant legislative modifications. During the 2009 legislative session, the law was amended to incorporate additional data collection and reporting requirements. Subsequently, in 2017, the Texas Legislature passed two landmark pieces of legislation: House Bill 3051, which standardized racial and ethnic classification categories, and the Sandra Bland Act (Senate Bill 1849), which substantially expanded data collection mandates and analytical requirements. The Sandra Bland Act represents the most comprehensive legislative framework in Texas history pertaining to law enforcement contact data requirements. I am pleased to confirm that the Dallas Police Department has satisfied all statutory requirements, and the documentation contained herein demonstrates full compliance with these legislative mandates.

This annual report is organized into distinct sections, each addressing specific components of the compliance framework. Section One contains the table of contents, providing navigational guidance throughout the document. Section Two presents documentation demonstrating the Dallas Police Department's compliance with the procedural requirements established under the Texas Racial Profiling Law, including evidence of mandatory training protocols for all sworn personnel on racial profiling prevention, as well as the institutionalization of formal compliment and complaint processes as required by statute.

Section Three contains comprehensive statistical data pertaining to motor vehicle-related contacts, as defined by applicable law, occurring between January 1, 2025, and December 31, 2025. This section includes the Tier 2 reporting form, which must be submitted to the Texas Commission on Law Enforcement (TCOLE) and the local governing authority by March 1 of each calendar year. All data presented in this report was compared against the Fair Roads Standard, a baseline measure derived from U.S. Census Bureau data. The analytical findings and corresponding recommendations are presented in detail within this section.

The final section of this report contains reference materials, including the original text of Senate Bill 1074 (the Texas Racial Profiling Law) and the Sandra Bland Act (current governing law). Additionally, this section includes a comprehensive listing of compliance requirements established by TCOLE. The findings documented in this report substantiate the Dallas Police Department's ongoing commitment to full compliance with the Texas Racial Profiling Law and its commitment to constitutional policing practices.

Respectfully submitted,

Alex del Carmen, Ph.D.
Criminologist

Informing the Public on the Process of Filing a Compliment or Complaint with the Dallas Police Department

The Texas Racial Profiling Law requires that police agencies provide information to the public regarding the manner in which to file a compliment or racial profiling complaint. In an effort to comply with this particular component, the Dallas Police Department launched an educational campaign aimed at informing the public on issues relevant to the racial profiling complaint process.

The police department made available, in the lobby area and on its web site, information relevant to filing a compliment and complaint on a racial profiling violation by a Dallas Police Officer. In addition, each time an officer issues a citation, ticket or warning, information on how to file a compliment or complaint is given to the individual cited. This information is in the form of a web address (including in the document issued to the citizen), which has instructions and details specifics related to the compliment or complaint processes.

It is believed that through these efforts, the community has been properly informed of the new policies and the complaint processes relevant to racial profiling.

All Dallas Police Officers have been instructed, as specified in the Texas Racial Profiling Law, to adhere to all Texas Commission on Law Enforcement (TCOLE) training and the Law Enforcement Management Institute of Texas (LEMIT) requirements. To date, all sworn officers of the Dallas Police Department have completed the TCOLE basic training on racial profiling. The main outline used to train the officers of Dallas has been included in this report.

2.0 RACIAL PROFILING AND THE COMMUNITY

2.1 UNIT GOAL: The student will be able to identify logical and social arguments against racial profiling.

2.1.1 LEARNING OBJECTIVE: The student will be able to identify logical and social arguments against racial profiling.

A. There are appropriate reasons for unusual traffic stops (suspicious behavior, the officer's intuition, MOs, etc.), but police work must stop short of cultural stereotyping and racism.

B. Racial profiling would result in criminal arrests, but only because it would target all members of a race randomly – the minor benefits would be far outweighed by the distrust and anger towards law enforcement by minorities and the public as a whole.

C. Racial profiling is self-fulfilling bad logic: if you believed that minorities committed more crimes, then you might look for more minority criminals, and find them in disproportionate numbers.

D. Inappropriate traffic stops generate suspicion and antagonism towards officers and make future stops more volatile – a racially-based stop today can throw suspicion on tomorrow's legitimate stop.

E. By focusing on race, you would not only be harassing innocent citizens, but overlooking criminals of all races and backgrounds – it is a waste of law enforcement resources.

3.0 RACIAL PROFILING VERSUS REASONABLE SUSPICION

3.1 UNIT GOAL: The student will be able to identify the elements of both inappropriate and appropriate traffic stops.

3.1.1 LEARNING OBJECTIVE: The student will be able to identify elements of a racially motivated traffic stop.

- A. Most race-based complaints come from vehicle stops, often since race is used as an inappropriate substitute for drug courier profile elements
- B. "DWB" – "Driving While Black" – a nickname for the public perception that a Black person may be stopped solely because of their race (especially with the suspicion that they are a drug courier), often extended to other minority groups or activities as well ("Driving While Brown," "Flying While Black," etc.)
- C. A typical traffic stop resulting from racial profiling
 1. The vehicle is stopped on the basis of a minor or contrived traffic violation which is used as a pretext for closer inspection of the vehicle, driver, and passengers
 2. The driver and passengers are questioned about things that do not relate to the traffic violation
 3. The driver and passengers are ordered out of the vehicle
 4. The officers visually check all observable parts of the vehicle
 5. The officers proceed on the assumption that drug courier work is involved by detaining the driver and passengers by the roadside
 6. The driver is asked to consent to a vehicle search – if the driver refuses, the officers use other procedures (waiting on a canine unit, criminal record checks, license-plate checks, etc.), and intimidate the driver (with the threat of detaining him/her, obtaining a warrant, etc.)

3.1.2 LEARNING OBJECTIVE: The student will be able to identify elements of a traffic stop which would constitute reasonable suspicion of drug courier activity.

- A. Drug courier profile (adapted from a profile developed by the DEA)
 1. Driver is nervous or anxious beyond the ordinary anxiety and cultural communication styles
 2. Signs of long-term driving (driver is unshaven, has empty food containers, etc.)
 3. Vehicle is rented
 4. Driver is a young male, 20-35
 5. No visible luggage, even though driver is traveling
 6. Driver was over-reckless or over-cautious in driving and responding to signals
 7. Use of air fresheners

- B. Drug courier activity indicators by themselves are usually not sufficient to justify a stop

3.1.3 LEARNING OBJECTIVE: The student will be able to identify elements of a traffic stop which could constitute reasonable suspicion of criminal activity.

- A. Thinking about the totality of circumstances in a vehicle stop

- B. Vehicle exterior
 1. Non-standard repainting (esp. on a new vehicle)
 2. Signs of hidden cargo (heavy weight in trunk, windows do not roll down, etc.)
 3. Unusual license plate suggesting a switch (dirty plate, bugs on back plate, etc.)
 4. Unusual circumstances (pulling a camper at night, kids' bikes with no kids, etc.)

- C. Pre-stop indicators
 1. Not consistent with traffic flow
 2. Driver is overly cautious, or driver/passengers repeatedly look at police car
 3. Driver begins using a car- or cell-phone when signaled to stop
 4. Unusual pull-over behavior (ignores signals, hesitates, pulls onto new street, moves objects in car, etc.)

- D. Vehicle interior
 1. Rear seat or interior panels have been opened, there are tools or spare tire, etc.
 2. Inconsistent items (anti-theft club with a rental, unexpected luggage, etc.)

Legislative Background and Statutory Framework

In 2001, the Texas Legislature enacted Senate Bill 1074, establishing the Texas Racial Profiling Law. This legislation became effective on January 1, 2002, and required all law enforcement agencies in Texas to collect traffic-related contact data and submit annual reports to their respective local governing authorities by March 1 of each calendar year. The original statutory framework remained substantially unchanged until 2009, when the Texas Legislature passed House Bill 3389, introducing significant amendments to the data collection and reporting requirements.

The 2009 legislative amendments, which took effect on January 1, 2010, expanded the definition of reportable contacts to include all motor vehicle-related encounters resulting in the issuance of a citation or custodial arrest. Additionally, the amended statute required law enforcement officers to document whether they possessed knowledge of the individual's race or ethnicity prior to initiating the detention. The 2009 legislation also mandated the inclusion of "Middle Eastern" as a distinct racial and ethnic classification category and established TCOLE as the central repository for annual data submissions.

In 2017, the Texas Legislature enacted two significant pieces of legislation affecting racial profiling data collection requirements. House Bill 3051 eliminated the Middle Eastern classification category and standardized racial and ethnic designations to align with federal reporting standards. Concurrently, the Sandra Bland Act (Senate Bill 1849) was passed and signed into law, representing the most comprehensive legislative mandate in Texas history regarding law enforcement contact data requirements. The Sandra Bland Act, which became effective on January 1, 2018, not only expanded data collection requirements but also mandated detailed analytical assessments addressing the following statutory elements:

1. *A comparative analysis of compiled information pursuant to Chapter 2B.0001-0059 of the Texas Code of Criminal Procedure, including:*

a. Evaluation and comparison of motor vehicle stops within the applicable jurisdiction between persons recognized as racial or ethnic minorities and persons not recognized as racial or ethnic minorities;

b. Examination of the disposition of motor vehicle stops conducted by agency personnel, categorized according to the race or ethnicity of affected persons, including any searches resulting from stops within the applicable jurisdiction;

c. Evaluation and comparison of searches resulting from motor vehicle stops within the applicable jurisdiction and documentation of whether contraband or other evidence was discovered during the course of such searches.

2. *Documentation of all complaints filed with the agency alleging that a peace officer employed by the agency has engaged in racial profiling.*

Analytical Methodology and Baseline Considerations

In accordance with the Texas Racial Profiling Law and Sandra Bland Act requirements, the Dallas Police Department commissioned an independent analysis of its 2025 motor vehicle contact data. The analytical framework employed in this study incorporated two distinct methodological approaches. The primary analysis involved a comprehensive evaluation of all motor vehicle-related contact data collected during the 2025 reporting period. This analysis measured, as required by statute, the number and percentage of contacts involving individuals classified as White, Black, Hispanic or Latino, Asian and Pacific Islander, and Alaska Native and American Indian, who encountered law enforcement during motor vehicle-related contacts resulting in the issuance of citations, warnings, or custodial arrests.

The Tier 2 data analysis encompassed multiple variables including, but not limited to: the number and percentage of contacts by race and ethnicity; gender distribution; documented reason for the stop; geographic location of the encounter; search activity including search type classification; outcome of the contact; legal basis for any resulting arrest; and any use of physical force resulting in bodily injury. This comprehensive data collection framework enables a thorough assessment of departmental practices and facilitates identification of any patterns warranting further examination.

The analytical framework employed in this report utilized a comparative methodology that assessed 2025 motor vehicle contact data against an established demographic baseline. It should be noted that considerable scholarly debate exists regarding the appropriate baseline measure for analyzing motor vehicle-related contact data. Among available baseline measures, the Dallas Police Department accepted the recommendation to employ the Fair Roads Standard as the primary comparative benchmark. This particular baseline is derived from U.S. Census Bureau data (2020) pertaining to the number of households with vehicle access, controlled for the race and ethnicity of heads of households.

It is important to acknowledge the methodological limitations inherent in utilizing census-derived baseline data for racial profiling analysis. Census data encompasses all residents within a given jurisdiction, regardless of their status within the driving population. Furthermore, census data captures information exclusively pertaining to municipal residents, thereby excluding individuals who may have encountered the Dallas Police Department during the reporting period but reside outside jurisdictional boundaries. In certain municipalities, contacts with non-residents constitute a substantial proportion of all motor vehicle-related encounters recorded during any given reporting period.

In 2002, prominent civil rights organizations in Texas advocated for the adoption of the Fair Roads Standard as the preferred baseline measure for all law enforcement agencies conducting racial profiling analyses. This standard compares census data specific to "households" with vehicle access against "contacts," which represent individual-level counts. This methodological approach introduces the potential for ecological fallacy, as household-level data is being compared with individual-level contact data. Notwithstanding these limitations, the Dallas Police Department elected to employ this comparison methodology to demonstrate institutional commitment to transparency and community accountability. The Fair Roads Standard data utilized in this analysis is specific to the jurisdiction of the Dallas Fort-Worth (DFW) Metroplex.

Tier 2 Motor Vehicle-Related Contact Analysis (2025)

Examination of the enhanced Tier 2 data collected during the 2025 reporting period reveals distinct patterns in motor vehicle-related contacts. The demographic distribution of contacts indicates that the majority of motor vehicle-related encounters involved Hispanic/Latino individuals, followed by Black individuals. Among all individuals contacted by law enforcement, the greatest number of citations were issued to Hispanic/Latino and Black individuals, followed by White individuals. With respect to written warnings, the majority were issued to Black individuals, with White individuals representing the second largest recipient group.

Analysis of search and arrest data reveals that the majority of searches were conducted involving Black individuals. When examining search methodology, the greatest number of consent searches involved Black and Hispanic/Latino individuals. Similarly, the majority of custodial arrests involved Black individuals. Overall, the preponderance of searches did not result in the discovery of contraband. Among searches that yielded contraband, the majority involved Black individuals, followed by Hispanic/Latino individuals. Among searches that did not produce contraband, the majority involved Black individuals.

Arrest data indicates that the majority of custodial arrests involved Black individuals. Among arrests originating from alleged violations of the Texas Penal Code, the majority involved Black individuals. With respect to use of force, the department reports 55 instances where physical force was used resulting in bodily injury during the reporting period.

Comparative Analysis

A comprehensive comparative analysis was conducted examining 2025 motor vehicle contact data against census data pertaining to households within DFW that reported vehicle access in the 2020 Census. This analysis produced the following findings:

The percentage of White and Asian/Pacific Islander individuals who came into contact with law enforcement was equal to or lower than the percentage of White and Asian/Pacific Islander households within DFW that reported vehicle access in the most recent census enumeration. Conversely, the data revealed that a higher percentage of Black, Hispanic/Latino, and Alaska Native/American Indian individuals came into contact with law enforcement compared to the percentage of Black, Hispanic/Latino, and Alaska Native/American Indian households that reported vehicle access. It should be noted that the percentage differential for Alaska Native/American Indian contacts relative to household representation is 1%, which may be considered statistically insignificant depending upon the analytical threshold employed.

The contraband discovery rate analysis reveals that among all searches conducted during the 2025 reporting period, Black individuals demonstrated the highest contraband hit rate, followed by White and Asian/Pacific Islander individuals respectively. This indicates that among all searches performed, the highest percentage of searches resulting in contraband discovery involved Black individuals. The lowest contraband discovery rate was observed among Alaska Native/American Indian individuals.

Summary of Findings

As mandated by the current Texas Racial Profiling Law, law enforcement agencies are required to conduct data audits to validate the accuracy and reliability of reported data. In compliance with this requirement, the Dallas Police Department engaged Del Carmen Consulting, LLC to perform independent data audits consistent with normative statistical practices and methodological standards. As documented in the accompanying audit report, the validation process confirms that the data submitted is both valid and reliable.

Furthermore, as required by statute, this report includes a comprehensive analysis of search activity, including documentation of whether contraband was discovered as a result of searches while controlling for the race and ethnicity of searched individuals. The search analysis demonstrates that the Dallas Police Department is engaging in search practices consistent with prevailing national trends in law enforcement and does not reveal patterns indicative of discriminatory practices.

Based upon the analytical findings presented in this report, the following recommendations are offered to ensure continued compliance and institutional best practices:

1. Continue to collect and evaluate supplementary motor vehicle contact data elements, including but not limited to documented basis for probable cause searches and detailed contraband classification, which may prove valuable in assessing the nature and circumstances of law enforcement contacts with all individuals.
2. Commission an independent analysis of contact and search data during the upcoming reporting period to maintain analytical continuity and identify any emerging trends.
3. Continue to commission periodic data audits to ensure data integrity and verify that collected data is consistent with reported data, thereby maintaining the validity and reliability of all submissions.

Conclusion

The comprehensive data analysis presented in this report serves as documented evidence that the Dallas Police Department has achieved full compliance with the Texas Racial Profiling Law and all associated statutory requirements. This report demonstrates that the department has:

- Implemented and maintains a comprehensive racial profiling policy in accordance with statutory requirements;
- Established and publicized procedures for members of the public to file compliments or complaints regarding officer conduct;
- Commissioned periodic data audits to ensure the validity and reliability of all collected and reported data;
- Collected and commissioned independent analysis of all required Tier 2 data elements; and
- Ensured that the practice of racial profiling is expressly prohibited and will not be accepted or tolerated within the organization.

The Dallas Police Department remains committed to constitutional policing practices, equitable treatment of all individuals, and continued compliance with all applicable state and federal requirements pertaining to racial profiling prevention and reporting.

LEGISLATIVE & ADMINISTRATIVE

TCOLE GUIDELINES

Guidelines for Compiling and Reporting Data under Senate Bill 1074

Background

Senate Bill 1074 of the 77th Legislature established requirements in the Texas Code of Criminal Procedure (TCCP) for law enforcement agencies. The Commission developed this document to assist agencies in complying with the statutory requirements.

The guidelines are written in the form of standards using a style developed from accreditation organizations including the Commission on Accreditation for Law Enforcement Agencies (CALEA). The standards provide a description of *what* must be accomplished by an agency but allows wide latitude in determining *how* the agency will achieve compliance with each applicable standard.

Each standard is composed of two parts: the standard statement and the commentary. The *standard statement* is a declarative sentence that places a clear-cut requirement, or multiple requirements, on an agency. The commentary supports the standard statement but is not binding. The commentary can serve as a prompt, as guidance to clarify the intent of the standard, or as an example of one possible way to comply with the standard.

Standard 1

Each law enforcement agency has a detailed written directive that:

- clearly defines acts that constitute racial profiling;
- strictly prohibits peace officers employed by the agency from engaging in racial profiling;
- implements a process by which an individual may file a complaint with the agency if the individual believes a peace officer employed by the agency has engaged in racial profiling with respect to the individual filing the complaint;
- provides for public education relating to the complaint process;
- requires appropriate corrective action to be taken against a peace officer employed by the agency who, after investigation, is shown to have engaged in racial profiling in violation of the agency's written racial profiling policy; and
- requires the collection of certain types of data for subsequent reporting.

Commentary

Article 2.131 of the TCCP prohibits officers from engaging in racial profiling, and article 2.132 of the TCCP now requires a written policy that contains the elements listed in this standard. The article also specifically defines a law enforcement agency as it applies to this statute as an “agency of the state, or of a county, municipality, or other political subdivision of the state, that employs peace officers who make traffic stops in the routine performance of the officers’ official duties.”

The article further defines race or ethnicity as being of “a particular descent, including Caucasian, African, Hispanic, Asian, or Native American.” The statute does not limit the required policies to just these ethnic groups.

This written policy is to be adopted and implemented no later than January 1, 2002.

Standard 2

Each peace officer who stops a motor vehicle for an alleged violation of a law or ordinance regulating traffic, or who stops a pedestrian for any suspected offense reports to the employing law enforcement agency information relating to the stop, to include:

- a physical description of each person detained, including gender and the person’s race or ethnicity, as stated by the person, or, if the person does not state a race or ethnicity, as determined by the officer’s best judgment;
- the traffic law or ordinance alleged to have been violated or the suspected offense;
- whether the officer conducted a search as a result of the stop and, if so, whether the person stopped consented to the search;
- whether any contraband was discovered in the course of the search, and the type of contraband discovered;
- whether probable cause to search existed, and the facts supporting the existence of that probable cause;
- whether the officer made an arrest as a result of the stop or the search, including a statement of the offense charged;
- the street address or approximate location of the stop; and
- whether the officer issued a warning or citation as a result of the stop, including a description of the warning or a statement of the violation charged.

Commentary

The information required by 2.133 TCCP is used to complete the agency reporting requirements found in Article 2.134. A peace officer and an agency may be exempted from this requirement under Article 2.135 TCCP Exemption for Agencies Using Video and Audio Equipment. An agency may be exempt from this reporting requirement by applying for the funds from the Department of Public Safety for video and audio equipment and the State does not supply those funds. Section 2.135 (a)(2) states, “the governing body of the county or municipality served by the law enforcement agency, in conjunction with the law enforcement agency, certifies to the Department of Public Safety, not later than the date specified by rule by the department, that the law enforcement agency needs funds or video and audio equipment for the purpose of installing video and audio equipment as described by Subsection (a) (1) (A) and the agency does not receive from the state funds for video and audio equipment sufficient, as determined by the department, for the agency to accomplish that purpose.”

Standard 3

The agency compiles the information collected under 2.132 and 2.133 and analyzes the information identified in 2.133.

Commentary

Senate Bill 1074 from the 77th Session of the Texas Legislature created requirements for law enforcement agencies to gather specific information and to report it to each county or municipality served. New sections of law were added to the Code of Criminal Procedure regarding the reporting of traffic and pedestrian stops. Detained is defined as when a person stopped is not free to leave.

Article 2.134 TCCP requires the agency to compile and provide and analysis of the information collected by peace officer employed by the agency. The report is provided to the governing body of the municipality or county no later than March 1 of each year and covers the previous calendar year.

There is data collection and reporting required based on Article 2.132 CCP (tier one) and Article 2.133 CCP (tier two).

The minimum requirements for “tier one” data for traffic stops in which a citation results are:

- 1) the race or ethnicity of individual detained (race and ethnicity as defined by the bill means of “a particular descent, including Caucasian, African, Hispanic, Asian, or Native American”);
- 2) whether a search was conducted, and if there was a search, whether it was a consent search or a probable cause search; and
- 3) whether there was a custody arrest.

The minimum requirements for reporting on “tier two” reports include traffic and pedestrian stops. Tier two data include:

- 1) the detained person’s gender and race or ethnicity;
- 2) the type of law violation suspected, e.g., hazardous traffic, non-hazardous traffic, or other criminal investigation (the Texas Department of Public Safety publishes a categorization of traffic offenses into hazardous or non-hazardous);
- 3) whether a search was conducted, and if so whether it was based on consent or probable cause;
- 4) facts supporting probable cause;
- 5) the type, if any, of contraband that was collected;
- 6) disposition of the stop, e.g., arrest, ticket, warning, or release;
- 7) location of stop; and
- 8) statement of the charge, e.g., felony, misdemeanor, or traffic.

Tier one reports are made to the governing body of each county or municipality served by the agency an annual report of information if the agency is an agency of a county, municipality, or other political subdivision of the state. Tier one and two reports are reported to the county or municipality not later than March 1 for the previous calendar year beginning March 1, 2003. Tier two reports include a comparative analysis between the race and ethnicity of persons detained to see if a differential pattern of treatment can be discerned based on the disposition of stops

including searches resulting from the stops. The reports also include information relating to each complaint filed with the agency alleging that a peace officer employed by the agency has engaged in racial profiling. An agency may be exempt from the tier two reporting requirement by applying for the funds from the Department of Public Safety for video and audio equipment and the State does not supply those funds [See 2.135 (a)(2) TCCP].

Reports should include both raw numbers and percentages for each group. Caution should be exercised in interpreting the data involving percentages because of statistical distortions caused by very small numbers in any particular category, for example, if only one American Indian is stopped and searched, that stop would not provide an accurate comparison with 200 stops among Caucasians with 100 searches. In the first case, a 100% search rate would be skewed data when compared to a 50% rate for Caucasians.

Standard 4

If a law enforcement agency has video and audio capabilities in motor vehicles regularly used for traffic stops, or audio capabilities on motorcycles regularly used to make traffic stops, the agency:

- adopts standards for reviewing and retaining audio and video documentation; and
- promptly provides a copy of the recording to a peace officer who is the subject of a complaint on written request by the officer.

Commentary

The agency should have a specific review and retention policy. Article 2.132 TCCP specifically requires that the peace officer be promptly provided with a copy of the audio or video recordings if the officer is the subject of a complaint and the officer makes a written request.

Standard 5

Agencies that do not currently have video or audio equipment must examine the feasibility of installing such equipment.

Commentary

None

Standard 6

Agencies that have video and audio recording capabilities are exempt from the reporting requirements of Article 2.134 TCCP and officers are exempt from the reporting requirements of Article 2.133 TCCP provided that:

- the equipment was in place and used during the proceeding calendar year; and
- video and audio documentation is retained for at least 90 days.

Commentary

The audio and video equipment and policy must have been in place during the previous calendar year. Audio and video documentation must be kept for at least 90 days or longer if a complaint has been filed. The documentation must be retained until the complaint is resolved. Peace officers are not exempt from the requirements under Article 2.132 TCCP.

Standard 7

Agencies have citation forms or other electronic media that comply with Section 543.202 of the Transportation Code.

Commentary

Senate Bill 1074 changed Section 543.202 of the Transportation Code requiring citations to include:

- race or ethnicity, and
- whether a search of the vehicle was conducted and whether consent for the search was obtained.

The Texas Law on Racial Profiling

S.B. No. 1074 - An Act relating to the prevention of racial profiling by certain peace officers.
BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

SECTION 1. Chapter 2, Code of Criminal Procedure, is amended by adding Articles 2.131 through 2.138 to read as follows:

Art. 2.131. RACIAL PROFILING PROHIBITED. A peace officer may not engage in racial profiling.

Art. 2.132. LAW ENFORCEMENT POLICY ON RACIAL PROFILING. (a) In this article:

(1) "Law enforcement agency" means an agency of the state, or of a county, municipality, or other political subdivision of the state, that employs peace officers who make traffic stops in the routine performance of the officers' official duties.

(2) "Race or ethnicity" means of a particular descent, including Caucasian, African, Hispanic, Asian, or Native American descent.

(b) Each law enforcement agency in this state shall adopt a detailed written policy on racial profiling. The policy must:

(1) clearly define acts constituting racial profiling;

(2) strictly prohibit peace officers employed by the agency from engaging in racial profiling;

(3) implement a process by which an individual may file a complaint with the agency if the individual believes that a peace officer employed by the agency has engaged in racial profiling with respect to the individual;

(4) provide public education relating to the agency's complaint process;

(5) require appropriate corrective action to be taken against a peace officer employed by the agency who, after an investigation, is shown to have engaged in racial profiling in violation of the agency's policy adopted under this article;

(6) require collection of information relating to traffic stops in which a citation is issued and to arrests resulting from those traffic stops, including information relating to:

(A) the race or ethnicity of the individual detained; and

(B) whether a search was conducted and, if so, whether the person detained consented to the search; and

(7) require the agency to submit to the governing body of each county or municipality served by the agency an annual report of the information collected under Subdivision (6) if the agency is an agency of a county, municipality, or other political subdivision of the state.

(c) The data collected as a result of the reporting requirements of this article shall not constitute prima facie evidence of racial profiling.

(d) On adoption of a policy under Subsection (b), a law enforcement agency shall examine the feasibility of installing video camera and transmitter-activated equipment in each agency law enforcement motor vehicle regularly used to make traffic stops and transmitter-activated equipment in each agency law enforcement motorcycle regularly used to make traffic stops. If a law enforcement agency installs video or audio equipment as provided by this subsection, the

policy adopted by the agency under Subsection (b) must include standards for reviewing video and audio documentation.

(e) A report required under Subsection (b)(7) may not include identifying information about a peace officer who makes a traffic stop or about an individual who is stopped or arrested by a peace officer. This subsection does not affect the collection of information as required by a policy under Subsection (b)(6).

(f) On the commencement of an investigation by a law enforcement agency of a complaint described by Subsection (b)(3) in which a video or audio recording of the occurrence on which the complaint is based was made, the agency shall promptly provide a copy of the recording to the peace officer who is the subject of the complaint on written request by the officer.

Art. 2.133. REPORTS REQUIRED FOR TRAFFIC AND PEDESTRIAN STOPS. (a) In this article:

(1) "Race or ethnicity" has the meaning assigned by Article 2.132(a).

(2) "Pedestrian stop" means an interaction between a peace officer and an individual who is being detained for the purpose of a criminal investigation in which the individual is not under arrest.

(b) A peace officer who stops a motor vehicle for an alleged violation of a law or ordinance regulating traffic or who stops a pedestrian for any suspected offense shall report to the law enforcement agency that employs the officer information relating to the stop, including:

(1) a physical description of each person detained as a result of the stop, including:

(A) the person's gender; and

(B) the person's race or ethnicity, as stated by the person or, if the person does not state the person's race or ethnicity, as determined by the officer to the best of the officer's ability;

(2) the traffic law or ordinance alleged to have been violated or the suspected offense;

(3) whether the officer conducted a search as a result of the stop and, if so, whether the person detained consented to the search;

(4) whether any contraband was discovered in the course of the search and the type of contraband discovered;

(5) whether probable cause to search existed and the facts supporting the existence of that probable cause;

(6) whether the officer made an arrest as a result of the stop or the search, including a statement of the offense charged;

(7) the street address or approximate location of the stop; and

(8) whether the officer issued a warning or a citation as a result of the stop, including a description of the warning or a statement of the violation charged.

Art. 2.134. COMPILATION AND ANALYSIS OF INFORMATION COLLECTED.

(a) In this article, "pedestrian stop" means an interaction between a peace officer and an individual who is being detained for the purpose of a criminal investigation in which the individual is not under arrest.

(b) A law enforcement agency shall compile and analyze the information contained in each report received by the agency under Article 2.133. Not later than March 1 of each year, each local law enforcement agency shall submit a report containing the information compiled

during the previous calendar year to the governing body of each county or municipality served by the agency in a manner approved by the agency.

(c) A report required under Subsection (b) must include:

(1) a comparative analysis of the information compiled under Article 2.133 to:

(A) determine the prevalence of racial profiling by peace officers employed by the agency; and
(B) examine the disposition of traffic and pedestrian stops made by officers employed by the agency, including searches resulting from the stops; and

(2) information relating to each complaint filed with the agency alleging that a peace officer employed by the agency has engaged in racial profiling.

(d) A report required under Subsection (b) may not include identifying information about a peace officer who makes a traffic or pedestrian stop or about an individual who is stopped or arrested by a peace officer. This subsection does not affect the reporting of information required under Article 2.133(b)(1).

(e) The Commission on Law Enforcement Officer Standards and Education shall develop guidelines for compiling and reporting information as required by this article.

(f) The data collected as a result of the reporting requirements of this article shall not constitute prima facie evidence of racial profiling.

Art. 2.135. EXEMPTION FOR AGENCIES USING VIDEO AND AUDIO EQUIPMENT. (a) A peace officer is exempt from the reporting requirement under Article 2.133 and a law enforcement agency is exempt from the compilation, analysis, and reporting requirements under Article 2.134 if:

(1) during the calendar year preceding the date that a report under Article 2.134 is required to be submitted:

(A) each law enforcement motor vehicle regularly used by an officer employed by the agency to make traffic and pedestrian stops is equipped with video camera and transmitter-activated equipment and each law enforcement motorcycle regularly used to make traffic and pedestrian stops is equipped with transmitter-activated equipment; and

The magistrate may order a defendant to a facility operated by the Department of State Health Services or the Health and Human Services Commission [Department of Aging and Disability Services] for examination only on request of the local mental health or intellectual and developmental disability [mental retardation] authority and with the consent of the head of the facility. If a defendant who has been ordered to a facility operated by the Department of State Health Services or the Health and Human Services Commission [Department of Aging and Disability Services] for examination remains in the facility for a period exceeding 21 days, the head of that facility shall cause the defendant to be immediately transported to the committing court and placed in the custody of the sheriff of the county in which the committing court is located. Dallas Police Department General Order

432.00 Biased Policing and Racial Profiling General Order

Revised 2/24/23

432.00 Biased Policing and Racial Profiling

432.01 Purpose

The purpose of this General Order is to reaffirm the Dallas Police Department's commitment to unbiased policing in all its encounters between an officer and any person; to reinforce procedures that serve to ensure public confidence and mutual trust through the provision of services in a fair and equitable fashion, and to protect officers from unwarranted accusations of misconduct when acting within the dictates of departmental policy and the law. Biased policing and Racial Profiling are strictly prohibited. At no time will a sworn employee rely upon an individual's protected status in any reasonable suspicion or probable cause determination.

432.02 Definitions:

- A. "Biased Policing" is defined as the application of police authority based on a protected status rather than on an individual's behavior or on information identifying the individual as having engaged in criminal activity.
- B. "Motor Vehicle Stop" means an occasion in which a peace officer stops a motor vehicle for an alleged violation of a law or ordinance.
- C. "Protected Status" includes race, ethnicity, national origin, religion, age, gender, gender identity/expression, sexual orientation, disability, or any other legally protected status.
- D. "Racial Profiling" is defined as a law enforcement-initiated action based on an individual's race, ethnicity, or national origin rather than on the individual's behavior or on information identifying the individual as having engaged in criminal activity.
- E. "Race or Ethnicity" is defined as a person's particular descent, including White, Black, Hispanic or Latino, Asian or Pacifica Islander, or Alaska Native or American Indian descent.

432.03 Examples of biased policing include, but are not limited to:

- A. Initiating a traffic stop on a particular vehicle because of the protected status of the driver or of a passenger in a vehicle.
- B. Stopping or detaining the driver of a vehicle or passenger in a vehicle based on the determination that a person or that protected status is unlikely to own or possess that specific make or model of vehicle.
- C. Stopping or detaining an individual based upon the determination that a person of that protected status is unlikely to be in that place or part of town.
- D. Stopping a driver when looking for a suspect if the only commonality between the suspect and the driver or a passenger is their protected status.
- E. Singling out an individual for enforcement who is part of a group of individuals exhibiting similar behavior (for example, a group of drivers exceeding the speed limit) because of the individual's protected status.
- F. The unlawful seizure and/or forfeiture of a person's assets based on protected status.

432.04 Biased Policing and Racial Profiling Complaints and Investigations

- A. The department shall accept complaints from any person who believes they have been stopped or searched based on racial, ethnic, or national origin profiling. No person shall be discouraged, intimidated, or coerced from filing a complaint, nor discriminated against because he or she filed such a complaint.
- B. If an officer initiating a stop receives an allegation of racial profiling, the officer shall provide their name and badge number to the individual with information on how to contact Internal Affairs or the officer's supervisor. Any employee contacted shall provide that person with

information on the department's process for filing a complaint. All employees will report any allegation of racial profiling to their supervisor before the end of their shift.

1. Officers shall provide information, including telephone number, mailing address, and email address for contacting Internal Affairs to any individual who inquires about reporting an incident perceived to be racially motivated, or who wishes to generate a complaint.
 2. Any supervisor/manager receiving a racial profiling complaint shall notify the Internal Affairs Division in a timely manner of the complaint and the action taken.
 3. Supervisors shall monitor the adherence to the General Orders by all employees under their command and shall initiate an investigation into all alleged violations established under this General Order.
- C. All complaints will be acknowledged in writing to the complainant who will receive information regarding the disposition of such complaint within a reasonable period of time. The investigation shall be reduced to writing and any reviewer's comments or conclusions shall be sent through the chain of command to the Chief of Police or designee. When applicable, findings and/or recommendations for disciplinary action, retraining, or changes in policy shall be part of the recommendation to the Chief of Police or designee.
- D. Allegations of misconduct and disciplinary action shall follow the procedures as outlined in General Order 510.00. Officers shall be subject to disciplinary action up to and including termination for engaging in racial profiling.
- E. If there is a departmental video or audio recording of the events upon which a complaint of racial profiling is based, upon commencement of an investigation into the complaint and written request of the officer made the subject of the complaint, this department shall promptly provide a copy of the recording to that officer.

432.05 Training

- A. All officers will receive formal, yearly, documented training in biased policing policy, procedures, or legal aspects.
- B. Training will be included in basic and in-service classes for all sworn personnel and will include examples of biased policing.

- A. Any officer conducting a motor vehicle stop shall collect information required by Articles 2.132 and 2.133 of the Texas Code of Criminal Procedure, outlined in General Order 302.13.

During all motor vehicle stops (regardless of if a citation is issued or not), officers are required to record and report the following information:

- A. *The gender of the individual stopped*
- B. *The race or ethnicity of the individual*
- C. *If the race or ethnicity was known prior to the stop*
- D. *A reason for the stop*
- E. *Location of the stop*
- F. *If a search was conducted and, if so, whether the individual detained consented to the search*
- G. *The reason for the search*
- H. *If any contraband was discovered*
- I. *Description of discovered contraband*
- J. *Result of the stop*
- K. *If there was an arrest, what the arrest was based on*
- L. *If any physical force resulting in bodily injury was used*

Officers shall ensure all data is gathered from every motor vehicle stop and submitted prior to the end of their shift. Supervisors shall ensure officers comply with this order.

- B. In accordance with Article 2.134 of the Texas Code of Criminal Procedure, the information collected will be compiled, analyzed, and submitted to the governing body of the City of Dallas and the Texas Commission on Law Enforcement no later than March 1 of each year.
- C. An annual administrative review of biased policing complaints, and their disposition, will be submitted to the Chief of Police no later than March 1 of each year.

432.07 Public Education

- A. The police department will inform the public of its guidelines against racial profiling and the compliment and complaint process by telling them the agency's compliment and complaint process, including providing the telephone number, mailing address, and e-mail address to make a compliment or complaint with respect to each ticket, citation, or warning issued by a peace officer. Methods that may be utilized to inform the public of the process are in person, news media, radio, service or civic presentations, the Internet, as well as city council and committee meetings. Additionally, information will be made available as appropriate in languages other than English.

432.08 Motor Vehicle Stop Data Audits

- A. The Audit for Traffic Stop Data will be completed monthly by the first-level supervisor and submitted to the next-level supervisor by the 10th of each month. It is recommended that supervisors work on their audits each week to make it more manageable. The How to Guide will be on the intranet under the "[Forms](#)" tab.
- B. Supervisors are looking to ensure a Racial Profiling Report was done on the Traffic Stop Data Form. (If the officer is E-Citation certified and used an E-Citation on the Traffic Stop a Racial Profiling Report was done). It is the supervisor's responsibility to know which of their employees are actively using E-Citation machines.
- C. The [Motor Vehicle Stop Data Non-Compliance Report](#) is on the intranet and available to all supervisors under the "Information" tab, "Crime Reports/Maps" link, "Interactive Reports" link, "Home" link, "Planning Monthly Reports" link, "Traffic Stops" link, "[TrafficMarkOutsNoRP Record](#)" link.
