**THURSDAY, FEBRUARY 5, 2026**

**Planner: Lori Levy, AICP**

**FILE NUMBER:** Z-25-000107

**DATE FILED:** October 17, 2025

**LOCATION:** Southwest corner of Samuell Boulevard and St. Francis Avenue

**COUNCIL DISTRICT:** 7

**SIZE OF REQUEST:** 3.5 acres

**CENSUS TRACT:** 481130122072

---

**OWNER:** Christian Stronghold Baptist Church

**APPLICANT:** Rob Baldwin – Baldwin Associates

**REQUEST:** An application for a new planned development district for GO(A) General Office District uses on property zoned R-7.5(A) Single Family District.

**SUMMARY:** The purpose of the request is to construct a hospital on the property.

**STAFF RECOMMENDATION:** Approval, subject to a development plan and conditions.

**BACKGROUND INFORMATION:**

- The area of request is currently zoned R-7.5(A) Residential District and is undeveloped (approx. 3.5 acres in total size).
- The property and the surrounding area is zoned R-7.5(A) Residential District to the south, east, and west and is developed with single family homes.
- The property has frontage on both Samuell Blvd. and St. Francis Ave. and is immediately adjacent to the current owner of the property - Christian Stronghold Baptist Church to the west.
- The property would be subject to the required 20' landscape buffer immediately to the south adjacent to the residential alley and single family homes. However, in a base zoning district the buffer would also be required adjacent to the church to the west because it is in a residential district.
- Additionally, the property would be subject to required screening and fencing immediately adjacent to the residentially zoned church property to the west.
- The property would be subject to required 20' side and rear yard setbacks adjacent to the single family homes south of the residential alley and to the east across St. Francis Avenue.
- Therefore, the applicant is requesting a zoning change to a new planned development district with GO(A) zoning.

**Zoning History:**

There has been one zoning case in the area within the last five years.

1. **Z234-308:** On January 8, 2025, the City Council approved an application for an amendment to Specific Use Permit No. 2048 for the sale of alcoholic beverages in conjunction with a general merchandise or food store greater than 100,000 square feet or more on property zoned RR-D-1 Regional Retail District with a D-1 Liquor Control Overlay on the north line of Samuell Blvd., west of South Buckner Blvd.

**Thoroughfares/Street:**

Thoroughfare/Street	Type	Existing/Proposed ROW
Samuell Blvd.	CA Community Collector	80'
St. Francis Ave.	Local Street	--

**Traffic:**

The Transportation Development Services Division of the Transportation Department has reviewed the request and determined that it will not significantly impact the surrounding roadway system. Staff will continue to review engineering plans at the time of permitting to comply with city standards.

**Transit Access:**

The following transit services are located within ½ mile of the site:  
DART Routes 15, 18, 216, 224

**STAFF ANALYSIS**

- **Comprehensive Plan Consistency Review:**

- ForwardDallas 2.0 is the citywide Comprehensive Plan for future land use in the City of Dallas. Adopted by the City Council in September 2024, the plan includes a future land use map, and guidance for a future vision of the City of Dallas. It also establishes goals and guidelines for land use and other decisions by the City. According to the City of Dallas's Development Code, the comprehensive plan serves merely as a guide for rezoning requests, but does not establish zoning boundaries nor does it restrict the City's authority to regulate land use.

- **Consistency Review Recommendation**

- The proposed zoning change of institutional and community use is consistent with Forward Dallas 2.0 as the site is completely within the Community Residential placetype which is primarily intended for single-family homes with parks, schools, and places of worship interspersed throughout, providing focal points for community activity. The Community Residential placetype encompasses the largest percentage of land mass within Dallas.

- **Placetype Summary**

Placetypes describe the long term vision and desired building and preservation characteristics for different places within the city including neighborhoods, mixed-use areas, employment and industry centers, and open spaces. Local commercial and office uses, as well as neighborhood-scaled apartments, may also be found, generally along main streets and at intersections, offering convenient access to goods and services, promoting a greater mix of uses, and supporting active, walkable environments.

**Land Use:**

	<b>Zoning</b>	<b>Land Use</b>
<b>Site</b>	R-7.5(A)	Undeveloped
<b>North</b>	RR	Retail and Personal Services
<b>South</b>	R-7.5(A)	Single Family
<b>East</b>	R-7.5(A)	Single Family
<b>West</b>	R-7.5(A)	Institutional (Christian Stronghold Baptist Church)

**Land Use Compatibility:**

The area of request is currently zoned R-7.5(A) Residential District and is undeveloped. The property is owned by the immediately adjacent Christian Stronghold Baptist Church to the west and the applicant intends to construct a new, hospital on the approximately 3.5 acre property.

The zoning is predominately R-7.5(A) to the south, east, and west of the property and mainly single family uses. To the west of the property is an institutional use and current property owner for this parcel – Christian Stronghold Baptist Church. To the north is RR Regional Retail District and is developed with retail and personal services – Kwik Kar and Home 2 Suites. To the northeast is RR Regional Retail District with a D-1 Liquor Control Overlay District and is developed with a retail and personal service (Sale of Alcoholic Beverages in Conjunction with a Gen. Merch. or Food Store 100,000 sf or more). With a mix of residential and neighborhood serving retail and personal service uses - adjacent and within the immediate area, the new hospital could serve the neighborhood and southern region while ensuring compatibility of development standards. For these reasons, staff finds the applicant's requested zoning change to a new planned development for GO(A) Office District with some incompatible uses removed and the addition of 6' sidewalks on the site, no adjacent residential buffer or screening and fencing between the non-residential uses of the hospital and the church, and the reduced front setback along Samuell Boulevard, the side and rear yard setbacks of 15' to the south and to the east across St. Francis Avenue, and parking allowed within the front setback along Samuell Boulevard to be compatible with the Community Residential placetype character designation of the Comprehensive Plan.

Staff supports the applicant's request and finds the proposed rezoning to be appropriate for this area as it would not be detrimental to surrounding uses. This compatibility is further reflected in the development standards comparison table below.

**Development Standards:**

The following is a comparison chart of the development standards for the current R-7.5(A) Residential District and the proposed new planned development with GO(A) Office District for comparison.

**Landscaping:**

The site is undeveloped. Any future development of the property would necessitate compliance with Article X, Landscaping and Tree Conservation Regulations.

**Parking:**

Under the requested new, Planned Development District, the applicant proposes to construct a new hospital.

Minimum parking is not required for a hospital use under the current Dallas Development Code. However, the applicant is proposing a plan with approximately 84 parking spaces.

**Market Value Analysis:**

Market Value Analysis (MVA), is a tool to aid residents and policy-makers in understanding the elements of their local residential real estate markets. It is an objective, data-driven tool built on local administrative data and validated with local experts. The analysis was prepared for the City of Dallas by The Reinvestment Fund. Public officials and private actors can use the MVA to target intervention strategies more precisely in weak markets and support sustainable growth in stronger markets. The MVA identifies nine market types (A through I) on a spectrum of residential market strength or weakness. As illustrated in the attached MVA map, the colors range from purple representing the strongest markets (A through C) to orange, representing the weakest markets (G through I). The area of request is in an “F” MVA area. The site is surrounded by the “F” MVA area to the north, south, and west immediately adjacent to the site. The site is surrounded by the “E” MVA area to the east.
