

FILE NUMBER: Z245-149(JG) **DATE FILED:** January 13, 2025

LOCATION: South line of East Kirnwood Drive, west of Lost Mirage Drive

COUNCIL DISTRICT: 8

SIZE OF REQUEST: Approx. 2.87 acres **CENSUS TRACT:** 48113011101

**REPRESENTATIVE/
APPLICANT/OWNER:** Vincent Walker

REQUEST: An application for a D(A) Duplex District on property zoned an R-7.5(A) Single Family District.

SUMMARY: The purpose of the request is to allow the development of duplexes.

STAFF RECOMMENDATION: Approval.

CPC RECOMMENDATION: Approval, subject to deed restrictions volunteered by the applicant.

BACKGROUND INFORMATION:

- The area of the request is within a R-7.5(A) Single Family District.
- The site is currently undeveloped, and the applicant proposes the development of 12 duplexes, with 24 (attached) individual dwelling units.
- The lot has frontage on Lost Mirage Drive and E. Kirnwood Drive.

Zoning History:

There have been no zoning cases in the area in the past five years.

Thoroughfares/Streets:

Thoroughfare/Street	Type	Existing/Proposed ROW
Lost Mirage Drive	Local Street	-
E. Kirnwood Drive	Local Street	-

Traffic:

The Transportation Development Services Division of the Transportation Department has reviewed the request and determined that it will not significantly impact the surrounding roadway system. Staff will continue review of engineering plans at permitting to comply with city standards.

STAFF ANALYSIS:

Comprehensive Plan:

The *forwardDallas!* Comprehensive Plan (2.0) was adopted by the City Council in September 2024 and outlines several goals and policies which can serve as a framework for assisting in evaluating an applicant's request.

Placetypes:

Community Residential

This placetype designates primary land uses as: Single Family Detached, Single Family Attached. These primary land uses are in conjunction with supporting land uses: Agricultural, Public Open Space, Private Open Space, Multiplex, Apartments, Mixed-Use, Commercial, Office, Civic/Public Institutional, and Utility.

The Community Residential placetype encompasses the largest percentage of land within Dallas and is primarily made up of single-family homes. Parks, schools, and places of worship are interspersed throughout, providing focal points for community activity. Sensitively integrated housing types, such as duplexes and smaller-scaled multiplexes, can be found in many of these areas. Local commercial and office uses, as well as neighborhood-scaled apartments, may also be found, generally along main streets and at intersections, offering convenient access to goods and services, promoting a greater mix of uses, and supporting active, walkable environments.

The applicant's request for a D(A) Duplex District is consistent with the following Community Residential placetype goals and policies:

CR A-4

Changes to areas within Community Residential neighborhoods should look to add housing in a way that is gentle, equitable, incremental, and sensitive to the existing context, while doing so in a manner that strengthens these neighborhoods and incorporates inclusive community engagement efforts. Incompatible multiplex, townhome, duplex, triplex, and apartment development should be located outside of existing single-family neighborhoods.

Adjacencies

CR B-2 Housing such as duplexes, townhomes, and multiplex should be designed to complement the scale and character of the surrounding neighborhood.

Urban Design Elements + Strategies

Building Form + Character

- 15 New development should be context sensitive, and building scale, height, and massing should complement existing buildings.
- 16 Attention should be given to building height, orientation, architectural style, and setback to ensure new structures fit into existing neighborhood context.
- 17 All structures should be low rise structures within this placetype. The tallest low rise structures should be oriented to major streets, adjacent to mixed-use placetypes or adjacent to other taller low rise buildings.
- 21 Front, side, and rear setbacks vary in size across neighborhoods but are generally consistent within an individual neighborhood.

Image: Primary Land Uses, Chapter 3: Placetypes

Land Use:

	Zoning	Land Use
Site	R-7.5(A) Single Family District	Undeveloped
North	R-7.5(A)	Public Park
West	R-7.5(A)	Single family
South	R-7.5(A)	Single Family, undeveloped
East	R-7.5(A)	Single family

Land Use Compatibility:

The request site is currently vacant and within a R-7.5(A) Single Family District. The request is to change the zoning to a D(A) Duplex District in order to construct 12 duplex structures, resulting in 24 single-family, attached dwelling units.

Properties surrounding the site to the east, west, and south are developed with single-family uses. Indian Ridge Park is located directly north of the site, across E. Kirnwood Drive. The applicant's proposal is intended to complement the surrounding residential character while supporting the City's broader economic development objective of expanding diverse housing opportunities. Approval of the rezoning request would contribute toward meeting the unmet demand for additional homeownership options, including duplex units.

The proposed development also aligns with the locational strategy outlined in the Community Residential Placetype, which emphasizes the following principles:

- Incompatible rezoning of individual single-family lots, especially mid-block, is generally discouraged.
- Tearing down existing housing for replacement and incompatible infill is not encouraged by this plan.
- Existing housing stock should be preserved and retained whenever possible to maintain stable neighborhoods and minimize the displacement of existing residents, particularly in areas identified as high risk for displacement.

The area of request is vacant and located at the end of a developed block. The proposal does not involve the demolition of any existing structures and is consistent with the placetype guidance for compatible infill development.

Additional density is also appropriate within walking distance to area schools and community park facilities.

Land Use Comparison:

Following is a comparison table showing differences in permitted uses between the existing and proposed zoning districts

LEGEND

Landscaping must be provided in accordance with the landscaping requirements in Article X, as amended.

Market Value Analysis:

Market Value Analysis (MVA), is a tool to aid residents and policy-makers in understanding the elements of their local residential real estate markets. It is an objective, data-driven tool built on local administrative data and validated with local experts. The analysis was prepared for the City of Dallas by The Reinvestment Fund. Public officials and private actors can use the MVA to more precisely target intervention strategies in weak markets and support sustainable growth in stronger markets. The MVA identifies nine market types (A through I) on a spectrum of residential market strength or weakness. As illustrated in the attached MVA map, the colors range from purple representing the strongest markets (A through C) to orange, representing the weakest markets (G through

Z245-149(JG)

I). The area of request and the areas surrounding the north, south, east, and west are currently in a "H" MVA area.

Applicant's Proposed Deed Restrictions

The Owner does hereby impress all of the Property with the following deed restrictions ("restrictions"), to wit:

If a duplex is constructed on the property, each dwelling unit must include a minimum of a two-car garage, either attached or detached, compliant with all applicable City of Dallas codes and ordinances.

Draft CPC ACTION
May 22, 2025

Motion I: It was moved to recommend **denial without prejudice** of a D(A) Duplex District, with deed restrictions, on property zoned an R-7.5(A) Single Family District, on the southwest corner of East Kirnwood Drive, west of Lost Mirage Drive.
