RIDER:	WNA – WEATHER NORMALIZATION ADJUSTMENT	
APPLICABLE TO:	Customers within the City of Dallas	
EFFECTIVE DATE:	Bills Rendered on or after 06/01/2026	

Provisions for Adjustment

The base rate per Ccf (100 cubic feet) for gas service set forth in any Rate Schedules utilized by the cities of the Mid-Tex Division service area for determining normalized winter period revenues shall be adjusted by an amount hereinafter described, which amount is referred to as the "Weather Normalization Adjustment." The Weather Normalization Adjustment shall apply to all temperature sensitive residential and commercial bills based on meters read during the revenue months of November through April. The regional weather station is Dallas.

Computation of Weather Normalization Adjustment

The Weather Normalization Adjustment Factor shall be computed to the nearest one-hundredth cent per Ccf by the following formula:

$$WNAF_i = R_i \frac{(HSF_i (NDD-ADD))}{(BL_i + (HSF_i \times ADD))}$$

Where

- i = any particular Rate Schedule or billing classification within any such particular Rate Schedule that contains more than one billing classification
- WNAF_i = Weather Normalization Adjustment Factor for the ith rate schedule or classification expressed in cents per Ccf
- R_i = base rate of temperature sensitive sales for the ith schedule or classification utilized by the Commission in the Relevant Rate Order.
- HSF_i = heat sensitive factor for the ith schedule or classification divided by the average bill count in that class
- NDD = billing cycle normal heating degree days
- ADD = billing cycle actual heating degree days
- BL_i = base load sales for the ith schedule or classification divided by the average bill count in that class

The Weather Normalization Adjustment for the jth customer in ith rate schedule is computed as:

$$WNA_j = WNAF_i \times q_{ij}$$

Where q_{ij} is the relevant sales quantity for the jth customer in ith rate schedule.

EFFECTIVE DATE:	Bills Rendered on or after 06/01/2026	

Application

Applicable to Customers taking service under Rate R, Rate C, Rate I, and Rate T, except for exempt State Agency Customers, to the extent of state gross receipts taxes only.

1. State Gross Receipts Taxes

Applicability - Entire Division except for Unincorporated Areas

Each monthly bill shall be adjusted for Miscellaneous state gross receipts taxes imposed by Sections 182-021 - 182-025 of the Texas Tax Code.

Entire Division

Each monthly bill shall also be adjusted by an amount equivalent to the amount of all applicable taxes and any other governmental impositions, rentals, fees, or charges (except state, county, city, and special district ad valorem taxes and taxes on net income) levied, assessed, or imposed upon or allocated to Company with respect to the Gas Service provided to Customer by Company, and any associated facilities involved in the performance of such Gas Service. Each monthly bill shall also be adjusted by an amount equivalent to the proportionate part of any increase or decrease of any tax and any other governmental imposition, rental, fee, or charge (except state, county, city, and special district ad valorem taxes and taxes on net income) levied, assessed, or imposed subsequent to the effective date of this tariff, upon or allocated to Company's operations, by any new or amended law, ordinance, or contract.

2. Federal or State Tax Law or Rate Changes:

Applicability – Unincorporated Areas, ATM Cities, City of Dallas

Applicable to Customers taking service under Rate R, Rate C, Rate I, and Rate T.

To ensure that gas utility customers receive the benefits or costs associated with the changes in tax rates at a federal or state level, MTX shall establish and accrue on its books and records, as of the effective date of the federal or state tax law or rate change: 1) regulatory liabilities to reflect the impact of a decrease in federal corporate income tax rates or state margin tax rates; or, 2) regulatory assets to reflect the impact of an increase in federal corporate income tax rates or state margin tax rates.

The gas utility may not change rates to give effect to a change in Federal or State Tax law or rates through the Rider TAX unless and until the Commission issues a Final Order, an Accounting Order, or other express guidance authorizing such recovery.

Company may also not change rates to capture the impacts associated with the effects of Public Law 117-169, 136 STAT. 1818 of August 16, 2022 ("Tax Act 2022") and certain other tax-related costs that will change from the amounts included in the most recent base revenue in Docket No. OS-24-00019196 unless and until the Commission issues a Final Order, an Accounting Order, or other express guidance authorizing such recovery.

Upon receipt of authorization from the Commission through an Accounting Order, final authorization or other express guidance, the calculation applicable to the aforementioned federal or state tax rate or law changes are as follows; however, to the extent there is a conflict between the calculation or methodology prescribed by an Accounting Order, Final Order, or other express guidance, and those contained in this rate schedule, the Accounting Order, Final Order, or other express guidance controls:

APPLICABLE TO:	Entire Division as Set Forth Below	
EFFECTIVE DATE:	Bills Rendered on or after 06/01/2026	

Calculations

1. With regard to changes in the tax rates at a federal or state level, the increase or decrease shall be calculated as follows:
 - a. A portion of the gas utility’s revenue representing the difference between: 1) the cost of service as approved by the Commission or the applicable regulatory authority in the gas utility’s most recent statement of intent or other rate proceeding, and 2) the cost of service that would have resulted had the rates been based on the new federal income tax rate (increase or decrease) or state margin taxes (increase or decrease), as of the effective date of the change;
 - b. If applicable, the portion of the gas utility’s revenue representing the difference between: 1) each Interim Rate Adjustment surcharge approved by the regulatory authority since the gas utility’s most recent statement of intent or other rate proceeding, and 2) each Interim Rate Adjustment surcharge that would have resulted had the surcharges been based on the new federal income tax rate (increase or decrease) or state margin taxes (increase or decrease), as of the effective date of the change; and
 - c. The excess or deficient deferred tax reserve, including any associated gross up in taxes, caused by the reduction or increase in the federal corporate income tax rate or state related tax increases, as of the effective date of the change.

Upon the receipt of authorization from the Commission or applicable regulatory authority, the gas utility shall separately refund to customers based on a decrease in federal or state tax rates or separately collect from customers based on an increase in federal or state tax rates within twelve (12) months or, pursuant to applicable Internal Revenue Code (“IRC”) rules and regulations, as follows:

- d. The amount collected/refunded by the gas utility that reflects the difference in base rates between: 1) the cost of service approved by the regulatory authority in the gas utility’s most recent statement of intent rate proceeding, and 2) the cost of service that would have resulted had the rates been based upon the new federal or state tax rates, between the effective date of this order and the effective date of the changes.
 - e. If applicable, the amount collected/refunded by the gas utility that reflects the difference between: 1) each Interim Rate Adjustment surcharge approved by the Commission or the regulatory authority since the gas utility’s most recent statement of intent rate proceeding, and 2) each Interim Rate Adjustment surcharge that would have resulted had the rates been based upon the new federal or state tax rates, between the effective date of this order and the effective date of the changes.
 - f. The amount collected/refunded by the gas utility that reflects the difference in the excess or deficient deferred tax reserve included in base rates between: 1) the cost of service approved by the Commission or the regulatory authority in the gas utility’s most recent statement of intent rate proceeding, and 2) the cost of service that would have resulted had the rates been based upon the new federal or state tax rates, between the effective date of this order and the effective date of the changes. These amounts shall be refunded or collected from customers based upon IRC rules and regulations if applicable.
2. With regard to the Tax Act 2022 and certain other tax-related costs that will change from the amounts included in the base revenue requirement in Docket No. OS-24-00019196, any change in rates shall be calculated as follows:

**MID-TEX DIVISION
ATMOS ENERGY CORPORATION**

RIDER:	TAX – TAX ADJUSTMENT	
APPLICABLE TO:	Entire Division as Set Forth Below	
EFFECTIVE DATE:	Bills Rendered on or after 06/01/2026	

- (a) The amount shall be calculated as the product of Company’s grossed-up rate of return authorized in the cost of service as approved by the Commission or the applicable regulatory authority in the gas utility’s most recent statement of intent or other rate proceeding times the Corporate Alternative Minimum Tax deferred tax asset (“CAMT DTA”) estimated at September 30 of the fiscal year or applicable quarter-end within a fiscal year prior to the annual change in the rates pursuant to this tariff, less the income tax credits received in accordance with IRC requirements applicable to the Tax Act 2022 grossed-up for income taxes to a revenue equivalent.
- (b) The estimated CAMT DTA and the related effects on the rider revenue requirements shall be trued up to the actual effects in the following year and the over/under recovery amortized over the twelve months that each year’s recalculated tariff rates are in effect. The over/under recovery shall include a grossed-up rate of return as authorized in Company’s most recent statement of intent or other rate proceeding.
- (c) The methodology for computing Company's CAMT is as follows:
- i. Confirm when Atmos Energy Corporation and its affiliates are subject to CAMT as an “applicable corporation” as defined the Tax Act 2022, then there will be MTX’s CAMT DTA in the tariff.
 - ii. Calculate the Mid-Tex Division’s (MTX) contribution to Adjusted Financial Statement Income (“AFSI”) on a stand-alone basis. MTX’s AFSI is calculated by adjusting MTX’s applicable financial statement income by adjustments to depreciation, pension costs and federal income tax to arrive at AFSI. AFSI is intended to be computed consistent with applicable IRC requirements.
 - iii. Compare MTX’s CAMT stand-alone amount with MTX’s regular stand-alone tax liability. If the stand alone CAMT is in excess of the stand-alone regular tax, the CAMT DTA is recorded to MTX.

If the Internal Revenue Service issues new guidance related to the Tax Act 2022, Company shall have the right to make additional filings to recognize such adjustments.

Any Commission filing made to give effect to Federal or State Tax Law or Rate Changes shall be filed within 12-months following the enactment of a tax rate change with the Commission’s Oversight and Safety Division or as part of a Statement of Intent.

Any city filing made to give effect to Federal or State Tax Law or Rate Changes shall be filed within 12-months following the enactment of a tax rate change and addressed to the city official at the address of record with the Mid-Tex Division.

With the exception of the authorization required from the Commission to allow the gas utility to recognize the new federal income tax rate (increase or decrease) or state taxes (increase or decrease) or the impacts associated with the effects of the Tax Act 2022 and certain other tax-related costs that will change from the amounts included in the base revenue requirement in Docket No. OS-24-00019196, no action on the part of the regulatory authority is required to give effect to the amount to be refunded or collected from customers. However, any amount refunded or collected from customers shall be fully subject to review for reasonableness and accuracy in the gas utility’s next statement of intent proceeding, and if applicable, the gas utility shall be required to reconcile any discrepancies.
