Land Use Compatibility:

The area of request is currently developed with a 5,000-square-foot building occupied by bar, lounge, or tavern use and live music venue uses. Property to the north, south, east, and west are developed with commercial retail uses. Staff finds that ongoing alcohol sales are unlikely to have an adverse impact on surrounding uses. Staff finds the applicant's proposal compatible with these surrounding uses.

The general provisions for a Specific Use Permit in Section 51A-4.219 of the Dallas Development Code specifically state: (1) The SUP provides a means for developing certain uses in a manner in which the specific use will be consistent with the character of the neighborhood; (2) Each SUP application must be evaluated as to its probable effect on the adjacent property and the community welfare and may be approved or denied as the findings indicate appropriate; (3) The city council shall not grant an SUP for a use except upon a finding that the use will: (A) complement or be compatible with the surrounding uses and community facilities; (B) contribute to, enhance, or promote the welfare of the area of request and adjacent properties; (C) not be detrimental to the public health, safety, or general welfare; and (D) conform in all other respects to all applicable zoning regulations and standards. The regulations in this chapter have been established in accordance with a comprehensive plan for the purpose of promoting the health, safety, morals, and general welfare of the city.

Staff supports the request because the use is not foreseen to be detrimental to surrounding properties. Staff also finds the proposed time limit of five years with eligibility for automatic renewal for additional five-year periods appropriate for this site.

The use has operated without issues for the past five years and complies with the conditions of the SUP. Additionally, the applicant does not propose any changes to the

existing site plan. Therefore, staff supports the applicant's requested time limit of five years with eligibility for automatic renewal for additional five-year periods.

Landscaping:

Landscaping will be provided in accordance with the landscaping requirements in Article X, as amended.

Parking:

PDD No. 269 does not require off-street parking for the first 2,500 square feet of floor area for this use located in an original building on the first floor. The applicant occupies approximately 2,200 square feet of floor area for the combined uses: 850 square feet for the bar and 1,350 square feet for the live music venue. The site plan that governs SUP No. 1695 will remain unchanged and continues to provide 14 off-street parking spaces (six spaces on site).

Market Value Analysis:

Market Value Analysis (MVA), is a tool to aid residents and policy-makers in understanding the elements of their local residential real estate markets. It is an objective, data-driven tool built on local administrative data and validated with local experts. The analysis was prepared for the City of Dallas by The Reinvestment Fund. Public officials and private actors can use the MVA to target intervention strategies more precisely in weak markets and support sustainable growth in stronger markets. The MVA identifies nine market types (A through I) on a spectrum of residential market strength or weakness. As illustrated in the attached MVA map, the colors range from purple representing the strongest markets (A through C) to orange, representing the weakest markets (G through I). The area of request is not currently within an MVA cluster. To the northwest and northeast are "E" MVA clusters.
