

FILE NUMBER: Z201-205(NN)

DATE FILED: February 2, 2021

LOCATION: Northeast side of Whispering Oaks Drive, south of Jordan Ridge Drive

COUNCIL DISTRICT: 3

MAPSCO: 62 K

SIZE OF REQUEST: ±22.9 acres

CENSUS TRACT: 165.20

REPRESENTATIVE: Brian Cunningham

APPLICANT: 4 All Construction, LLC/3633 Thedford LLC

OWNER: Bryan Bui and Frank Van

REQUEST: An application for a TH-2(A) Townhouse District with deed restrictions volunteered by the applicant on property zoned an R-10(A) Single Family District.

SUMMARY: The purpose of the request is to develop the site with single family homes.

CPC RECOMMENDATION: Denial.

STAFF RECOMMENDATION: Denial without prejudice.

BACKGROUND INFORMATION

- The subject site is undeveloped land and is heavily treed.
- Access to the site is currently limited to the north, east, and south side of the site.
- Approximately 200 single family homes can be built with the proposed zoning of TH-2(A) single family homes; however, the applicant’s conceptual plan that has been shared with staff for illustrative purposes indicated 145 lots.
- The applicant has volunteered deed restrictions to limit uses to single family homes and open spaces and restrict yard, lot, space regulations to R-7.5(A) Single Family District standards within 100 feet of the southern property boundary.

Zoning History

There have been three zoning cases in the area in the past five years.

1. **Z190-183:** On July 23, 2020, the City Plan Commission recommended denial of an IR Industrial Research District and a Specific Use Permit for a commercial motor vehicle parking use on property zoned an MF-2(A) Multifamily District located on South line of West Ledbetter Drive, east of the intersection of West Ledbetter Drive and Whispering Cedar Drive. [Case was not appealed to Council]
2. **Z167-137:** On August 23, 2017, the City Council approved an IR Industrial Research District and a Specific Use Permit for a commercial motor vehicle parking on property zoned an MF-2(A) Multifamily District on the south line of West Ledbetter Drive, east of the intersection of West Ledbetter Drive and Whispering Cedar Drive.
3. **Z167-269:** On August 23, 2017, the City Council approved a Specific Use Permit for a commercial motor vehicle parking on property zoned an IR Industrial Research District on the south line of West Ledbetter Drive, east of the intersection of West Ledbetter Drive and Whispering Cedar Drive

Thoroughfares/Streets

Thoroughfare/Street	Type	Existing/Proposed ROW
West Ledbetter Drive	Principal Arterial	107 feet
Duncanville Road	Minor Arterial	100 feet
Whispering Oaks Drive	Local Street	-

Traffic

The Engineering Division of the Sustainable Development and Construction Department has reviewed the request and provided the following comments:

- Development platting will need to comply with street engineering design and construction standards per Sec 51A-8.604 of the platting regulations of the Dallas Development Code. Accordingly, the minimum ROW dedication for the proposed TH-2(A) zoning is 56 feet or 53 feet when alleys provide a secondary access to residential lots.
- Driveway design will also be challenging to coordinate at permitting without creating driveway spacing that would not allow enough space for on-street parking, given the allowed density with the proposed zoning.
- The proposed residential subdivision would have better design opportunities with single-family zoning district and alleys.

STAFF ANALYSIS

Comprehensive Plan:

The *forwardDallas! Comprehensive Plan* was adopted by the City Council in June 2006. The *forwardDallas! Comprehensive Plan* outlines several goals and policies which can serve as a framework for assisting in evaluating the applicant's request.

The applicant's request could be considered consistent with the following goal and policy of the Comprehensive Plan.

LAND USE ELEMENT

GOAL 1.3 PROVIDE EQUITABLE OPPORTUNITIES FOR DALLAS RESIDENTS

Policy 1.3.1 Create housing opportunities throughout Dallas.

Implementation Measure 1.3.1.1 Encourage creation of diverse housing types by establishing ways to foster such development and find ways to foster homeownership.

NEIGHBORHOOD PLUS PLAN

GOAL 4.3 Enhance neighborhood desirability by improving infrastructure, housing stock, recreation, and safety.

The applicant's request is not consistent with the following goals and policies of the Comprehensive Plan.

LAND USE ELEMENT

GOAL 1.1 ALIGN LAND USE STRATEGIES WITH ECONOMIC DEVELOPMENT PRIORITIES

Policy 1.1.5 Strengthen existing neighborhoods and promote neighborhoods' unique characteristics. Acknowledge the importance of neighborhoods to the city's long-term health and vitality.

URBAN DESIGN ELEMENT

GOAL 5.1 PROMOTE A SENSE OF PLACE, SAFETY AND WALKABILITY

Policy 5.1.3 Encourage complementary building height, scale, design, and character.

GOAL 5.2 STRENGTHEN COMMUNITY AND NEIGHBORHOOD IDENTITY

Policy 5.2.1 Maintain neighborhood scale and character.

Surrounding Land Uses

	Zoning	Land Use
Site	R-10(A) Single Family District	Undeveloped
North	TH-2(A) Townhouse District	Single Family
East	TH-2(A) Townhouse District	Single Family
South	R-10(A) Single Family District	Single Family
West	R-10(A) Single Family District	Undeveloped

Land Use Compatibility

The site is uniquely situated, with single family homes to north, east, and south, however the character of the neighborhood to the south is distinctly different than the neighborhoods to the north and east.

The single family homes to the north and east are similar in character with what the proposed zoning intends to achieve. The homes are single family detached, generally developed on approximately 4,500 sq. ft. to 6,000 sq. ft. lots (except corner lots). On the other hand, the neighborhood to the south consists of larger lots and rural characteristics.

The existing zoning on the subject site may accommodate 90-98 units, whereas the proposed zoning has the potential of creating approximately 200 units, with the applicant's conceptual plan that has been submitted for illustrative purposes indicating 145 lots.

While the deed restrictions volunteered by the applicant attempts to mitigate the concerns related to compatibility to the adjacent properties to the south by limiting the yard, lot, and space regulations to R-7.5(A) standards in areas within 100 feet of the southern property line, staff does not believe they are adequate to fully the address the concerns. Staff could support the rezoning of the northern portion of the property to TH-2(A), but rezoning all of the subject site to TH-2(A) is not considered harmonious to the surrounding areas. Staff made suggestions regarding methods to limit the number of lots, lot size, and to preserve open spaces that could potentially achieve the desired compatibility; however, the applicant’s volunteered deed restrictions did not sufficiently serve the intended purpose.

Development Standards

District	Setbacks		Density	Min. Lot Size	Height	Lot Coverage
	Front	Side/ Rear				
Existing: R-10(A)	30'	6' (single family) 10'/15' (others)	N/A	10,000 sq. ft.	30'	45% (residential structure) 25% (nonresidential structure)
Proposed: TH-2(A)	0'	0' (single family) 5'/10' (duplex) 5'/10' (others)	9 DU/acre	2,000 sq. ft (single family) 6,000 sq. ft. (single family)	36'	60% (residential structure) 25% (nonresidential structure)
Proposed: TH-2(A) with deed restrictions for lots adjoining and within 100' of the southern property line	25'	5' (single family) 10'/15' (others)	N/A	7,500 sq. ft.	30'	45% (residential structure) 25% (nonresidential structure)

Use Regulations

The uses permitted in R-10(A) and TH-2(A) are similar. The following three are the only additional uses permitted in a TH-3(A) District that are not permitted in an R-7.5(A) District.

- Convalescent and nursing homes, hospice care, and related institutions. *[by SUP]*
- Duplex
- Retirement housing. *[by SUP]*

The applicant has volunteered deed restrictions to limit the permitted uses to single-family detached only and associated open space.

Parking

Pursuant to the Dallas Development Code, off-street parking must be provided in accordance with Division 51A-4.200, which requires one space per dwelling unit in a TH-2(A) district.

Landscaping and Tree Preservation

Landscaping must be provided in accordance with the landscaping requirements in Article X, as amended.

The site is heavily wooded with a mix of eastern red cedar and mixed-hardwood species of various ages. A historical assessment of the area indicates the tree stand for the most part has grown without significant disturbance through its history due to its topography, while upland areas to the north were initially cleared for agriculture long before the residential development was built. The land has a downward slope to the southern lowland where many of the larger trees are found. A site survey prior to development will determine whether an intermittent stream is on the property. This would identify a primary natural area for tree classification purposes to identify Class 1 trees. The natural low area in the southern portion of the property has a healthy stand of significant trees that will increase the base tree mitigation burden once the trees are removed. A full tree survey will be required to determine the accurate tree replacement requirement for development. If the site is developed as proposed, it is expected that required Article X landscaping on the property will provide only a small fraction of the overall tree mitigation applicable to this property. The majority of tree mitigation not planted on the site will be required to be completed within the first year after removal as stated in Article X.

Market Value Analysis

[Market Value Analysis \(MVA\)](#), is a tool to aid residents and policy-makers in understanding the elements of their local residential real estate markets. It is an objective, data-driven tool built on local administrative data and validated with local experts. The analysis was prepared for the City of Dallas by The Reinvestment Fund. Public officials and private actors can use the MVA to more precisely target intervention strategies in weak markets and support sustainable growth in stronger markets. The MVA identifies nine market types (A through I) on a spectrum of residential market strength or weakness. As illustrated in the attached MVA map, the colors range from purple representing the strongest markets (A through C) to orange, representing the weakest markets (G through I). The area of request is unidentified but adjacent areas to the north, east and west are within "F" MVA category.

**DEED RESTRICTIONS VOLUNTEERED
BY THE APPLICANT**

1. The following main uses are prohibited.

Agricultural uses.

- Crop production.

Industrial uses.

- Gas drilling and production.
- Temporary concrete or asphalt batching plant.

Institutional and community service uses.

- Adult day care facility.
- Cemetery or mausoleum.
- Child-care facility.
- Church.
- College, university, or seminary.
- Community service center.
- Convalescent and nursing homes, hospice care, and related institutions.
- Convent or monastery.
- Foster home.
- Library, art gallery, or museum.
- Public or private school.

Miscellaneous uses.

- Carnival or circus (temporary).
- Temporary construction or sales office.

Recreation uses.

- Country club with private membership
- Private recreation center, club, or area.
- Public park, playground, or golf course.

Z201-205(NN)

Residential uses.

- Duplex.
- Retirement housing.

Transportation uses.

- Private street or alley.
- Transit passenger shelter.
- Transit passenger station or transfer center.

Utility and public service uses.

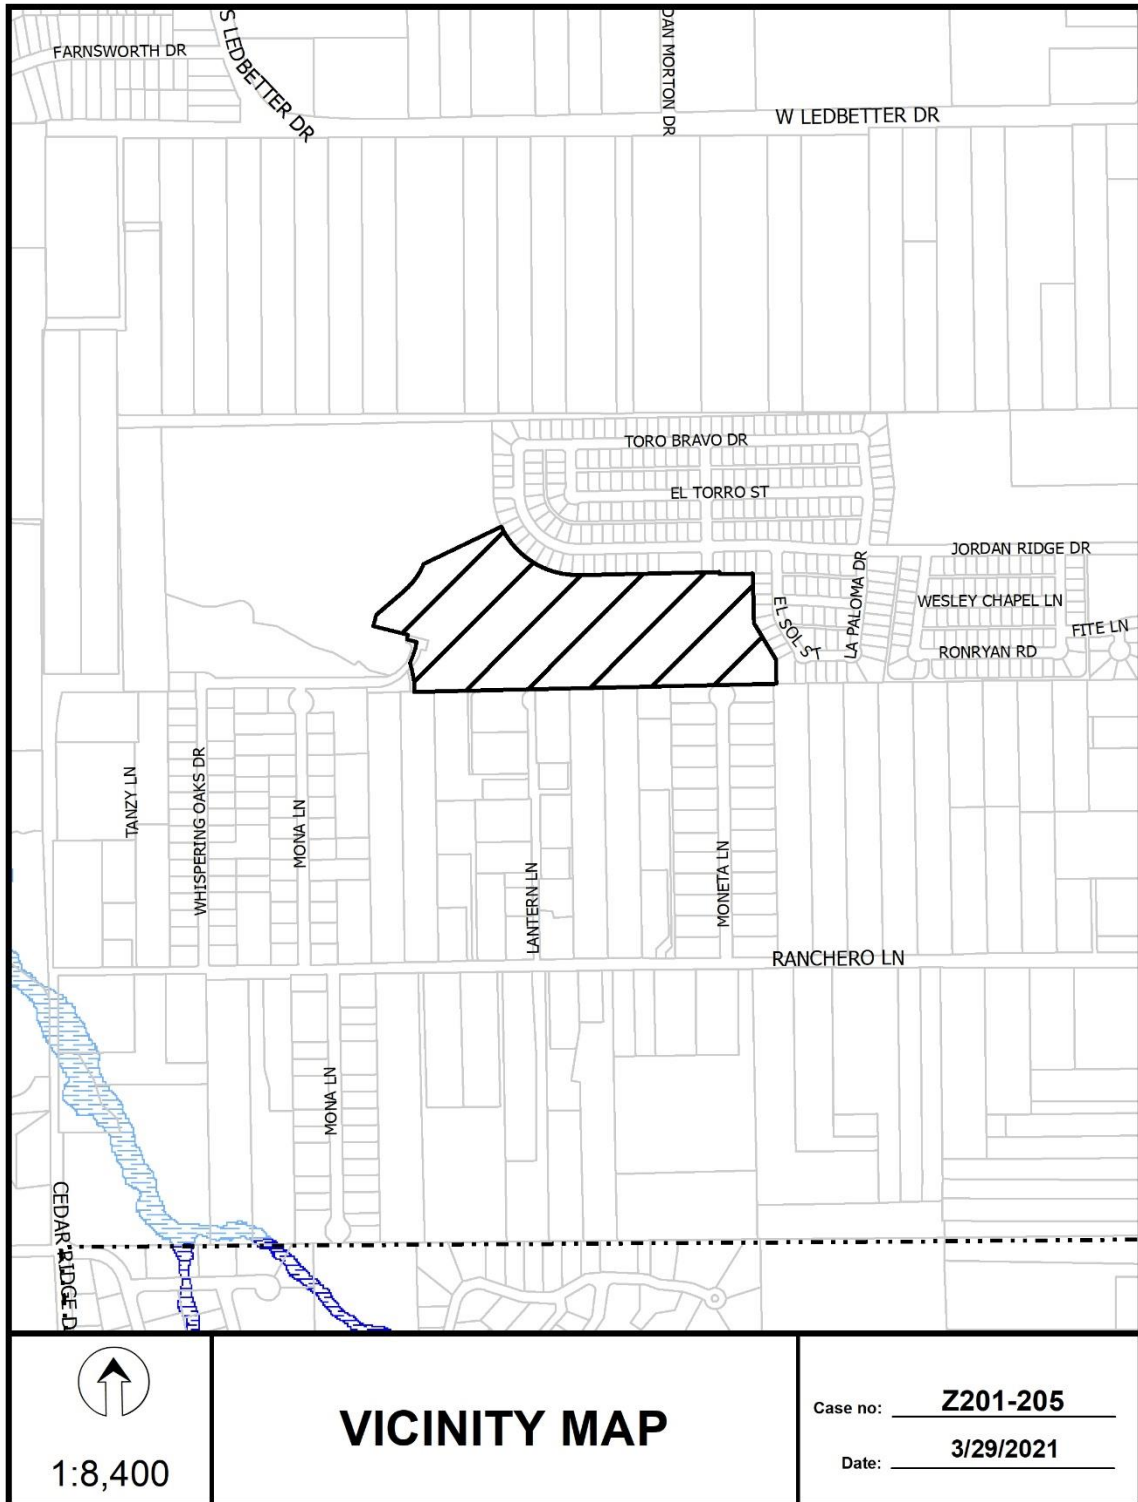

- Electrical substation.
- Local utilities.
- Police or fire station.
- Radio, television, or microwave tower.
- Tower/antenna for cellular communication.
- Utility or government installation other than listed.

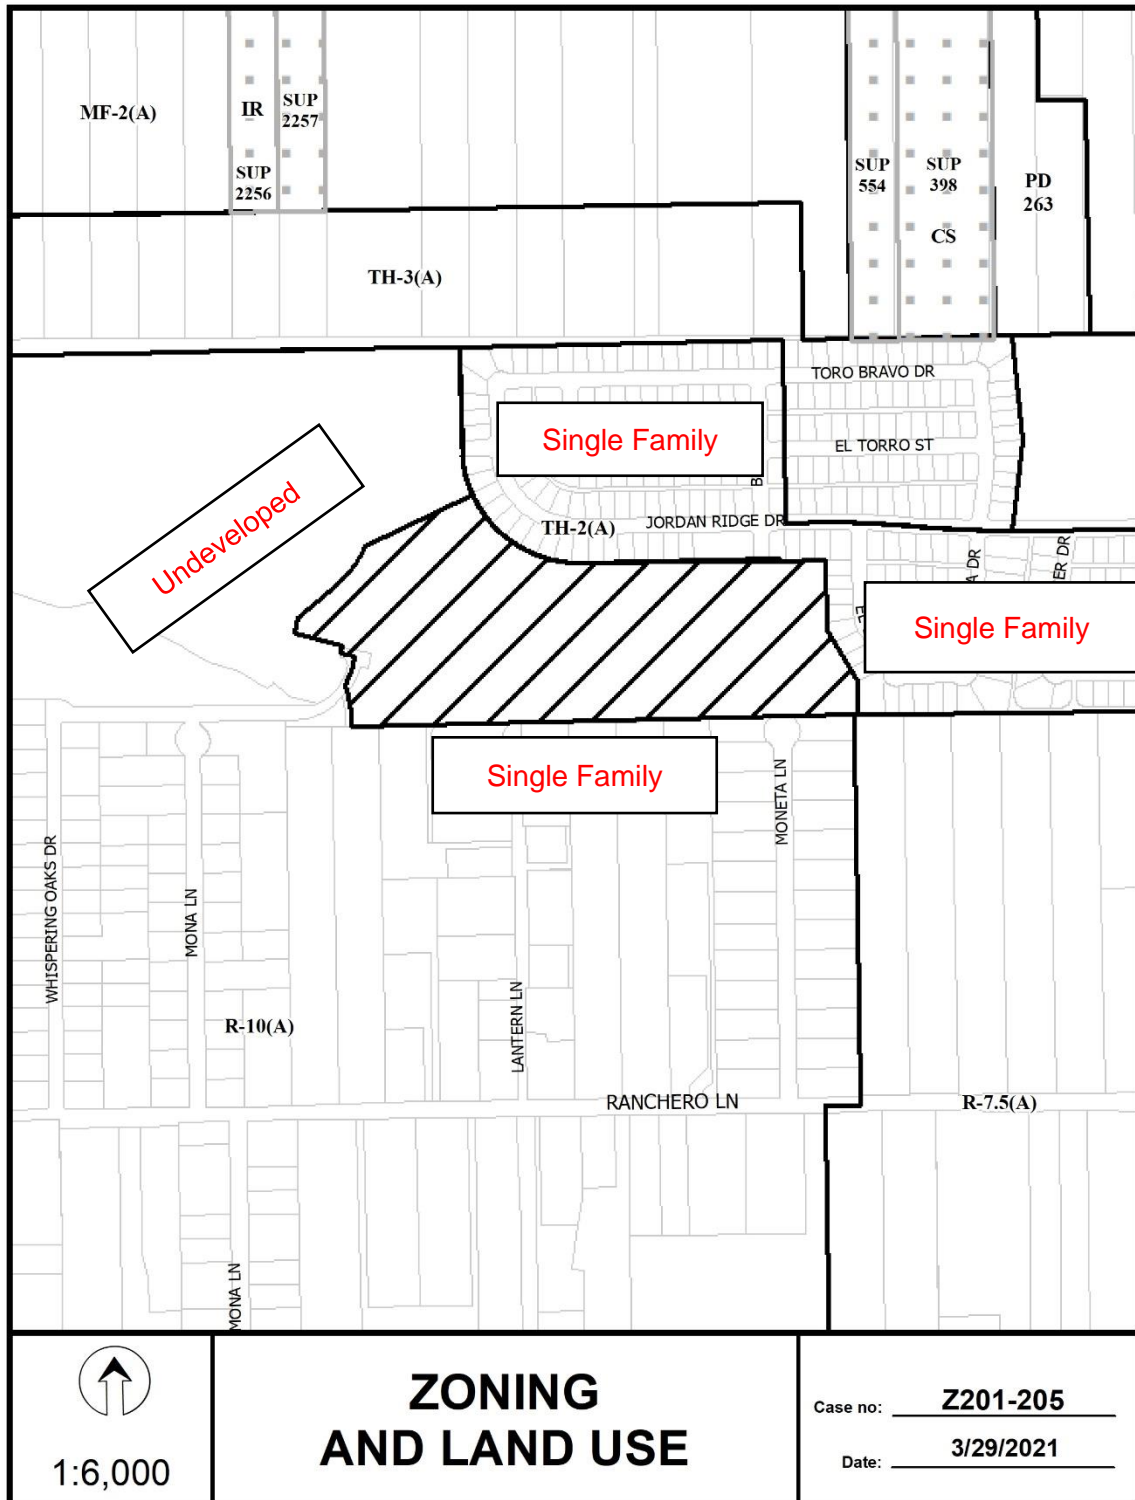

Wholesale, distribution, and storage uses.

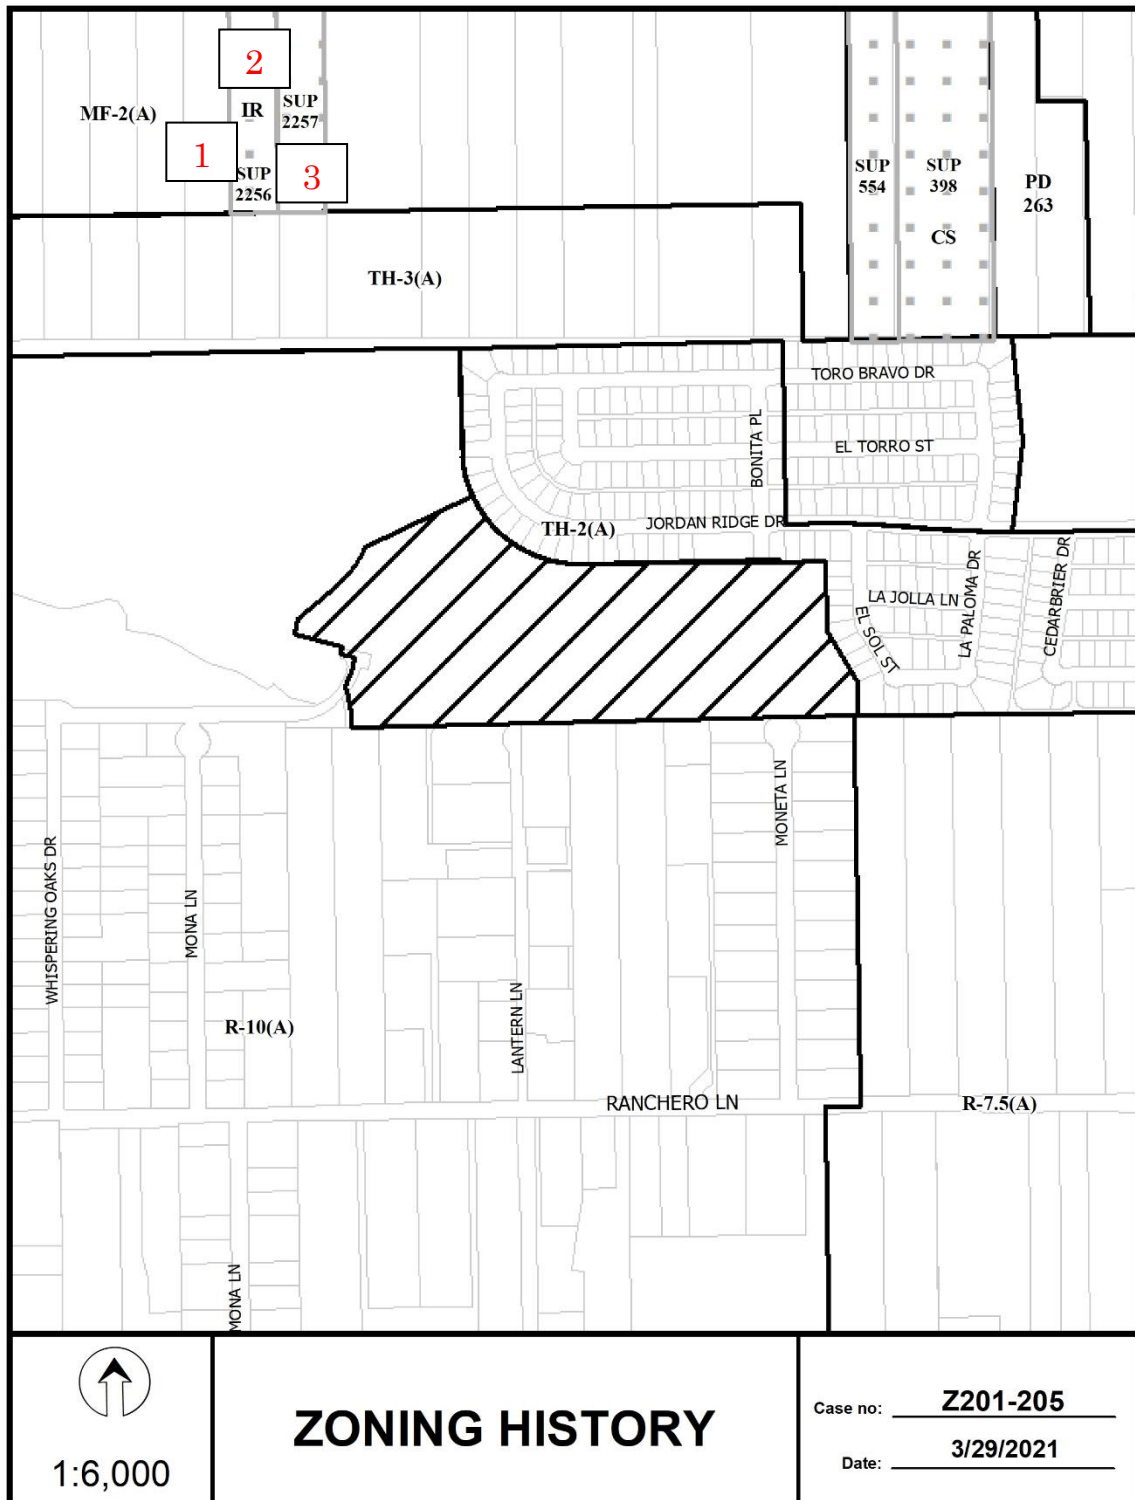

- Recycling drop-off container.
- Recycling drop-off for special occasion collection.

The following accessory uses are prohibited.

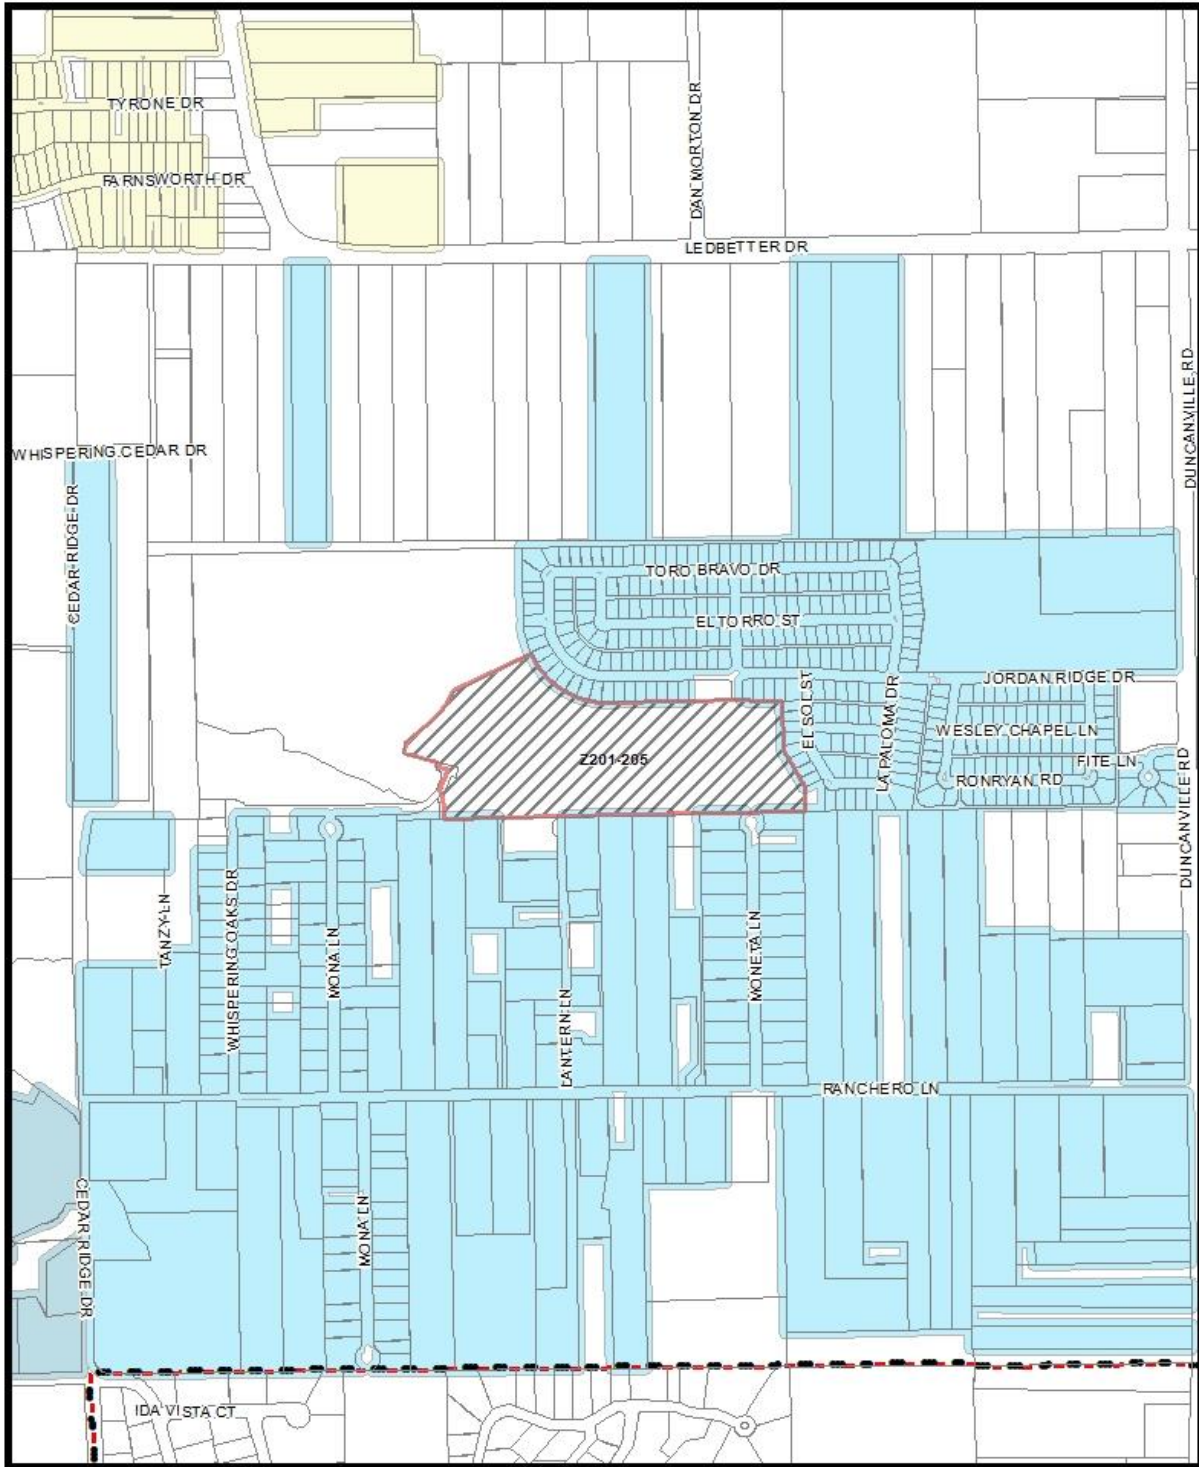

- Accessory community center (private).
2. Permitted single family use is limited to single family detached.
 3. For lots adjoining and within 100 feet of the southern property line, the following yard, lot, and space regulations apply:
 - Minimum front yard is 25 feet.
 - Minimum side yard is five feet for single family structures and 10 feet for other permitted structures.
 - Minimum rear yard is five feet for single family structures and 15 feet for other permitted structures.
 - Maximum structure height is 30 feet.
 - Maximum lot coverage is 45 percent for residential structures and 25 percent for nonresidential structures
 - Minimum lot area for residential use is 7,500 square feet.
