Request

1. A Certificate of Appropriateness to construct a new accessory structure in the left (west) side yard of the main building -- a freestanding, metal carport.
2. A Certificate of Appropriateness to install an eight-foot-high (8') screened perimeter fence with a sliding gate (to obscure the proposed carport).

Applicant Jose Soto

Application Filed 6/7/2026

Staff Recommendation

1. That the request for a Certificate of Appropriateness to construct a new accessory structure in the left (west) side yard of the main building -- a freestanding, metal carport - be **approved** in accordance with drawings and specifications dated 6/7/2026 **with the following condition(s)**: that metal columns and roof structure be painted Centennial Tan (Plochere 183) or a compatible muted neutral color. Implementation of the recommended condition(s) would allow the proposed work to be consistent with preservation criterion Section 3.5 under Paint; Dallas City Code Section 51A-4.501(g)(6)(C)(ii) for **noncontributing** structures; and the Secretary of the Interior's Guidelines for Setting (District/Neighborhood).
2. That the request for a Certificate of Appropriateness to install an eight feet high (8') screened perimeter fence with sliding gate (to obscure proposed carport) be **approved** in accordance with drawings and specifications dated 6/7/2026 **with the following conditions**: that color of screening (mesh) be black or dark gray as opposed to green; and that fencing must not physically alter, cut into, or attach to the main building. Implementation of the recommended conditions would allow the proposed work to be consistent with preservation criterion Section 3.11(d) pertaining to fencing; Dallas City Code Section 51A-4.501(g)(6)(C)(ii) for **noncontributing** structures; and the Secretary of the Interior's Guidelines for Setting (District/Neighborhood).

Task Force Recommendation

1. That the request for a Certificate of Appropriateness to construct a new accessory structure in the left (west) side yard of the main building -- a freestanding, metal carport-- be approved as submitted.
2. That the request for a Certificate of Appropriateness to install an eight-foot high (8') screened perimeter fence with sliding gate (to obscure proposed carport) be approved as submitted.

Request

A Certificate of Appropriateness to install 31 bollards adjacent to the southwest elevation of the main building.

Applicant Norman Alston

Application Filed 6/17/2026

Staff Recommendation

That the request for a Certificate of Appropriateness to install 31 bollards adjacent to the southwest elevation of the main building be **approved** in accordance with drawings and specifications dated 6/17/2026 **with the following conditions**: that bollard placement **not** block pedestrian walkways, accessible paths, or required fire lane widths; that bollards be finished in a dark, non-reflective neutral color (black, dark bronze, or charcoal) to remain visually unobtrusive; that sections (on each end) of the bollard installation be removable for potential emergency access; and that any damage to Texas-shaped pavers during installation be repaired with in-kind materials. Implementation of the recommended conditions would allow the proposed work to be consistent with preservation criteria Section 3.10 under Hardscape and Section 3.11(h) pertaining to fencing; Dallas City Code Section 51A-4.501(g)(6)(C)(ii) for **noncontributing** structures; and the Secretary of the Interior's Guidelines for Setting (District/Neighborhood).

Task Force Recommendation

That the request for a Certificate of Appropriateness to install 31 bollards adjacent to the southwest elevation of the main building be approved with the following conditions/comments:

1. Make some bollards removable on both sides to allow emergency access or unforeseen future use
2. The applicant will provide specific bollard locations after meeting with the client.

Note: The applicant has revised to comply with the task force recommendation(s).

Request

1. A Certificate of Appropriateness to replace the front door and sidelights of the main structure.
2. A Certificate of Appropriateness to replace the existing pendant light fixture at the front entrance.

Applicant Bobby Ralston

Application Filed 5/22/2026

Staff Recommendation

1. That the Certificate of Appropriateness to replace the front door and sidelights of the main structure be **approved** in accordance with specifications dated 7/6/2026. The proposed work is consistent with preservation criteria Section 3.10; City Code Section 4.501(g)(6)(C)(i) for **contributing** properties, and the Secretary of the Interior's Standards for Rehabilitation.
2. That the Certificate of Appropriateness to replace the existing pendant light fixture at the front entrance be **approved** in accordance with specifications dated 7/6/2026. The proposed work is consistent with preservation criteria Section 2.5; City Code Section 4.501(g)(6)(C)(i) for **contributing** properties, and the Secretary of the Interior's Standards for Rehabilitation.

Task Force Recommendation

1. That the Certificate of Appropriateness to replace front door and sidelights of main structure be approved with conditions that the door, sidelights, and transom are wood on wood with no cladding, and the muttoms are exterior to the glass.
2. That the Certificate of Appropriateness to replace the existing pendant light fixture at the front entrance be approved as the light fixture as submitted.

Request

A Certificate of Appropriateness to enclose existing garage doors on the northwest side and cover with matching side.

Applicant Kowalewski, Matthew

Application Filed 5/22/2026

Staff Recommendation

That the Certificate of Appropriateness to enclose existing garage doors on the northwest side and cover with matching siding be **approved with the following conditions**: infill to match siding, brick skirting, and painted to match. Implementation of the proposed conditions would allow the proposed work to be consistent with Preservation Criteria Section 51P-225.109(a)(11)(B), City Code Section 4.501(g)(6)(C)(ii) for

noncontributing properties, and the Secretary of the Interior's Standards for Setting (Neighborhood/District).

Task Force Recommendation

That the Certificate of Appropriateness to enclose existing garage doors and cover with matching siding should be approved with the following conditions: infill to match siding, brick skirting, and painted to match. Applicant will need an elevation and "cleaned-up" plan without any unnecessary items or notes.

Request

A Courtesy Review of the construction of a new main structure on a vacant lot.

Applicant Fred Pena

Application Filed 5/26/2026

Staff Recommendation

Courtesy Review - no action required. That the request to construct a new main structure be conceptually approved with the understanding that the final design, as well as associated site plans, elevations, renderings, and details, are to be submitted for Landmark Commission review.

Task Force Recommendation

Courtesy Review - Comments only:

If using the Craftsman plans: 1. The gable should face the front of the house, with the dormers facing the sides, unless the applicant can find examples in the district that have the roof facing the front of the house and the gable to the sides. 2. Columns of the porch should be no farther forward than the skirt of the porch. Note: Airplane Bungalow version: Task Force feels that the second-floor addition is not in scale with the remainder of the house and encourages the applicant to stick with the version with dormers.

If using the Mission plans: 1. The courtyard wall is inappropriate for the district. A wrought iron fence around the property or a wrought iron gate at the entrance of the courtyard would be appropriate. The roofline harkens to Craftsman architecture, not Mission. Roofline should include parapets. Recommended that for inspiration, the applicant look at the architecture of 4400 Gaston Avenue, 4425 Swiss Ave, and 4525 Junius Street.

Note: Applicant decided to move forward with the Craftsman plans.

Request

A Certificate of Appropriateness to replace existing wood (framed) double entrance doors on the south elevation of the main building with aluminum (framed) double doors.

Applicant Rees Bowen IV

Application Filed 6/8/2026

Staff Recommendation

That the request for a Certificate of Appropriateness to replace existing wood (framed) double entrance doors on the south elevation of the main building with aluminum (framed) double doors be **denied without prejudice**. The proposed aluminum storefront door system is visually incompatible in profile, non-historic in material, and does not reproduce the massing, paneling, or configuration expected for historic industrial doors. Therefore, the proposed work would have an adverse effect on the historic character of the building and is **not** consistent with preservation criterion Section 3.12 under Fenestrations and Openings; Dallas City Code Section 51A-4.501(g)(6)(C)(i) for **contributing** structures; and the Secretary of the Interior's Standards for Rehabilitation.

Task Force Recommendation

That the request for a Certificate of Appropriateness to replace existing wood (framed) double entrance doors on the south elevation of the main building with aluminum (framed) double doors will be denied without prejudice. Replacing the existing wood door with a new wood door is more compatible with the building than replacing it with a new metal door.

Request

A Certificate of Appropriateness to rebuild and reconfigure the existing (non-original) side addition.

Applicant Gary Buckner

Application Filed 6/3/2026

Staff Recommendation

That the Certificate of Appropriateness to rebuild and reconfigure the existing (non-original) side addition be **approved with the following conditions**: 1. That the roof on the side addition be hipped with a 6:12 pitch, 2. that all replacement siding be #117 novelty wood siding to match the original, and 3. that all fenestration remain and not be removed. Implementation of the proposed conditions would allow work to be consistent with preservation criteria Section 8; City Code Section 4.501(g)(6)(C)(i) for **contributing** properties, and the Secretary of the Interior's Standards for Rehabilitation.

Task Force Recommendation

That the Certificate of Appropriateness to rebuild and reconfigure the existing side addition roof be approved with the conditions that drawings and specifications indicate a distractive hipped or gable roof on the dormer/side addition and that detailing matches the existing main structure. Recommend that the side elevation with the dormer show more information, that the hipped roof is more appropriate, and that the roof specification sheet and side elevation roof specifications match.

Request

A Certificate of Appropriateness to replace the existing fence.

Applicant Jason Espay

Application Filed 5/15/2026

Staff Recommendation

That the Certificate of Appropriateness to replace the existing fence be **approved with the condition** that the fence must be in the rear 50 percent of the side yard or behind and behind the rearmost side projection of the main building. Implementation of this condition will ensure the proposed work is consistent with preservation criteria, Sec. 51P-97.111(c)(2)(B)(iii); City Code Section 4.501(g)(6)(C)(i) for **contributing** properties, and the Secretary of the Interior's Standards for Rehabilitation.

Task Force Recommendation

That the Certificate of Appropriateness to replace the existing fence be approved as shown.

Note: More information about the fence location has been obtained, and it differs from what was perceived at the task force meeting.

Request

A Certificate of Appropriateness to replace the existing (possibly unauthorized) fence to match the existing.

Applicant Alexander Hinckley

Application Filed 6/16/2026

Staff Recommendation

That the Certificate of Appropriateness to replace the existing fence be **approved with the condition** that the fence is not located directly in front of the corner side façade of the main block of the house facing North Beacon St. [allowing for the rear ell on the east (rear) side of the house to be within the fenced area], which will not have an adverse effect on the district. Implementation of this condition will ensure the proposed work is consistent with the spirit of the preservation criteria, Sec. 51P-63.116(2)(B)(iv)(cc); meet City Code Section 4.501(g)(6)(C)(i) for **contributing** properties, and the Secretary of the Interior's Standards for Rehabilitation.

Task Force Recommendation

That the Certificate of Appropriateness to replace the existing fence be denied without prejudice, as the ordinance does not permit a fence directly in front of the corner façade.

Applicant Pascual Mojica

Application Filed 06/22/2026

Staff Recommendation

That the request for a Certificate of Appropriateness to construct a new main residential building on a vacant corner lot - a duplex, with an accessory structure, a rear detached two-car garage be **approved** in accordance with drawings and specifications dated 06/22/2026 **with the following conditions**: that foundation be pier and beam or crawlspace with a minimum height of eighteen inches; that windows be all-aluminum (not aluminum cladding) with lite configuration of one over one (1 over 1); that mullion(s) (i.e., trim pieces) of four to six inches in width be added between paired/ganged windows; that paint colors for the body and trim

be selected from a historic paint color collection and be approved by staff; and that driveway(s), walkway(s) and steps be of brush finished concrete; and that all revisions be noted on drawings and approved by staff. Implementation of the recommended conditions would allow the proposed work to be consistent with preservation criteria Section 3.3 under Building Site and Landscaping, Sections 9.3, 9.6, and 9.7 under New Construction and Additions, and Sections 10.1, 10.2, 10.3, and 10.4 under Accessory Buildings; the standards in City Code Section 51A-4.501(g)(6)(C)(ii) for **noncontributing** structures; and the Secretary of the Interior's Guidelines for Setting (District/Neighborhood).

Task Force Recommendation

That the request for a Certificate of Appropriateness to construct a new main residential building on a vacant corner lot - a duplex, with an accessory structure, a rear detached two-car garage, be approved with the following condition(s)/comment(s):

1. Move (louvered) vents to the main side gables.
2. Raise the main side gable (roof height).
3. Expose rafter tails.
4. The two front gables are lower and narrower.
5. (Front) Porch column tops need to be tapered, with brackets aligned with the column(s) central axis(es).

Note: The applicant has revised to comply with the task force recommendation(s).
