LOCATION: North line of West Camp Wisdom Road, between Clark Road and Royal Cedar Way

COUNCIL DISTRICT: 3

SIZE OF REQUEST: ±4.836 acres **CENSUS TRACT:** 48113016521

REPRESENTATIVE: Steven Uetrecht

APPLICANT: Thomas M. Gaubert

OWNER: TMG Irrevocable Trust

REQUEST: An application for an MF-2(A) Multifamily District on property zoned an NS(A) Neighborhood Service District with deed restrictions [Z889-187 Tract 2] and an A(A) Agricultural District.

SUMMARY: The purpose of the request is to permit residential uses on the site.

STAFF RECOMMENDATION: Approval.

BACKGROUND INFORMATION:

- The area of request is zoned an NS(A) Neighborhood Service District and is currently undeveloped.
- The applicant is proposing to develop the site with residential uses.
- The existing deed restrictions prohibit general merchandise or food store 3,500 square feet or less and motor vehicle fueling station. Generally, this still permits by right Office category uses, Institutional and community service uses, Personal Service uses, and Restaurant without drive-in or drive-through service, as well as any of the uses permitted in NS(A) through SUP. The deed restrictions should not affect the development of residential uses.
- The requested MF-2(A) Multifamily District is more appropriate than the existing NS(A) Neighborhood Service District along a major thoroughfare and within walking distance to transit, educational facilities, and retail services.

Zoning History:

There have not been any zoning cases in the area in the last five years.

Thoroughfares/Streets:

Thoroughfare/Street	Type	Existing/Proposed ROW
West Camp Wisdom Road	Principal Arterial	100 foot /107 foot ROW Bike Plan

Traffic:

The Transportation Development Services Division of the Transportation Department has reviewed the request and determined that it will not significantly impact the surrounding roadway system.

STAFF ANALYSIS:

Comprehensive Plan:

The *forwardDallas! Comprehensive Plan* was adopted by the City Council in June 2006 and outlines several goals and policies which can serve as a framework for assisting in evaluating the applicant's request.

The proposed MF-2(A) Multifamily District complies with the following land use goals and policies of the Comprehensive Plan:

LAND USE ELEMENT

GOAL 1.1 ALIGN LAND USE STRATEGIES WITH ECONOMIC DEVELOPMENT PRIORITIES

Policy 1.1.1 Focus on Southern Sector development opportunities.

Policy 1.1.5 Strengthen existing neighborhoods and promote neighborhoods' unique characteristics.

1.3.1.7 Implement zoning tools to accommodate alternative housing products.

GOAL 1.3 PROVIDE EQUITABLE OPPORTUNITIES FOR DALLAS RESIDENTS

Policy 1.3.1 Create housing opportunities throughout Dallas.

ECONOMIC ELEMENT

GOAL 2.1 PROMOTE BALANCED GROWTH

Policy 2.1.1 Ensure that zoning is flexible enough to respond to changing economic conditions.

GOAL 2.5 FOSTER A CITY OF GREAT NEIGHBORHOODS

Policy 2.5.1 Promote strong and distinctive neighborhoods to enhance Dallas' quality of life.

URBAN DESIGN ELEMENT

GOAL 5.1 PROMOTE A SENSE OF PLACE, SAFETY, AND WALKABILITY

Policy 5.1.1 Promote pedestrian friendly streetscapes.

Policy 5.1.3 Encourage complementary building height, scale, design, and character.

GOAL 5.2 STRENGTHEN COMMUNITY AND NEIGHBORHOOD IDENTITY

Policy 5.2.1 Maintain neighborhood scale and character.

GOAL 5.3 ESTABLISHING WALK-TO CONVENIENCE

Policy 5.3.1 Encourage a balance of land uses within walking distance of each other.

NEIGHBORHOOD PLUS

Goal 4 Attract and Retain the Middle Class

Policy 4.3 Enhance neighborhood desirability by improving infrastructure, housing stock, recreation, and safety.

Goal 5 Expand Homeownership

Policy 5.1 Encourage a wider range of well-designed and affordable housing types as a response to emerging homeownership preferences.

Policy 5.2 Encourage infill development and existing home improvements in target neighborhoods to attract and retain homeowners.

Goal 6 Enhance Rental Housing Options

Policy 6.1 Raise the quality of rental property through better design standards, proactive and systematic code enforcement, and zero tolerance towards chronic offenders.

Policy 6.2 Expand affordable housing options and encourage its distribution throughout the city and region.

Overall, the proposed change advances the Comprehensive Plan’s goals to encourage a healthy mix of housing types, and strengthen neighborhood character and identity through complementary development. It also furthers Neighborhood Plus goals of widening housing options and improving housing desirability.

Land Use:

	Zoning	Land Use
Site	NS(A) Neighborhood Service District with deed restrictions [DR Z889-187_Tract 2], A(A) Agricultural District	Undeveloped
North	Planned Development District No. 938, A(A) Agricultural District	Multifamily, undeveloped
East	A(A) Agricultural District, TH-1(A) Townhouse District	Undeveloped, Single family
South	City of Duncanville	Outside city limit
West	Planned Development District No. 938	Multifamily

Land Use Compatibility:

The area of request is currently undeveloped. Property to the north and west are built out as multifamily under PD No. 938. Property to the east along West Camp Wisdom is a single family subdivision built out under TH-1(A). Properties to the south are outside of city limit within City of Duncanville. Staff finds that the proposed district is complementary with surrounding uses and zoning districts.

The proposed MF-2(A) would allow multiple residential uses including single family, duplex, retirement housing, and multifamily. Any of these residential options would be appropriate on the site, but generally, a higher density and more flexible building and lot formats, than those allowed by the existing zoning would be more appropriate along a major road. Along this portion of Camp Wisdom, the proposed use is consistent with multifamily uses to the west and could be supported by nearby retail uses and schools.

*Effective heights limited by RPS, ranging from 26' on the eastern property boundary to max district height at property center

The proposed MF-2(A) allows appropriately sited density. Height and building setbacks would limit the development standards to be compatible with nearby residential.

Although the change would increase the allowable height on the property to 36 feet in the base zoning, the height would be limited by residential proximity slope on the periphery of the property. Additionally, A(A) District within the block would impose blockface continuity on the subject property, which would entail 50 foot front setback on Camp Wisdom.

As with any property zoned MF-2(A), mixed income bonuses are available to multifamily and retirement uses and are listed above. Those bonuses would also entail the requirement of the design standards of 4.1107. As such, should the applicant utilize a height bonus, this height would also be limited by RPS.

Landscaping:

Landscaping and tree preservation are required in accordance with Article X, as amended.

Parking:

Off-street parking must be provided pursuant to the Dallas Development Code, as amended. The off-street parking requirement for a single family use in MF-2(A) is two spaces per unit. The off-street parking requirement for a multifamily use is one space per bedroom with a minimum of one space per dwelling unit. An additional one-quarter space per dwelling unit must be provided for guest parking if the required parking is restricted to resident parking only. Should the applicant include a mixed income housing component, this requirement would be reduced to one-half space per unit.

As with any minimum required parking, these ratios only reflect the minimum amount required. The developer may provide additional parking beyond these.

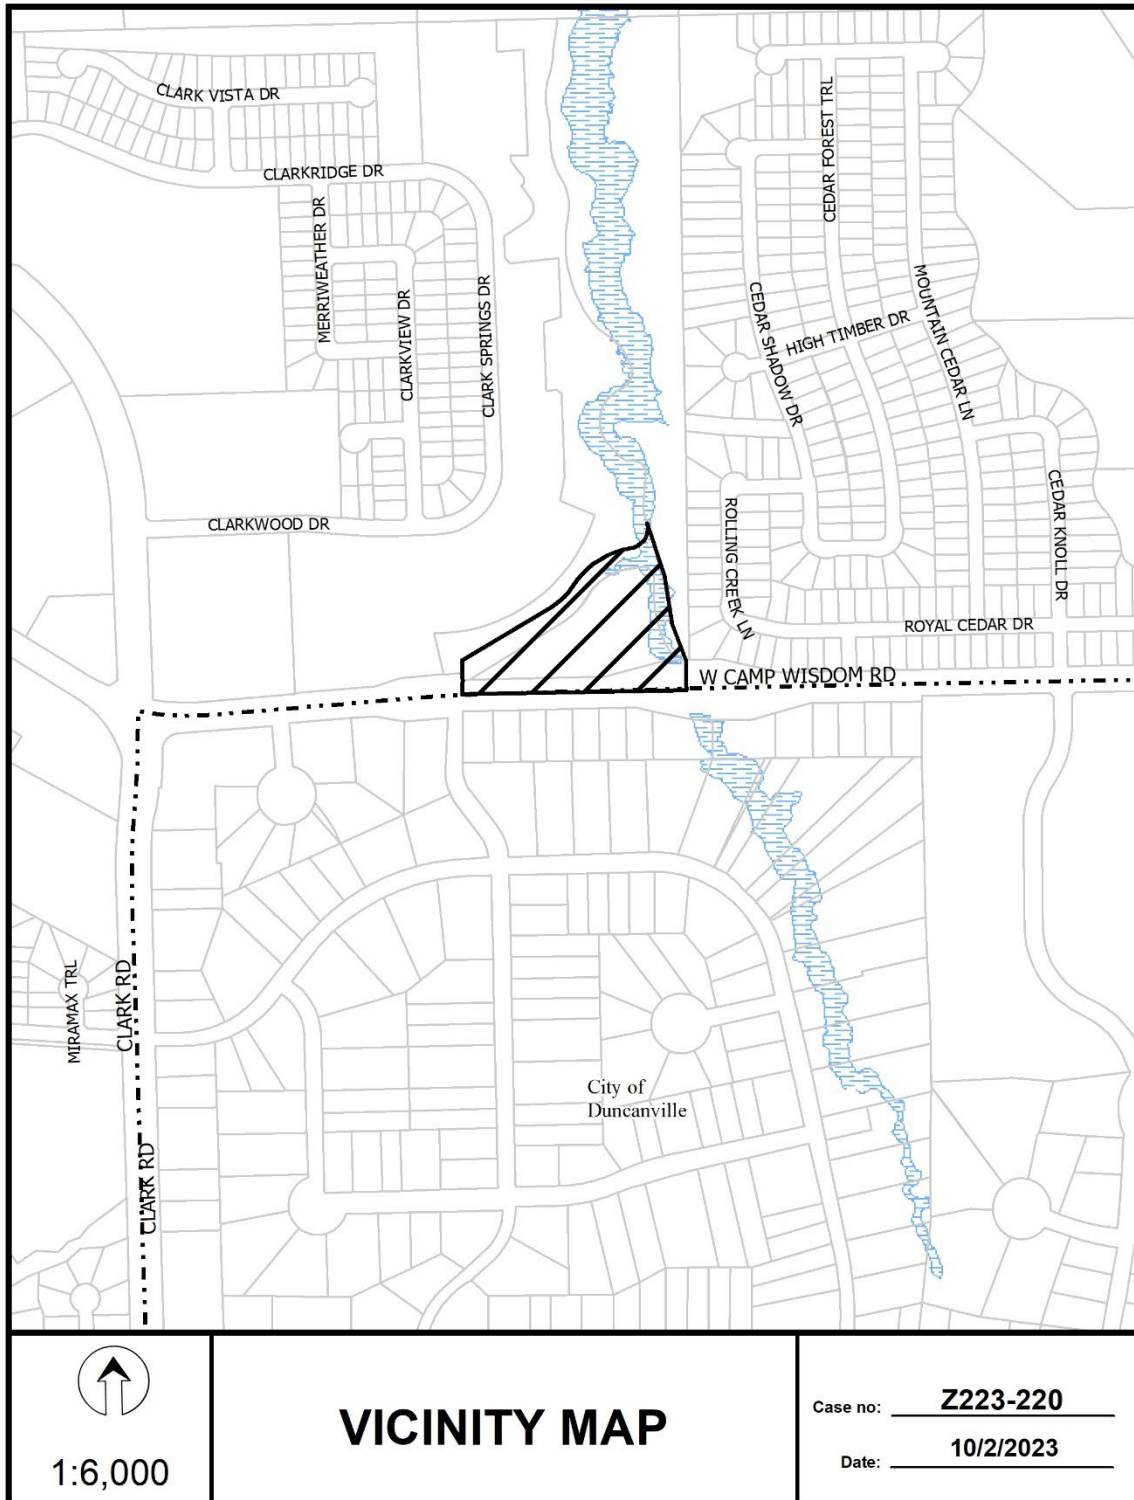

Market Value Analysis:

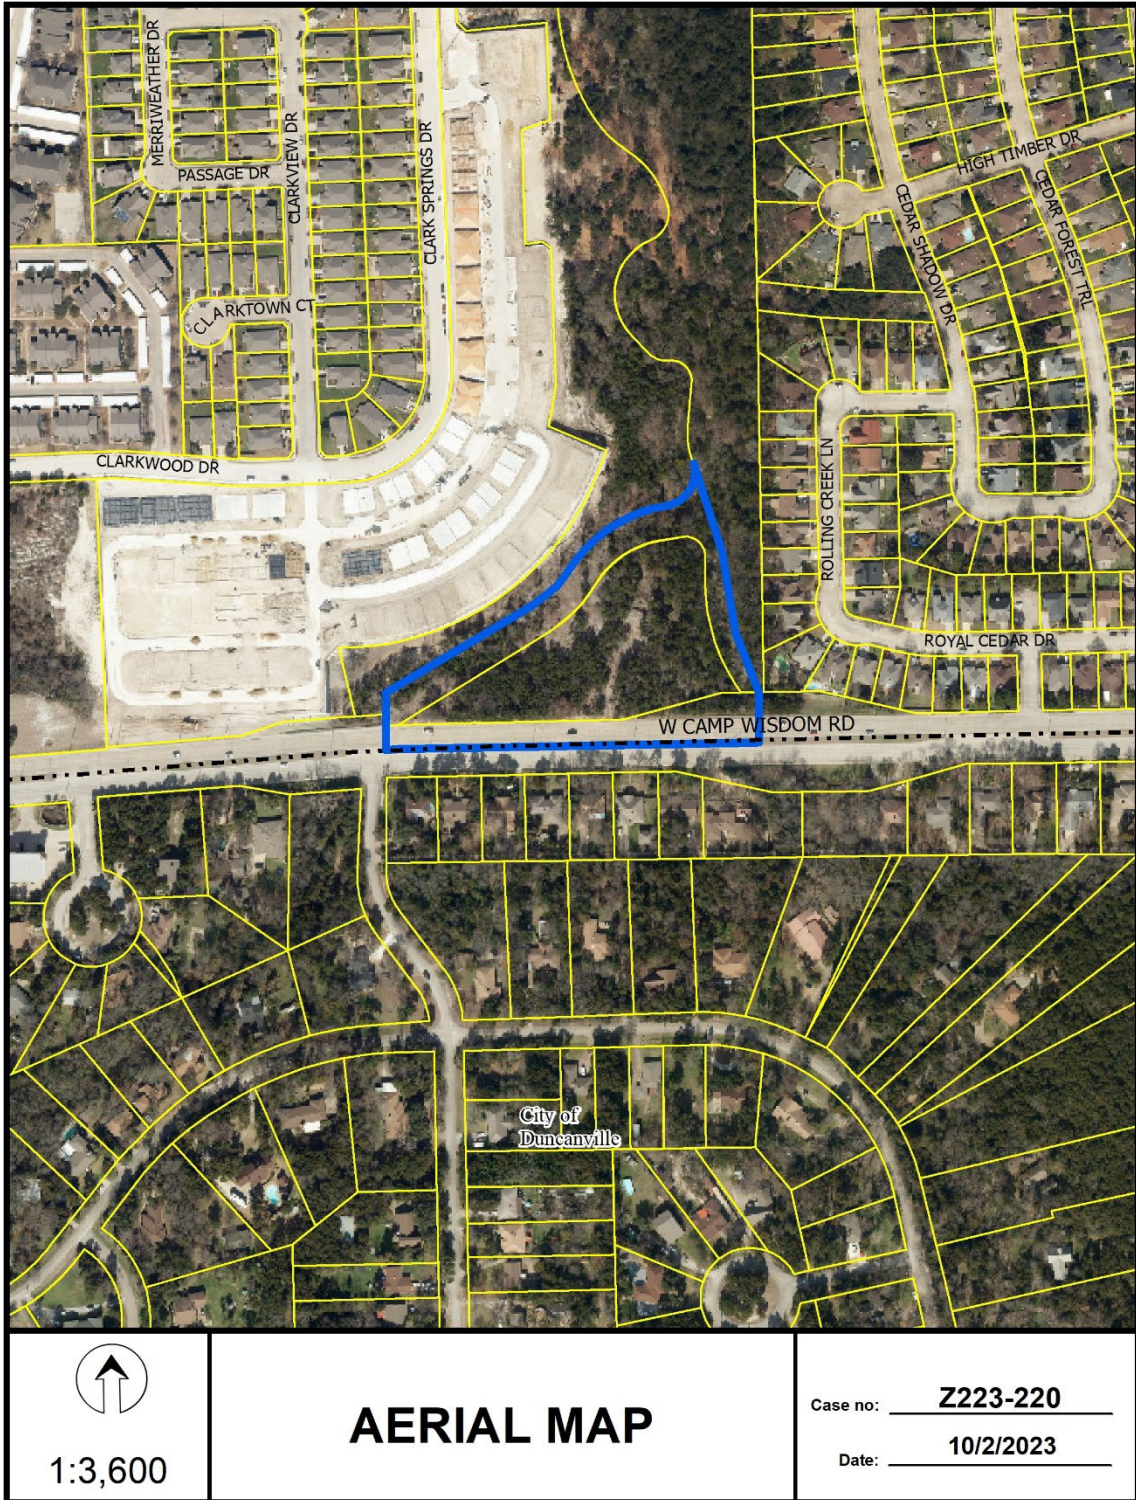

Market Value Analysis (MVA), is a tool to aid residents and policy-makers in understanding the elements of their local residential real estate markets. It is an objective, data-driven tool built on local administrative data and validated with local experts. The analysis was prepared for the City of Dallas by The Reinvestment Fund. Public officials and private actors can use the MVA to more precisely target intervention strategies in weak markets and support sustainable growth in stronger markets. The MVA identifies nine market types (A through I) on a spectrum of residential market strength or weakness. As illustrated in the attached MVA map, the colors range from purple representing the strongest markets (A through C) to orange, representing the weakest markets (G through I). The area of request is currently in an “F” MVA cluster.
