Planning & Development Update

- Financial capacity for 2024 General Obligation bond program is forecast to be approximately \$1 billion assuming \$200 million over five years of issuance.
 - Analysis considers maintaining current debt service tax rate of 20.55¢ per \$100 valuation, continued payment of current outstanding debt, use of Commercial Paper as short-term just-in-time financing for bond program, issuance of remaining unissued 2017 General Obligation bonds, and annual issuance of Master Lease and/or Equipment Acquisition Notes for fleet and other equipment.
- Bond Election anticipates an over \$1 Million cost for a May 2024 bond election (share-cost feasible; if other referendums are being considered during this timeframe).

Planning & Development Update

- The Capital Infrastructure Dashboard is intended to be a one-stop-shop used by the City Infrastructure Team to review project costs, review how many proposed projects are considered by fiscal year along with the project details and the project locations for overlapping opportunities.
- It is anticipated that this dashboard will phase-out the current City's Needs Inventory GIS Mapping Tool.
- Staff is working on a public phasing feature to allow the community to access this information.

The Bond and Infrastructure Project Review Dashboard can be used by plan review staff to examine proposed capital projects and organize a project portfolio in to an official capital improvement plan.
