The Transportation Development Services Division of the Transportation Department has reviewed the request and determined that it will not significantly impact the surrounding roadway system.

STAFF ANALYSIS:

Comprehensive Plan:

The *forwardDallas!* Comprehensive Plan was adopted by the City Council in June 2006 and outlines several goals and policies which can serve as a framework for assisting in evaluating the applicant's request.

The request complies with the following land use goals and policies of the Comprehensive Plan:

LAND USE ELEMENT

GOAL 1.1 ALIGN LAND USE STRATEGIES WITH ECONOMIC DEVELOPMENT PRIORITIES

Policy 1.1.2 Focus on Southern Sector development opportunities.

1.1.5.3 Encourage neighborhood-serving office, retail, or other non-residential uses to be located in residential community areas, primarily on significant roadways or at key intersections.

GOAL 2.1 PROMOTE BALANCED GROWTH

Policy 2.1.3 Support efforts to grow retail and residential opportunities in the Southern Sector.

Surrounding Land Uses:

	Zoning District	Land Use
Site	RR Regional Retail District with D-1 Liquor Control Overlay; and SUP 2102	General merchandise or food store greater than 3,500 square feet, motor vehicle fueling station, with alcohol sales
North	RR Regional Retail District with D Liquor Control Overlay; and SUP 1606	Mini-Warehouse
West	LI Light Industrial District	Warehouse
East	MF-1(A) Multifamily District with deed restrictions [Z912-123 and Z978-243], RR Regional Retail District with D Liquor Control Overlay	Retirement Housing; vehicle display, sales, and service
South	LI Light Industrial District	Warehouse

Land Use Compatibility:

The site is developed with a general merchandise or food store greater than 3,500 square feet and a motor vehicle fueling station. North of the site is developed as a mini-warehouse. Properties across Duncanville Road to the east are developed as retirement housing and auto sales uses. Properties to the west, southwest, and south are developed as warehousing. Ongoing alcohol sales are unlikely to have an adverse impact on neighboring uses.

The "D-1" Overlay District is a Liquor Control Overlay District which requires an individual to obtain a Specific Use Permit in order to sell or serve alcoholic beverages, or setups for alcoholic beverages, for consumption on or off the premises.

The general provisions for a Specific Use Permit in Section 51A-4.219 of the Dallas Development Code specifically state: (1) The SUP provides a means for developing certain uses in a manner in which the specific use will be consistent with the character of the neighborhood; (2) Each SUP application must be evaluated as to its probable effect on the adjacent property and the community welfare and may be approved or denied as the findings indicate appropriate; (3) The city council shall not grant an SUP for a use except upon a finding that the use will: (A) complement or be compatible with the surrounding uses and community facilities; (B) contribute to, enhance, or promote the welfare of the area of request and adjacent properties; (C) not be detrimental to the public health, safety, or general welfare; and (D) conform in all other respects to all applicable zoning regulations and standards. The regulations in this chapter have been established in accordance with a comprehensive plan for the purpose of promoting the health, safety, morals, and general welfare of the city.

The general merchandise use is also regulated by Chapter 12B of the Dallas City Code, Convenience Stores. This chapter applies to all convenience stores, which is defined as any business that is primarily engaged in the retail sale of convenience goods, or both convenience goods and gasoline, and has less than 10,000 square feet of retail floor space; the term does not include any business that has no retail floor space accessible to the public. The purpose of Chapter 12B is to protect the health, safety, and welfare of the citizens of the city of Dallas by reducing the occurrence of crime, preventing the escalation of crime, and increasing the successful prosecution of crime that occurs in convenience stores in the city. This chapter establishes a registration program for convenience stores and provides requirements relating to:

- surveillance camera systems,
- video recording and storage systems,
- alarm systems,
- drop safes,
- security signs,
- height markers,
- store visibility,
- safety training programs, and

- trespass affidavits.

A separate certificate of registration to comply with Chapter 12B is required for each physically separate convenience store. A certificate of registration for a convenience store expires one year after the date of issuance and must be renewed annually. Staff obtained confirmation that the applicant is in compliance with Chapter 12B and maintains a current registration.

The site has operated without issues in the past seven years and complies with the conditions of the SUP. Additionally, the applicant is not requesting any changes to the existing site plan, so operation should continue as it has for the past few years. Staff does not see evidence of detriment to the adjacent properties, and as such, staff recommends approval for ten years with eligibility for automatic renewal for an additional ten-year period. The applicant does not propose any changes to the existing site plan.

Parking:

The applicant proposes no changes to the current parking layout, which is shown on the previously approved site plan and as required pursuant to the Dallas Development Code.

A general merchandise or food stores greater than 3,500 square feet requires 1 space per 200 square feet. The existing store is 4,464 square feet, requiring 22 spaces. The use of a motor vehicle fueling station requires 2 spaces. The existing uses require a total of 24 car spaces. The existing site plan provides 36 car spaces in total.

Landscaping:

Any new development on the property will require landscaping per Article X of the Dallas Development Code. No new development or expansion is being proposed with this request, therefore, no additional landscaping is required.

Market Value Analysis:

[Market Value Analysis \(MVA\)](#), is a tool to aid residents and policy-makers in understanding the elements of their local residential real estate markets. It is an objective, data-driven tool built on local administrative data and validated with local experts. The analysis was prepared for the City of Dallas by The Reinvestment Fund. Public officials and private actors can use the MVA to more precisely target intervention strategies in weak markets and support sustainable growth in stronger markets. The MVA identifies nine market types (A through I) on a spectrum of residential market strength or weakness. As illustrated in the attached MVA map, the colors range from purple representing the strongest markets to orange, representing the weakest markets. The area of request is located within an “E” MVA Cluster, with properties to the east located within an “F” MVA Cluster.
