**COUNCIL DISTRICT:** 5

**SIZE OF REQUEST:** ± 1.274 acres **CENSUS TRACT:** 0117.01

---

**REPRESENTATIVE:** Mark Tolocko

**APPLICANT/OWNER:** Bharat Padsala

**REQUEST:** An application for a NS(A) Neighborhood Service District with deed restrictions volunteered by the applicant to prohibit massage establishments, tattoo studios, and piercing establishments on property zoned R-7.5(A) Single Family District, on the south line of Elam Road, west of Buttercup Lane [in lieu of a CR Community Retail District]

**SUMMARY:** The purpose of the request is to allow for the property to be developed under the regulations of the NS(A) district.

**CPC RECOMMENDATION:** Approval of a NS(A) Neighborhood Service District with deed restrictions volunteered by the applicant, on property zoned R-7.5(A) Single Family District; in lieu of a CR Community Retail District.

**STAFF RECOMMENDATION:** Approval of a CR Community Retail District.

**BACKGROUND INFORMATION:**

- The area of request is zoned an R-7.5(A) Single Family District and consists of four lots that are currently undeveloped.
- According to the City of Dallas permit records, a structure that served as a church was built on this property, including a new addition approved on September 16, 1978. On January 7, 2021, the structure was destroyed by fire.
- The applicant is requesting the rezoning of the property to CR Community Retail District to develop it with grocery store, restaurant, and other retail uses allowable within this zoning district.
- The original request was to rezone the subject property from a R-7.5(A) Single Family District into a CR Community Retail District. However, the City Plan Commission recommended approval of a NS(A) Neighborhood Service District with deed restrictions volunteered by the applicant to prohibit massage establishments, tattoo studios, and piercing establishments, in lieu of a CR Community Retail District.

**Zoning History:**

There have been no recent zoning changes requested in the area within the past five years

**Thoroughfares/Streets:**

Thoroughfare/Street	Type	Existing/Proposed ROW
Elam Road	Principal arterial	100 feet
Butter Cup	Local	60 feet

**Traffic:**

The Engineering Division of the Transportation Development Services Division of the Transportation Department has reviewed the request and determined that it will not significantly impact the surrounding roadway system.

**Comprehensive Plan**

The *forwardDallas! Comprehensive Plan* was adopted by the City Council in June 2006. The *forwardDallas! Comprehensive Plan* outlines several goals and policies which can serve as a framework for assisting in evaluating the applicant's request. The applicant's

request could be considered consistent with the following goals and policies of the comprehensive plan.

**ECONOMIC ELEMENT**

**GOAL 2.4 CREATE AND MAINTAIN AN ENVIRONMENT FRIENDLY TO BUSINESSES AND ENTREPRENEURS**

**Policy 2.4.2** Restore Dallas as the premier city for conducting business within the region.

**BUILDING BLOCKS**

The Residential Neighborhood Building Block represents the lifeblood of Dallas, the traditional neighborhood of single-family detached homes. Dallas has many neighborhoods that match this description, including Winnetka Heights, Preston Hollow, Lakewood, and Wheatley Place. Single-family dwellings are the dominate land use in these areas. Some shops, restaurants, or institutional land uses such as schools and religious centers that serve neighborhood residents may be located at the edges or at key intersections.

	<b>Zoning</b>	<b>Land Use</b>
<b>Site</b>	R-7.5(A)	vacant
<b>North</b>	CR with D Liquor Control Overlay	church, convenience store/gas station, and full auto service.
<b>West</b>	PD No. 59	hospital, medical clinic, and helistop uses.
<b>East</b>	R-7.5(A)	Single family and church use.
<b>South</b>	R-7.5	Undeveloped

**Land Use Compatibility:**

The approximate ± 1.274 acres site is comprised of four lots, it is zoned R-7.5(A) Single Family District and is currently vacant due to a fire that occurred in 2021. The applicant is seeking approval for the rezoning of the four vacant lots to CR Community Retail District. Surrounding uses are a church, a convenience store/gas station, and a full auto service use to the north; hospital, medical clinic, and helistop uses to the west, single family to the south, and single family and church uses to the east.

According to the Dallas Comprehensive Plan, community retail districts should be located at the edge of residential subdivisions or located at key intersections. The proposed site

is located at the edge of a single-family subdivision, adjacent to a hospital complex with a helistop use and another CR community retail district across the street. Furthermore, the proposed site fronts Elam Road a major thoroughfare and has no direct access from a local street serving the adjacent residential uses. Additionally, the proposed zoning is intended to serve neighborhood residents located at the edges of the residential subdivision.

**Use Comparison Table:**

Following is a comparison table showing differences in the permitted uses between the existing and proposed zoning districts.

**Development Standards:**

<b>Existing: R-7.5(A)</b>	25'	5'-10'	1 DU/7,500 SF	30'	45% for res. 25% for non res.	
<b>Proposed: CR</b>	15'*	20' adj to res Other: No min	0.5 FAR office/ .75 for all uses (max)	54' RPS 26'	60%	Residential Proximity Slope

\*Blockface continuity may apply

The City of Dallas Development Standards requires any proposed CR uses to comply with the residential proximity slope. Any proposed building height would be significantly lower than the allowed 54 feet height for CR districts adjacent to residential districts. However, the proposed CR height is compatible to the surrounding CR district properties and significantly lower than the adjacent hospital that contains a 3-story high building. Furthermore, the required 20 feet side and rear yard setback as well as the increased landscape buffer requirements would increase the separation of the proposed commercial district from the single-family district.

**Landscaping:**

Landscaping will be in accordance with the landscape regulations of Article X, as amended. Properties zoned CR community retail District adjacent to residential zoning districts require a residential buffer zone. These residential buffer zone must have an average depth of 10 feet, a minimum depth of five feet, and a maximum depth of 30 feet. No portion of the residential buffer zone may exceed 10 percent of the lot depth excluding paved surfaces at points of vehicular and pedestrian ingress or egress. Additionally, the residential buffer zone must include a minimum of one plant group every 40 feet.

**Parking:**

Parking will be provided in accordance with the Dallas Development Code, as amended.

**Market Value Analysis**

Market Value Analysis (MVA) is a tool to aid residents and policy-makers in understanding the elements of their local residential real estate markets. It is an objective, data-driven tool built on local administrative data and validated with local experts. The analysis was prepared for the City of Dallas by The Reinvestment Fund. Public officials and private actors can use the MVA to target intervention strategies more precisely in weak markets and support sustainable growth in stronger markets. The MVA identifies nine market types (A through I) on a spectrum of residential market strengths or weaknesses. As illustrated in the attached MVA map, the colors range from purple representing the strongest markets to orange, representing the weakest markets. The site is not within an identifiable MVA Category; however, it is in proximity to an “F” MVA Cluster to the south and a “G” MVA cluster to the north.
