STAFF ANALYSIS:

Comprehensive Plan:

The *forwardDallas! Comprehensive Plan* was adopted by the City Council in June 2006 and outlines several goals and policies which can serve as a framework for assisting in evaluating the applicant's request.

The request would comply with the following land use goals and policies of the Comprehensive Plan:

LAND USE ELEMENT

GOAL 1.1 ALIGN LAND USE STRATEGIES WITH ECONOMIC DEVELOPMENT PRIORITIES

Policy 1.1.5 Strengthen existing neighborhoods and promote neighborhoods' unique characteristics.

ECONOMIC ELEMENT

GOAL 2.1 PROMOTE BALANCED GROWTH

Policy 2.1.1 Ensure that zoning is flexible enough to respond to changing economic conditions.

GOAL 2.5 FOSTER A CITY OF GREAT NEIGHBORHOODS

Policy 2.5.1 Promote strong and distinctive neighborhoods to enhance Dallas' quality of life.

URBAN DESIGN ELEMENT

GOAL 5.2 STRENGTHEN COMMUNITY AND NEIGHBORHOOD IDENTITY

Policy 5.2.1 Maintain neighborhood scale and character.

Active Area Plans

No active area or land use plans

Staff Analysis:

The proposed site is not located in nor is it adjacent to any active area or land use plans.

Land Use:

	Zoning	Land Use
Site	PD. No. 822	Institutional; DISD Skyline High School
North	R-7.5(A), MF-2(A), TH-3(A) & PD. No. 721	Residential; Single Family, Multifamily & Townhomes, DISD Frank Guzik Elementary School
South	R-7.5(A), IM Industrial Manufacturing & LI Light Industrial District w/ D-1 Overlay	Residential; Single Family, Mini warehouse, commercial retail
East	MF-2(A) & MC-1 w/ D-1 Overlay	Residential; Multifamily & commercial retail
West	D(A) Duplex, NS(A) Neighborhood Service & SUP 2458	Residential; Duplex & NSA

Land Use Compatibility:

The area of request is currently zoned Planned Development District No. 822, a developed lot with an existing magnet school, campus, athletic fields and parking and (approx. 73.20 acres in total size).

Majority of the property is surrounded by residential uses, with small mixes of institutional and commercial retail uses, in every direction immediately adjacent to the site. To the North of the property is single family, multifamily, townhomes and an elementary school. To the

immediate East of the property is MF-2(A) Multifamily District with residential homes and commercial retail. To the west are single family homes and duplex. Lastly, to the south are existing single family, mini warehouses and commercial retail. With the immediate area being mostly composed of residential, although the zoning differs, and the applicant not proposing any major changes to the existing PD and property that would be detrimental to the area, staff finds the applicant's request to be appropriate and compatible with the surrounding and immediate area. The applicant is willing to do what is necessary to ensure compliance with any code requirements to honor existing residential uses. Additionally, there will be no residential buffer zone requirements to meet since the adjacencies are all residential and the additions to the existing high school are intended to be at the center, creating no encroachment onto existing adjacent residential uses. Therefore, staff believes the request would fit in this exact area and within the existing fabric of the neighborhood. Staff is in support of the applicant's requested PD amendment.

Development Standards:

The following is a comparison chart of the development standards for the current Planned Development District No. 822 and the proposed amendments to Planned Development District No. 822.

District	Setback		Density	Height	Lot Cvg.	Special Standards	Primary Uses
	Front	Side/Rear					
Existing: PD. No. 822	25' non res.	5' for res Other: 10/15'.	none	30'	45% for res. 20% non res.	none	Main uses permitted in R-7.5(A)
Proposed: PD. No. 822	25' non res.	5' for res Other: 10/15'.	none	50'	45% for res. 20% non res		Main uses permitted in R-7.5(A)*

*note: applicant proposes no changes to the development standards, except the allowed height of structures from 30 to 50 feet, fencing, design standards and the allowed uses to now include a new athletic addition and new performing arts addition on the property, (see PD conditions pages 11-15 of this document).

Landscaping:

Landscaping must be provided in accordance with the landscaping requirements in Article X, as amended, plus all additional landscaping provisions of PD. No. 822.

Parking:

At permitting, the applicant would be required to comply with the standard parking ratios for the specified use(s), as well as any other uses permitted and provisions of PD. No. 822.

Market Value Analysis:

Market Value Analysis (MVA), is a tool to aid residents and policy-makers in understanding the elements of their local residential real estate markets. It is an objective, data-driven tool built on local administrative data and validated with local experts. The analysis was prepared for the City of Dallas by The Reinvestment Fund. Public officials and private actors can use the MVA to target intervention strategies more precisely in weak markets and support sustainable growth in stronger markets. The MVA identifies nine market types (A through I) on a spectrum of residential market strength or weakness. As illustrated in the attached MVA map, the colors range from purple representing the strongest markets (A through C) to orange, representing the weakest markets (G through I). The area of request is in an “F” MVA area. To the north of the site are “E”, “F” and “H” MVA areas. The east of the subject site is “F” MVA area and to both the west and south of the property is the “H” MVA area.
