APPLICANT:** Corinne Hoffman / L&B Depp Inwood Village/L&B Depp Realty Advisors, LLP

REPRESENTATIVE: Katherine Durham / Winstead, PC

REQUEST: An application for an amendment to Planned Development 482.

SUMMARY: The purpose of the request is to allow parking regulations from the Dallas Development Code to apply to the property and to remove maximum floor area for restaurants with or without drive-through service.

STAFF RECOMMENDATION: Approval, subject to an amended development plan and amended conditions.

BACKGROUND INFORMATION:

- The area of request is currently zoned PD 482 and is developed with a retail strip center – Inwood Village (approx. 631,620 sf).
- The property has frontage on W. Lovers Lane, Inwood Road, Boaz Street and Greenway Boulevard.
- Planned Development District 482 was approved by the City Council on August 13, 1997.
- The purpose of the request is to amend PD 482 to allow parking requirements per Chapter 51A in lieu of PD 482 and to remove maximum floor area for restaurants with or without drive-through service.

Zoning History:

There have been two zoning cases in the area within the last five years.

1. **Z234-333:** On April 23, 2025, the City Council approved a new Specific Use Permit for an alcoholic beverage establishment limited to a bar, lounge, or tavern on property zoned CR Community Retail District and a P(A) Parking District on the west line of Inwood Road, north of W. Lovers Lane.
2. **Z212-261:** On March 8, 2023, the City Council approved a Specific Use Permit for a public school other than an open-enrollment charter school on property zoned R-7.5(A) Single Family District on the south line of Boaz Street and the west line of West Greenway Boulevard.

Thoroughfares/Street:

Thoroughfare/Street	Type	Existing/Proposed ROW

Inwood Road	PA – Principal Arterial	100'
Boaz Street	Local Street	--

The Transportation Development Services Division of the Transportation Department has

reviewed the request and determined that it will not significantly impact the surrounding roadway system. Staff will continue to review engineering plans at the time of permitting to comply with city standards.

Transit Access:

There is no transit service located within ½ mile of the property.

STAFF ANALYSIS

• **Comprehensive Plan Consistency Review:**

- ForwardDallas 2.0 is the citywide Comprehensive Plan for future land use in the City of Dallas. Adopted by the City Council in September 2024, the plan includes a future land use map, and guidance for a future vision of the City of Dallas. It also establishes goals and guidelines for land use and other decisions by the City. According to the City of Dallas’s Development Code, the comprehensive plan serves merely as a guide for rezoning requests but does not establish zoning boundaries nor does it restrict the City’s authority to regulate land use.

• **Consistency Review Recommendation**

- The proposed zoning change of amending PD 468 to allow parking to defer to Chapter 51A is consistent with Forward Dallas 2.0 as the site is completely within the Community Mixed-Use placetype which is primarily intended for multi-plex, apartments, mixed-use, lodging, commercial, and office uses. Areas within the Community Mixed-Use placetype are typically located at major intersections, and key corridors, serving multiple surrounding neighborhoods and attracting retailers and services that require a larger market area. Commercial centers, commercial corridors, and office parks are representative of this placetype. Within more suburban areas of Dallas, these areas consist of larger complexes, often with fewer stories while offering a large amount of retail, restaurant, and personal services that are generally separated by large parking areas or open spaces along the perimeter.

• **Placetype Summary**

Placetypes describe the long-term vision and desired building and preservation characteristics for different places within the city including neighborhoods, mixed-use areas, employment and industry centers, and open spaces.

Land Use:

	Zoning	Land Use
Site	PD 482	Retail and Restaurant without drive-through service (Inwood Village)
North	CR	Retail and Personal Services, and Restaurant without drive-through service (Lovers West)
South	R-7.5(A) with SUP 2479 / MF-2(A)	Institutional Uses (Henry W. Longfellow Career Exploration Center) / Multi family
East	CR / MF-2(A)	Retail and Restaurant without drive-through service / Multi family (Pavilion Townplace at Inwood Village Apartments)
West	CR / PD 771 / LO-1 with D Overlay	Financial Institution with drive-through service / Retail and Restaurant without drive-through service

Land Use Compatibility:

The area of request is currently zoned Planned Development District 482 and is developed with an existing retail center - Inwood Village (approx. 631,620 sf).

The zoning is CR Community Retail to the north, and the land uses are mainly retail and personal service uses and restaurants without drive-through service and developed with a retail strip center. Immediately adjacent to the south of the property is zoned R-7.5(A) with SUP 2479 and is developed an institutional use – Henry W. Longfellow Career Exploration Center. To the east across Greenway Boulevard is zoned CR Community Retail at the corner at W. Lovers Lane and MF-2(A) Multifamily District mid-block and at the corner at Boaz Street and is developed with a retail strip center and multifamily uses – Pavilion Townplace at Inwood Village, respectively. To the west across Inwood Road is zoned CR, Community Retail, PD 771 and LO-1 Limited Office District with D Dry Overlay District and is developed with a financial institution with drive-through service – Chase Bank at the corner of W. Lovers Lane, and retail, personal service, and restaurant without drive-through service, mid-block and at the corner of Boaz Street, respectively. With over 850 parking spaces for the retail center – Inwood Village and many of those parking spaces empty, staff finds the applicant’s requested zoning change of the amendment of the PD to allow the parking requirements per Chapter 51A of the Dallas Development Code on the suburban site with a large amount of retail, restaurant, and personal services that are generally separated by large parking areas to be compatible with the Community Mixed-Use

placetype character designation of the Comprehensive Plan. The amendment to the development plan reflects a permitted modification to allow a second story on some of the retail streets.

Staff supports the applicant’s request and finds the proposed rezoning to be appropriate for this area as it would not be detrimental to surrounding uses. This compatibility is further reflected in the development standards comparison table below.

Development Standards:

The following is a comparison chart of the development standards for the current PD 482.

District	Setback		Density / FAR	Height	Lot Cvrg	Special Standards	Primary Uses
	Front	Side/Rear					
Existing: PD 482	Per DP	Per DP	Max. FAR: 240,866 sq ft (all uses comb.); 26,868 sq ft for rest. with or without drive-in or drive-through svc.	54’ 4 stories	60%	RPS, Landscaping (per planting plan and Art. X), Parking (per DP)	Agricultural, Commercial and Business Service, Institutional and Community Service, Office, Recreation, Residential (College, dormitory, fraternity, or sorority house), Retail and Personal Service, Transportation, Utility and Public Service,
Proposed: PD 482			Max. FAR: 240,866 sq ft (all uses comb.); No max. FAR for rest. with or without drive-through service			RPS, Landscaping, (per planting plan and Art. X), Parking (per Ch. 51A)	

Landscaping:

The site is currently developed with a retail strip center. Any future development, including an increase in the total floor area of the property would necessitate compliance with landscaping per Exhibit 482A, Planting Plan within PD 482 and Article X, Landscaping and Tree Conservation Regulations.

Parking:

Under the requested amendment of PD 482, the applicant proposes to allow the parking regulations to be per Ch. 51A-4.301 Off-Street Parking Regulations in lieu of the parking requirements per 51P-482.108 Off-Street Parking and Loading within PD 482. No other changes are proposed for the existing site.

Per Sec. 51P-482.108. Off-Street Parking and Loading requirements, the current retail center is required to provide a minimum of 858 off-street parking spaces as shown on the development plan, and an additional 46 parking spaces pursuant to a private license or by any other means permitted by the special parking regulations contained in the Dallas Development Code.

At permitting, the applicant would be required to comply with the current standard parking ratio for each specified existing or future use per Ch.51A-4.301 Off-Street Parking Regulations. The amendment would not remove all parking requirements from the site, but rather subject them to the same requirements as the other commercial sites along W Lovers.

Market Value Analysis:

Market Value Analysis (MVA), is a tool to aid residents and policymakers in understanding the elements of their local residential real estate markets. It is an objective, data-driven tool built on local administrative data and validated with local experts. The analysis was prepared for the City of Dallas by The Reinvestment Fund. Public officials and private actors can use the MVA to target intervention strategies more precisely in weak markets and support sustainable growth in stronger markets. The MVA identifies nine market types (A through I) on a spectrum of residential market strength or weakness. As illustrated in the attached MVA map, the colors range from purple representing the strongest markets (A through C) to orange, representing the weakest markets (G through I). The area of request and sites surrounding the property to the south and east are in a “C” MVA area. The area to the north is in an “A” MVA area and the area to the west is in a “B” MVA area.
