**STAFF ANALYSIS:**

**Comprehensive Plan:**

ForwardDallas 2.0 is the citywide Comprehensive Plan for future land use in the City of Dallas. Adopted by City Council in September 2024, the plan includes a future land use map and guidance for a future vision of the City of Dallas. It also establishes goals and guidelines for land use and other decisions by the City. According to the City of Dallas's Development Code, the comprehensive plan serves merely as a guide for rezoning requests, but does not establish zoning boundaries nor does it restrict the City's authority to regulate land use.

As a high-level citywide policy document, Forward Dallas 2.0 does not include future land use recommendations at the scale of this request or about general zoning changes in the hours of operation.

**Placetype Summary**

Placetypes describe the long-term vision and desired building and preservation characteristics for different places within the city including neighborhoods, mixed-use areas, employment and industry centers, and open spaces. They provide a high-level guide for the desired mix of land uses, design and the recommended intensity and scale of the different uses. Due to the macro scale of the plan, not all uses or design considerations described within the placetypes may be suitable for every individual property.

City Residential neighborhoods primarily consist of high and midrise multifamily development, complemented by townhomes and duplex housing. For City Residential areas surrounding Downtown Dallas, development is concentrated in compact blocks with quality access to transit and a high degree of connectivity to surrounding neighborhoods. Mixed-use buildings in urban areas, generally developed vertically (multiple uses in a single building), also offer retail and commercial amenities along fixed transit/transportation nodes, hubs, and corridors.

**Land Use:**

	<b>Zoning</b>	<b>Land Use</b>
<b>Site</b>	PD 842 w/ SUP Nos. 1289 & 1912	Bar, lounge, or tavern and late-hours establishment limited to a bar, lounge, or tavern
<b>North</b>	PD 842, SUP No. 1905, SUP No. 2567	Restaurant, late hours establishment limited to a restaurant, general merchandise or food store > 3,500 sqft
<b>South</b>	PD 842	Bar, lounge, or tavern; restaurant; GMFS
<b>East</b>	PD 842, SUP No. 2506	Bar, lounge, or tavern; restaurant; late-hours establishment limited to a restaurant
<b>West</b>	PD 842	Restaurant; bar, lounge, or tavern; surface parking

**Land Use Compatibility:**

The request site consists of an existing bar with an SUP for a late-hours establishment limited to a bar, lounge, or tavern. The surrounding area is a mix of retail, restaurant, and bar uses characteristic of the Lower Greenville Avenue Special Provision District, particularly along Greenville Avenue proper. West of the site is a bar, lounge, or tavern and a restaurant and a large amount of surface parking. Pursuant to the provisions of PD No. 842, a Specific Use Permit for late hours is required for the establishment to operate after midnight.

The general provisions for a Specific Use Permit in Section 51A-4.219 of the Dallas Development Code specifically state: (1) The SUP provides a means for developing certain uses in a manner in which the specific use will be consistent with the character of the neighborhood; (2) Each SUP application must be evaluated as to its probable effect on the adjacent property and the community welfare and may be approved or denied as the findings indicate appropriate; (3) The city council shall not grant an SUP for a use except upon a finding that the use will: (A) complement or be compatible with the surrounding uses and community facilities; (B) contribute to, enhance, or promote the welfare of the area of request and adjacent properties; (C) not be detrimental to the public health, safety, or general welfare; and (D) conform in all other respects to all applicable zoning regulations and standards. The regulations in this chapter have been established

in accordance with a comprehensive plan for the purpose of promoting the health, safety, morals, and general welfare of the city.

PD No. 842 establishes the following criteria for consideration of an SUP for a late-hours establishment:

(e) Factors to be considered for a specific use permit for a late-hours establishment. The city plan commission and city council shall consider the following factors when making the findings required by Section 51A-4.219(a)(3):

- (1) the number of citations issued by police to patrons of the establishment;
- (2) the number of citations issued by police for noise ordinance violations by the establishment;
- (3) the number of arrests for public intoxication or disorderly conduct associated with the establishment;
- (4) the number of Texas Alcoholic Beverage Code violations of the establishment;
- and
- (5) the number of violent crimes associated with the establishment, with emphasis on violent crimes originating inside the establishment.

The continuation of a late-hours establishment is compatible with the surrounding uses, which support the Lower Greenville Avenue district as a destination for shopping, food, and nightlife. The location of the request site along Greenville Avenue reduces the potential negative impacts of a late-hours establishment, as the surrounding uses are primarily business-oriented in nature and not residential. As such, staff supports the requested renewal for a period of five years.

**Landscaping:**

Landscaping must be provided in accordance with the requirements in Article X, as amended.

**Parking:**

Parking must be provided in accordance with PD No. 842 and MD-1 Modified Delta Overlay No. 1. The building site has 50 spaces provided which includes 12 off-street parking spaces in the rear and 38 delta credits, which were reinstated by the Board of Adjustment on January 20, 2015.

**Market Value Analysis:**

Market Value Analysis (MVA), is a tool to aid residents and policy-makers in understanding the elements of their local residential real estate markets. It is an objective, data-driven tool built on local administrative data and validated with local experts. The analysis was prepared for the City of Dallas by The Reinvestment Fund. Public officials and private actors can use the MVA to more precisely target intervention strategies in weak markets and support sustainable growth in stronger markets. The MVA identifies nine market types (A through I) on a spectrum of residential market strength or weakness. As illustrated in the attached MVA map, the colors range from purple representing the strongest markets (A through C) to orange, representing the weakest markets (G through I). The area of request is within a “B” MVA area.

**Crime Report:**

Between August 24, 2022, and April 4, 2025, the area has had 12 offenses, zero arrests, and 25 calls.
