CITY COUNCIL DISTRICT: 1 SIZE OF REQUEST: 37.812-acres

APPLICANT/OWNER: City of Dallas

REQUEST: An application to create one 37.812-acre lot from a tract of land in City Block 7212 on property located between Stone Mesa Drive and Pinnacle Park Boulevard, north of Rock Quary Road.

SUBDIVISION HISTORY: There has been no recent platting activity within close proximity to this request.

STAFF RECOMMENDATION: The request complies with the requirements of the PD 525, IR Industrial Research District; therefore, staff recommends approval of the request subject to compliance with the following conditions:

General Conditions:

- 1. The final plat must conform to all requirements of the Dallas Development Code, Texas Local Government Code, Texas Land Surveying Practices Act and the General Rules and Regulations of the Texas Board of Land Surveying.
- 2. Department of Development Services, Engineering Division must verify that the plat conforms with the water, wastewater, and easement requirements under the provisions of Chapter 49 of the Dallas City Code.
- 3. Compliance with all plans, contracts, ordinances, and requirements of the City of Dallas. Section 51A-8.102(a), (b), (c), and (d)
- 4. The number and location of fire hydrants must comply with the Dallas Fire Code.
- 5. Any new or existing structure may not extend across new property lines. *Section* 51A-8.503(e)
- 6. On the final plat, all easement abandonments, and ROW abandonments must be by separate instrument with the recording information shown on the face of the plat. A release from the Real Estate Division is required prior to the plat being submitted to the Chairman for signature.
- 7. On the final plat, include two boundary corners tagged with these coordinates: "Texas State Plane Coordinate System, North Central Zone, North American Datum of 1983 on Grid Coordinate values, No Scale and no Projection."

- 8. On the final plat, monument all set corners per the Monumentation Ordinance. Prior to submittal of the final plat for the Chairman's signature. The monuments must be verified by the Chief City Surveyors Office in the Public Works Department. Section 51A-8.617
- 9. Provide ALL supporting documentation (i.e. deeds, plats, ordinances, easements...etc) with a completed Final Plat Checklist to the Survey Plat Review Group (**SPRG**) with the Final Plat Submittal <u>after</u> City Plan Commission Approval.
- 10. Prior to the final plat, submit a tree survey to the Arborist. A release from the arborist is required prior to an early release request or the recordation of the plat, whichever occurs first.
- 11. The number of lots permitted by this plat is one.

Paving & Drainage Conditions:

- 12. Submit a full set of Civil Engineering Plans (drainage, paving, street signage/marking/lighting) prepared per City Standards by a licensed (TX) Professional Engineer to Engineering Division in Room 200, Oak Cliff Municipal Center (i.e. 311T/DP). Additions and alterations to the public infrastructure require approval and may require private development contracts with bonds.51A-8.102 (c); 8.601(b)(4),(5),(6),(7),(8),(9)
- 13. Detention may be required if the capacity of available outfall is not adequate to carry the developed runoff. Section 51A-8.611(c).
- 14. Place a note on the final plat stating "Lot-to-Lot drainage will not be allowed without proper City of Dallas Engineering Division approval" 51A 8.611(e)
- 15. Existing drainage conveyance within the property is required to be sized in compliance with Section 51A-8.611(a)(1) of the City of Dallas Code.

Right-of way Requirements Conditions:

- 16. On the final plat, dedicate 30 feet of right-of-way (via fee simple) from the established center line of Pinnacle Park Boulevard. Section 51A 8.602(c)
- **17.** Part of the Plat is in the escarpment area, escarpment permit approval is required.

Survey (SPRG) Conditions:

- 18. Prior to final plat, submit a completed final plat checklist and all supporting documents.
- 19. On the final plat, show recording information on all existing easements within 150 feet of the property.

Dallas Water Utilities Conditions:

20. Engineer must furnish plans for water and sanitary sewer. Developer must furnish a contract for water and sanitary sewer. Sections 49-60(g)(1) and (2) and 49-62(b), (c), and (f).

- 21. Additional design information is required for assessment. Site plan must be submitted showing proposed development, building finished floor elevation, development, existing mains including downstream manhole, and proposed water and wastewater service locations. Submit water/wastewater engineering plans to 320 E. Jefferson Blvd., Room 200, Attention: Water and Wastewater Engineering.
- 22. Water and Wastewater main improvements is required by Private Development Contract. Submit water/wastewater engineering plans to 320 E. Jefferson Blvd., Room 200, Attention: Water and Wastewater Engineering.
- 23. Existing and any proposed Water and Wastewater Easements must be shown and/or increased to conform to current design standards. **Notice:** Minimum DWU easement size 20' for one utility and 25' for both water and sewer. Larger diameter or deeper mains may require additional width.

Street Light/ Arborist / GIS, Lot & Block Conditions:

- 24. Prior to final plat, compliance with City's street lighting standards including illumination standards, material, installation, and activation per Street Design Manual.
- 25. Prior to final plat contact Arborist, Tree Survey may be required pending information provided by the applicant.
- 26. On the final plat, identify the property as Lot 1 in City Block J/7212.
