## BACKGROUND INFORMATION

- Currently, the site has a SUP Permit 2505 that allows the sale of alcoholic beverages in conjunction with a restaurant without drive-in or drive-through service use. The restaurant, El Pulpo, is approximately a 1,500-square-foot unit and part of a retail structure facing Lake June Road on property located within Subarea 2 of Planned Development District 366, the Buckner Boulevard Special Purpose District, with a D-1 Liquor Control Overlay on the south line of Lake June Road, east of Rose Garden Avenue.
- On February 26, 1992, City Council approved the creation of Planned Development District No. 366, the Buckner Boulevard Special Purpose District. PD No. 366 contains approximately 407.94 acres and is divided into nine subareas. The area of request is located within Subarea 2, which generally allows a mix of commercial and retail uses. The restaurant without a drive-in or drive-through service is permitted by right, subject to residential adjacency review.
- The area of request is located within the D-1 Liquor Control Overlay. In a "D-1" liquor control overlay district, a person shall not sell or serve alcoholic beverages, or setups for alcoholic beverages, for consumption on or off the premises, unless the sale or service is part of the operation of a use for which a specific use permit has been granted by the city council.
- According to Building Inspection's records, the last Certificate of Occupancy was issued in December 2014 for El Pulpo Restaurant.
- On November 8, 2023, the City Council approved Specific Use Permit No. 2505, which allows the sale of alcoholic beverages in conjunction with a restaurant without drive-in or drive-through service.
- No changes are proposed to the property, site plan, or conditions aside from the time period.

### Zoning History

There has been one zoning change request in the surrounding area in the past five years.

1. **Z223-181:** On November 8, 2023, the City Council approved an application for a Specific Use Permit for the sale of alcoholic beverages in conjunction with a restaurant without a drive-in or drive-through service use, on property located within Subarea 2 of Planned Development District No. 366, the Buckner Boulevard Special Purpose District, with a D-1 Liquor Control Overlay, on the south line of Lake June Road, east of Rose Garden Avenue. [Subject site]

### **Thoroughfares/Streets**

<b>Thoroughfare/Street</b>	<b>Type</b>	<b>Existing / Proposed ROW Bike Plan</b>
Lake June Road	Principal Arterial	100' Bike Plan

### **Transportation**

The Engineering Division of the Transportation Department has reviewed the request and determined that it will not significantly impact the surrounding roadway system.

### **Transit Access:**

The area of request is within a mile of the following transit services:

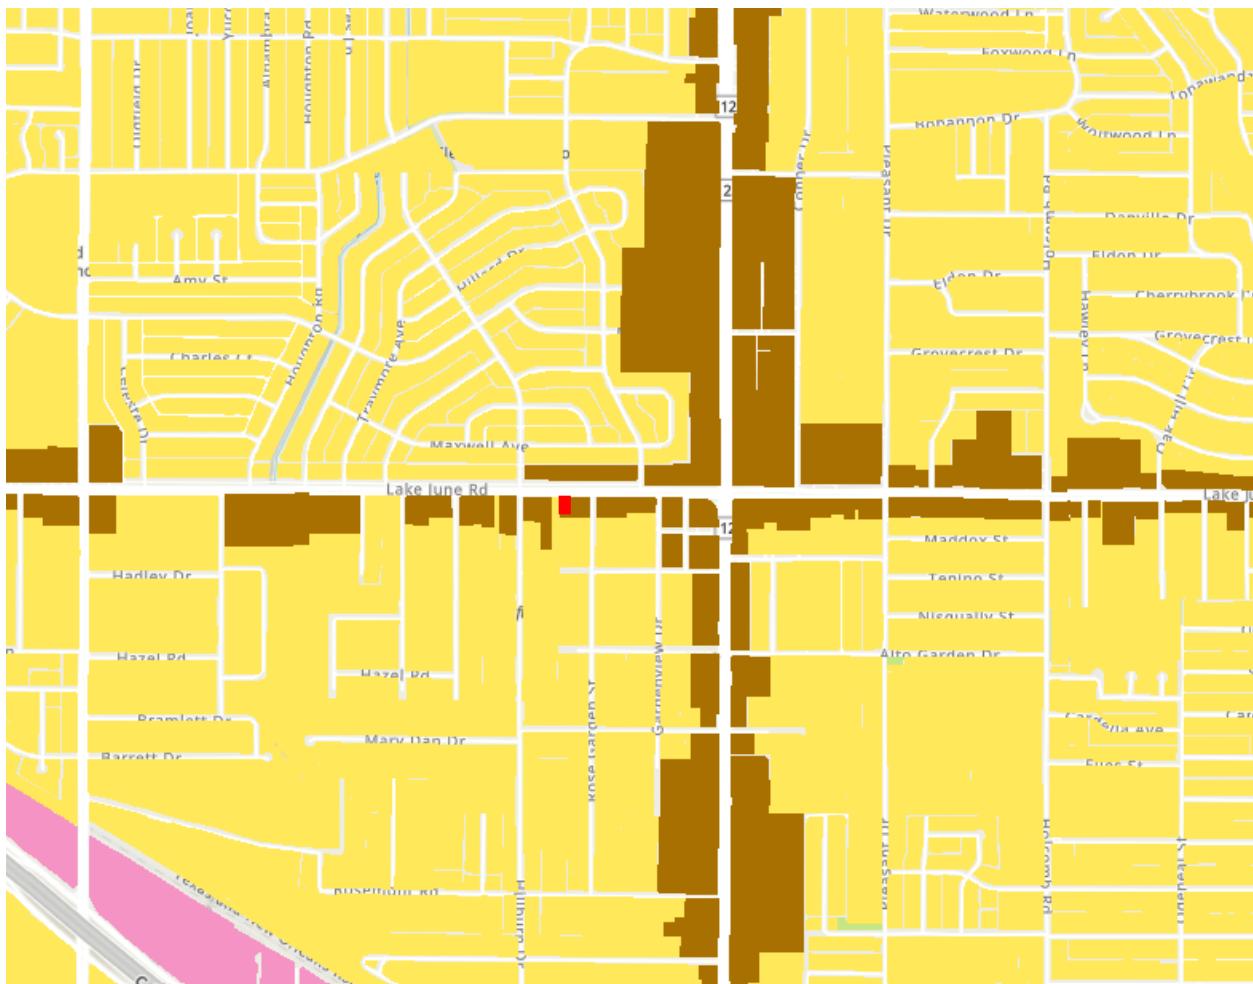

Bus Routes  
Route 15, 30

### **STAFF ANALYSIS**

#### **Comprehensive Plan:**

ForwardDallas 2.0 is the citywide Comprehensive Plan for future land use in the City of Dallas. Adopted by City Council in September 2024, the plan includes a future land use map and guidance for a future vision of the City of Dallas. It also establishes goals and guidelines for land use and other decisions by the City. According to the City of Dallas's Development Code, the comprehensive plan serves merely as a guide for rezoning requests but does not establish zoning boundaries, nor does it restrict the City's authority to regulate land use.

The proposed zoning change is generally **consistent** with Forward Dallas 2.0. Commercial Land Use is identified as a primary use within the Neighborhood Mixed-Use placetype; in Forward Dallas 2.0, Commercial land use is in this land-use matrix, and the site is within Planned Development District 366 and adjacent to similar uses such as retail, vehicle or engine repair, church uses to the north, retail and restaurants to east and west, parking and vehicle or engine repair, and single family residential uses to the south of the site. The property fronts Lake June Road, which is classified as a Principal Arterial per the major thoroughfare plan and is within one block of Route 30's bus stop. Therefore, the proposed renewal aligns with the vision and recommendations of Forward Dallas 2.0.

## Land Uses

	<b>Zoning</b>	<b>Land Use</b>
<b>Site</b>	PD 366, SUP 2505, Subarea 2 with D-1 Liquor Control Overlay	Mixed Use Building: Restaurant, Personal Service, Storage
<b>North</b>	PD 366, Subarea 2 with D-1 Liquor Control Overlay	Auto-Related Uses; Restaurants
<b>East</b>	PD 366, Subarea 2 with D-1 Liquor Control Overlay	Mixed Use Building: Personal Service
<b>Southeast</b>	CR Community Retail with D Liquor Control Overlay	Vacant Building, Auto-Related Uses
<b>South</b>	R-7.5(A)	Parking Lot, Single Family Homes
<b>West</b>	PD 366, Subarea 2 with D-1 Liquor Control Overlay	Mixed Use Building: Commercial Amusement (Inside), Office

## Land Use Compatibility

The site is currently zoned Planned Development District 366, the Buckner Boulevard Special Purpose District. PD No. 366, within Subarea 2, which generally allows a mix of commercial and retail uses. The area of request is also located within the D-1 Liquor Control Overlay. In a "D-1" liquor control overlay district, a person shall not sell or serve alcoholic beverages, or setups for alcoholic beverages, for consumption on or off the premises, unless the sale or service is part of the operation of a use for which a specific use permit has been granted by the city council.

The area of request is currently developed as a one-story multi-unit building with approximately 5,000 square feet. The building contains three units: a 1,500-square-foot unit with a restaurant, a 1,100-square-foot unit with personal services, and the remaining units for storage use.

The applicant seeks to renew SUP Permit 2505 to continue allowing the sale of alcoholic beverages at the existing restaurant [El Pulpo].

The general provisions for a Specific Use Permit in Section 51A-4.219 of the Dallas Development Code specifically state: (1) The SUP provides a means for developing certain uses in a manner in which the specific use will be consistent with the character of the neighborhood; (2) Each SUP application must be evaluated as to its probable effect on the adjacent property and the community welfare and may be approved or denied as the findings indicate appropriate; (3) The City Council shall not grant an SUP for a use except upon a finding that the use will: (A) complement or be compatible with the surrounding uses and community facilities; (B) contribute to, enhance, or promote the welfare of the area of request and adjacent properties; (C) not be detrimental to the public health, safety, or general welfare; and (D) conform in all other respects to all applicable zoning regulations and standards. The regulations in this chapter have been established

in accordance with a comprehensive plan to promote the health, safety, morals, and general welfare of the city.

In general, the applicant's request is consistent with the existing zoning, the surrounding uses, and the general provisions for a Specific Use Permit. The application has complied with all requirements of Specific Use Permit 2505, which supports the conclusion that renewing this SUP will not have a negative impact on the surrounding properties. Therefore, staff recommends approval to renew SUP 2505 with no expiration period, subject to a site plan and conditions.

### **Parking**

No minimum parking is required at this site per Code because the restaurant is a 1,500-square-foot unit.

### **Landscape**

Landscape must be provided in accordance with the landscaping requirements in Article X, as amended. No changes are proposed with this request; therefore, no additional landscape requirements are triggered.

### **Market Value Analysis**

[Market Value Analysis \(MVA\)](#) is a tool to aid residents and policy-makers in understanding the elements of their local residential real estate markets. It is an objective, data-driven tool built on local administrative data and validated with local experts. The analysis was prepared for the City of Dallas by The Reinvestment Fund. Public officials and private actors can use the MVA to more precisely target intervention strategies in weak markets and support sustainable growth in stronger markets. The MVA identifies nine market types (A through I) on a spectrum of residential market strength or weakness. As illustrated in the attached MVA map, the colors range from purple, representing the strongest markets, to orange, representing the weakest markets. The area of request is within an "H" MVA Cluster

### **Crime Report:**

The Dallas Police Department provided a crime report for the period between September 28, 2022, and October 30, 2025. The area has had 31 incident calls, three offenses, and two arrests.

### **Calls**
