

**CITY PLAN COMMISSION**

**THURSDAY, APRIL 23, 2026**

**Planner: Martin Bate**

**FILE NUMBER:** Z-25-000121                      **DATE FILED:** September 19, 2025  
**LOCATION:** Northwest corner of McShann Road and Preston Road  
**COUNCIL DISTRICT:** 13  
**SIZE OF REQUEST:** Approx. 25,875 sqft                      **CENSUS TRACT:** 48113009604

---

**REPRESENTATIVE:** Matthew Sheard

**OWNER/APPLICANT:** Caleb Mann

**REQUEST:** An application for RTN Residential Transition District on property zoned R-16(A) Single Family District.

**SUMMARY:** The purpose of the request is to allow residential uses limited to single family and duplex.

**STAFF RECOMMENDATION:** Approval.

**PRIOR CPC ACTION:** On February 5, 2026, CPC moved to hold this case under advisement until March 5, 2026. On March 5, 2026, CPC moved to hold this case under advisement until April 9, 2026. On April 9, 2026, CPC moved to hold this case under advisement until April 23, 2026.

**BACKGROUND INFORMATION:**

- The area of request is currently zoned R-16(A) Single Family District and is developed with a house.
- The applicant wishes to develop the site with denser attached or detached housing.
- The yard, lot, space, and use regulations of R-16(A) Single Family District do not permit the applicant’s desired development.
- As such, applicant requests a zoning change to RTN Residential Transition District, which would allow for additional density, while applying standards to the design of new structures.
- There have been no changes to this application since the February 5, 2026 CPC meeting.

**Zoning History:**

There have been no zoning cases in the area of notification in the last five years.

**Thoroughfares/Streets:**

<b>Thoroughfare/Street</b>	<b>Type</b>	<b>Existing/Proposed ROW</b>
McShann Road	Local street	-
Preston Road	Principal Arterial	100 feet

**Transit Access:**

The area of request is within a ½ mile of the following transit services:

DART Bus  
Route 22, 237

**Traffic:**

The Transportation Development Services Division of the Transportation Department has reviewed the request and determined that it will not significantly impact the surrounding roadway system. Staff will continue review of engineering plans at permitting to comply with city standards.

**STAFF ANALYSIS:**

**Comprehensive Plan:**

ForwardDallas 2.0 is the citywide Comprehensive Plan for future land use in the City of Dallas. Adopted by City Council in September 2024, the plan includes a future land use map and guidance for a future vision of the City of Dallas. It also establishes goals and guidelines for land use and other decisions by the City. According to the City of Dallas's Development Code, the comprehensive plan serves merely as a guide for rezoning requests, but does not establish zoning boundaries nor does it restrict the City's authority to regulate land use.

The proposed zoning change is generally **consistent** with Forward Dallas 2.0. Attached and detached single family, which includes duplexes, is a primary land use in the Community Residential placetype. The location of the site at the corner of a principal arterial supports the proposed use. The RTN Residential Transition District's design standards improve compatibility with surrounding uses, including the requirement for alley-loaded garages.

**Placetype Summary**

Placetypes describe the long-term vision and desired building and preservation characteristics for different places within the city including neighborhoods, mixed-use areas, employment and industry centers, and open spaces. They provide a high-level guide for the desired mix of land uses, design and the recommended intensity and scale of the different uses. Due to the macro scale of the plan, not all uses or design considerations described within the placetypes may be suitable for every individual property.

The Community Residential placetype encompasses the largest percentage of land within Dallas and is primarily made up of single-family homes. Parks, schools, and places of worship are interspersed throughout, providing focal points for community activity. Sensitively integrated housing types, such as duplexes and smaller-scaled multiplexes, can be found in many of these areas. Local commercial and office uses, as well as neighborhood-scaled apartments, may also be found, generally along main streets and at intersections, offering convenient access to goods and services, promoting a greater mix of uses, and supporting active, walkable environments..

Legend

- |  |   |

|  Community Mixed-Use    |  Utility                   |

**Land Use:**

	<b>Zoning</b>	<b>Land Use</b>
<b>Site</b>	R-16(A) Single Family	Single family
<b>North</b>	TH-2(A) Townhouse, MF-1(A) Multifamily	Single family, multifamily
<b>South</b>	R-16(A) Single Family, TH-1(A) Townhouse	Single family
<b>East</b>	NO(A) Neighborhood Office, R-16(A) Single Family	Office, church
<b>West</b>	R-16(A) Single Family	Single family

**Land Use Compatibility:**

The area of request is developed with one house.

The existing subdivision is an R-16(A) Single Family neighborhood, with large lots typical of such a district. To the north across an alleyway is a TH-2(A) Townhouse District with attached single family housing. South of the subdivision is a development zoned TH-1(A) Townhouse District with detached single family housing. The area of request is in proximity to an RR Regional Retail District with substantial retail and other services, and has access to a major thoroughfare and IH 635.

When evaluating a request for greater density within or in proximity to established neighborhoods, staff considers the compatibility and placement of the site in relation to the particular subdivision and nearby developments. For this request, the location of the site at the corner of a major thoroughfare presents greater compatibility than if it were located in the middle of a local street. The proximity to large employment centers and nearby retail further supports additional density at this location.

The development standards of the RTN Residential Transition District would provide additional compatibility with the surrounding uses. The side yard setback adjacent to single-family districts for the Townhouse and Manor House building types is 10 feet, which mirrors the existing R-16(A) Single Family side yard setback. While the permitted height is 35 feet / 2.5 stories, staff finds that this is not inherently incompatible on the proposed build site, and staff notes that two-story properties are able to be built in an R-16(A) district.

Additionally, the proposed RTN district requires that Townhouse, Manor House, and Single Family building types have garages accessed via alleys, except that Manor House and Single Family building types on a corner lot may utilize a side street for garage access. The configuration of the site is such

that Preston Road would likely be considered the side street, as the frontage along Preston is shorter than along McShann. However, the development code generally prohibits access to a divided thoroughfare from a single family development; therefore, alley access for the garages would be the most feasible solution for any building type.

As such, staff finds that the proposed RTN Residential Transition District is compatible with the surrounding land uses.

**Land Use Comparison**

Form-based zoning in Article XIII achieves complementary urban form by regulating land uses through several development types that allow different use categories. For example, the multifamily living use category is allowed under the Apartment (Apt.) development type. The restaurant/bar use category and retail sales use category are allowed under the Mixed Use Shopfront (Mu) and Single Story Shopfront (Ss) development types. Below are example images of the Townhouse, Manor House, and Single Family building types. The Manor House type is limited to a duplex under the RTN Residential Transition District.

*Examples of Townhouse, Manor House, and Single Family building types*

The applicant’s proposed use of the site would fall under the residential uses. Following is a comparison table showing differences in the permitted uses between the current R-7.5(A) Single Family District and the proposed RTN District. Blank cells indicate a comparable land use is not specified for that district.

Existing: R-16(A)	Proposed: RTN
<u>Agricultural uses.</u> -- Crop production.	
<u>Commercial and business service uses.</u> None permitted.	<u>Commerce use categories.</u> -- Open space lot, by SUP only: commercial parking

Existing: R-16(A)	Proposed: RTN
<u>Industrial uses.</u> -- Gas drilling and production. [SUP] -- Temporary concrete or asphalt batching plant. [SUP]	<u>Fabrication use categories.</u> None permitted.
<u>Institutional and community service uses.</u> -- Cemetery or mausoleum. [SUP] -- Child-care facility. [See 51A-4.204(3)] -- Church. -- College, university, or seminary. [SUP] -- Community service center. [SUP] -- Convent or monastery. [SUP] -- Foster home. [RAR] -- Library, art gallery, or museum. [SUP] -- Public or private school. [SUP]	<u>Civic use categories.</u> -- Civil building, place of worship
<u>Lodging uses.</u> None permitted.	<u>Commerce use categories.</u> None permitted.
<u>Miscellaneous uses.</u> -- Carnival or circus (temporary). [By special authorization of the building official.] -- Temporary construction or sales office.	
<u>Office uses.</u> None permitted.	<u>Office use categories.</u> None permitted.
<u>Recreation uses.</u> -- Country club with private membership. [SUP] -- Private recreation center, club, or area. [SUP] -- Public park, playground, or golf course.	<u>Civic use categories.</u> -- Open space lot: Park or open space
<u>Residential uses.</u> -- Handicapped group dwelling unit. -- Single family.	<u>Residential use categories.</u> -- Th: single family living -- Mh: single family living (up to duplex) -- Sf: single family living
<u>Retail and personal service uses.</u> None permitted.	<u>Retail use categories.</u> None permitted.  <u>Service and entertainment use categories.</u> None permitted.
<u>Transportation uses.</u> -- Private street or alley. [SUP]. -- Transit passenger shelter. [See 51A-4.211]	

Existing: R-16(A)	Proposed: RTN
-- Transit passenger station or transfer center. [SUP]	
<u>Utility and public service uses.</u> -- Electrical substation. [SUP] -- Local utilities. [SUP or RAR may be required. See Section <a href="#">51A-4.212(4).</a> ] -- Police or fire station. [SUP] -- Radio, television, or microwave tower. [SUP] -- Tower/antenna for cellular communication. [See Section <a href="#">51A-4.212(10.1).</a> ] -- Utility or government installation other than listed. [SUP]	<u>Civic use categories.</u> -- Open space lot: utilities.
<u>Wholesale, distribution, and storage uses.</u> -- Recycling drop-off container. [See Section <a href="#">51A-4.213(11.2).</a> ] -- Recycling drop-off for special occasion collection. [See Section <a href="#">51A-4.213(11.3).</a> ]	

**Development Standards**

Beyond the regulation of land uses through development types in Article XIII, each development type includes more traditional development standards (setbacks, density, height, etc.) in addition to enhanced development standards that contribute to a pedestrian friendly environment (street frontage, parking setbacks, transparency, etc.).

Following is a comparison table showing differences between the development standards of the current R-16(A) District and the proposed RTN District. Included in the RTN column are the development standards applicable to the Townhouse development type. Development standards have been consolidated to indicate what is applicable to the context of this site. Blank cells indicate a requirement is not specified for that development standard.

Standard	Existing: R-16(A)	Proposed: RTN (Townhouse development type)
<b>Front setback</b>	25' min	Primary street: 5' min / 15' max
<b>Required street frontage</b>		Primary street: 70% min
<b>Parking setback</b>		Primary street: 30' min, side street: 5' min Adj single family district: 10' min
<b>Side setback</b>	10' min	Adj single family district: 10' min
<b>Rear setback</b>	10' min	Adj single family district: 24' min

		Adj multifamily/nonresidential district: 0 or 5' min Adj alley: 5' min
<b>Density / Lot Area Required</b>	7,500 sqft min. lot size	1,200 sqft. min. lot size
<b>Height</b>	30' max	2.5 stories / 35' max
<b>Story height</b>		Ground story: 10' min / 15' max Upper story: 10' min / 15' max
<b>Lot coverage</b>	45% max	80% max
<b>Transparency</b>		Ground story: 30% primary street, 25% side street Upper story: 20% primary/side streets
<b>Entrance</b>		Required on primary street
<b>Blank wall area</b>		Primary street: 30' max
<b>Special standards</b>		Proximity slope*

**Landscaping:**

Landscaping must be provided in accordance with Article XIII, as amended. One site tree must be provided in the front yard on individually-platted lots.

**Parking:**

Parking must be provided in accordance with Chapter 51A, with one parking space per dwelling unit under RTN.

**Market Value Analysis:**

Market Value Analysis (MVA), is a tool to aid residents and policy-makers in understanding the elements of their local residential real estate markets. It is an objective, data-driven tool built on local administrative data and validated with local experts. The analysis was prepared for the City of Dallas by The Reinvestment Fund. Public officials and private actors can use the MVA to more precisely target intervention strategies in weak markets and support sustainable growth in stronger markets. The MVA identifies nine market types (A through I) on a spectrum of residential market strength or weakness. As illustrated in the attached MVA map, the colors range from purple representing the strongest markets (A through C) to orange, representing the weakest markets (G through I). The area of request is within a "B" MVA area.
