Request for Temporary Workplace Accommodation

- Employees who need an accommodation because the employee is in a high-risk category and must take extra precautions to avoid exposure to COVID-19, can contact HR at CODemployeesupport@dallascityhall.com to obtain a request form to submit to COVID19@dallascityhall.com

Please see the link below for a list of conditions that the Centers for Disease Control considers high risk:

- Future of Work: Departments interested in offering a Teleworking schedule not related to the COVID-19 pandemic, please review Administrative Directive 380 for Telework.

Questions? Teleworking@dallascityhall.com.

Teleworking at the City of Dallas

ESSENTIAL CONCEPTS

Managed, voluntary performance of job duties at a location other than the City of Dallas (COD) facilities

Mutually agreed by the employee and the supervisor, to telework on **specified days** and **hours**

Offered or made available **at the COD's sole discretion**

Does not provide an entitlement and is **not an organization-wide benefit**

Does not change the terms and **conditions of employment** with the COD

COD **may terminate** the teleworking work programs for any reason, at any time

As City services expand from 75% to 100% in Phase IV, City Departments are encouraged to consider positions that can be accomplished via telework.

Teleworking Criteria

The supervisor determines if:

- The position is appropriate for teleworking
- The assignment does not negatively impact the delivery of services and programs

The employee

- Demonstrates the ability to work independently, communicate effectively with managers and other employees, and maintain a high degree of self-motivation and productivity
- Is not on a probationary period, performance improvement plan, under investigation or under any disciplinary action
- Has not received formal discipline within the preceding 12 months

The position has some or all the following characteristics:

- Face-to-face interactions are not part of the job duties or can be scheduled on specified days
- The employee's work does not require them to be readily available on a face to-face basis to address problems that arise or to deliver services
- Workflow can be controlled, and work-product measured
- Quiet or uninterrupted time would enhance employee productivity
- The employee can provide a work environment free of interruptions and distractions and is safe and healthy

As you think about the future of work, consider positions that can be accomplished via telework. Also determine onsite positions that need to be onsite as the City returns to 100% of services. Telework AD3-80 is being finalized and is open for comments from Directors through March 8, 2022. Email comments to hilda.sallack@dallascityhall.com.
