1.1.5.3 Encourage neighborhood-serving office, retail, or other non-residential uses to be located in residential community areas, primarily on significant roadways or at key intersections.

URBAN DESIGN ELEMENT

GOAL 5.3 ESTABLISHING WALK-TO CONVENIENCE

Policy 5.3.1. Encourage a balance of land uses within walking distance of each other.

STAFF ANALYSIS:

Surrounding Land Uses:

	Zoning	Land Use
Site	CR-D-1	Fueling Station/GMFS
North	CR-D-1	Office/Retail
East	MF-2(A)	Multifamily
South	CR-D-1	Vacant Structure
West	CR-D-1 SUP No. 2059	Retail/Personal Service

Land Use Compatibility:

The area of request is currently developed with fueling station and a general merchandise or food service use. Surrounding uses includes vacant building to the south of the site across Bruton Road. A multifamily development is located east of the site, west across North Prairie Creek Road are retail and personal service uses; and office retail uses are located to the north.

The general provisions for a Specific Use Permit in Section 51A-4.219 of the Dallas Development Code specifically state: (1) The SUP provides a means for developing certain uses in a manner in which the specific use will be consistent with the character of the neighborhood; (2) Each SUP application must be evaluated as to its probable effect on the adjacent property and the community welfare and may be approved or denied as the findings indicate appropriate; (3) The city council shall not grant an SUP

for a use except upon a finding that the use will: (A) complement or be compatible with the surrounding uses and community facilities; (B) contribute to, enhance, or promote the welfare of the area of request and adjacent properties; (C) not be detrimental to the public health, safety, or general welfare; and (D) conform in all other respects to all applicable zoning regulations and standards. The regulations in this chapter have been established in accordance with a comprehensive plan for the purpose of promoting the health, safety, morals, and general welfare of the city.

The general merchandise use is also regulated by Chapter 12B of the Dallas City Code, Convenience Stores. This chapter applies to all convenience stores, which is defined as any business that is primarily engaged in the retail sale of convenience goods, or both convenience goods and gasoline, and has less than 10,000 square feet of retail floor space; the term does not include any business that has no retail floor space accessible to the public. The purpose of Chapter 12B is to protect the health, safety, and welfare of the citizens of the city of Dallas by reducing the occurrence of crime, preventing the escalation of crime, and increasing the successful prosecution of crime that occurs in convenience stores in the city. This chapter establishes a registration program for convenience stores and provides requirements relating to:

- surveillance camera systems,
- video recording and storage systems,
- alarm systems,
- drop safes,
- security signs,
- height markers,
- store visibility,
- safety training programs, and
- trespass affidavits.

A separate certificate of registration to comply with Chapter 12B is required for each physically separate convenience store. A certificate of registration for a convenience store expires one year after the date of issuance and must be renewed annually. The Dallas Police has determined that the request site is in compliance with Chapter 12B.

The location is at the intersection of two principal arterials, Bruton Road and North Prairie Creek Road. The area is comprised of mainly retail uses including retail at each corner of the intersection, a large retail bazaar, and office and multifamily uses. In general, the applicant's request is consistent with the intent of the Dallas Development Code and use fits the retail nature of the neighborhood. Therefore, staff recommends the approval of a Specific Use Permit for the sale of alcoholic beverages in conjunction with a general

merchandise or food store 3,500 square feet or less for a two-year period with eligibility for automatic renewal for a five-year period.

Landscaping:

Landscaping is installed in accordance with Article X of the Dallas Development Code.

Parking:

Pursuant to the Dallas Development Code, the off-street parking requirement for the one parking space per 200 square feet of floor area. The parking requirement for the proposed 1,500-square-foot general merchandise or food store is eight parking spaces. The parking requirement for a motor vehicle fueling station is two parking spaces. There are a total of 10 parking spaces required for the site. The site plan currently depicts eight parking spaces. Building Inspections has determined that the site has two delta credits. With that determination, the site meets the parking requirements for the uses on the site.

It is an objective, data-driven tool built on local administrative data and validated with local experts. The analysis was prepared for the City of Dallas by The Reinvestment Fund. Public officials and private actors can use the MVA to more precisely target intervention strategies in weak markets and support sustainable growth in stronger markets. The MVA identifies nine market types (A through I) on a spectrum of residential market strength or weakness. As illustrated in the attached MVA map, the colors range from purple representing the strongest markets to orange, representing the weakest markets. As illustrated in the attached MVA map, the colors range from purple representing the strongest markets to orange, representing the weakest markets. Although the area of request is not within an identifiable MVA cluster, it abuts an "F" MVA cluster to the south and "G" MVA clusters is located to the east and north.
