

Memorandum

CITY OF DALLAS

DATE September 15, 2022

TO Honorable Members of the Transportation and Infrastructure Committee

SUBJECT **Upcoming Agenda Items for October 26, 2022, City Council Agenda - Ordinance Amending Chapter 28 “Motor Vehicles and Traffic” and Ordinance Amending Chapter 13 “Courts, Fines and Imprisonments”**

During the April 18, 2022, Transportation & Infrastructure Committee meeting, several questions were raised regarding an upcoming agenda item to add a new Section 28-61.1, “Standing and Walking in Certain Areas Prohibited” to the City Code which would prohibit standing and walking on medians measuring six feet or less in width, where no medians exist, or in an area designated as a clear zone.

This memorandum serves to provide responses to those questions, share an update on the status of the discussions with the Government Performance and Financial Management (GPFM) Committee, and review proposed next steps.

Questions and Responses

1) What traffic studies have been completed that identify “medians under 6’ in width are not safe pedestrian refuges”?

The American Association of State Highway and Transportation Officials (AASHTO) is a nonprofit association representing highway and transportation departments in all 50 states, the District of Columbia, and Puerto Rico. It leads and sets technical standards for design and construction of multimodal transportation systems. One of its key publications is “A Policy on Geometric Design of Highways and Streets.” Section 4.11 of the 2018 referenced AASHTO publication states that, “In urban areas, medians that are intended to serve as a pedestrian refuge area should be at least 6 ft [1.8 m], as discussed in Section 4.17.” Further, Section 4.3.5 of the City Council approved City of Dallas 2019 Street Design Manual recommends a minimum median width of six feet for a median to be used as a pedestrian refuge.

2) The draft ordinance included several references to the Texas Department of Transportation’s (TxDOT) guidance on pedestrian safety. TxDOT may be more focused on motor vehicles than pedestrian safety. How can we ensure we are referencing the best resources and data as it relates to pedestrian safety?

SUBJECT **Upcoming Agenda Item for October 26, 2022, City Council Agenda - Ordinance
Amending Chapter 28 “Motor Vehicles and Traffic”**

Following the April 18th TRNI Committee meeting, staff reviewed the Agenda Information Sheet and draft ordinance and provided additional references to other leading transportation resources and guides including the U.S. Department of Transportation, American Association of State Highway Transportation Officials, National Association of City Transportation Officials, City of Dallas Street Design Manual.

3) Will this ordinance make it illegal for pedestrians to step out into a protected area (stepping out to look for traffic rather than just crossing)?

The purpose of this ordinance is for pedestrian safety. The draft ordinance states that the section does not apply if a person:

- (1) is crossing a divided roadway in the most direct route possible inclusive of roadways that have provisions for dedicated bicycle lane facilities or curb bump outs;
- (2) is the victim of or rendering aid in an emergency situation or in compliance with the directions of a peace officer;
- (3) is performing work in the right-of-way in accordance with a permit issued under Chapter 43 of this code;
- (4) is erecting or dismantling a barricade in the right-of-way in accordance with a permit issued under Chapter 52 of this code;
- (5) has prior authorization from the city or is otherwise in compliance with applicable laws and regulations;
- (6) is standing in a raised splitter island that is not less than four feet in width while attempting to cross a divided roadway in the most direct route possible; or
- (7) is walking or standing on a paved sidewalk if the sidewalk is adjacent to the back of the curb on a curbed roadway which is within a clear zone area.

Feedback from the GPFM Committee

The proposed amendments to Section 28-61.1 of the City Code are intended as a safety measure for all pedestrians. The GPFM Committee has expressed support for this item.

(7) is walking or standing on a paved sidewalk if the sidewalk is adjacent to the back of the curb on a curbed roadway which is within a clear zone area.
