REQUEST: An application to create one 0.862-acre lot from a tract of land in City Block 3395 on property located on Morrell Avenue, east of Ewing Avenue.

SUBDIVISION HISTORY: There has been no recent platting activity within close proximity to this request.

STAFF RECOMMENDATION: Section 51A-8.503 states that “lots must conform in width, depth, and area to the pattern already established in the adjacent areas, having due regard to the character of the area, its particular suitability for development, and taking into consideration the natural topography of the ground, drainage, wastewater facilities, and the proposed layout of the streets.”

- The properties within the immediate vicinity of the request vary in lot width, depth, and area and the majority of them have no defined shape nor defined widths or lot areas.

The request lies in an MF-2(A) Multi Family District which has a minimum lot area requirement of 1,000 square feet for single family structures and 3,000 square feet for duplex structures. Minimum lot area requirement for multifamily structures depends on the number of proposed bedrooms. The request is to create one 0.862-acre lot.

Considering the variety of lot areas in the immediate area of the request, staff concludes that there is no uniform lot pattern, and the request complies with the requirements of Section 51A-8.503 and the MF-2(A) Multi Family District; therefore, staff recommends approval of the request subject to compliance with the following conditions:
