

**FILE NUMBER:** Z190-141(JM)

**DATE FILED:** November 19, 2019

**LOCATION:** Northeast corner of County View Road and Field View Lane

**COUNCIL DISTRICT:** 3

**MAPSCO:** 71B-F

**SIZE OF REQUEST:** ±10.21 acres

**CENSUS TRACT:** 165.10

**APPLICANT/OWNER:** Duncanville Independent School District

**REPRESENTATIVE:** Karl A. Crawley, Masterplan

**REQUEST:** An application for a Planned Development District for R-7.5(A) Single Family District uses, public school other than an open-enrollment charter school, office, and warehouse uses on property zoned an R-7.5(A) Single Family District.

**SUMMARY:** The purpose of this request is to allow for existing vacant school buildings with 46,071 square feet of total floor area to be used for office and storage uses for the school district.

**CPC RECOMMENDATION:** Approval, subject to a development plan and conditions.

**STAFF RECOMMENDATION:** Approval, subject to a development plan and conditions.

## **BACKGROUND INFORMATION:**

- The revisions proposed at CPC were to correct the PD conditions to refer to public school district instead of public school uses, and to remove allowing steps, handrails, and walls from the list of allowable encroachments into required yards.
- The existing school buildings with approximately 46,071 square feet of total floor area were constructed in the late 1970s per Historic Aerials.
- The zoning request is to create a planned development district to allow the vacant school buildings to be utilized by the school district as office and warehouse uses. Amendments to the R-7.5(A) Single Family District and Chapter 51A standards include:
  - Allowing parking required yards;
  - For the proposed office and limited warehouse uses, a maximum of 20 percent lot coverage; and,
  - To allow for phased parking as the existing buildings are remodeled.

**Zoning History:** There have not been any zoning cases in the area over the past five years.

## **Thoroughfares/Streets:**

Thoroughfare/Street	Type	Existing ROW	Proposed ROW
County View Road	Local	60 feet	--
Field View Lane	Local	Varies (50-61.37 feet)	--

## **Traffic:**

The Engineering Division of the Sustainable Development and Construction Department reviewed the proposed request and determined that the request will not have a negative impact on the existing street system.

## **Surrounding Land Uses:**

	Zoning	Land Use
<b>Site</b>	R-7.5(A) Single Family	Vacant
<b>North</b>	R-7.5(A) Single Family	Park and Single Family
<b>East</b>	R-7.5(A) Single Family	Church and Single Family
<b>South</b>	R-7.5(A) Single Family	Single Family
<b>West</b>	R-7.5(A) Single Family	Single Family

**STAFF ANALYSIS:**

**Comprehensive Plan:**

The *forwardDallas! Comprehensive Plan* was adopted by the City Council in June 2006. The *forwardDallas! Comprehensive Plan* outlines several goals and policies which can serve as a framework for assisting in evaluating the applicant's request.

The proposed zoning request meets the following goals and objectives of the comprehensive plan:

**LAND USE ELEMENT**

**GOAL 1.1 ALIGN LAND USE STRATEGIES WITH ECONOMIC DEVELOPMENT PRIORITIES**

Policy 1.1.5 Strengthen existing neighborhoods and promote neighborhoods' unique characteristics. Acknowledge the importance of neighborhoods to the city's long-term health and vitality.

1.1.5.3 Encourage neighborhood-serving office, retail, or other non-residential uses to be located in residential community areas, primarily on significant roadways or at key intersections.

**Land Use Compatibility:**

The existing school buildings with approximately 46,071 square feet of total floor area were constructed in the late 1970s per Historic Aerials. Surrounding land uses include single family to the northwest, farther north and northeast, south, and west; a public park to the north; and, a church to the east.

The current zoning request is to create a planned development district to allow the vacant school buildings to be utilized by the school district as office and warehouse uses. Amendments to the R-7.5(A) Single Family District and Chapter 51A standards include: (1) allowing parking, steps, handrails, and light poles in all required yards; (2) for the proposed office and limited warehouse uses, a maximum of 20 percent lot coverage; and, (3) to allow for phased parking as the existing buildings are remodeled. These three requests largely make the site and structures compliant, while allowing for the interior of the existing school buildings to be fully remodeled and parking to be installed in sections—before a Certificate of Occupancy is issued.

The applicant plans to maintain the permissible R-7.5(A) District uses, while adding office and warehouse (limited to 15,000 square feet) uses, if associated with the public school district. This would serve to repurpose the existing school structures for continued use by Duncanville Independent School District. The intent is to provide a training space, administrative offices, and storage capacity for the school district. The training element is considered an office use. The storage element is classified as a

warehouse use. The warehouse element being limited to 15,000 square feet ensures that the 46,701-square foot structure, or any larger future structure, will not operate as the sole main use in the middle of the existing residential neighborhood. The accessory use regulations<sup>1</sup> require that an accessory use be an allowed main use. Additionally, the accessory use would be limited to five percent of the total floor area<sup>2</sup>. The maximum floor area for an accessory use is 2,335 square feet, with the existing floor area as shown on the proposed development plan. The school district is planning to use the gymnasium to store old furniture and likely a few classrooms for file storage. The 15,000 square feet requested will cover the gymnasium and a few additional rooms and represent approximately 32 percent of the total floor area.

Staff supports the request for a planned development district at this site, as described. Generally, schools and school-related uses are appropriate in neighborhoods. By rezoning the site to allow for office and limited warehouse uses associated strictly with the school district, the property and existing structures will continue to perform as an asset to the school district and surrounding neighborhood. If the school district were to no longer operate the site, the associated office and limited warehouse uses would no longer be allowed. The limitation placed on the maximum lot coverage (20 percent) plus the proposed development plan identifying the existing structures to remain serve to restrict the scale of development, limiting the potential effect on the residential neighborhood.

### **Development Standards:**

District	Setbacks		Height	Lot Coverage	Special Standards	Primary Uses
	Front	Side/Rear				
<b>Existing:</b> R-7.5(A)	25'	5' single family 10' others	30'	45% res. 25% nonres.	RPS	Single Family and institutional.
<b>Proposed:</b> PD	25' Allow parking, steps, handrails, and light poles to encroach.	5' single family 10' others Allow parking, steps, handrails, and light poles to encroach.	30'	45% res. 25% nonres.  20% for proposed uses	Max floor area for a warehouse use is 15,000 SF	R-7.5(A), office, and limited warehouse-uses.

### **Market Value Analysis:**

Market Value Analysis (MVA), is a tool to aid residents and policy-makers in understanding the elements of their local residential real estate markets. It is an objective, data-driven tool built on local administrative data and validated with local experts. The analysis was prepared for the City of Dallas by The Reinvestment Fund.

<sup>1</sup> Refer to Sec. 51A-4.217(a)(4)

<sup>2</sup> Refer to Sec. 51A-4.217(a)(3)

Public officials and private actors can use the MVA to more precisely target intervention strategies in weak markets and support sustainable growth in stronger markets. The MVA identifies nine market types (A through I) on a spectrum of residential market strength or weakness. As illustrated in the attached MVA map, the colors range from purple representing the strongest markets to orange, representing the weakest markets. While the area of request is not located within a cluster, surrounding properties are located within an “F” MVA cluster.

**Parking:**

According to the information provided, if the applicant chooses to operate the maximum warehouse floor area of 15,000 square feet, parking must be provided at a rate of one space per 1,000 square feet of floor area. A maximum of 15 parking spaces would be required.

For the remaining 31,701 square feet, if utilized as office space, one parking space is required per 333 square feet of floor area. The required off-street parking for the office use would be 95 parking spaces.

The combined total off-street parking requirement for the maximum warehouse and remaining office floor area would be 110 spaces. According to the development plan, the site currently contains 199 parking spaces.

**Landscaping:**

No new structures are proposed with this request; however, repaving of parking lots could trigger landscaping requirements. Article X, as amended, becomes applicable to a lot or tract when the nonpermeable coverage on the lot or tract is increased by more than 2,000 square feet within a 24-month period, not including portions of pedestrian pathways, that are between three feet in width and 15 feet in width, or when an application is made for a building permit for construction work that (1) increases the number of stories and increases the height of a building on the lot; or, (2) increases by more than 35 percent or 10,000 square feet, whichever is less, the combined floor areas of all buildings on the lot within a 24-month period.

As a nonresidential lot, landscaping requirements generally include: a street buffer zone of varying average depth depending on the type of street, urban streetscape, right-of-way planting, one three-inch caliper tree for every 40 linear feet of street frontage, residential buffer zone, interior zone, and surface parking lot trees and islands depending on the number of parking spaces provided.

The residential buffer zone is a landscape area along that portion of the perimeter of a lot where residential adjacency exists. The residential buffer zone must have an average depth of 10 feet, a minimum depth of five feet, and a maximum depth of 30 feet. The buffer is required to include a minimum of one plant group for every 40 feet. The plant group where screening is required includes one three-inch caliper tree.

<b>CPC Recommended Proposed PD Conditions</b>
---

**SEC. 51P-xxx.101. LEGISLATIVE HISTORY.**

PD XXX was established by Ordinance No. XXXX, passed by the Dallas City Council on XXXX

**SEC. 51P-XXX.102. PROPERTY LOCATION AND SIZE.**

PD XXX is established on property generally located at the northeast corner of County View Road and Field View Lane. The size of PD XXX is approximately 10.02 acres.

**SEC. 51P-xxx.103. DEFINITIONS AND INTERPRETATIONS.**

- (a) Unless otherwise stated, the definitions and interpretations in Chapter 51A apply to this article.
- (b) Unless otherwise stated, all references to articles, divisions, or sections in this article are to articles, divisions, or sections in Chapter 51A.
- (c) This district is considered to be a residential zoning district. (Ord. 27296)

**SEC. 51P-xxx.104. EXHIBITS.**

The following exhibits are incorporated into this article:

- (1) Exhibit xxxA: development plan.

**SEC. 51P-xxx.105. DEVELOPMENT PLAN.**

- (a) For a public school district and associated office or limited warehouse uses, development and use of the Property must comply with the development plan (Exhibits xxxA). If there is a conflict between the text of this article and the development plans, the text of this article controls
- (b) For all other permitted uses, Paragraph 51A.4.702(c)2 through Subsection 51A-4.702(j), governing the requirements for a site plan, a development plan, and amendments to a development plan, do not apply.

**SEC. 51P-xxx.106. MAIN USES PERMITTED.**

- (a) Except as provided in below, all uses permitted in the R-7.5(A) Single Family District, subject to the same conditions applicable in the R-7.5(A) Single Family District, as set

out in the Dallas Development Code, as amended. For example, a use permitted in the R-10(A) Single Family District by specific use permit (SUP) only is permitted in this planned development district by SUP. A use subject to development impact review (DIR) in the R-7.5(A) Single Family District is subject to DIR in this planned development district, etc.

- (b) The following uses are allowed in association with a public school district as defined in Sec. 51A-4.204(b)(17)(ii):
  - (i) Office use
  - (ii) Warehouse use (limited to 15,000 square feet)

**SEC. 51P-xxx.107. ACCESSORY USES.**

Accessory uses. As a general rule, an accessory use is permitted in any district in which the main use is permitted. Some specific types of accessory uses, however, due to their unique nature, are subject to additional regulations contained in Section 51A-4.217. For more information regarding accessory uses, consult Section 51A-4.217.

**SEC. 51P-xxx.108. YARD, LOT, AND SPACE REGULATIONS.**

(Note: The yard, lot, and space regulations in this section must be read together with the yard, lot, and space regulations in Division 51A-4.400. If there is a conflict between this section and Division 51A-4.400, this section controls.)

- (b) Floor area: Maximum floor area for all non-residential uses is 46,100 square feet.
- (c) Setbacks: Steps, handrails and light poles are allowed in the required setbacks. Solid screening walls are allowed in the required side yard. Parking for a public school district and associated office or limited warehouse uses is allowed in the required yard.
- (d) Lot coverage: Maximum lot coverage for a public school district and associated office or limited warehouse uses is 20%.

**SEC. 51P-xxx.109. OFF STREET PARKING AND LOADING.**

- (a) Off-street parking must be provided in accordance with Division 51A-4.300 et seq. except as noted below:
- (b) Parking a public school district and associated office or limited warehouse uses can be phased. The interior of the existing building can be demolished and parking does not have to be provided for the demolished space until it is occupied by an allowed use.

**SEC. 51P-xxx.110. ENVIRONMENTAL PERFORMANCE STANDARDS.**

See Article VI.

**SEC. 51P-xxx.111. LANDSCAPING.**

- (a) Landscaping must be provided in accordance with Article X with the following exceptions:
- (b) Plant materials must be maintained in a healthy, growing condition.

**SEC. 51P-xxx.112. SIGNS.**

Signs must comply with the provisions for non-business zoning districts in Article VII.

**SEC. 51P-xxx.113. ADDITIONAL PROVISIONS.**

- (a) The Property must be properly maintained in a state of good repair and neat appearance.
- (b) Development and use of the Property must comply with all federal and state laws and regulations, and with all ordinances, rules, and regulations of the city.

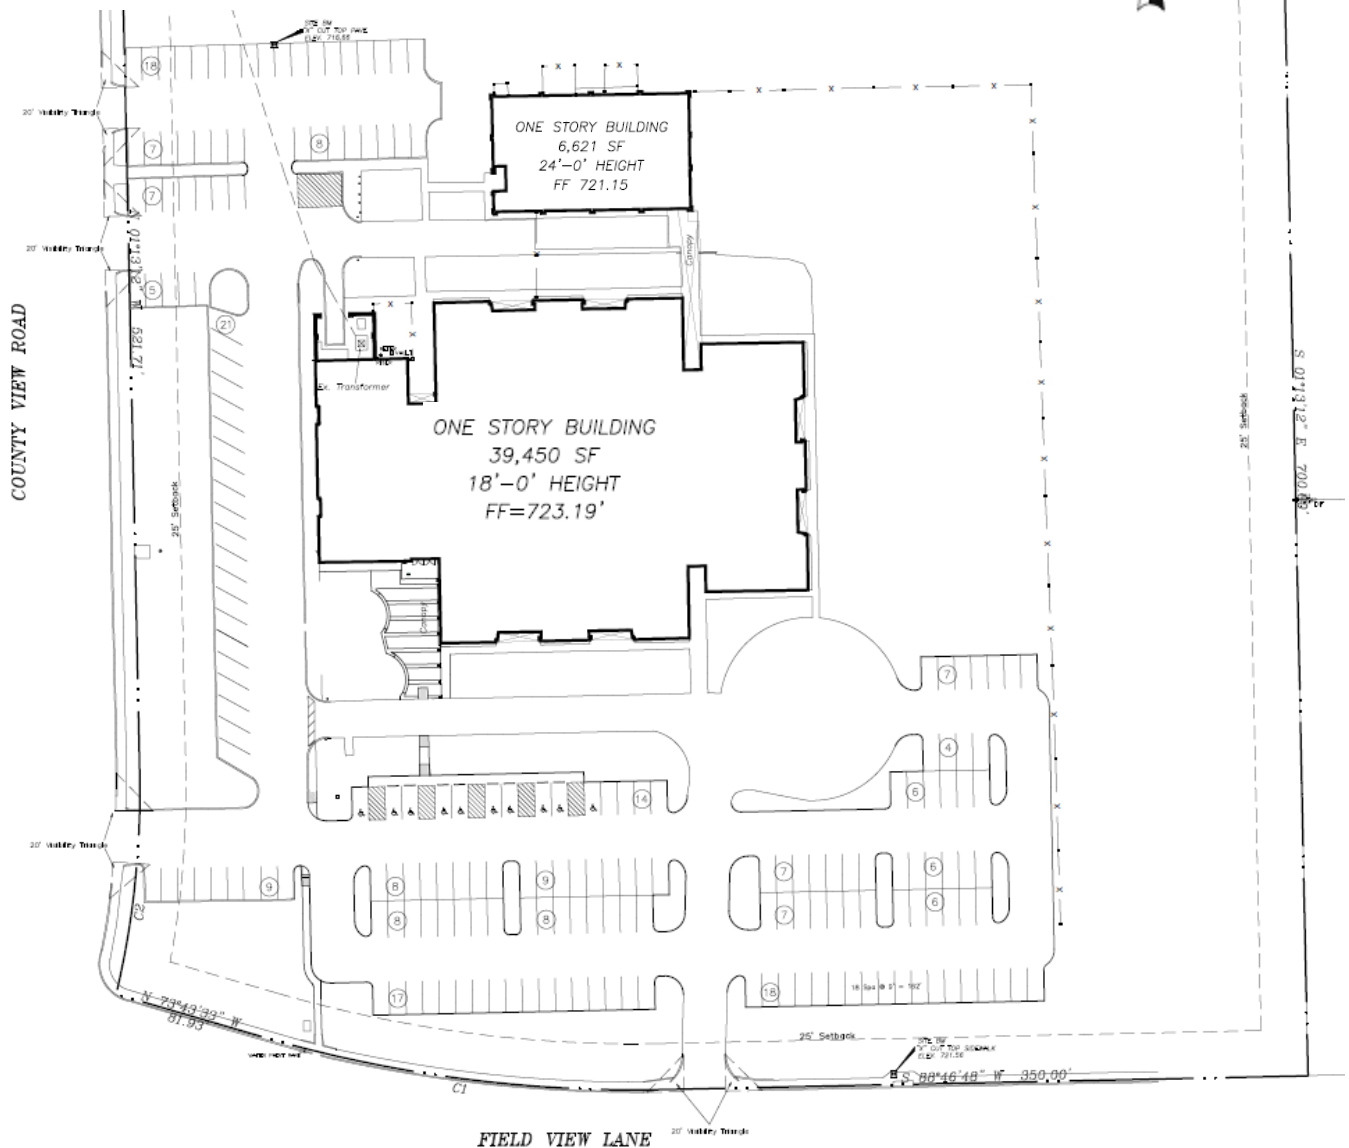

**SEC. 51P-xxx.114 COMPLIANCE WITH CONDITIONS.**

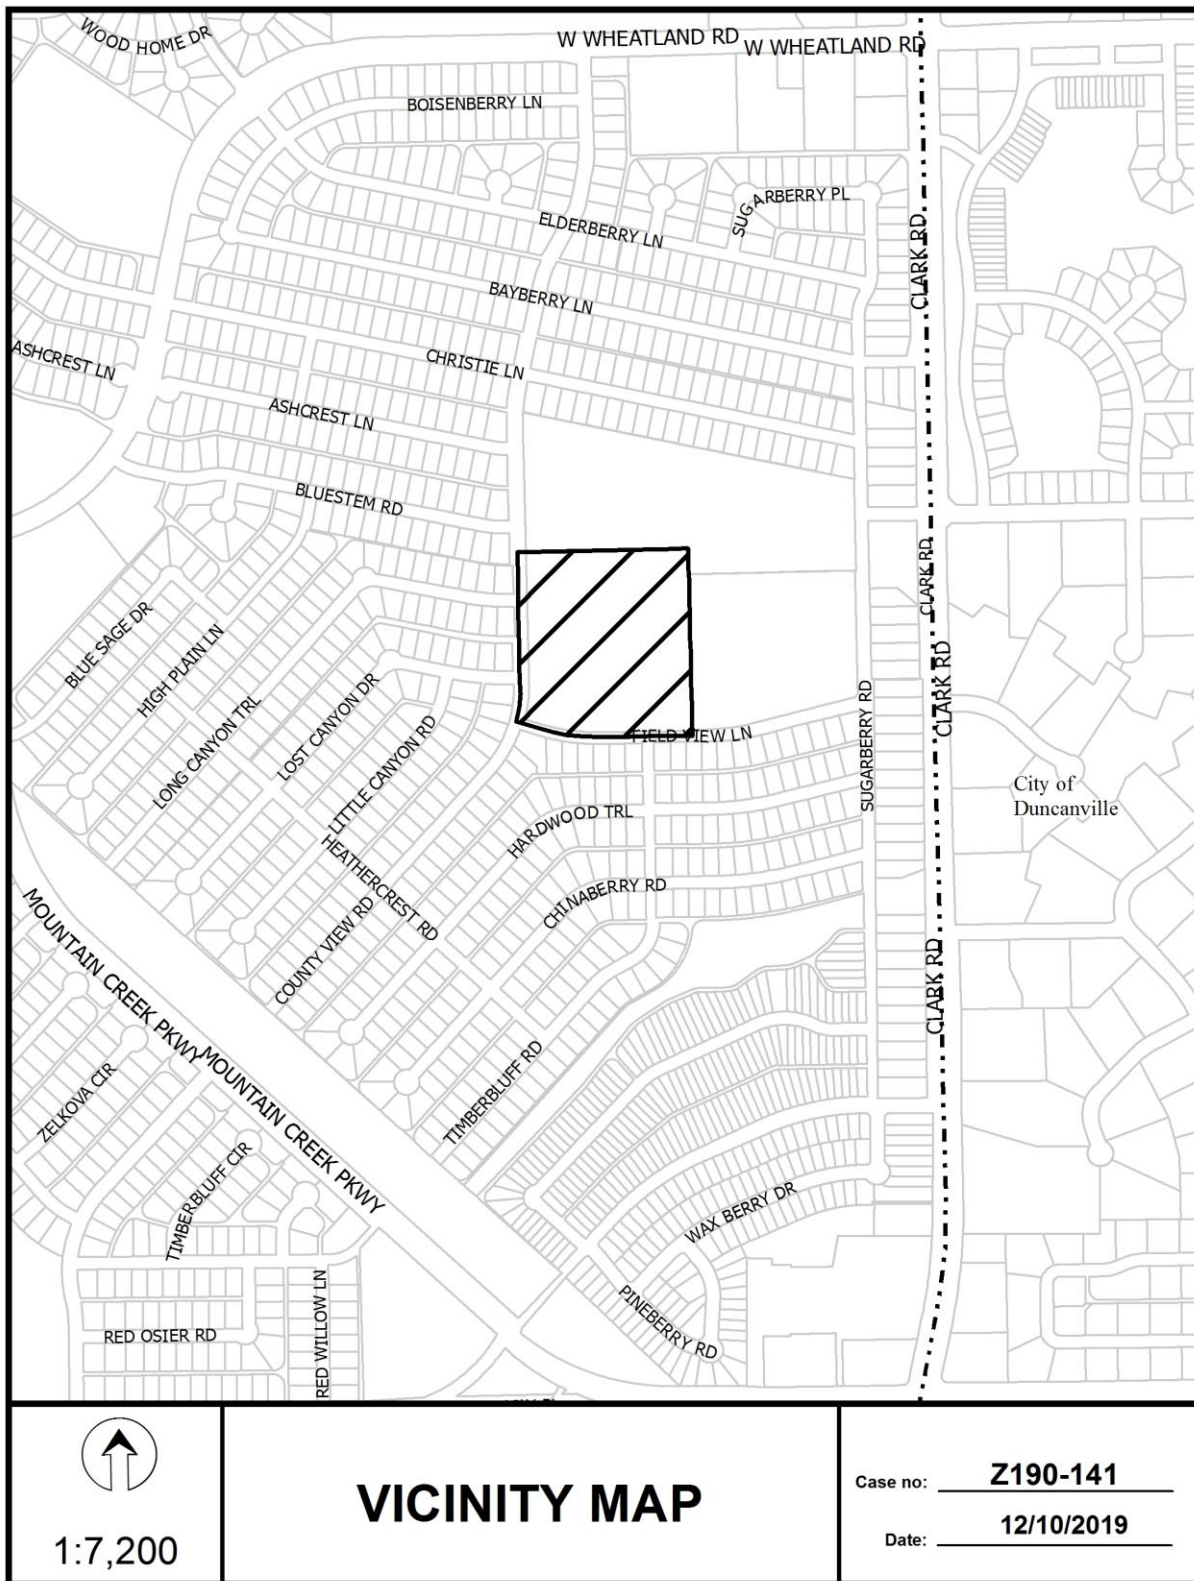

- (a) All paved areas, permanent drives, streets, and drainage structures, if any, must be constructed in accordance with standard city specifications, and completed to the satisfaction of the director of public works and transportation.
- (b) The building official shall not issue a building permit to authorize work, or a certificate of occupancy for a use until there has been full compliance with this article, the Dallas Development Code, the construction codes, and all other ordinances, rules, and regulations of the city.

# Proposed Development Plan

## SITE DATA SUMMARY

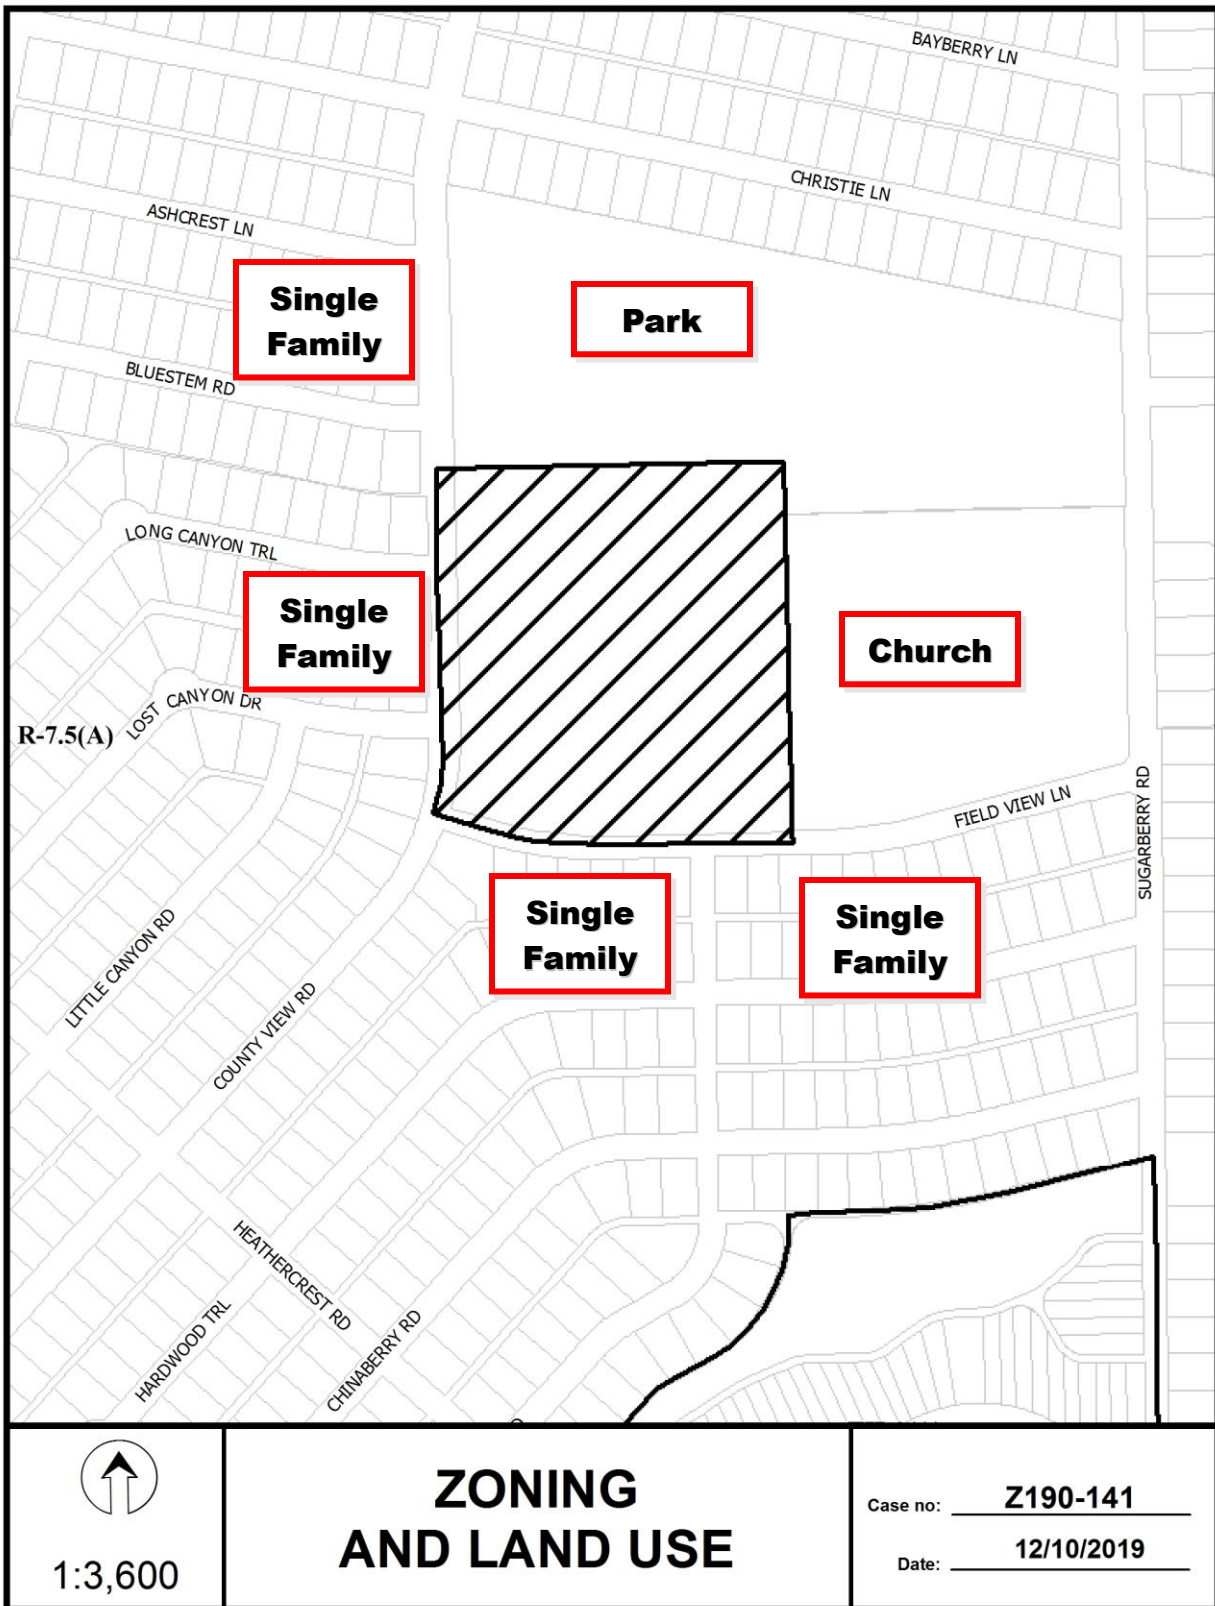

Proposed Use	Office / Warehouse
Lot Area	10.02 Ac (436,527 SF)
Building Area Total:	46,071 SF
Main Building	39,450 SF
Auxiliary Building	6,621 SF
Building Height:	1-Story (24'-0")
Lot Coverage	10.55% (46,071/436,527)
