**LOCATION:** North, west, and south corners of Burlew Street and Scurry Street

**COUNCIL DISTRICT:** 2

**MAPSCO:** 46 A

**SIZE OF REQUEST:** Approx. 1.184 acres.

**CENSUS TRACT:** 15.03

---

**REPRESENTATIVE:** Rob Baldwin, Baldwin Associates

**APPLICANT/OWNER:** Scurry Partners, LLC, and One Mad Ox

**REQUEST:** An application to create a new subdistrict to allow for MF-2(A) Multifamily District uses within Subarea 9 within Planned Development District No. 298, the Bryan Area Special Purpose District.

**SUMMARY:** The purpose of this request is to allow for multifamily uses to be constructed with a lesser front yard setback and not be subject to RPS.

**CPC RECOMMENDATION:** Approval, subject to conditions.

**STAFF RECOMMENDATION:** Approval, subject to staff recommended conditions.

**BACKGROUND INFORMATION:**

- The area of request is zoned Subarea 9 - MF-2(A) Multifamily District within Planned Development District No. 298 and is comprised of residential structures and undeveloped uses.
- The applicant proposes to construct a multifamily development with a lesser front yard setback than allowed in the MF-2(A) District that currently governs the property and not to follow RPS.

**Zoning History:** There have been two zoning change for the area of request in the past five years.

1. **Z190-281** An application to amend Planned Development District No. 324, Tract 1 to allow for a mixed-use project is currently under review.
2. **Z178-186** On April 25, 2018, City Council approved a Demolition overlay on an area generally bound by Live Oak Street, Bryan Parkway, Matilda Street, Martel Avenue, municipal boundary of Dallas and Highland Park, Lemmon Avenue, Dallas North Tollway, Turtle Creek, and Haskell Avenue to Worth Street, both sides of Haskell Avenue from Worth Street to Main Street, both sides of Main Street from N. Haskell to South Carroll Avenue, Main Place, South Prairie Avenue, Columbia Avenue, and North Fitzhugh Avenue.

**Thoroughfares/Streets:**

Thoroughfare/Street	Type	Existing ROW
Burlew Street	Local	40 feet
Scurry Street	Local	50 feet

**Traffic:**

The Engineering Division of the Sustainable Development and Construction Department has reviewed the request and determined that it will not significantly impact the surrounding roadway system.

**STAFF ANALYSIS:**

**Comprehensive Plan:**

The *forwardDallas! Comprehensive Plan* was adopted by the City Council in June 2006. The *forwardDallas! Comprehensive Plan* outlines several goals and policies which can serve as a framework for assisting in evaluating the applicant's request.

The request complies with the following land use goals and policies of the Comprehensive Plan:

**ECONOMIC ELEMENT**

**GOAL 2.1 PROMOTE BALANCED GROWTH**

**Policy 2.1.1** Ensure that zoning is flexible enough to respond to changing economic conditions.

**URBAN DESIGN**

**GOAL 5.3 ESTABLISH WALK-TO CONVENIENCE**

**Policy 5.3.1** Encourage a balance of land uses within walking distance of each other.

**Land Use:**

	<b>Zoning</b>	<b>Land Use</b>
<b>Site</b>	PD No. 298 Subarea 9 MF-2(A)	Undeveloped
<b>North</b>	PD No. 298 Subarea 9 MF-2(A)	Undeveloped, Multifamily
<b>East</b>	PD No. 324	Single Family/Commercial
<b>South</b>	PD No. 398 PD No. 298 Subarea 9 MU-1	Restaurant, Office
<b>West</b>	PD No. 298 Subarea 9 MU-1	Surface Parking, Multifamily, Undeveloped

**Land Use Compatibility:**

The area of request is zoned Subarea 9 - MF-2(A) Multifamily District within Planned Development District No. 298. A portion of the area is undeveloped, and a portion is developed with a multifamily development.

The property located to the north of the area of request, across South Malcom X Boulevard is zoned Subarea 9 - MF-2(A) within Planned Development District No. 298 is comprised of a mix of multifamily and undeveloped lots. East of the property are single family uses and a vacant commercial building. To the immediate south there are several retail uses, mainly restaurant uses. West of the subject site are multifamily and undeveloped uses.

The applicant's request is to create a subdistrict that maintains the MF-2(A) District designation of Subdistrict 9 while reducing the setbacks. The new subdistrict would bring existing structures into compliance and will allow for the construction of similar multifamily developments.

The applicant also seeks to remove the requirement of RPS, which would allow the new structures to be 36 feet. Tract 3 within Planned Development District No. 324 to the east of the site is considered a residential district and triggers RPS for the subject site. The applicant is requesting that RPS not apply to the new subdistrict.

The request is compatible with the surrounding land uses and zoning. The reduction of setbacks will allow for the proposed multifamily development to add to the walkability of the neighborhood by allowing front facing entries in the dwellings. Staff does not support allowing encroachments into the five-foot setback. CPC recommended allowing encroachments of two and one-half feet into the setback. Staff supports removing the requirement for RPS as the surrounding zoning is also limited to 36 feet.

### Development Standards:

<u>DISTRICT</u>	<u>SETBACKS</u>		Density	Height	Lot Coverage	Special Standards	PRIMARY Uses
	Front	Side/Rear					
PD No. 298 Subarea 9 MF-2(A) – existing	15'	Side: 0' adjacent to single family 5' for duplex OTHER: 10'.  Rear: 10' for duplex OTHER: 15'	No Maximum	36'	60%	Proximity Slope Visual	Residential
PD No. 298 Subarea 9A MF-2(A)– proposed	5'	5' for multifamily uses	No Maximum	36'	60%	Proximity Slope Visual	Residential

**Parking:**

Pursuant to the Dallas Development Code, off-street and loading required parking must be provided in accordance with Division 51A-4.200 for the specific off-street parking and loading requirements for each use. A multifamily development is required to have one space per bedroom with a minimum of one space per dwelling unit. An additional one-quarter space per dwelling unit must be provided for guest parking if required parking is restricted to resident parking. The applicant is proposing a minimum of one space per bedroom with a maximum of two off-street parking spaces per dwelling unit required.

**Landscaping:**

Landscaping is required per Article X of the Dallas Development Code, as amended. Upon development, the site must comply with Article X, as amended.

**Market Value Analysis**

Market Value Analysis (MVA), is a tool to aid residents and policy-makers in understanding the elements of their local residential real estate markets. It is an objective, data-driven tool built on local administrative data and validated with local experts. The analysis was prepared for the City of Dallas by The Reinvestment Fund. Public officials and private actors can use the MVA to more precisely target intervention strategies in weak markets and support sustainable growth in stronger markets. The MVA identifies nine market types (A through I) on a spectrum of residential market strength or weakness. As illustrated in the attached MVA map, the colors range from purple representing the strongest markets to orange, representing the weakest markets. The area of request Site is within an “E” MVA Category; and south, east, and northeast of the request site.
