COUNCIL DISTRICT:	10	MAPSCO:	27 G
SIZE OF REQUEST:	±5.619 acres	CENSUS TRACT:	78.11

REPRESENTATIVE: Brad Williams & Tommy Mann, Winstead PC

OWNER/APPLICANT: JAHCO LH Development LLC & JAHCO Lake Highlands LLC

REQUEST: An application for a Planned Development District for MC-4 Multiple Commercial District uses and single family uses on property zoned an MC-4 Multiple Commercial District.

SUMMARY: The purpose of the request is to allow for the addition of the single family uses and develop the site with attached and detached single family homes with modified standards primarily in relation to yard, lot, and space regulations.

CPC RECOMMENDATION: Approval, subject to a conceptual plan and conditions.

STAFF RECOMMENDATION: Denial without prejudice.

BACKGROUND INFORMATION:

- The site is currently undeveloped and zoned MC-4 Multiple Commercial District.
- The existing zoning district regulations would not permit single family homes to be constructed on the site since it is considered to be a commercial district. The proposed PD would allow up to 90 units on the subject site. For a single family use, the applicant requests to use TH-3 Townhouse District guidelines, but will only meet the front, rear and side yard guidelines.

Zoning History: There has been no recent zoning changes requested in the vicinity in the past five years.

Thoroughfares/Streets:

Thoroughfare/Street	Type	Thoroughfare Dimension; ROW
Skillman Street	Principal Arterial	M-6-D(A); 100' with bike plan
Audelia Road	Minor Arterial	M-6-D(B); 90' with bike plan
Whitehurst Drive	Local Street	-

Traffic

The Engineering Division of the Sustainable Development and Construction Department reviewed the proposed zoning and determined it will not have a negative impact on the existing street system.

STAFF ANALYSIS:

Comprehensive Plan:

The *forwardDallas! Comprehensive Plan* was adopted by the City Council in June 2006. The *forwardDallas! Comprehensive Plan* outlines several goals and policies which can serve as a framework for assisting in evaluating the applicant's request. The following goals are consistent with the applicant's request.

LAND USE ELEMENT

GOAL 1.3 PROVIDE EQUITABLE OPPORTUNITIES FOR DALLAS RESIDENTS

Policy 1.3.1 Create housing opportunities throughout Dallas.

Neighborhood Plus Plan

Goal 5.0 EXPAND HOMEOWNERSHIP

5.2 Encourage infill development and existing home improvements in target neighborhoods to attract and retain homeowners.

The applicant's request does not support the following goal of the Comprehensive Plan.

LAND USE ELEMENT

GOAL 1.1 ALIGN LAND USE STRATEGIES WITH ECONOMIC DEVELOPMENT PRIORITIES

Policy 1.1.5 Strengthen existing neighborhoods and promote neighborhoods' unique characteristics. Acknowledge the importance of neighborhoods to the city's long-term health and vitality.

Surrounding Land Uses:

	Zoning	Land Use
Site	MC-4	Undeveloped
Northwest	PD No. 421, TH-2(A), MF-1(A)	Single Family and Multiple Family
North	MC-1	Undeveloped, Mixed Commercial
Northeast	MU-3	Undeveloped
East	MC-2, MF-2(A), LO-1	Fire Station, Multifamily, Office
South/Southwest	CR	Retail
West	MC-4	Retail and Personal Service Uses, Restaurants

Land Use Compatibility:

The area of request is surrounded by a mix of uses, including a Dallas Fire Rescue Station, single family and multifamily, retail and personal service uses, and restaurants. Residents in the area also have access to the nearby Lyndon B. Johnson/Skillman Blue Line DART Station, which is accessible via Valmarie Drive. The applicant proposes attached and detached single family residential development consisting of a maximum of 90 dwelling units. While single family could be considered a compatible use with the surrounding uses, but the applicant proposes to develop the site with 1,200 sq. ft. lots, which is significantly smaller than the lot sizes allowed for single family in any zoning district. Therefore, staff is not in support of this request.

Development Standards:

DISTRICT	SETBACKS		Density	Height	Lot Coverage	Special Standards	Primary Uses
	Front	Side/Rear					
Existing: MC-4 Multiple Commercial	15'; additional 20' if structure is taller than 45'	20 if adjacent to R, R(A), D, D(A), TH, TH(A), CH, MF, or MF(A) districts; no minimum for other uses	NA	70'	80%	Residential proximity slope	Lodging, Office, and Retail and Personal Service
Proposed: PD with MC-4 and TH-3(A) uses	15'	0'/0'	16 Dwelling Units / acre	42'	80%	Minimum 1,200 square feet per lot	Single family

The applicant proposes to develop the site with attached and detached single family residential development consisting of a maximum of 90 dwelling units and to modify the front, side and rear yard setbacks, number of dwelling units per acre, lot coverage. The applicant will reduce the height regulations from 70' to 42' but will still exceed the maximum height of a TH-3(A) Townhouse District, which is 36'. The applicant also requests for single family to be the main use but has not proposed to restrict other permitted uses for the property. The applicant also proposes a lot coverage of 80%, which is what is typically allowed in commercial districts, whereas a lot coverage of 60% percent would be more consistent with TH-3(A) Townhouse District.

In a TH-3(A) Townhouse District, it also states 80% of individual lot may be covered by structures if the coverage for the total project does not exceed 60% and at least 40% is reserved for open space. At this time, the applicant has submitted a conceptual plan that states only 8% of the total area of the development would be reserved for open space.

The applicant is proposing a minimum lot size of 1,200 square feet, whereas a minimum 6,000 square feet is required for duplex structures and 2,000 square feet for single family structures in a TH-3(A) district. Staff is not in support of this request but would be open to consideration if the applicant increased the minimum lot sizes to be at least 2,000 square feet.

Parking:

The applicant does not propose to modify the parking requirements of the Dallas Development Code which requires two parking spaces per single family use and, in a shared access development, an additional one-quarter space per single family use for visitors or guests.

Landscaping:

In general, landscaping must be provided in accordance with the landscaping requirements in Article X, as amended.

Shared Access:

According to Section 51A-4.411(c)(1-4), a shared access development is required to have the following:

- (1) A shared access development is created by platting no less than three and no more than 36 individual lots. Adjacent shared access developments may not be connected or combined to exceed the 36 lot maximum.
- (2) A shared access development must be restricted by plat to single family use.
- (3) No building permit may be issued to authorize work in a shared access development until the plat and the shared access area agreement have been recorded in the real property records of the appropriate county, all requirements of the shared access area have been met, and the director has corrected the appropriate zoning map in the offices of the city secretary, the building official, and the department to reflect the restriction to single family use.
- (4) A shared access development may not be platted as a community unit development (CUD).

The applicant meets the requirements listed above but is not compatible with the surrounding uses.

Market Value Analysis:

Market Value Analysis (MVA) is a tool to aid residents and policymakers in understanding the elements of their local residential real estate markets. It is an objective, data-driven tool built on local administrative data and validated with local experts. The analysis was prepared for the City of Dallas by The Reinvestment Fund. Public officials and private actors can use the MVA to target intervention strategies more precisely in weak markets and support sustainable growth in stronger markets. The MVA identifies nine market types (A through I) on a spectrum of residential market strength or weakness. As illustrated in the attached MVA map, the colors range from purple representing the strongest markets (A through C) to orange, representing the weakest markets (G through I). Although the area of request is uncategorized, MVA Category “H” properties are located to the northwest. Properties within an “E” MVA Category are located to the east, northwest and southwest of the area of request.
