STAFF ANALYSIS

Comprehensive Plan

The *forwardDallas! Comprehensive Plan* was adopted by the City Council in June 2006. The *forwardDallas! Comprehensive Plan* outlines several goals and policies which can serve as a framework for assisting in evaluating the applicant's request. The applicant's request is consistent with the following goals and policies of the comprehensive plan.

ECONOMIC ELEMENT

GOAL 2.5 FOSTER A CITY OF GREAT NEIGHBORHOODS

Policy 2.5.2 Ensure that existing and future residential areas are appropriately linked in order to enhance economic development and urban design benefits.

NEIGHBORHOOD PLUS PLAN

The Neighborhood Plus Plan was adopted by the City Council in October 2015 to set a new direction and shape new policy for housing and neighborhood revitalization in Dallas. The final chapter, Strategic Goals, delineates six strategic goals to shift our approach, policies and actions to achieve greater equity and prosperity for all Dallas residents, expand the range of housing options, and enhance the quality of neighborhoods.

GOAL 4.3 Enhance neighborhood desirability by improving infrastructure, housing stock, recreation, and safety.

Land Use:

	Zoning	Land Use
Site	CR Community Retail	Single Family
North	R-7.5(A)	Single Family
West	R-7.5(A)	Single Family
East	R-7.5(A) Single Family District	Single Family
South	CR Community Retail	Retail

Land Use Compatibility:

The property is currently developed with a single-family structure and zoned CR Community Retail District. The applicant seeks to demolish the existing structure and to rebuild a single-family structure on the lot. Under the current zoning, demolishing the structure would enforce the lot to conform to the CR Community Retail District standards and not allow for the construction of a single-family dwelling.

Uses surrounding the request site consist of single family dwellings to the north, east and west of the property. Retail uses are south of the subject site and include a motel use and a nursery use.

The lot size is 6,050 square foot and complies with the minimum 5,000 square foot lot size requirement of the proposed R-5(A) District. The site is a platted lot and has been deemed a legal build site by the City of Dallas. Due to more restrictive setback of the R-

7.5(A) District, the construction of the new home would be required to conform to the 25-foot front yard setback to maintain block face continuity.

Staff supports the zoning change to R-5(A) as it allows for the reconstruction of a single-family home on a block that is entirely residential. The terminus of Lucerne Street is two lots from the subject site and it is difficult to foresee commercial uses at this location. Development of the lot with a single family dwelling is compatible with the northeast line of Lucerne Street and the surrounding single family neighborhood.

Parking:

Pursuant to the Dallas Development Code, off-street parking and loading spaces must be provided in accordance with Division 51A-4.200 for the specific off-street parking and loading requirements for each use. Parking requirements for single family uses in the R-5(A) District require one space per dwelling unit. The applicant will need to meet this requirement at the permitting stage of the development.

Landscaping:

Landscaping of the property must be provided in accordance with Article X, as amended.

Market Value Analysis

Market Value Analysis (MVA), is a tool to aid residents and policy-makers in understanding the elements of their local residential real estate markets. It is an objective, data-driven tool built on local administrative data and validated with local experts. The analysis was prepared for the City of Dallas by The Reinvestment Fund. Public officials and private actors can use the MVA to more precisely target intervention strategies in weak markets and support sustainable growth in stronger markets. The MVA identifies nine market types (A through I) on a spectrum of residential market strength or weakness. As illustrated in the attached MVA map, the colors range from purple representing the strongest markets to orange, representing the weakest markets. The area of request is within MVA category “B” and is in proximity to a “B” cluster to the northeast and a Category “C” Cluster to the southwest and east.
