
FILE NUMBER:	Z190-315(LG)	DATE FILED:	July 22, 2020
LOCATION:	North line of Empire Central, west of Harry Hines Boulevard		
COUNCIL DISTRICT:	2	MAPSCO:	33 R
SIZE OF REQUEST:	3.396 Acres	CENSUS TRACT:	100.00

REPRESENTATIVE: Dallas Cothrum, MASTERPLAN

APPLICANT/OWNER: Vibrio Properties I LP

REQUEST: An application for an IM Industrial Manufacturing District with deed restrictions volunteered by the applicant on property zoned an IR Industrial Research District, with consideration for a Planned Development District for IR Industrial Research District uses.

SUMMARY: The purpose of the request is to utilize the site as a contractor's maintenance yard [Marlin Landscaping] with certain uses such as industrial uses, wholesale, distribution and storage uses, and utility and public service uses prohibited with the volunteered deed restrictions. The Planned Development District that is being considered will serve similar purposes.

CPC RECOMMENDATION: **Approval** of a Planned Development District, subject to a development plan, an outside storage exhibit, and conditions.

STAFF RECOMMENDATION: **Approval** of a Planned Development District, subject to a development plan, an outside storage exhibit, and conditions.

BACKGROUND INFORMATION

- The area of request is zoned an IR Industrial Research District and previously held certificates of occupancies for companies with transportation and logistics uses.
- The current owner moved into the building in 2018 and obtained a certificate of occupancy for an office/showroom/warehouse use. The applicant was cited by the City of Dallas for operating an illegal land use, a contractor's maintenance yard, in July 2020.
- The applicant initially requested a zoning change to an IM Industrial Manufacturing District to allow for the operation of a contractor's maintenance yard in conjunction with its current uses as an office and showroom/warehouse. Per instructions from the City Plan Commission, the applicant has amended their request to propose a new planned development district with IR Industrial Research uses. The proposed PD conditions are included in this report.
- A contractor's maintenance yard means a facility for the storage and maintenance of contractor's supplies and operational equipment. This use is permitted by right in an IM Industrial Manufacturing District and requires a residential adjacency review. This use must also be surrounded by screening. The applicant is requesting a planned development district for a contractor's maintenance yard to be permitted with IR Industrial Research District uses by right.

Zoning History

There have been no zoning change requests in the area in the last five years.

Thoroughfares/Streets

Thoroughfare/Street	Type	Existing/Proposed ROW
Harry Hines Boulevard	Principal Arterial	130'
Empire Central Place	Community Collector	60'

Traffic

The Engineering Division of the Sustainable Development and Construction Department has reviewed the request and determined that it will not significantly impact the surrounding roadway system.

STAFF ANALYSIS

Comprehensive Plan

The *forwardDallas! Comprehensive Plan* was adopted by the City Council in June 2006. The *forwardDallas! Comprehensive Plan* outlines several goals and policies which can serve as a framework for assisting in evaluating the applicant's request.

The applicant's request is not consistent with the goals and policies of the Comprehensive Plan.

LAND USE ELEMENT

GOAL 1.1 ALIGN LAND USE STRATEGIES WITH ECONOMIC DEVELOPMENT PRIORITIES

Policy 1.1.1 Implement the Trinity River Corridor Plan.

Area Plan

Trinity River Corridor Comprehensive Land Use Study was adopted by City Council in March 2005, and then revised in December 2009.

The 2050 Vision Statement for the Trinity River Corridor in Dallas The Trinity River Corridor is a unified collection of diverse neighborhoods and business centers at the heart of a unified and thriving Dallas, connected by a ribbon of blue water and green spaces that is the Trinity River. Additionally, The Trinity River Corridor is the City's model for economic growth without physical, social or economic barriers, which attracts residents and visitors to live, learn, work, shop and play within a cosmopolitan urban core, and alongside the river's meandering environment.

Five objectives for future development in the Trinity Corridor add detail to the 2050 Vision Statement. They provide guidance that shapes this plan's recommendations for each part of this very large corridor. The five objectives are:

- Reconnect North and South Dallas
- Establish the role of economic development along the Trinity River.
- Create a vibrant central city.
- Establish the Trinity River floodplain as the front yard of the City.
- Enhance the City's urban form to increase the appeal of urban life.

The request site is located within the Stemmons District and within a commercial corridor development and regional employment districts as identified by the land use plan. For the commercial corridor portion, the Plan recommends a mix of 50% community retail and regional office as primary uses, with the rest being mixed use, residential multifamily, entertainment, civic, parks and opens spaces and neighborhood retail. For the regional employment portion, the Plan recommends 30% employment center as a primary use, with the rest being mixed use, residential multifamily, regional retail, regional office, entertainment, civic, parks and opens spaces.

The subject site is located within an area that is recommended for office space and protects its surrounding uses, since this area has a mix of light industrial and office uses. It is located northwest of the Medical District. An assessment of the Stemmons District is as follows:

- This district has benefited from good access to both highway and rail transportation facilities.
- Today, many of the older commercial and industrial buildings here are no longer competitive with newer space or are not configured to meet current needs of rapidly-changing industries and technologies.
- Some thriving businesses lack available space to expand in this district.
- The existing structures have potential for adaptive reuse and the area has assets to support a change to a new mix of uses and activities.
- Since the Stemmons District is bounded on the south and west by the river, this district can take full advantage of the new Trinity River amenities and improvements.
- This district provides strong potential for riverside development possibilities.

Surrounding Land Uses

	Zoning	Land Use
Site	IR	Office Showroom/Warehouse
North	IR	Auto Related, Retail, and Personal Service Uses
East	IR	Warehouse
South	IR	Business Service
West	IR	Auto Related Uses

Land Use Compatibility

The request area is zoned an IR Industrial Research District and is currently operating as an office/showroom/warehouse, which is a permitted use in an IR District. The applicant is proposing to change the zoning from an IR Industrial Research District to an IM Industrial Manufacturing District to allow the operation of a contractor's maintenance yard, which is not allowed in an IR District. This request also asks the City Plan Commission to consider a PD with IR Industrial Research uses along with the operation of a contractor's maintenance yard by right. Staff was initially not in support of this request, however, with the revised conditions that addresses fencing and screening of the contractor's maintenance yard, staff is supportive of the PD consideration.

The contractor's maintenance yard use will include the storage of composite granite, gravel, sand, fill dirt, mulch, topsoil and bedding mix in the rear of the site. The applicant proposes to also continue the office/showroom/warehouse use.

The applicant volunteered deed restrictions to limit the uses allowed on site. The volunteered deed restrictions propose to prohibit 18 of 125 uses permitted in an IM District. The uses the applicant volunteered in their deed restrictions are in bold and italicized in the following chart. For the PD, the only uses permitted by right are the ones permitted within the IR district, with the exception of the Contractor's Maintenance Yard added as a permitted accessory use.

Outside storage is defined as a lot used for the outside placement of an item for a period in excess of 24 hours. Outside placement includes storage in a structure that is open or not entirely enclosed. This is a permitted use in industrial districts and requires a residential adjacency review. According to the Building Inspections Division, a contractor's maintenance yard use includes the storage of items associated with the contractor's maintenance yard use. If the storage of items not relating to a contractor's maintenance yard is on the premise, the business would need a Certificate of Occupancy that covers both uses.

The Office of Environmental Quality and Sustainability (OEQS) has reviewed related documents and does not have concerns about the request.

Development Standards

<u>DISTRICT</u>	SETBACKS		Density	Height	Lot Coverage	Special Standards
	Front	Side/Rear				
EXISTING: IR Industrial Research	15'	30' adjacent to residential Other: No Min.	2.0 FAR overall 0.75 office/retail 0.5 retail	200' 15 stories	80%	Residential Proximity Slope
PROPOSED: IM Industrial Manufacturing	15' 0' on minor arterial	30' adjacent to residential Other: No Min.	2.0 FAR overall 0.75 office/retail 0.5 retail	110' 8 stories	80%	Residential Proximity Slope
CONSIDERED: PD with IR Industrial Research uses	15'	30' adjacent to residential Other: No Min.	2.0 FAR overall 0.75 office/retail 0.5 retail	200' 15 stories	80%	Residential Proximity Slope

The two districts have similar development standards, the only difference being the allowable height, with an IR District allowing 200 feet versus an IM District allowing 110 feet. The existing office/showroom/warehouse use on site is compliant with all development standards.

Parking

The applicant currently has 100 parking spots. The parking ratio for a contractor's maintenance yard is one space per 2,000 square feet of site area with a minimum of four spaces. The proposed maintenance yard will be approximately 7,000 square feet, which requires four spaces.

The parking for an office/showroom/warehouse is comprised of parking for the components of the use. The office portion is parked at a ratio of one space per 333 square feet. The current office area is 5,017 square feet requiring 15 spaces. The showroom/warehouse portion of the use has a parking ratio of one space per 1,000 square feet of floor area for the first 20,000 square feet of floor area. The current warehouse portion of the use is 13,442 square feet requiring 14 spaces.

A welding shop is on the premises, even though this information is not included on the certificate of occupancy. A welding shop has a parking ratio of one space for every 500 square feet. The welding shop is 3,000 square feet and requires six parking spaces. There is a total of 35 spaces required for the current uses, and four spaces required for the proposed use. The site has 100 spaces as shown on the proposed site plan.

Landscaping and Screening

Landscaping will have to be provided in accordance with Article X. A landscape buffer is required between any required screening fence and an adjacent thoroughfare. The director may approve an alternative irrigation plan for landscaping if the director determines that it will maintain the required landscaping.

In CS, LI, and IR districts, outside storage must be screened. In the IM District, outside storage must be screened on any side that is within 200 feet of and visible from a thoroughfare or expressway as defined in Section 51A-7.102, new expressway as defined in Section 51A-7.102, or an adjacent property that is not zoned an IM district. For purposes of this provision, adjacent means across the street or sharing a common lot line.

The maximum outside storage stacking height is 30 feet if the open storage is visible from and within 200 feet of a thoroughfare or adjoining property that is not zoned an IM District. If outside storage is 200 feet or more from a thoroughfare or adjoining property, no maximum outside storage stacking height applies. Outside storage stacking height within 40 feet of required screening may not exceed the height of the required screening.

Additional provisions in the Dallas Development Code include the following: A person shall not place, store, or maintain outside storage for a period in excess of 24 hours, an item that is not customarily used or stored outside; or made of a material that is resistant to damage or deterioration from exposure to the outside environment. Except as otherwise provided in this article, outside storage is considered to be a separate main use if it occupies more than five percent of the lot. Outside storage on less than five percent of the lot may qualify as an accessory use if it is customarily incidental to a main use (see Section 51A-4.217). Outside storage is prohibited in required yards, landscaping areas, and parking areas.

Although the applicant was not required to provide screening information for their initial general zoning change, the applicant provided updated screening information for the proposed planned development district. Prior to this CPC meeting, the proposed planned development conditions state an eight-foot corrugated metal fence shall be provided on the east line of the property and a nine-foot corrugated metal fence shall be provided on the north and east line of the property. Staff suggested support for a nine-foot fence around the entire property, and the applicant revised their conditions to reflect this. The applicant also moved the outside storage area further south within their property and away from adjacent property owners to the north and northeast. A revised development plan, which is included in this report, shows these changes. An exhibit regarding the outside storage enclosure has also been included in this report.

At the August 5, 2021 City Plan Commission meeting, the CPC added conditions regarding the loading and unloading of landscaping material to be only permitted within 30 feet of covered storage enclosure, which is shown on the development plan that will include striping in the enclosed areas. The covered landscape material storage area should also be enclosed with screening, per the added conditions. The plans were updated to reflect the added conditions as well.

Market Value Analysis

Market Value Analysis (MVA) is a tool to aid residents and policy-makers in understanding the elements of their local residential real estate markets. It is an objective, data-driven tool built on local administrative data and validated with local experts. The analysis was prepared for the City of Dallas by The Reinvestment Fund. Public officials and private actors can use the MVA to target intervention strategies more precisely in weak markets and support sustainable growth in stronger markets. The MVA identifies nine market types (A through I) on a spectrum of residential market strength or weakness. As illustrated in the attached MVA map, the colors range from purple representing the strongest markets to orange, representing the weakest markets. While the area of request is uncategorized, properties located further northeast and southeast are designated a Category "G".

CPC ACTION
AUGUST 5, 2021

Motion: It was moved to recommend **approval** of a Planned Development District for IR Industrial Research District uses, subject to a revised development plan, an outside storage exhibit, and revised conditions with the following additional conditions: FOR A CONTRACTOR'S MAINTENANCE YARD USE: 1) Loading and unloading of landscaping material is only permitted within 30 feet of covered storage enclosure, as shown on the development plan and striped on site, and 2) Covered landscape material storage to be enclosed. Screening may include mechanical ventilation on property zoned an IR Industrial Research District, on the north line of Empire Central, west of Harry Hines Boulevard.

PROPOSED PD CONDITIONS

ARTICLE XXXX.

PD XXXX.

SEC. 51P-XXXX.101. LEGISLATIVE HISTORY.

PD XXXX was established by Ordinance No. XXXXX, passed by the Dallas City Council on April XX, 2021.

SEC. 51P-XXXX.102. PROPERTY LOCATION AND SIZE.

PD XXXX is established on property located at the north line of Empire Central, east of Oakbrook Boulevard. The size of PD XXXX is approximately 3.396 acres.

SEC. 51P-XXXX.103. DEFINITIONS AND INTERPRETATIONS.

(a) Unless otherwise stated, the definitions and interpretations in Chapter 51A apply to this article. In this article:

LANDSCAPING MATERIAL means material piles of gravel, bedding mix, topsoil, dirt, mulch, or similar natural material customarily used for landscaping in conjunction with a contractor's maintenance yard use. This definition does not include plants, trees, or other landscape contractor's supplies.

(b) Unless otherwise stated, all references to articles, divisions, or sections in this article are to articles, divisions, or sections in Chapter 51A.

(c) This district is considered to be a nonresidential zoning district.

SEC. 51P-XXXX.104. EXHIBIT.

The following exhibit is incorporated into this article: Exhibit XXXXA: development plan.

SEC. 51P-XXXX.105. DEVELOPMENT PLAN.

(a) For a Contractor's maintenance yard use, development and use of the Property must comply with the development plan (Exhibit XXXXA). If there is a conflict between the text of this article and the development plan, the text of this article controls.

(b) For all other uses otherwise permitted in the IR Industrial Research District, no development plan is required, and the provisions of Section 51A-4.702 regarding submission of or amendments to a development plan, site plan analysis, conceptual plan, development schedule, and landscape plan do not apply.

SEC. 51P-XXXX.106. MAIN USES PERMITTED.

(a) Except as provided in this section, the only main uses permitted are those main uses permitted in the IR Industrial Research District, subject to the same conditions applicable in the IR Industrial Research District, as set out in Chapter 51A. For example, a use permitted in the IR Industrial Research District only by specific use permit (SUP) is permitted in this district only by SUP; a use subject to development impact review (DIR) in the IR Industrial Research District is subject to DIR in this district; etc.

(b) The following additional main uses are permitted by right:

-- Contractor's maintenance yard

SEC. 51P-XXXX.107. ACCESSORY USES.

(a) As a general rule, an accessory use is permitted in any district in which the main use is permitted. Some specific types of accessory uses, however, due to their unique nature, are subject to additional regulations in Section 51A-4.217. For more information regarding accessory uses, consult Section 51A-4.217.

(b) The following additional accessory uses are permitted by right:

-- Contractor's maintenance yard

SEC. 51P-XXXX.108. YARD, LOT, AND SPACE REGULATIONS.

(Note: The yard, lot, and space regulations in this section must be read together with the yard, lot, and space regulations in Division 51A-4.400. If there is a conflict between this section and Division 51A- 4.400, this section controls.)

The yard, lot, and space regulations for the IR Industrial Research District apply.

SEC. 51P-XXXX.109. OFF-STREET PARKING AND LOADING.

(a) Consult the use regulations in Division 51A-4.200 for the specific off-street parking and loading requirements for each use.

(b) The director may grant an administrative parking reduction.

SEC. 51P-XXXX.110. ENVIRONMENTAL PERFORMANCE STANDARDS.

See Article VI.

SEC. 51P-XXXX.111. LANDSCAPING.

(a) Landscaping must be provided in accordance with Article X.

(b) Plant materials must be maintained in a healthy, growing condition.

SEC. 51P-XXXX.112. FENCE, SCREENING AND VISUAL OBSTRUCTION REGULATIONS.

(a) Except as provided in this section, the fence, screening, and visual obstruction regulations in Division 51A-4.602 apply.

(b) For a contractor's maintenance yard use the following provisions apply:

~~(1) An eight-foot corrugated metal fence shall be provided on the east line of the Property as shown in Exhibit XXXXA.~~

(1) A nine-foot corrugated metal fence shall be provided on the north and east line of the Property as shown in Exhibit XXXXA.

~~(2) Outside storage Landscaping material shall be screened and covered by a minimum six twenty-foot structure tall, covered storage enclosure with front screening provided by outdoor curtain or similar screening method as shown in Exhibit XXXXA.~~

~~(3) Landscaping material shall only be stored inside covered storage enclosure as shown in Exhibit XXXXA.~~

SEC. 51P-XXXX.113. SIGNS.

Signs must comply with the provisions for business zoning districts in Article VII.

SEC. 51P-XXXX.114. ADDITIONAL PROVISIONS FOR A CONTRACTOR'S MAINTENANCE YARD USE.

(a) Loading and unloading of landscaping material is only permitted within 30 feet of covered storage enclosure.

(b) Covered landscape material storage must be enclosed. Screening may include mechanical ventilation.

SEC. 51P-XXXX.115. ADDITIONAL PROVISIONS.

(a) The Property must be properly maintained in a state of good repair and neat appearance.

(b) Development and use of the Property must comply with all federal and state laws and regulations, and with all ordinances, rules, and regulations of the city.

SEC. 51P-XXXX.116. COMPLIANCE WITH CONDITIONS.

(a) All paved areas, permanent drives, streets, and drainage structures, if any, must be constructed in accordance with standard city specifications, and completed to the satisfaction of the city.

(b) The building official shall not issue a building permit to authorize work, or a certificate of occupancy to authorize the operation of a use, until there has been full compliance with this article, the Dallas Development Code, the construction codes, and all other ordinances, rules, and regulations of the city.

Applicant's Volunteered Deed Restrictions
