**REPRESENTATIVE:** Forrest Branam, Mod Studio LLC

**OWNER/APPLICANT:** City of Dallas

**REQUEST:** An application for a Planned Development District for CS Commercial Service District uses and a temporary housing use on property zoned a CS Commercial Service District with deed restrictions [Z945-231].

**SUMMARY:** The purpose of the request is to allow modified development standards primarily related to definitions, permitted uses, and parking to allow a temporary housing use to occupy an existing building on site.

**CPC RECOMMENDATION:** Approval, subject to a development plan and conditions.

**STAFF RECOMMENDATION:** Approval, subject to a development plan and conditions.

## **BACKGROUND INFORMATION:**

- The area of request is currently developed with a building that was formerly a hotel, plus associated parking. In January 2021, the City of Dallas invited a local social services organization to operate the building for families displaced during the COVID-19 pandemic.
- The site is currently being used to provide housing for displaced families. The site also currently provides related social services limited to those residing at the facility. These services include case management (for social service); child-care and tutoring services; and the provision of basic needs such as food, clothing, toiletries, and diapers.
- The applicant proposes renovations for the building and site that will allow for more accessible and sensitive delivery of services with attention to privacy. They propose 53 rooms, plus one employee housing unit. The related services currently provided on site would continue as well. These services would continue to be limited to those residing at the facility.
- To accomplish this, the applicant proposes a Planned Development District that would allow for a temporary housing use by right, plus child-care facility and office uses as accessory uses. They propose to define the temporary housing use within the PD as three or more dwelling units located on a lot where supportive services are provided onsite for residents. Supportive services include, but are not limited to, counseling services, health services, workforce training, and job placement assistance.
- The applicant also proposes to add play areas to the front and rear of the existing building. No other modifications are proposed to the existing site or development standards.

## **Zoning History:**

There have been no zoning cases in the area in the last five years.

## **Thoroughfares/Streets:**

<b>Thoroughfare/Street</b>	<b>Type</b>	<b>Existing/Proposed ROW</b>
President George Bush Turnpike	Highway	-
Preston Road	Principal Arterial	130 feet

## **Traffic:**

Transportation Development Services staff has reviewed the request and determined that it will not significantly impact the surrounding roadway system.

**STAFF ANALYSIS:**

**Comprehensive Plan:**

The *forwardDallas! Comprehensive Plan* was adopted by the City Council in June 2006. The *forwardDallas! Comprehensive Plan* outlines several goals and policies which can serve as a framework for assisting in evaluating the applicant's request.

The request complies with the following land use goals and policies of the Comprehensive Plan:

**LAND USE ELEMENT**

**GOAL 1.3 PROVIDE EQUITABLE OPPORTUNITIES FOR DALLAS RESIDENTS**

**Policy 1.3.1** Create housing opportunities throughout Dallas.

**ECONOMIC ELEMENT**

**GOAL 2.1 PROMOTE BALANCED GROWTH**

**Policy 2.1.1** Ensure that zoning is flexible enough to respond to changing economic conditions.

**NEIGHBORHOOD PLUS**

**GOAL 2.2** Expand workforce training programs.

**GOAL 2.3** Expand health, childcare, and transportation programs for low income areas.

**GOAL 2.4** Improve Pre-K education opportunities for children in poverty.

**GOAL 2.5** Facilitate integration of homeless population back into the workforce and society.

**Land Use:**

	<b>Zoning</b>	<b>Land Use</b>
<b>Site</b>	CS Commercial Service District with deed restrictions [Z945-231]	Hotel or motel
<b>North</b>	City of Plano	Vehicle display, sales, and service
<b>East</b>	CS Commercial Service District with deed restrictions [Z945-231]	Vehicle display, sales, and service
<b>South</b>	Tract 9 within Planned Development District No. 170	Multifamily
<b>West</b>	CS Commercial Service District with deed restrictions [Z945-231]	Mini warehouse

**Land Use Compatibility:**

The area of request is currently developed with a building that was formerly occupied by a hotel or motel use. The site is currently being used to provide housing for displaced families, and the applicant proposes to continue this temporary housing use under the proposed PD. North of the request area within Plano city limits is a vehicle display, sales, or service use. East and west of the site are vehicle display, sales, or service and mini warehouse uses, respectively. South of the area of a request is a multifamily use. Staff believes the applicant's proposed land use is compatible with these surrounding uses.

In January 2021, the City of Dallas invited a local social services organization to operate the existing building for families displaced during the COVID-19 pandemic. In addition to providing temporary housing for families, the site also currently provides related social services such as case management; child-care and tutoring services; and the provision of basic needs such as food, clothing, toiletries, and diapers. The provision of these social services is limited to those residing at the facility.

Through their request for a Planned Development District for CS Commercial Service District uses and a temporary housing use, the applicant proposes to continue using the site for this purpose. Other than interior renovations and the addition of play areas to the front and rear of the existing building, no other modifications are proposed to the site.

The proposed PD would retain most of the development standards that apply under the current CS District, with the only exceptions being related to definitions, permitted uses, and parking. Because the use of the site is not currently defined in Chapter 51A, the applicant proposes to define the use in the PD as temporary housing. This use is defined as "three or more dwelling units located on a lot where supportive services are provided onsite for residents. Supportive services include, but are not limited to, counseling

services, health services, workforce training, and job placement assistance.” This use would be permitted by right in the PD; otherwise, all other permitted uses default to those of the CS base district.

To continue to provide social services in addition to the housing use, the applicant proposes child-care facility and office uses as accessory to the main temporary housing use. This will allow these uses to operate in conjunction with the main use while exempting these uses from parking requirements.

Staff supports the request because it will allow a local social services organization to continue to operate on the site while retaining much of the development standards of the existing zoning district. Through the requested PD, this organization can continue to provide vital services to those most in need during a challenging time.

It should also be noted that the area of request and surrounding properties are subject to deed restrictions [Z945-231]. The applicant’s proposal does not conflict with these existing deed restrictions; therefore, they do not propose to amend or terminate them. The deed restrictions do prohibit some uses that could be considered similar to elements of the proposed temporary housing use, such as labor hall, halfway house, lodging or boarding house, and overnight general-purpose shelter. Because the applicant is specifically defining their temporary housing use in the proposed PD, this use does not conflict with the uses prohibited through the deed restrictions.

**Landscaping:**

The applicant does not propose to modify the existing landscaping of the site. Any future modifications to landscaping will be provided in accordance with the landscaping requirements in Article X, as amended.

**Parking:**

The applicant proposes to specify a parking ratio for the temporary housing use in the PD conditions. This use will be required to provide a minimum of one space per dwelling unit. Because the child-care facility and office uses will be permitted as accessory to the main temporary housing use, parking will not be required of these uses. All other uses will need to meet the standard parking requirements in Chapter 51A.

The applicant proposes 53 dwelling units, so a minimum of 53 parking spaces will be required. As demonstrated on the proposed development plan, the site provides 89 parking spaces.

**Market Value Analysis:**

Market Value Analysis (MVA), is a tool to aid residents and policymakers in understanding the elements of their local residential real estate markets. It is an objective, data-driven tool built on local administrative data and validated with local experts. The analysis was prepared for the City of Dallas by The Reinvestment Fund. Public officials and private actors can use the MVA to more precisely target intervention strategies in weak markets and support sustainable growth in stronger markets. The MVA identifies nine market types (A through I) on a spectrum of residential market strength or weakness. As illustrated in the attached MVA map, the colors range from purple representing the strongest markets (A through C) to orange, representing the weakest markets (G through I). The area request is not within an MVA cluster. South of the request area are “B,” “D,” and “E” MVA clusters.
