DRAFT VISION STATEMENT

The Dallas Anti-Displacement Toolkit aims to create lasting and impactful policy change within the City of Dallas that ensures that:

- Vulnerable residents in historically marginalized communities have the right to stay and the opportunity to return to their neighborhoods in the face of rapid development and rising housing costs;
- Over time, opportunities remain for new low-income residents to move into the community; and
- All residents, but especially those most vulnerable to displacement, have a meaningful role in shaping the future of their neighborhoods.

- Define and contextualize gentrification & displacement as it currently impacts
 Dallas residents and neighborhoods

- Identify, categorize and map Dallas neighborhoods at varying stages of neighborhood change based on specific typologies of gentrification
- Provide an interactive, web-based dashboard where stakeholders can engage with the data that correlates to their specific neighborhoods

· Part III: Neighborhood Case Studies ("Drilldowns")

- Deep-dive look into the relevant socioeconomic and housing market conditions affecting vulnerable residents within a specific neighborhood
- Illustrate key drivers and indicators of gentrification at each stage
- Match policies and strategies to the specific needs of case study neighborhoods

Part IV: Policy Review & Recommendations

- Outline, analyze, and prioritize potential policies and strategies for preventing displacement
- Distinguish between city-wide and placed-based strategies
- Provide a framework for evaluating and targeting future policies and programs

Part V: Education and Advocacy

• Workshops, presentations, and training materials targeted to various audiences

PROJECT SCOPE

Gentrification is a *process of neighborhood change* where:

- New investment floods a historically marginalized neighborhood;
- Property values rise, increasing housing costs and reducing the supply of affordable units;
- The <u>neighborhood is physically transformed</u> through the influx of new, higher-end construction;
- Neighborhood <u>demographics shift</u> as new, higher-income residents move in;
- Existing low-income residents, often Black or Latinx, are directly or indirectly displaced; and
- The <u>cultural character</u> of the neighborhood is fundamentally altered.

PROJECT SCOPE

Direct Displacement

Occurs when residents can no longer afford to remain in their homes due to rising housing costs.

Indirect Displacement

Refers to changes in demographics with regards to who can afford to move into a neighborhood as low-income residents move out.

Cultural Displacement

The experience of long-term residents who fee unwelcome and alienated in their owr neighborhoods because of the new changes that have occurred.

RESEARCH METHODOLOGY & CASE STUDY SELECTIONS

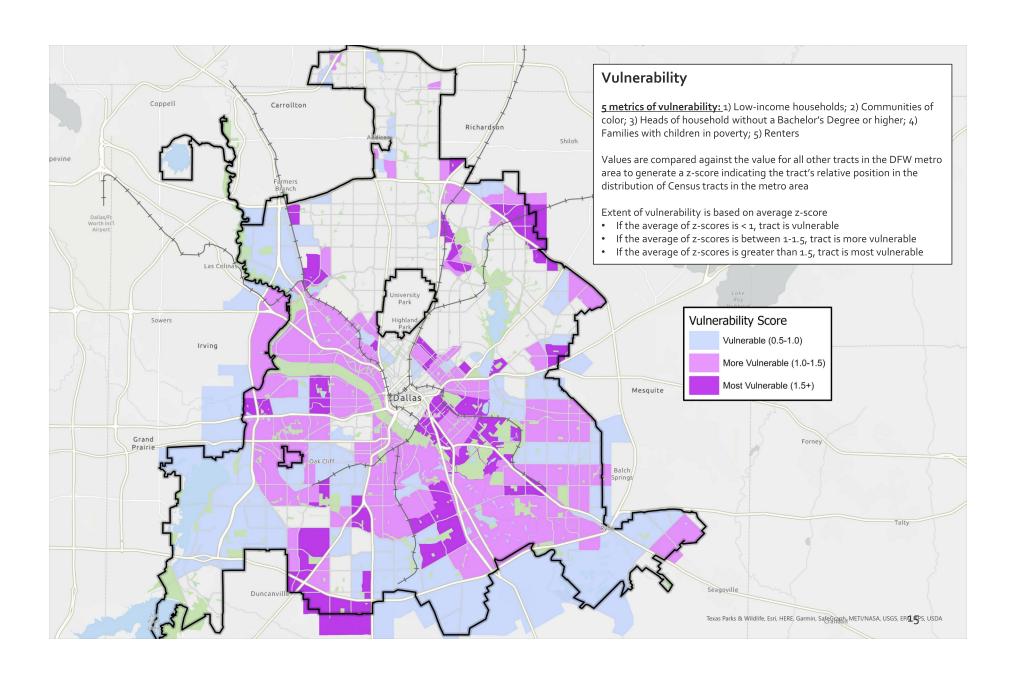

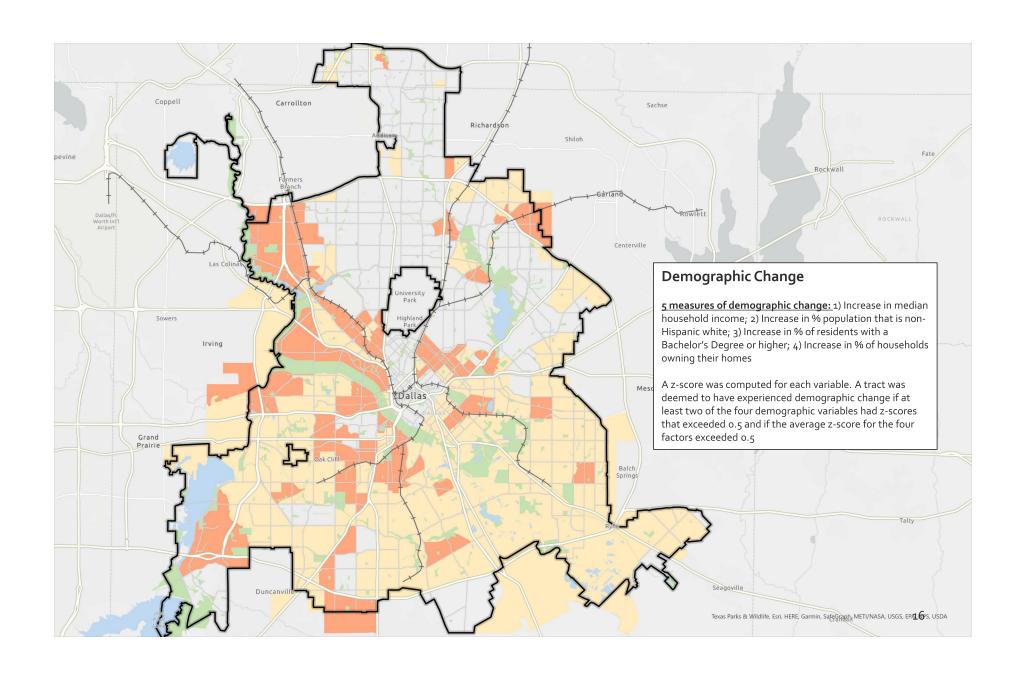

- Measuring neighborhood change at the macro-level
- Using census data to assess: the presence of vulnerable populations, residential market appreciation, and demographic change over time
- Categorizing neighborhoods based on vulnerability/displacement risk and stage of gentrification

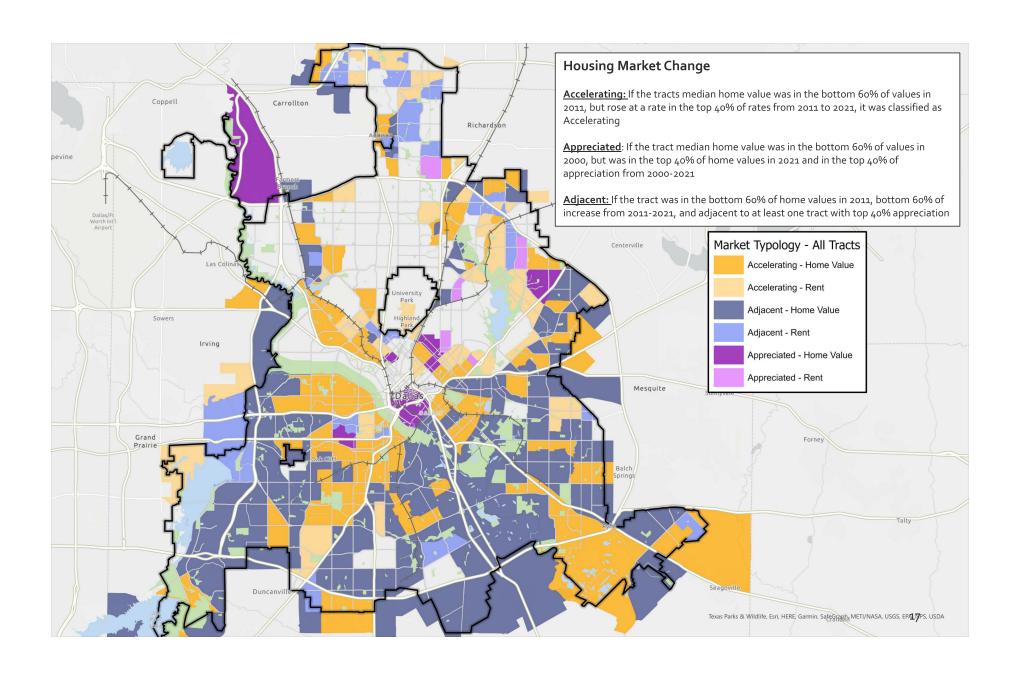

Case Studies

- Deep-dive assessment of socioeconomic and housing market conditions affecting vulnerable residents within specific neighborhoods
- Utilizing both quantitative and qualitative data to share neighborhood history and changes over time amplifying the voices of legacy residents

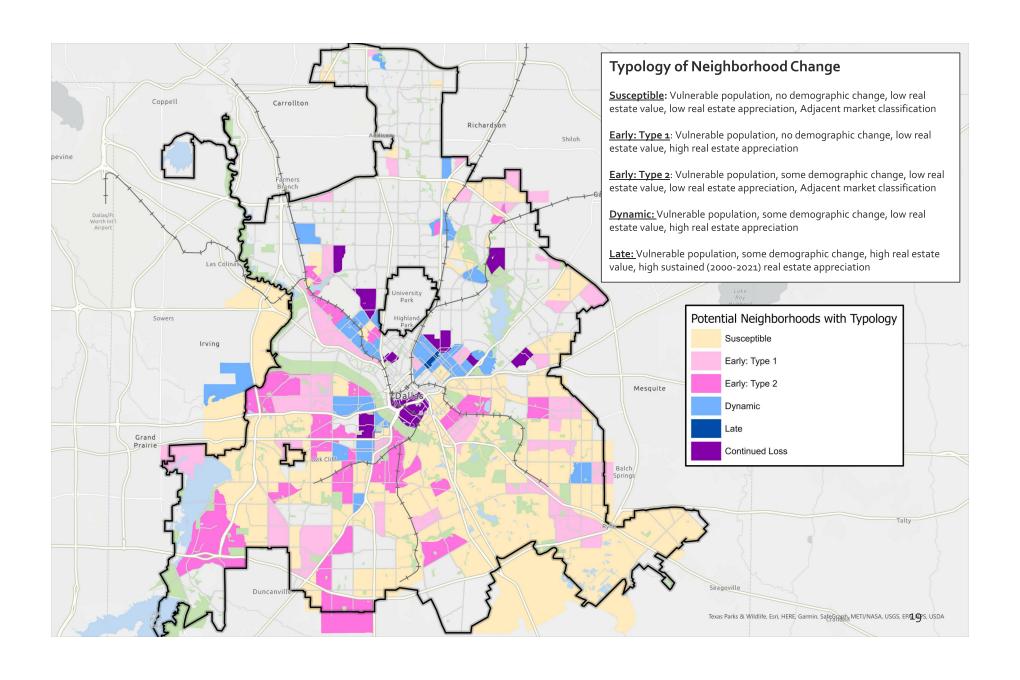

RESEARCH METHODOLOGY & CASE STUDY SELECTIONS

Bates' Typology of Neighborhood Change

- Susceptible: Vulnerable population, no demographic change, low real estate value, low real estate appreciation, Adjacent market classification
- Early: Type 1: Vulnerable population, no demographic change, low real estate value, high real estate appreciation
- Early: Type 2: Vulnerable population, some demographic change, low real estate value, low real estate appreciation, Adjacent market classification
- Dynamic: Vulnerable population, some demographic change, low real estate value, high real estate appreciation
- Late: Vulnerable population, some demographic change, high real estate value, high sustained (2000-2021) real estate appreciation
- Continued Loss: High value areas that have experienced demographic change, no longer has large numbers of vulnerable populations, but potential for displacement remains.

^{*}Adapted from Lisa Bates, "Gentrification and Displacement Study: Implementing an Equitable Inclusive Development Strategy in the Context of Gentrification"

RESEARCH METHODOLOGY & CASE STUDY SELECTIONS

Case Study Selections

- Use vulnerability Map to select 18 neighborhoods for potential inclusion in case studies.
- Apply varying stages of gentrification to the 18 neighborhoods for drill down on case study selections.
- Evaluate diverse socioeconomic demographics and housing market types/conditions within preliminary neighborhood selections.
- Engage City Council, City Staff and Project Advisory Committee to continue drilling down from 18 to approximately 5 neighborhoods for more intensive examination of gentrification data and redevelopment activity at the parcel level

Upcoming Agenda Item: Authorize a Resolution Approving the Dallas Public SUBJECT Facility Corporation's Acquisition, Development, and Ownership of Cypress Creek at Forest Lane, to be located at 11520 North Central Expressway

This memorandum is to inform the Housing and Homelessness Solutions Committee of an upcoming agenda item on March 8, 2023, to authorize the Dallas Public Facility Corporation's (DPFC or Corporation) acquisition, development and ownership of Cypress Creek at Forest Lane, a 189-unit low to moderate mixed-income multifamily development to be located at 11520 North Central Expressway (Project). To receive a property tax exemption as a public facility, the Texas Public Facility Corporation Act requires a multifamily property reserve at least 50% of the units for residents earning at or below 80% of the area median income (AMI). Cypress Creek at Forest Lane will reserve 7% of the units for residents earning less than 80% AMI, 22% of the units for residents earning less than 70% AMI, 25% of the units for residents earning less than 30% AMI, and 46% of the units will be market rate. The Corporation's bylaws require City Council approval of any development that results in a property tax exemption and staff recommends City Council approval of this item.

Background

Sycamore Strategies, LLC (Applicant), a Texas Corporation, submitted an application to the Dallas Public Facility Corporation (Corporation) for the development of Cypress Creek at Forest Lane, a 189-unit mixed income multifamily development to be located at 11520 North Central Expressway (Project). The Corporation will own the site and improvements and lease the Project back to the Applicant or its affiliate. Pursuant to the Texas Public Facility Corporation Act, Chapter 303 of the Texas Local Government Code, as amended (Act), any public facility owned by a Public Facility Corporation is exempt from all ad valorem taxes. To qualify as a public facility, pursuant to the Act, a multifamily property must reserve at least 50% of the units for residents earning at or below 80% of the area median income (AMI). The Project will reserve 7% of the units for residents earning less than 80% AMI, 22% of the units for residents earning less than 70% AMI, 25% of the units for residents earning less than 30% AMI, and 46% of the units will be market rate.

The Applicant will be a limited liability company owned by Sycamore Strategies, LLC. Sycamore Strategies, LLC specializes in planning and developing multifamily projects for both public and private sector clients. Additionally, they specialize in environmental, social, and corporate governance, strategic communications, and public diplomacy. Sycamore Strategies is a Texas-certified Historically Underutilized Business (HUB) and has decades of experience working in the public and private sectors.

The Project will be constructed as a 4-story midrise product with a wrapped parking structure and will include 189 residential units. The unit mix will consist of 68 one-bedroom units, 101 two-bedroom units, and 20 three-bedroom units. The units will include energy efficient appliances, granite countertops, in-unit washer/dryers, and other Class-A features. The Property will also include a co-working space, dog park, secured access, and 24-hour emergency maintenance. The Market Value Analysis (MVA) market type is uncategorizable as the land is not currently developed with residential uses. The development is well-located in close proximity to multiple job centers such as Medical City Dallas, big box retailers, grocery stores, and transportation. The Forest Lane DART Station is less than 0.5 miles away. This is a centrally-located development that will be well-suited to serve the needs of the mixed income tenants it intends to serve.

The Applicant will consult with the Office of Integrated Public Safety Solutions (OIPSS) for security input, community activities and the Crime Prevention Through Environmental Design (CPTED). The Applicant and OIPSS will continue to work together to ensure the community is secure and take proactive measures to ensure the safety of the residents that will include security cameras with Dallas Police Department access, individual entry key fobs, lighting, and security access gates/entry points.

The anticipated unit mix and rental rates are as follows:

1BR	Market	31	\$1,515.00
2BR	Market	45	\$1,850.00
3BR	Market	10	\$2,254.00

The rents for individuals and families earning between 60% and 80% AMI are meant to provide housing to the "missing middle" of the market: residents that earn above low-income housing tax credit income restrictions of 60% AMI but would be cost burdened by market rents. These incomes range from approximately \$54,560.00 to \$77,920.00 in the City based on family size and represent a wide variety of employment sectors including, but not limited to, teachers, first responders, government employees, health care providers, etc. The rents for individuals and families earning below 30% are included to provide deeper affordability at this property. These incomes range from \$20,450.00 to \$29,200.00 depending on family size.

Total development costs are anticipated to be approximately \$50,716,927.00 which includes the acquisition price for the land. The development budget less soft/financial costs is anticipated to be approximately \$32,482,583.00, which is \$171,865.00 per unit.

This project is being acquired and developed through multiple tools available that are geared toward providing affordable housing in the City. The site was initially planned as a pure tax credit development, but due to some private deed restrictions that cannot be removed through the purchase process, the City of Dallas will purchase the land and deed the land to the Corporation in order to bring the development through to construction completion and make it operationally solvent. This will provide a 100% tax exemption to the property which allows for the deep levels of rent restrictions that will be implemented at the property. The Project will subsequently be owned by the Corporation and leased to the Applicant and other potential owners for a period of 75 years. In consideration for the Corporation's participation in the Project, the Corporation will receive a 20% share of both the developer fee and the annual cash flows. These revenue shares will be split evenly between the City of Dallas and the Corporation. Upon termination of the 75-year lease, the Project will be owned free and clear by the Corporation.

The revenues of the Corporation will be used to fund operations and the provision of additional affordable and workforce housing throughout the City. This proposed development results in foregone tax revenues for the City while the DPFC owns the asset. The 2022 City tax bill for this property is \$18,485.10 and the 15-year estimate of foregone taxes is \$343,803.00. However, the workforce housing rental savings over 15 years and the estimated \$1,081,789 in development fee proceeds plus any revenues from residual cash flows provides the City with considerable monetary benefits that outweigh the foregone revenue, not to mention the addition of much-needed new housing stock in a strategic area of the city.

The Corporation's estimated revenues were calculated by the Corporation's partnership counsel and financial advisors. Market rent comps and current construction costs were analyzed to ensure the project costs were reasonable for the market. Corporation financial advisors also confirmed that but for the ad valorem tax exemption, the Project would not be

PAGE 4 of 4

economically feasible and would not attract responsible debt and equity investment in the property. The Corporation's revenue consideration and affordability levels were also analyzed to confirm that the ad valorem tax exemption does not over subsidize the Project.

The City is authorized by the Act to create a public facility corporation for the purposes established in the Act, including the financing, acquisition, construction, and leasing of public facilities under the Act. On June 24, 2020, City Council authorized the creation of the Corporation to further the public purposes stated in the Corporation's articles of incorporation and bylaws pursuant to the Act by Resolution No. 20-1035. Section 6.2 of the Corporation's bylaws requires City Council approval by written resolution prior to entering into any agreement that would result in a property tax exemption. Per Section 7.3 of the Corporation's bylaws, any Public Facility related to multifamily residential development of the Corporation shall not proceed unless (1) the development of the Public Facility could not be feasible but for the Corporation's participation, and (2) the development of the Public Facility is in furtherance of the City of Dallas's Comprehensive Housing Policy (CHP), as amended.

Staff and the Corporation's Counsel and Financial Advisors have confirmed that this Project would not be feasible but for the Corporation's participation and that the Project furthers the goals of the CHP. Staff recommend approval of this item to allow this mixed-income housing development to move forward.

Consideration and Approval of the Sale of Land Transfer Program Lots to a Qualified Participating Developer

On Monday, February 27, 2023, the Housing and Homelessness Solutions (HHS) Committee will be briefed on the proposed sale of Land Transfer Program lots to a qualified participating developer.

Summary

The City of Dallas Land Transfer Program, which was established by City Council in 2019 and is administered by the Department of Housing & Neighborhood Revitalization (Housing), currently has an inventory of 24 lots that are offered for sale.

Lots in the Land Transfer Program are sold to eligible developers via an application process for the purpose of constructing affordable housing units and sale to income eligible homebuyers. Recently, staff received and reviewed an application from an eligible developer, Andrews Development & Holdings, LLC for the purchase of eight (8) Land Transfer Program lots. This memorandum provides an overview of the application submitted by Andrews Development & Holdings, LLC for HHS Committee consideration.

Background

On May 22, 2019, City Council adopted the Land Transfer Program by Resolution No. 19-0824, as amended, for the purpose of incentivizing: 1) the development of quality, sustainable housing that is affordable to the residents of the City, and 2) the development of other uses that complement the City's Comprehensive Housing Policy, Economic Development Policy, or redevelopment policy. Specifically, the Land Transfer Program authorizes the City to sell qualifying City-owned real property and resell tax-foreclosed real property to for-profit, non-profit and/or religious organizations, as applicable, in a direct sale at less than fair market value of the land, consistent with the authorizing state statute or City ordinance. The tax foreclosed lots are being sold pursuant to 34.051 of the Texas Property Tax Code.

In December 2022, an eligible developer, Andrews Development & Holdings, LLC submitted an application (proposal) to purchase a total of eight (8) Land Transfer Program lots. Housing staff evaluated the application pursuant to the standards set forth in the Land Transfer Program guidelines, which included determining whether the developer

Qualified Participating Developer

PAGE 2 of 5

met the eligibility standards to be deemed a "Qualified Participating Developer" and underwriting the proposal. The application was determined to be "complete" and was assigned a score. Housing staff collaborated with the Qualified Participating Developer regarding the terms of sale of the vacant lots as well as the terms related to the construction and subsequent sale of single-family housing units to income eligible homebuyers.

The Developer being considered for the sale of eight (8) lots is Andrews Development & Holdings, LLC, based in Dallas, Texas. The Developer is a limited liability corporation formed in Texas in 2020, is licensed with the City of Dallas as a General Contractor, and is Minority/Women Business Enterprise (M/WBE) certified. The company has three (3) years of home building experience. To date, the applicant has constructed and sold market rate homes and affordable housing in Dallas, specifically, the company has experience constructing and selling in southern Dallas to homebuyers in the income range as the Land Transfer Program. The applicant has a current line of credit to support this project 1.02 times. The Managing Partner of the company is Queenetra Andrews.

The proposal indicates the construction of eight (8) single-family units ranging from 1,366 square feet to 1,577 square feet with a minimum of three bedrooms and two baths. The price range of the proposed units will be \$204,000.00 - \$250,000.00 targeting homebuyers in an income range of 60% - 120% Area Median Income (AMI), of which five (5) units will be used to target homebuyers in an income range of 80% – 120% AMI and three (3) units will be used to target homebuyers in an income range of 60% - 80% AMI. The developer intends to market the City of Dallas Homebuyer Assistance Program to those homebuyers categorized in the 60% - 80% AMI range.

The development terms applicable to each lot are as follows:

- Vacant Lot Sales Price: Attached as Exhibit A.
- Single-Family Home Sales Price: The sales price of the home cannot exceed the current U.S. Department of Housing and Urban Development (HUD) HOME Investment Partnership Program (HOME) homeownership sales price for the Dallas, Texas HUD Metro Fair Market Rent (FMR) Area and must be affordable based on the income of the targeted homebuyer.
- Targeted Income of Homebuyer: Five (5) units will target homebuyers in an income range of 80% 120% AMI, and three (3) units will target homebuyers in an income range of 60% 80% AMI.
- Construction Timeframe: Developer must apply for a construction permit and close on any construction financing within 60 days of purchase from the City. In addition, Developer should complete construction and sale of each affordable

SUBJECT Consideration and Approval of the Sale of Land Transfer Program Lots to a

Qualified Participating Developer

PAGE 3 of 5

housing unit to an income eligible homebuyer within two (2) years of the date of acquisition of the vacant lot utilized for construction of the unit.

- Restrictive Covenants: Developer must: 1) sell each lot to an income eligible household and 2) prior to the sale, must provide to the Department of Housing & Neighborhood Revitalization staff written documentation of the income of the proposed purchaser and the sales price. After sale of the home, the property must be occupied as an income eligible household's principal residence during the entire term of the affordability period.
- Affordability Period: Once the property is sold to an income eligible household, it must be occupied as the household's principal place of residence for at least five (5) years. If the original purchaser re-sells the property during the affordability period, the property may only be sold to another income eligible household.
- Right of Reverter: Title to the property may revert to the City of Dallas if Developer has 1) failed to take possession of the land within 90 calendar days after receiving the deed to the parcels of real property; 2) failed to complete construction of all required housing units or other required development on the real property, or failed to ensure occupancy by eligible households within the development timeframe set forth in the development agreement; 3) incurred a lien on the property because of violations of City ordinances and failed to fully pay off the lien within 180 days of the City's recording of the lien; or 4) sold, conveyed, or transferred the land without the consent of the City.

<u>Issues</u>

The City incurs costs related to maintaining lots in its inventory. If the Committee does not approve forwarding the proposed development to City Council to consider for approval of the sale of the eight (8) vacant lots to the Qualified Participating Developer, the City will be required to continue expending funds to maintain the unsold inventory.

Fiscal Impact

The City of Dallas will receive revenue from the sale of the lots, see attached Exhibit A, in the amount of \$10,643.92. The sales price for each lot is a minimum of \$1,000.00 for lots up to 7,500 square feet and an additional \$0.133 per square foot for lots which exceed 7,500 square feet. Upon completion of the proposed eight (8) housing units the expected property tax revenue is expected to be approximately \$50,457.87 annually. In addition, Exhibit A details the Estimated Foregone Revenues from the release of non-tax City liens: \$79,314.87. The City of Dallas will also collect recording fees at closing to ensure property legal documents are properly recorded in the amount of \$1,200.00.
