Thoroughfares/Streets:

Thoroughfares/Street	Type	Existing ROW	Proposed ROW

Traffic:

The Engineering Division of the Transportation Development Services Division of the Transportation Department has reviewed the request and determined that it will not significantly impact the surrounding roadway system.

STAFF ANALYSIS:

Comprehensive Plan:

The *forwardDallas! Comprehensive Plan*, adopted by City Council in June 2006, outlines several goals and policies which can serve as a framework for assisting in evaluating the applicant's request. The request is consistent with the following goals and policies of the comprehensive plan:

URBAN DESIGN ELEMENT

Goal 5.1 Promote a sense of Place, Safety and Walkability

Policy 5.1.1 Promote pedestrian-friendly streetscapes

Goal 5.3 Establishing Walk-To Convenience

Policy 5.3.1 Encourage a balance of land uses within walking distance of each other

ECONOMIC ELEMENT

Goal 2.3 Build a Dynamic and Expanded Downtown

Policy 2.3.1 Restore Downtown Dallas as the economic and cultural heart of North Central Texas

Policy 2.3.3 Work with property owners and stakeholders to preserve and enhance the image of Downtown Dallas.

Surrounding Land Uses:

	Zoning	Land Use
Site	PD No. 269 (Tract A)	Vacant
North	PD No. 269 (Tract A)	Restaurant; Bar; Surface Parking
East	PD No. 269 (Tract A)	Vacant; GMFS
South	PD No. 269 (Tract A)	Restaurant; Microbrewery
West	PD No. 269 (Tract A)	Restaurant

Land Use Compatibility:

The request site is located in Deep Ellum, an area which provides for a healthy balance of housing, jobs, and shopping that permits residents to live, work, shop, and play in the same neighborhood. Wide sidewalks and pedestrian features offer alternative access options to this type of area, thus permitting foot and bike traffic to benefit from the mix of uses.

The request site consists of a one-story, 9,848-square-foot structure fronting on the north line of Main Street. The structure is divided into two uses, a personal service use (barber shop) and a bar mirroring the “speakeasy” concept. This concept was used during the prohibition years of the United States when the sale of alcohol was considered to be illegal. As a result of the prohibition in the early 1900’s, bars operated illegally in the rear portion of existing establishments, hidden from plain view. Today, this concept/building layout allows for different uses to be integrated along with a bar where space is limited. The front of the structure houses a barbershop. The rear of the building houses a bar, lounge, or tavern use.

This area is composed of an eclectic mix of retail stores, tattoos parlors, residential units, arts, and entertainment venues. Considered to be one of Dallas’ first commercial districts, Deep Ellum is within close proximity to two major highways, Fair Park, the Baylor Medical District, and Downtown.

The general provisions for a Specific Use Permit in Section 51A-4.219 of the Dallas Development Code specifically state: (1) The SUP provides a means for developing certain uses in a manner in which the specific use will be consistent with the character of the neighborhood; (2) Each SUP application must be evaluated as to its probable effect on the adjacent property and the community welfare and may be approved or denied as the findings indicate appropriate; (3) The city council shall not grant an SUP for a use except upon a finding that the use will: (A) complement or be compatible with the surrounding uses and community facilities; (B) contribute to, enhance, or promote the welfare of the area of request and adjacent properties; (C) not be detrimental to the public health, safety, or general welfare; and (D) conform in all other respects to all applicable zoning regulations and standards. The regulations in this chapter have been established in accordance with a comprehensive plan for the purpose of promoting the health, safety, morals, and general welfare of the city.

The use is surrounded by other retail uses, bars, restaurants and various surface parking lots. There are medium density residential uses to the far west/northwest and close proximity to the DART Green Line to the north as well. Overall, the applicant is one of the original operators from the last SUP for the same concept; however, the last partnership was dissolved, and a new entity is now listed. The site and operations will fall under the same conditions and plan as before. As a result of this analysis, staff has determined the request complies with the general provisions for consideration of approval of the SUP because the request is consistent with the character of the neighborhood and does not pose a negative impact.

Parking:

Parking must be provided in accordance to Planned Development District No. 269, Tract A. No parking changes are being proposed with this request.

Landscaping:

The landscaping requirements of Article X of the Dallas Development Code apply, as amended.

Market Value Analysis:

[Market Value Analysis \(MVA\)](#), is a tool to aid residents and policy-makers in understanding the elements of their local residential real estate markets. It is an objective, data-driven tool built on local administrative data and validated with local experts. The analysis was prepared for the City of Dallas by The Reinvestment Fund. Public officials and private actors can use the MVA to more precisely target intervention strategies in weak markets and support sustainable growth in stronger markets. The MVA identifies nine market types (A through I) on a spectrum of residential market strength or weakness. As illustrated in the attached MVA map, the colors range from purple representing the strongest markets to orange, representing the weakest markets. The site is not within an identifiable MVA category, nor is it adjacent to other MVA categories. The staff expanded map identifies the property in a potential “E” MVA category.
